Look for a job at Career Expo in the Dome

by Dar Alexander

Recruiters for companies spanning from Samsung to the U.S. Coast Guard will assemble on the University of Idaho's campus this Friday, Oct. 18, for the Career Expo in the Dome. The Career Expo is 10 a.m. to 6 p.m., and will be held in the University of Idaho's Dome.

Forney Hall

Forney Hall holds first annual photo contest for the humanities and social sciences.

by Aaron Clark

Once again, Forney Hall has taken the winning position in this year's U of I Game Days. The home team of, "We're Not A Team," took home the trophy with a clean sweep of the four contests.

University of Idaho students

University of Idaho administration is coordinating the world's largest digital manipulation conference and exhibition. The University of Idaho's Digital Imaging Conference is May 20 and 21, 2000, in Moscow, Idaho. The conference will feature more than 200 digital artists and include a variety of workshops and seminars.

by Scott Buchanan

In light of the misunderstandings concerning appropriate digital manipulation with photography, the Argonaut has compiled some guidelines. For example, if the issue is with the manipulation, all digital manipulation should be noted.

by Scott Buchanan

A lesson in DIGITAL IMAGING

Q: How do you define digital imaging? A: Digital imaging is the manipulation of digital information. Q: What are the key elements of digital imaging? A: The key elements of digital imaging include the following:

1. Accurate digital manipulation: A collage of a man and woman photo is created using digital manipulation. A digital image can be manipulated to create a new composite image.

2. Photo illustration: A cartoon photo is manipulated using digital manipulation. A digital image can be manipulated to create a new composite image.

3. Information manipulation: The effects of digital manipulation are not limited to visual manipulation. Digital manipulation can be used to change the perceived meaning of an image.

4. Acceptable digital manipulation: A collage of a man and woman photo is created using digital manipulation. A digital image can be manipulated to create a new composite image.

5. Unacceptable digital manipulation: A collage of a man and woman photo is created using digital manipulation. A digital image can be manipulated to create a new composite image.

Students react to ethnic photo incident

by Terra F. Altendorf

School administration reacted to an altered photo by removing it from the Internet. Students and faculty have voiced concerns over the altered photo, and the administration's decision has been met with both support and criticism.

Depression screenings set for today
Two-thirds of U.S. college students who seek treatment for depression say they have had at least one suicide attempt, according to a survey released earlier this year by the American Foundation for Suicide Prevention. The survey found that 70 percent of students who reported feeling depressed said they had asked for help, but only 4 percent of those students said they received professional help.

TODAY FROM 10:00 A.M. TO 3:00 P.M.
The Counseling and Developmental Services Department of the Counseling Center is offering free depression screenings. For more information, call (208) 885-7153.

The screening is available to all students on campus, regardless of whether they are enrolled in classes or not. The screening is offered to help students identify symptoms of depression and anxiety, and to encourage them to seek professional help when needed.

The screening will be conducted in the Counseling Center, in room 111, and will last approximately 15 minutes. Students will be given a certificate at the completion of the screening.

If students experience symptoms of depression or anxiety, they are encouraged to seek professional help. This may include seeing a counselor or therapist, taking medication, or participating in group therapy.

For more information or to schedule an appointment, students can call the Counseling Center at (208) 885-7153.

The Argonaut

by Walter Rosenbaum, will present the problems of public cullage on the environment in a lecture series beginning Oct. 4. He will be the first of a four-week Public Policy and Science series.

Rosenbaum began teaching Political Science in 1962. "If we're building a U-I quality like an historic structure, environment is a political area where we can complete our academic work," he said. The professor, who is the chairman of the Environmental Protection and Natural Resources Department and an adjunct professor of Political Science, has been teaching at the University for 27 years. He has also taught at the State University of New York-Buffalo. He will continue to teach at UI for the next six years, said Rosenbaum.

Since then he has worked to prevent pollution. The city of Idaho Falls is also interested in extending the program, he said. Rosenbaum is also interested in extending the program, he said. Rosenbaum will continue to teach at UI for the next six years, said Rosenbaum. He will continue to teach at UI for the next six years, said Rosenbaum. He is now working on extending the program, he said. Rosenbaum was also a consultant to the Environmental Protection Agency.

At the first lecture in the series, Rosenbaum said, "If we're building a U-I quality like an historic structure, environment is a political area where we can complete our academic work," he said. Residence halls battle for the title
PHOTOS BY THERESA PALSMAK

For the seventh year in a row, Ferry Hall has won the female hall competition for GDI (Greek Dare Independence) Week in the Residence Hall Association’s annual Fall competition between the residence halls. Ferry also won first place overall for the third straight year. Brink Hall was second place in the men’s hall competition.

Drunk driving limit hits roadblock
BY BRIAN FLAHERT
WASHINGTON — Just as a new law is poised to impose a national drinking driv-
ing standard for the first time, opponents are launching a fur-
iere, last-minute lobbying cam-
paign to blunt the measure.
A proposal — which would outlaw drivers with a third alcohol level of 0.10 percent — is due to become law in January as part of a broader transportation spending bill and remains one of the most conten-
tious items in this year’s legislative battle. It has created a series of favor-
ies within the GDI: putting allow-
ance for drivers under the old limit of 0.15 percent, which is higher than the national average, in states that have already lowered it.征收。In

It’s a simple calculation:
TIAA-CREF’s low expenses mean more money working for you.

The equation is easy. Lower expenses in managing a fund can equal better performance.

How much? Just take a look at the chart. Then call us.
We’ll send you a free, easy-to-use expense calculator so you can see for yourself how much your investments, if you’ll benefit from low ones. And CREF variable annuity expenses range from 0.20% to 0.30%.

For decades, we’ve been committed to low expenses, superior customer service and strong performance.

Add it all up and you’ll find that selecting your retirement provider is an easy decision: TIAA-CREF.

More to life than college

S

In the States, college life is the best time of your life. You make many new friends, live independently and have new experiences, some of which you will remember for the rest of your life. But the point is, you are not alone. For many of these young people, college is a place where they can be themselves, make mistakes and learn from them. It is also a place where they can form strong bonds with their peers and faculty. While college life is undoubtedly exciting and enjoyable, it is important to remember that there is more to life than college. People have different priorities and goals, and it is important to pursue what makes you happy and fulfilled.

The editors of this newspaper have decided to focus on the many aspects of college life, including the social, academic, and personal experiences that college students can have. We believe that it is important to highlight the positive aspects of college life and encourage students to explore their own interests and passions. As a result, we will be featuring articles written by students, faculty, and alumni, as well as interviews with successful professionals who have pursued diverse paths after college.

I hope that you will enjoy reading these articles and that they will inspire you to think about your own college experience and the possibilities that lie beyond the classroom. As you continue to explore your own path, remember that there is more to life than college. It is important to take advantage of the opportunities that are available to you and to pursue what makes you happy and fulfilled.

Sincerely,

[Your Name]

Use the force to keep fans in suspense for Episode II

Verse

To see the cover of Entertainment Weekly's Weekly Pre Announcement of Episode II the production wrap up—it is beginning to look like an old school each and every chapter of the epic saga. It is all very good, but not as good as it is. For two more years! After all, Episode II is slated for release in 2002.

We have a white Yi, finally. We really don't need to try to find a snow, because all the details are very clear and we don't have to. If you disagree, just look at what happened in Episode I: The Phantom Menace.

The merchandise tie-in, magazine covers, in-depth articles complete with guilt stashes from the film, and the unrefined trailers are all part of the unholy misappropriation of the Star Wars franchise.

Here there been any other massive plastered to the film, it would have been the same for the year, the greatest of the hologram. Not only were there no surprises in the movie, because we had already seen the entire thing in Times Magazine, it was also, simply, a disappointment.

Don't get me wrong, I am a Star Wars fan! I am impressed by the special effects, but I am not impressed by the movie. I would have loved to see my work-long-sent out at the theater to screaming applause. Granted, the cast is great, so far it is looking great, but let's see if he has the same fans as in Episode I.

I don't want to hear about the ken series especially, the events of another great man's ten years before the film is released. And about George Lucas, smart, he wouldn't want to be in a movie. He created the man, is a god, or at least a god, so let's see if he has missed the fact that anticipation is one of the keys to great Star-making.

The only anticipation Episode I had was when the movie would be released. The entire Star Wars saga has been made before we finished our tests.

Lucas and his production team must do their job, making of the same mistake with Episode II. If it is going to be a great movie, they must keep everything to themselves for the next two years.

Well, I would probably handle a trailer in its March issue. Give us something to wait in line for. Show your depositors that you can do it. This is a piece of cake for the fans of the series, but don't count on that for the next two times. We know they hold up much more. Don't, don't on us.

Remember, once you start down the dark path, there is no turning back. I'm not sure I would want to be in a galaxy far, far away...

But don't go to the Force side. I will tell the world. Go make your movie, design killer flight suits, do something for the whole world. But don't tell the world.

The Force saw you, because nothing else will.
Halloween came early

Sticks, stones are harmless, apartments hurt

Wanted a healthy roommate who doesn’t mind putting in an apartment with a strong attraction for adolescence, illness, and broken windows. There is a line on my apartment.

What things happen all the time, almost daily in my living quarters. I’m not so sure about the girls repairing “upstairs” pipes, the rest of the time, the whole floor was over in the living room. Police cars, block oats and ladles did not scare me at all, but I believe my apartment is cursed; a hell in the works.

I have a new roommate, and I may have just a little, slightly, very likely, but I’m not sure about the girls repairing “upstairs” pipes. The rest of the time, the whole floor was over in the living room. Police cars, block oats and ladles did not scare me at all, but I believe my apartment is cursed; a hell in the works.

The evidence is overwhelming: Everything is broken. The door is stuck, the wall is split, the bathroom is in a state of disrepair. We have a new roommate, and I may have just a little, slightly, very likely, but I’m not sure about the girls repairing “upstairs” pipes. The rest of the time, the whole floor was over in the living room. Police cars, block oats and ladles did not scare me at all, but I believe my apartment is cursed; a hell in the works.

The new roommate has broken every window and is always seen with a broken stick. The apartment is in disrepair, and I believe my apartment is cursed; a hell in the works.

The new roommate has broken every window and is always seen with a broken stick. The apartment is in disrepair, and I believe my apartment is cursed; a hell in the works.

Beaux Arts Trio brings crowd to their feet

By Wanda Hater

By 7:00 p.m., seats were hard to find at the Brac Arts Theater in the Administration Auditorium Thursday. University of Idaho professor for the arts office had bought the tickets, a total of 700, to see the debut of the 2000-2001 season of the Beaux Arts Trio Concert Music Series.

Students in jeans and sweatshirts, casual wear and some even in their pajamas, were in their seats intently listening to the music provided by the Beaux Arts Trio at the University of Idaho's Administration Auditorium.

"It was worth the wait," said freshman Denise Torres, who was among the hundreds of music students and music lovers who attended the concert Thursday night. "It was great listening to three of the greatest musicians around."

"I didn't get here on time because I had to work," said freshman John Bubalo, who also attended the concert Thursday night. "I like the music, especially the Brahms. I was so happy to see the St. Petersburg Trio."

Three students commented on the concert Thursday night. "I didn't expect such a great concert," said a music student. "The three musicians played beautifully together and I enjoyed the music."

"It was a beautiful performance," said another student who attended the concert Thursday night. "I'm glad I came to the concert."

The St. Petersburg Trio, founded by three Russian classical music students, was a treat for many music students. They played several pieces from a variety of composers, including Schubert, Mozart, and Brahms.

"This was the best concert I've ever attended," said one music student. "The musicians were wonderful and the music was优美."

The trio performed a variety of pieces, including Schubert's "Trout" Quintet and Brahms's "Variations on a Theme by corelli." They ended their performance with a encore, "Rainmaker," which left the audience spellbound.

The Beaux Arts Trio is one of the most renowned ensembles in the world, and their performance Thursday night certainly lived up to their reputation.

The concert was the perfect way to kick off the 2000-2001 season of the Beaux Arts Trio Concert Music Series. Students and music lovers alike were left with a newfound appreciation for classical music and the beauty of the Beaux Arts Trio's performance.
Vandals grab second win against Montana

By ROOSEVELT PHERONE

The University of Idaho football team continued its impressive season with an 18-7 victory over Montana State on Saturday, September 20, in Moscow. The Vandals improved to 2-0 on the season and 1-0 in the Big Sky Conference, while the Bobcats fell to 0-2 overall and 0-2 in the conference.

Idaho's defense was dominant, allowing only seven points, and the offense scored on all but two of its possessions. Idaho quarterback Jaron Kibbie was 16 of 28 for 196 yards and a touchdown, while running back Tyler Hearn rushed for 102 yards and a touchdown.

Head coach Andy Nosewicz said, "We've been working on our offense and our defense, and today we were able to put it all together. The defense was outstanding, and the offense scored on all but two possessions. It's great to see the team come together like this." 

The Vandals will now prepare for their next conference game against Portland State on Saturday, September 27, in Moscow.

Women's soccer team shuts out Western Washington

By ROYCE SHOES

The University of Idaho women's soccer team defeated Western Washington University 2-0 on Sunday, September 21, in Moscow. The Vandals improved to 2-0-1 overall and 2-0-1 in the Big Sky Conference, while the Vikings fell to 2-0-1 overall and 2-0-1 in the conference.

Idaho's senior midfielder Kaitlyn Smith scored the game's first goal in the 37th minute on a penalty kick.

Head coach Gail Cosman said, "Kaitlyn has been playing well all season, and she delivered in a big way today. The defense was also outstanding, allowing just one shot on goal. We're looking forward to our next game against Montana State on Saturday."

Big conference wins for Vandals volleyball

By KEN THOMAS

The Vandals women's volleyball team recorded a huge win over the University of California-Davis 3-0 on Friday, September 12, in Moscow. The Vandals improved to 7-4 overall and 2-1 in the Big Sky Conference, while the Aggies fell to 7-3 overall and 1-2 in the conference.

Vandals junior middle-blocker Kaitlyn Smith had 10 kills on 15 attempts with a .667 hitting percentage.

Head coach Michael Seagard said, "This was a great win for us. We played well in all three sets, and we were able to control the game. The defense was outstanding, and the offense scored on all but two possessions. It's great to see the team come together like this."

Inflatable Joe, bouncing mascot, needs to go...**BY BOB SNOW**

The University of Idaho used to have a mascot that was very active. This year's freshmen class is probably wondering why we used the words "used to" when we still apparently have a mascot. I use these words to signify my personal belief that the new Joe Vandals is not a mascot. Last year the Argonaut questioned the decisions to abolish the old Joe. In response, the old Joe was brought back to be the interactive mascot everyone knew and loved. I barely remember old Joe, but maybe I haven't been paying attention at the games. Perhaps old Joe is a better mascot for the first half of football games, or maybe the old mascot couldn't do a job bouncing the ball. A New Mascot Needs to Go

This season got the attention of the alumni, I was watching, because the name calling coming from the old Joe is being loud enough, which I wholeheartedly agree with their sentiments. The new Joe not only waddles around like a duck on the sidelines, but the crowd usually laughs at his antics. Notice I said laughed, not clapped or chuckled over his antics. Even the sideline will laugh. The old Joe was on the sideline, but did not laugh at the new Joe; but remember, "Hee, Hee, Hee." Not only is the name calling from the theatre department, but the stadium department will also laugh. If the old Joe could pay these creative geniuses to create a cross between a duck and a penguin, Joe could go on the road simultaneously at his old age. Since the athletic department is not getting voluntarily rid of a mascot that they need to take back into our own hands. I am sure that if a nail were strategically placed on the sideline, that would at least keep our Joe out of your games. You suggested a campaign against the mascot, and maybe a mask would help him find away into oblivion. The last suggestion received was the most sublime. Joe seems to struggle to find a way to get up after falling. Maybe if the new Joe could make him run or jump, he will not fall as often. We need to find a Joe to sit beside some children and shake almost hands. Bring back our beloved mascot. Go Vandals.

ATTEND THE LAWFAYR!

Washington State University
Todd Hall
5:30 pm

Participating Law Schools
- Gonzaga University
- Lewis & Clark College
- Portland State
- University of Oregon
- University of Washington
- Willamette University

Win a free trip to the UI vs. BSU game!

**CONTEST RULES**

- Contest is open to current students of the institutions listed above.
