Delays occur as highway resurfacing begins

BY JENNIFER HATHAWAY

Construction on the Moscow-Pullman Highway is causing delays for motorists during rush hour. The construction began this week and is expected to last until October.

Pall calls for increase in student financial aid

BY JODIE BALE

Linda Pall, the democratic candidate for Congress from Idaho's first congressional district, said she wants to see an increase in federal financial aid available to students.

Pall held a press conference in front of the Idaho State University's Student Union on Thursday. Pall spoke at length about her financial aid proposal, which she said will help Idaho's students.

"Students know that they can't afford higher education," Pall said. "It is one of the most important aspects of their lives."

There are several different opportunities for aid to be increased, she said. "All grants, which are the most basic form of aid, are going to go up," Pall said. "The amount of money students are eligible for is going to go up, as well." Pall said she feels particularly close to the financial aid issue as a teacher. "As a teacher, I teach in a low income area and I see the struggle my students face on a daily basis," she said.

Pall also discussed her plan to increase financial aid for students who are working while attending school. "I want to see more federal aid available to students who are working," she said. "I believe in making higher education more accessible to everyone." Pall said she plans to work with Congress to increase financial aid for students who are working while attending school.

Pall also discussed her plan to increase financial aid for students who are attending school part-time. "I want to see more financial aid available to students who are attending school part-time," she said. "I believe in making higher education more accessible to everyone." Pall said she plans to work with Congress to increase financial aid for students who are attending school part-time.

Pall also discussed her plan to increase financial aid for students who are attending school full-time. "I want to see more financial aid available to students who are attending school full-time," she said. "I believe in making higher education more accessible to everyone." Pall said she plans to work with Congress to increase financial aid for students who are attending school full-time.

Pall also discussed her plan to increase financial aid for students who are attending school part-time and full-time. "I want to see more financial aid available to students who are attending school part-time and full-time," she said. "I believe in making higher education more accessible to everyone." Pall said she plans to work with Congress to increase financial aid for students who are attending school part-time and full-time.

Future Truck team looks forward to June

BY ANNETTE HENKE

The University of Idaho's FutureTruck team has been picked on their next competition in June of 2003, despite a disappointing finish at its first competition this spring.

The team competed in the regional contest in June 2000 in Ann Arbor, Mich. A blown radiator hose during competitions forced the team to miss the first five events and placed them 12th overall out of the 15 teams competing.

There was one major difference between the UI truck and the others, said Jakob Ristvet, the team's lead engineer.

"The others at the competitions were not yet able to move, and this year the new UI-team will continue to improve their design," Ristvet said.

The team competed against Ivy Tech, Georgia Tech, Concordia University, Virginia Tech and the University of Idaho at Tech Inc. to upgrade the efficiency and reduce the emissions of a standard Chevrolet Suburban, while maintaining the current level of protection, utility and performance.

The team is a member of the Mechanical Engineering Department's academic faculty at the National Institute for Advanced Transportation Technology (NIATT).

"Our goal is to get 40 miles per gallon on the highway and city roads," he said.

The team gave the top 12 engineering schools in the nation the Suburbans for this competition. The goal is to convert the vehicle to electric propulsion.

The Hillsboro High School Electric Drive Team, which won the 13-member team from the UI converted the standard Suburban engine. Suburbans and other sport utility vehicles are known for poor gas mileage and low efficiency.

The vehicle is a 150-volt electric with a 1.9-liter Volkswagen TDI engine to power the alternator.

This year the school will have an entirely new team working on the Suburban. The team was sponsored primarily by Di and Mary Schweitzer, owners of Schweitzer Engineering Laboratories in Pullman, Wash. Approximately $10,000 worth of labor and a donation have been used by the team, Ristvet said.

The team is sponsored by the U.S. Department of Energy.

"It is possible that the vehicle will enter the 12th race, or be selected by the Mechanical Engineering Department," Ristvet said.

This is the first time the UI team has competed in the event. This year, many universities from the U.S. and several nations have competed. The12 teams are similar to those of the FutureTruck's competition.

The team has recently modified a Chevrolet Cobalt.

"The exhaust system (long white wiggles) and battery boxes along the sides are functional components of the Future Truck," Ristvet said.
SUB not reconstituted for students

The Student Union Building is lacking—good, pristine and institutional, a definite means to an end. The Student Union Building is a place where students can sit and have their meals, listen to music, study, talk, and socialize. The Student Union Building is a place where students can engage in activities and events, participate in clubs and organizations, and connect with their peers. The Student Union Building is a place where students can express themselves and their ideas, and where they can learn and grow.

The Student Union Building is a place where students can have access to resources and services, such as the Student Union Office, the Student Union Board, and the Student Union Council. The Student Union Building is a place where students can have a voice and can influence the decisions that affect their lives. The Student Union Building is a place where students can have fun and enjoy themselves, and where they can have meaningful and rewarding experiences.

The Student Union Building is a place where students can have a sense of community and belonging, and where they can feel supported and valued. The Student Union Building is a place where students can have a sense of purpose and direction, and where they can feel empowered and motivated.

The Student Union Building is a place where students can have a sense of identity and self-worth, and where they can feel proud and confident. The Student Union Building is a place where students can have a sense of achievement and success, and where they can feel proud and accomplished.

The Student Union Building is a place where students can have a sense of legacy and tradition, and where they can feel connected and united. The Student Union Building is a place where students can have a sense of future and hope, and where they can feel optimistic and hopeful.

Therefore, we call on the administration to reconstitute the Student Union Building to ensure that it meets the needs and expectations of the students. We encourage the administration to listen to the students' voices and to work with them to create a Student Union Building that is truly a place for students.
Napster case has it all: Greed, theft and the sound of music ... for free

I'd like to teach the world to sing. Heck, I'd even like it to be in perfect harmony. So, it seems. would Napster. But just what kind of Harmonies are we talking about here? Merry for stealing and ripe for-apple.

The free Internet-based technology (www.napster.com) allows users to exchange and download gigs about any kind of music, for free.

So Napster's users and music enthusiasts around the world, this is the perfect situation for millions of users, albeit instantaneously song swapping and no hefty CD bills. You can find almost any music you want and put it on your hard drive, and you can share your music with anyone else who has the software. This is great and good for the music industry—but incidentally, it's also illegal. And if you think it's not—it's much more likely to be true. Casso announced Tuesday that a three-judge panel would hear arguments in the Napster case the first week of October in San Francisco. The court is ruled in favor of Napster much to the dismay of the music industry. Napster technology shut down for copyright infringement. A federal judge stopped Napster with a stay-down order in July, but the court of appeals temporarily reversed his decision. Meanwhile, the music stealing continues, and copyright law in America suffers, the biggest blow ever.

Make it the conviction that makes breaking the laws right. It's not as taking. A fraction from the song, it is right. Nonetheless, the majority of users Napster are still uploading and downloading and even more than people. Napster can continue to upload CD's even if they are readily available in record stores. Copyrighted music is not easy or simply fixed. It's much less simple and straightforward. Stealing songs on Napster is still legal. Many songs are even more complex than you might see. There's a probability of being caught and selling on all kinds of internet. This "blind" stealing is much easier, and much more commonplace. Users of Napster can put at their disposal some notes that make easy for music. They have been licensed by law enforcement (even in their parent's house) as they've proceeded to pick CD after CD onto their computer. Though it's not quite an obstacle of playing those CDs into a cost pocket or bag not walking out of a store.

Eight reasons there is no excuse to say,
'There is nothing to do in Moscow'

The Moscow Theatre is showing "Broadway Top Ten" tonight, but the movie is about great love and not groups of young people who want to "make a difference." The band UFO will perform at the Rainmaker Saturday at 9 p.m.
The band will be part of the Aragonaunt Summer Show Sept. 8, and for more information contact Aragonaunt.

The UA ScotiArt Gallery, 415 S. 1st, downtown, is currently exhibiting "M IC: A Collection That Signed" until Sept. 8 at 5:15 p.m.

There will be an open house at the Montana Forensic Center in the North Theatre at 5:15 p.m. this Thursday.
The movie is a 1982 BBC television series called "The Case of the 500-Year-Old" that is part of the "One in the Culture." Lane Oates, a Professor of English, will talk about his new book of short stories called "The Reading of Mr. John." The reading is free and open to the Law Library.

Hot summer performance
Idaho Repertory Theatre revives The Rainmaker

BY ANDY TUSCROFF
ARAGONAUN SUMMER SHOW

Idaho Repertory Theatre will present "The Rainmaker" a 1954 season that marked the expectations of many. The group of actors kept the Hartford Theatre Company active for years after its death in 1956 with "The Rainmaker," written by N. Richard Nash, who also wrote the play "The Price." The most successful season of Idaho Repertory Theatre's 47-year history.

The Rainmaker opened July 8th, 1954 at the Star Theatre in New Orleans. It is based on the novel by N. Richard Nash, which was published in 1953. The novel tells the story of a group of people who are trying to make a better life for themselves in the small town of Willing. The play follows the journey of a man named Merrick who is trying to make a better life for himself in the town. The play is set in the late 1930s and early 1940s.

The play is set in the summer months and features a mix of modern and traditional music. The play's setting is a small town in the southwest United States, where the characters are trying to make a better life for themselves. The play is written by N. Richard Nash, who also wrote the play "The Price." The play's opening night was on July 8th, 1954. The play was directed by Gordon Davidson, who also directed "The Price." The play's opening night was a huge success and it ran for 120 performances. The play was nominated for several awards and it won the Tony Award for Best Play.

Defending the Governor's Cup

Women hope to reclaim title in Pocatello

BY DEREI CAIN

The Lady Vandals soccer team travels to Idaho State this weekend to compete in the Governor's Cup. The Vandals are coming off their biggest win of the season, a 1-0 victory over Oregon State, on Sept. 19 and weekend, in Pocatello, Idaho. The Governor's Cup is in its third year. In 1998, Idaho claimed the first ever Governor's Cup, defeating Idaho State University and Western Washington University in Boise for the championship. Idaho and ISU tied, 1-1, in 1999, for the overall championship of the tournament. The goal for the Vandals this year is to claim the Governor's Cup for the second time in three years.

The Governor's Cup is sponsored by the Idaho Department of Administration in recognition of the Governor's Cup soccer tournament. The tournament is in its third year. In 1998, Idaho claimed the first ever Governor's Cup, defeating Idaho State University and Western Washington University in Boise for the championship. Idaho and ISU tied, 1-1, in 1999, for the overall championship of the tournament. The goal for the Vandals this year is to claim the Governor's Cup for the second time in three years.

Idaho and ISU tied, 1-1, in 1999, for the overall championship of the tournament. The goal for the Vandals this year is to claim the Governor's Cup for the second time in three years.

The Vandals have won the last two Governor's Cups and are looking to make it three in a row. The team has already collected wins over Oregon and Oregon State this season and is looking to build on their momentum.

The Governor's Cup will be held at the ISU Soccer Stadium in Pocatello on Sept. 26 and 27. The Vandals will face Idaho State University on Sept. 26, with the winner advancing to the championship game on Sept. 27. The game will be held at the ISU Soccer Stadium in Pocatello on Sept. 26 and 27. The Vandals will face Idaho State University on Sept. 26, with the winner advancing to the championship game on Sept. 27. The game will be held at the ISU Soccer Stadium.
UI vs. UW

**Fast Facts**

- UI coach Tom Cabr's first career head coach at a college
- UI has never beaten UW at home.
- Has 36 players from the state of Washington, including Cabr
- UW Anthony Durrell will miss this game due to a broken hand.
- USU hosting the 90th game in 2020.
- UW seniors RB Khari Roberson
- IU returned to the Big West conference in 1999.

Despite opening defeats, UI expects positive results.

**BY DESI CAIRN**

The University of Idaho women's soccer team lost 0-1 to Oregon State University in Corvallis Thursday. Idaho's overall record is now 3-0.

Head Coach Larry Foster was named to the season's best list at Idaho. Assistant Coach Bruce Jones named and his team's overall effort and aggressive play where the goal. He was especially impressed with winger junior Kayla Millard.

"Teresa Moore is a very good defensive player," Foster said. "We didn't score a goal, but we played the best game an Idaho team has played in a long time." Foster said.

The team plays again Saturday against Weber State.

LAEHNA, Hawaii—Get used to the idea, Shaq's team doesn't have size. No Shaqnelle O'Neal, no Kobe Bryant, no Tim Duncan, no Hakeem.

O'Neal had two gold medals enough to give you a chance. Bryant? Bryant was more focused as a wedding ring than the Olympic stage. Duncan and Hill are getting off the Olympics stage.

The U.S. team that opened its journey in Sydney on Saturday and will play its final exhibition Tuesday against Canada in Honolulu is a little different from the 1992 and 1996 teams.

"Now we're fighting over the looks of things, morerength," said O'Neal.

It is also, naturally, supposed to win the gold, though this team might prove less dominant than the '92 boys, which went 8-0, or the '96 team, which won the tournament and finished 7-0 against Stanford.

O'Neal finished 2nd in the Pac-10 conference in 1999.

The team has a 7-0-1 record and is currently ranked 7-0 by ESPN, 10-1 in the AP, and 43.8 overall.

The true test, however, will come against Vince Carter's team, who are not only on the court, but also in the stands.

Any given night, result the same for Sampras at Open

NEW YORK--Once, Joe Lenz and David Lelong-White dreamed of playing in the King of the Court 20th Annual Tennis Championship. They've been there. Pete Sampras, the world's No. 3 singles player, is there Wednesday night in the second round of the U.S. Open.

Sampras, a four-time U.S. Open champ, is 16-0 in the eight-time Wimbledon title holder, has never lost.

Gimelstob, who was 16-0 after his dominant victory over no. 1-ranked Sampras at the U.S. Open, was 6-4, 7-6, 6-3, 6-2, 7-6.

"I just played a very good match," Gimelstob said. "I was very, very close to even scoring. I mean, he was just playing tennis, he was just playing tennis."

I thought I was in it," Sampras said. "I was just playing good. I mean, it was a great match."

"What a great match," Gimelstob added. "It was a great match."

Sampras, on the other hand, was 6-0, 7-6, 6-2, 6-1, in 34 minutes, making him the fourth-seeded player in the fourth round.

"I'm going to play like a machine and try to beat myself," Gimelstob said. "I just want to beat the way I want to. I want to play like a machine."

I had a lot of trouble on my serve today," Gimelstob added. "I mean, I'm just going to try to win the match."

"I didn't even play like myself," Gimelstob said. "I mean, I just played like a machine.

"I mean, I didn't even play like myself," Gimelstob said. "I mean, I just played like a machine.

"I didn't even play like myself," Gimelstob said.

"Picking the correct sleeping bag can mean the difference between a warm, restful night's sleep and a chilly, sleepless night. As two-time camper myself, I can attest to the importance of getting it right."

Outdoor Rec moves to Poultry Hill

After being located in the SBE basement last year, the Outdoor Office Center has moved to Poultry Hill.

"The move from the Outdoor Programs office resulted in a new view after the department moved. Students will have a better view of the building."

The new location is a significant change for the department.

Currently, they are ranked in the top three Outdoor Program courses in the country, regardless of university size, and top seven in the country of their type."
