Microsoft ruled a monopoly

Experts: Judge's harsh wording may hasten settlement talk

NEW YORK—In the extreme case, the judge who disclosed Microsoft a monopoly would send the Moster breakup into smaller compa-

But there are those who say U.S. District Judge Thomas Penfield Jackson already has taken major steps—perhaps enough to help Microsoft get Friday's deadline, Jan. 26.

"This language is a strong and may be subject to interpretation upon appeal," said Art Russell, an analyst and Edward Jones & Co. equity investment firm. "This particular judge has been known to stick his neck out. But Russell and other observers also say Jackbrush's blunt language— that Microsoft hurt consumers by stifling competition in the personal computer industry—may also convince the competitive merger to seek a new course in the near future.

"The judge is telling Microsoft, 1 believe this is the biggest of the power and my rulings are going to reflect that fact," said Carl Mangan analyst at Forrester Research in Massachusetts. "That's true, but there's been a real possibility to settle this if it had not been the case.

While less expected victory for Microsoft in Friday's ruling, the singe tone of the decision startled many observers.

"I was really surprised," said Bob Delahaye, chairman and chief executive of Lyric, the Web network and search ser-

Microsoft's stock plunged about 3 points in the ruling was released. The stock finished the regular trading day on the Nasdaq Stock Market at $19.91 a share, $18 in after-hours trading on other markets.

OSU women students among nationwide prank call victims

CORNWALL, Ore. — A dozen women students at Oregon State University have received sexually explicit phone calls that authorities believe are part of one man’s nationwide harassment campaign.

FBI agents have joined local police to investigate the calls, which last week hit dozens of university towns across the country.

Police say they are close to arresting the caller who targets osu students and tries to scare them into staying on the phone with him.

They have evidence that he is a resident of Middletown, New York, located on New York’s southern border near New Jersey and Pennsylvania. But they don’t know if he intends to follow through on

his threats.

The caller is young-sounding, and calls the women by their first names, and asks them details of their lives. He begins the conversa-

tion by speaking nicely, but he

suddenly turns nasty quickly when he

thinks he’s got them and says he will hang up if they don’t stay on the phone.

All of the cornwall victims live

on campus. Burgess police dealing with similar calls to university of oregon students believe the caller gets names and numbers of stu-

dents from directories on the internet.

One cornwall victim who

received a call said she was so

frightened the caller was in her

garage that she jumped in her

carport and drove from a second-story window and broke her ankles. Some callers have simply hung up. Others have promised $7 to

receive the call, and given police information.

Police encourage anyone who

has a call to hang up, press 57, and then call the police with infor-

mation.

University’s natural resources program expands next fall

MOSCOW — University of Idaho officials plan to offer the school’s master of natural resources program to students at a Mexican university next fall.

The university’s College of Forestry, Wildlife and Range Sciences currently is teaching a part of natural resources courses in Washington, D.C., through the U.S. Department of Agriculture Graduate School and is consider-

ing opportunities to offer the entire program there.

In Mexico, the University of Idaho and the Universidad Autonoma de Guadalajara will join together to teach the master of natural resources program. Roughly 20 students are expected to enroll in the program next fall, said Alan Campbell, the associate dean at the College of Forestry, Wildlife and Range Sciences.

many of these students will

come from government entities in Central and South American countries who make policy deci-

sions regarding issues that impact nature, range, fish, wildlife, parks and recreation.

School bus driver suspended for littering

MEMPHIS, Tenn. — A school bus driver was suspended without pay for littering YMCA workers and others said the bus driver would eat at the same spot and sweep up the trash from the bus about the same time each morning after dropping students at an elementary school.

The man, whose name was not released, works for Lollar Transit, a private bus company that hauls Memphis City Schools stu-

dents.

**Surviving The Weekend**

**River Huston**

There will be more of me River was raped, beaten and left for dead at a time of the partying with alcohol...

River, briefly, personal narrative of surviving her own problems with alcohol.

River’s story of how she reacquired the self-esteem and made critical decisions结

of her life which will help her

reach her goals.

This book is not about addiction or alcoholism. It is not about soberness. It is about learning to live in a world that forces us to make decisions about the use of alcohol.

Based on River Huston’s success in leaving a drinking lifestyle, this book offers a

step-by-step program to help you improve your relationship with alcohol.

**Goals**

• Avoid excessive or risky behavior.

• Avoid alcohol or drugs.

• Avoid driving drunk or while under the influence.

• Enhance your understanding of how drugs and alcohol affect sexual decisions.

Surviving The Weekend: A Christian Exploration

River Huston is a survivor of alcoholism and physical abuse, and a member of the 3rd Annual College Bowl Tournament.

Microsoft: monopoly or misunderstanding

By Matt McCoy
University of Wisconsin at Milwaukee

Over the weekend I tracked one of the biggest computer companies in the world, Microsoft, and discovered that Microsoft has been declared a monopoly by the US government.

Being a poor college student, I read as much of the article as I could while the paper was still in the machine. Then after waiting for someone else to buy a paper, at which point I could acquire my own, I got up and went home to get the whole story for free on the Internet. Luckily, Microsoft had integrated so many programs and forms of media that it was only 60 seconds before a video on my TV and my PC. The reports on the court ruling were displaying my name in a fancy font and I started thinking about why people would hate this, because I thought I was doing something right.

It is easy to understand why people would hate Microsoft, especially people in the software industry. Microsoft’s operating system dominates every department of software, but the company is only guaranteed that their software will become more popular. One reason is that Microsoft has over 30,000 very capable people to develop their software, and even if those 30,000 people do not make the best software, they will still have much better advertising and distribution than any other company. These two simple facts have allowed Microsoft to dominate many areas of the software business. Of course there is one other factor, but in my opinion the complexity of the popularity of the Microsoft operating system.

EVERYONE makes software for Microsoft, because it is easier. Big companies have made it easier for them to make software, and even Apple has made it possible for them to make software, and even Gnome has made it possible for them to make software. Even with this, it becomes easy to see why someone would hate a large, successful, and virtually unstoppable software company.

Microsoft really makes software. There is something very wrong with this picture. Certainly, they are very large, but so is Apple. There are many very capable business people that do not have the same success. These two simple facts have allowed Microsoft to dominate many areas of the software business. Of course there is one other factor, but in my opinion the complexity of the popularity of the Microsoft operating system.

• Volleyball vs. Montana State, Memorial Gym, 7 p.m.

Meeting Date: November 15

Sports in Brief

Idaho's return sparks Vandals to win against 'pack

Just when it appeared that the Idaho Vandal offense had stalled when it went to gain the second lead in the game, John Billinger stepped up with a three-point shot at the 3:50 mark to give the Vandals the lead. The three-pointer gave Idaho a 78-73 lead. The Vandals continued to play well and eventually went on to win the game, 86-79.

Basketball season on the horizon

The University of Idaho Vandals are currently in the early stages of their basketball season. The Vandals have been practicing since late October and are looking forward to their first game against the Idaho State Bengals on December 1.

Vandals of new defeat Olds in old edition in match

Butler University at All-American All-Night, 5-16 (Saturday, the University of Idaho basketball team defeated Olds State 68-66 at Memorial Gym.

Nick Sandal III, Vandal head coach, said the team played well and came out on top despite some early struggles.

Senior guard Woff (Andrew, Kan., a second-team All-CIAA West selection last year) had 12 points for the Vandals.

The Vandals' season opener is on the road against Montana November 19.

Wealthy Idaho may lose streak reaches five

The Vandals have won five straight games, including a 75-66 win over Idaho State on Wednesday. The Vandals have shown excellent defense in their recent victories, holding opponents to an average of 64.8 points per game.

The Vandals' defense has been particularly strong in the second half, allowing only 35.8 points per game.

Idaho closer wins award with plenty of votes

The Idaho women's basketball team is expected to finish second in the Big West Eastern Division this year, according to predictions in the coaches' poll. The Vandals were selected as the second-best team in the division, behind the University of California at Los Angeles.

The Vandals are coming off a successful season, in which they won 21 games and made it to the NCAA Tournament.

Williamson wins NL rookie of the year

Cincinnati closer William Supervised pitching in the NL with 24 saves and 121 strikeouts. He was also named the NL Rookie of the Year.

Supervision pitching in the NL with 24 saves and 121 strikeouts. He was also named the NL Rookie of the Year.

Williamson made 14 appearances with 14 saves, striking out 30 batters in 16 1/3 innings. He allowed only five hits, four walks and 13 strikeouts in 16 1/3 innings.

Williamson has been a standout for the Reds since his debut in 2018. He has a 1.83 ERA in 65 games and 91 appearances.

In his final season at Texas A&M, Williamson was named the Southeastern Conference Pitcher of the Year and was selected in the first round of the 2018 MLB draft by the Reds.

In 2019, Williamson pitched for the Reds' Triple-A affiliate, the Louisville Bats, and compiled a 2.75 ERA in 66 games and 35 appearances. He also saved 17 games and struck out 113 batters in 64 1/3 innings.

Williamson has been a consistent performer for the Reds over the past three seasons. He has a career record of 13-3 with a 3.13 ERA in 126 appearances, striking out 241 batters while walking 67.

In 2020, Williamson pitched for the Reds, compiling a 2.43 ERA in 21 appearances. He saved 10 games and struck out 34 batters in 20 1/3 innings.

In 2021, Williamson pitched for the Reds, compiling a 3.00 ERA in 31 appearances. He saved one game and struck out 30 batters in 26 2/3 innings.

In 2022, Williamson pitched for the Reds, compiling a 2.89 ERA in 35 appearances. He saved 11 games and struck out 64 batters in 32 2/3 innings.

In 2023, Williamson pitched for the Reds, compiling a 3.00 ERA in 40 appearances. He saved 12 games and struck out 78 batters in 37 1/3 innings.

In 2024, Williamson pitched for the Reds, compiling a 3.13 ERA in 35 appearances. He saved 11 games and struck out 72 batters in 35 innings.

In 2025, Williamson pitched for the Reds, compiling a 3.25 ERA in 30 appearances. He saved 10 games and struck out 68 batters in 29 1/3 innings.

In 2026, Williamson pitched for the Reds, compiling a 3.38 ERA in 35 appearances. He saved 12 games and struck out 78 batters in 35 innings.

In 2027, Williamson pitched for the Reds, compiling a 3.50 ERA in 30 appearances. He saved 11 games and struck out 75 batters in 30 innings.

In 2028, Williamson pitched for the Reds, compiling a 3.62 ERA in 35 appearances. He saved 12 games and struck out 82 batters in 35 innings.

In 2029, Williamson pitched for the Reds, compiling a 3.75 ERA in 30 appearances. He saved 10 games and struck out 74 batters in 30 innings.

In 2030, Williamson pitched for the Reds, compiling a 3.90 ERA in 35 appearances. He saved 12 games and struck out 83 batters in 35 innings.

In 2031, Williamson pitched for the Reds, compiling a 4.05 ERA in 30 appearances. He saved 11 games and struck out 78 batters in 30 innings.

In 2032, Williamson pitched for the Reds, compiling a 4.20 ERA in 35 appearances. He saved 12 games and struck out 84 batters in 35 innings.

In 2033, Williamson pitched for the Reds, compiling a 4.35 ERA in 30 appearances. He saved 11 games and struck out 76 batters in 30 innings.

In 2034, Williamson pitched for the Reds, compiling a 4.50 ERA in 35 appearances. He saved 12 games and struck out 85 batters in 35 innings.

In 2035, Williamson pitched for the Reds, compiling a 4.65 ERA in 30 appearances. He saved 11 games and struck out 77 batters in 30 innings.
Agassi takes Paris Open title

PARIS — Andre Agassi showed the gulf between the man who wears the crown and a young pretender on Sunday, squashng Russian Marat Safin in four sets in the final of the $2.5 million Paris Open.

Agassi won 7-6(7-1), 6-2, 4-6, 6-4 to lift the last Safin event in a year that he has dominated with some glowing performances. The American's win gives him his 14th career title, tying him with Pete Sampras and John McEnroe for career title overall. Paris last Safin trophy came in 1995 when he was three years ago, but since then Agassi has moved on a much higher plane.

Agassi, cheered on by girlfriend Steffi Graf, has now logged five titles this year to take his yearly earn-ings beyond the $3 million mark.

Not content with garnering the year-end top spot in the rankings for the first time in his career - having accomplished it 14 years ago - Agassi further became the first player to win both Roland Garros and the Paris Open in the same year.

He was already the only man to win both events, having first lifted the title here in 1994.

You just like to say I will never forget the time I spent in Paris in 1994,” said Agassi. “Paris in 1999 has changed my life, and I'll never forget it. When I play here, I feel like I'm playing at home.”

Askiy who had led two recent events slip through his fingers when his form was so good, Agassi grinned and said “Beauties can be human.”

He said he would lift the title following the French Open, but expressed that there would be no skipping in his quest for self-improve-ment.

“In the future, I don’t want to lose sight of the fact that we have a 52-week sched-ule. I mean, you've got to be the best in the world every week. I want to get better.”

The 29-year-old Las Vegas native has enjoyed a sparkling year, French Open triumph last June lifting him to his fifth title and quarter finals of all four Grand Slams on different surfaces. He followed up with the U.S. and open for good measure was a final at Wembley, where he was beaten by Sampras.

Agassi, who benefited from the early departure through injury of both Sampras and defending cham-pion Greg Rusedski of Britain, shrugged off a strained right foot to wrap up the championship with an uncharacteristic serve.

VOLLEYBALL

Continued from A1

the direction of the visitors, as Idaho pulled off a 15-10 win in the third set. The fourth and fifth sets would be Wolf Pack victories, how-ever, as Nevada regrouped their first game success with a 15-3 doubling in the fourth and then secured the match with a 15-7 victory in deciding fifth set.

Shaking off two-games against the Vandals with 16 kills and 11 digs,lynch will no doubt want to see any athlete forced her to miss Idaho's three-set loss to Utah State on Thursday. Without Lynch, the Vandals offense sputtered and the Aggies took full advantage, running out a 15-9 win in the first game and then stealing a 5-9 deficit in the second to win 15-11. Utah State then pulled off the vic- tory with a 15-3 triumph.

Idaho will be home this weekend for a Thursday showdown versus North Texas followed by the final reg-ular season game of the year, Saturday's match with New Mexico State. Both contests will be at 7 p.m. in Memorial Gym.

Agassi makes Paris Open triumph.
Concert Preview

Natty Nation (shown) played tomorrow night at Beasley.

R.B. Brandvold
Presidential Candidate
Sophomore
Major: Finance
Age: 19
hometown: Coeur d'Alene

Student involvement has always been a big item to me. I believe that to fully enjoy your experience at a university, you have to be involved with the activities and programs that are offered. I hope to improve student awareness of the issues that are important to us. We have an incredible diverse campus when we look at the different walks of life we all come from. As a non-traditional student, I would like to expand awareness and involvement to all of the major components of this unique university society. We have an enormous amount of students that live on campus in Greek housing, in the dorms, or in married student housing. With so many facilities for students here on campus, those that live off-campus are often forgotten. I would like to see that all students, whether they live on or off campus, are aware of and actively involved in the programs that are provided to us.

Scott Infanger
Presidential Candidate
Freshman
Major: English
Age: 24
hometown: Idaho Falls

Buck Samuel
Vice-Presidential Candidate
Junior
Major: Microbiology, Molecular Biology, Biochemistry
Age: 20
hometown: Priest Lake

My roots are in Idaho: the University, the community, and its people. For this reason, I continually try to give back to the community, the University, and to you, the students. While ASUI Activities Board Chair, the Board developed the student organization webpage tours.uidaho.edu and organized directory to help boost student involvement. As an ASUI Senator, I established Community Relations Board to increase our involvement and interaction with the Moscow community. Additionally, I continue to look out for student concerns in the development of the new core curriculum (Gen. Edics), Task Force and appropriation of student fees (Budget Liaison Comm.). As ASUI Vice President, I will use my experience to serve you. I will work further toward student representation on City standing committees, as you are members of Moscow too. I will ensure that the $30,000 million to be raised from "Campaign for Idaho" is in student concerns. Also, I wish to address avenues for improving off-campus representation. I am here for you. Please feel free to contact me at scottInfanger@hotmail.com.
Brandon Betty

Betty
Senior Candidate
Freshman
Major:
Public Relations
International Studies
Age:
18 years old
Hometown:
Boise

To the students of the University of Idaho, please let me introduce myself. My name is Brandon Betty, and I am more than excited to announce that I am running for the position of ASU Senator. I am a Blackfoot, a mid-sized tribe in south eastern Idaho. I am currently a freshman in the College of Letters and Science, and have a double major in International Studies and Public Relations. I feel that I have many strong qualities that have helped me accomplish many leadership positions. A few of these include being elected Attorney General at Boise State, being elected the Student Body President of the Associated Student Body, and being the number two delegate from Idaho to the National High School Student Congress. My most recent role of leadership has been here at UI as one of two undergraduate members on the University Legislative Council. I wish to hold the position of ASU Senator for one major reason. I want EVERY student on this campus to feel that they can come to me with any problem they have because I have the inclination and dedication to help them.

Romney Hogaboam

Romney Hogaboam
Senior Candidate
Freshman
Major:
Electrical Engineering
Age:

Hometown:
Lehi

My name is Romney Hogaboam, and I am currently a freshman attending the University of Idaho. I am an Idahoan, I was born and raised in the state of Idaho. I have grown up in a military family where my father’s duty has taken us to many places and exposed me to people from various backgrounds and perspectives. I am excited to bring all of my cultural and multicultural background to the student body.

Hometown:
Lewiston

There are many political science students here at the University of Idaho. I have always been interested in interpersonal activities, especially student government because I greatly enjoy politics. Therefore, I am about to be a B.S. in political science. In the past, I have led the debate team at my school where I received a 2011 national championship. I am currently an active member of the Idaho Senate and a member of the Idaho Legislature. I have also been a member of the Idaho Law Team since 2011. I have been working for the Idaho Senate for over six years. I am currently a senior and I am excited to continue my work for the Idaho Senate. I am currently a member of the Idaho Senate and I am excited to continue my work for the Idaho Senate.

Boise

I am currently a sophomore and a business administration marketing major. I am very excited to be a member of the ASUI Senate. I have been very active in the campus community and I feel that I would be a great addition to the ASUI Senate. I have been a member of the ASUI Senate for two years and I have enjoyed being a member of the ASUI Senate. I have been very active in the campus community and I feel that I would be a great addition to the ASUI Senate. I have been a member of the ASUI Senate for two years and I have enjoyed being a member of the ASUI Senate.
Hello, my name is Lisa Bell and I am running for ASUI Senate. As a leader on campus, I am excited about becoming extremely involved. I have noticed many issues that need to be addressed. These issues include, but are not limited to: creating greater safety for all students, improved communication between the ASUI office and the student body through an electronic newsletter, and working towards recruiting students to the University of Idaho through ASUI sponsored events. I have been very involved in student organization areas including ASUI and the Student Program Board. I have noticed that students have many problems that are not being addressed, and I will not hesitate to do something about them. I am one of the National Ambassadors for Boys' & Girls' Clubs of America representing 3,000,000 people. I have already become involved in many student activities. I am also a member of the Alpha Phi sorority and the University of Idaho Honors Program, pursuing a double major in Public Relations and English with a pre-professional emphasis.

Hello. I hail from a small farm town in Southeastern Idaho named Rexburg. In the past I have worked as an Assistant Manager at one of those little irritating jobs that paid $5.15 an hour! (those even the management worked long days, long weeks, months, and even years to push myself out of a little farm town into a reasonably respectable position). However, I am now exploring life, learning new things, and experiencing my youth to the fullest. I finally get here and there to love my independent university. All those little dreams have come true.

Throughout high school and college careers I have experienced various leadership roles. During my time at UI, I have become active in several different areas on campus. I am a member of Gamma Phi Beta sorority. I participated in the DNA & Rule modeling that the University took part in last week. I worked to be a rewarding and beneficial input to the community. I also began attending the ASUI Safety Board meetings and am excited to begin assisting them in the vital improvements they bring to the community. After attending the last ASUI Senate meeting and reviewing the minutes I am very excited to continue working on the improvements that ASUI are bringing to the students. I am very invroned in increasing the communication between students and ASUI so that all student voices and concerns are heard. This includes off-campus students. I hope to find ways to increase their involvement and input within the school.

I feel that it is vital that all the students attending the UI are integrated and work together to improve the school and take it to a level above all others. We have demonstrated so much spirit as illustrated by achieving our game attendance record. We need to keep it up!

Shauna McGuire
Faculty Council Representative
Sophomore
Major: Biocytology Engineering
Age: 20 years old
Hometown: Lewiston

Leadership Experience: McCay Hall treasurer 1998-99 school year. President of a volunteer club for two years. I believe that I would be a good faculty representative because I strive to meet high academic standards for myself and I want students to be represented in their academics for the same reason. Students need to have their voices heard when it comes to changing curriculum that could affect their future academics.

As a junior, I have had great opportunity to not only gain leadership experience and observe the workings of the ASUL, but to become familiar with many important issues facing students. As Faculty Council Representative, I will strive to give the students an active voice. This voice, the student voice, needs to be heard on issues like the proposed major Core Curriculum changes and the new "Campus Pipeline" web interface, and expenditure of the growing Campaign for Idaho funds. I also believe that students need to be given more representation on University-level Standing Committees: Academic, Housing, Board, and Teaching Enhancement Committees, for example, both full student representation. I am respectful of others' opinions, willing to listen, and will try to fight for student concerns. These qualities, along with my familiarity with current issues, sincere dedication, leadership experience, and involvement all combine to make me an excellent Faculty Council Representative candidate. I ask for the opportunity to work for you.

The Argonaut News Section is looking for facts, not fiction. -Self-motivators wanted. Slackers need not apply.
