IDaho's Football Team in Bad Condition

Prospects for Winning from W.S.C.

Badly Impaired—Hospital List Is Very Large.

With Lenschel, Johnson, Samms, and BuiUing'on on the hospital list, and Knutsen ineligible on account of his studies, things do not look nearly so bright for winning from W.S.C. as they did a week ago. Lenschel was wearing his shoulder sling, at least all last week. Johnson was hurt in a scrimmage Saturday and is impaired to use his legs, Samms has a weak ankle and BuiUington a painful hand on one of his fingers.

In the scrimmage with the second team last week the varsity team was outplayed on many occasions and either the second team or Idaho's defense is woefully weak. Time after time the second teams would tear through the varsity line for long gains. Enoch Perkins and Bobby Burns are playing the best game for Idaho at the present writing. Perkins should be away to come home soon, runs when he is the open field runner, among the Island Empire colleges. Burns has improved greatly over his last year's form, and is doing a really good drop kicking. It is possible that his toe may have something to do with the deciding of the game. Two years ago on Roger's field it was Hillman's kicking that won the game for Idaho, in the first two minutes of play.

With BuiUington in shape, Idaho has two of the best tackles in the conference as Buck Phillips is a tower of strength in himself. With Lenschel and Samms in shape, there would be no question as to the strength of the ends as both of these men are putting up a great game, but the trouble is that they are not now in shape and are not very likely to be in the best of condition by Friday.

A game between the first and second teams was called for Saturday afternoon, but after looking over the situation Coach Griffith decided that it would be better to hold a secret practice so ordered everyone off the field. A good scrimmage was held.

Sunday morning "Pink" called the team together for an hour and a half at the Commercial club rooms down town and went over the rules with them, the matter of training, etc.

Pullman according to all reports has as strong a team as they had last year. With the two Harters they have a foundation for an excellent line. Mosher, last year's quarter back, is having a hard time to make a place on the team. According to the Spokesman Review Pullman money will not be lacking at the game Friday.

Secret practice will probably be held the remainder of this week. The usual rally will occur Thursday night on Idaho field, the big heap of wood burned, and routine speeches made.

TAU ALPHA PLEDGES NAMED

Twelve Members of the Class of 1914 to be Initiated into Tau Alpha, one of the members of the red and white ribbons which twelve of the men of the junior class are wearing on their lapsels signify that the possessor of such ribbons has been elected a member of Tau Alpha, the junior honor society.

Tau Alpha was formed at Idaho last year by the more prominent members of the class of 1913, and the number was limited to twelve.

The purpose of the organization was never made known to the public, but in it were included members of the class who were most prominent along different lines of student activity. Included in the members of the present junior class who were elected to Tau Alpha are eight "I" men and several honor students.

The twelve fortunate juniors are Virgil Samms, Walter Scott, Stephen Regan, Fay Robinson, Vernon Fawnt, Albert Knutsen, Rex Curtis, Banks Kinnison, George Scott, Clarence Faver, Harry Routen and Roy F. Tuttle.

New Track Coach

Clarence B. Edmundson, who graduated with the degree B.S. (Agr.) in 1910, better known as "Hec" to the old timers around school, has been appointed as one of the instructors in the school of practical agriculture. This means that he will have charge of the track work in the spring.

Edmundson is one of the best track men that Idaho has ever produced. His races were the four-tourty and the eight-eighty, and he holds the Idaho record in both of them, and the Northwest in the eight-eighty. Also he ran in the Olympic races at Stockholm this last summer in both the four-tourty and the eight-eighty, winning his heat in both races and getting into the final. He ran under the colors of the Battle Athletic club.

Mr. Van der Veer, physical director of the university is delighted with the idea of having an assistant. It means that Edmundson will handle the track work, and that Mr. Van der Veer will have more time to devote to his physical education classes.

Mr. Edmundson is married to a former university student, Miss Jean Roberts, one of the members of the old Beta Sigma sorority. Mr. Edmundson is a member of Kappa Sigma fraternity.

THE ATHLETIC BALL

Saturday, October 19

at Eggan's Hall. A good chance to celebrate after the big game.

All men who play in the big game will be admitted free.

GRAND MARCH PROMPTLY AT EIGHT O'CLOCK

DON'T FORGET ABOUT

UNIVERSITY WINS MORE PRIZES

Stock takes blue ribbons at Spokane Interstate Fair.

Among other prizes won by University and Latah County exhibits at the Spokane Interstate Fair are those for livestocks, for which the finest stock of the Northwest entered in competition.

The Hereford steer, owned by the University, which won at the California and Oregon fairs, also took the championship at Spokane. The Hereford calf took second, the yearling steer first, and the two-year-old steer first. A blue ribbon was also taken by the Shorthorn bull.

A Duke boar owned by the University won first, a Duke boar sold from the Vanity dome last year won first on yearlings, and a Poland China boar sold by the University was the grand champion of the show.

It is expected that the university will have a fair showing at the Fair Monday, Wednesday, and Friday evenings.

Among the prizes awarded by the University on Monday were a two-year-old Hereford steer, won by Albert Tuttle, and a two-year-old Guernsey cow, won by Roy Aldrich and E. W. Banks.

Among the poultry prizes given by the University on Wednesday were three fowls, won by Mr. Presta, another fowl, won by Mr. Brown, and a rooster, won by Mr. Cooper.

A second prize was taken by Mr. Wilkins for a rooster and a second prize was taken by Mr. Biggs for a rooster.

And the best prize, a second prize, was taken by Mr. Biggs for a rooster.

On Wednesday the following fowls were won by the University: five fowls, won by Mr. Clever; two fowls, won by Mr. Cooper; one fowl, won by Mr. Brown; one fowl, won by Mr. Wilkins; and one fowl, won by Mr. Proctor.

Among the horses awarded by the University on Friday were a horse, won by Mr. Proctor; a horse, won by Mr. Cooper; and a horse, won by Mr. Wilkins.
ATHLETIC BALL SAVDAY NIGHT

Big Annual Social Event to be Held in Eggan's Hall This Year.

The Athletic board have arranged to hold the Athletic Ball on the following day of the W.S.C. game on account of being unable to secure the hall for Friday night, on account of the lecture course having spoken for it first, the night it is customary to hold the dance.

Louie Joseup, who was elected to the Athletic Board in place of Ernest Loux who did not return to school this year, is chairman of the Athletic Ball Committee. The decorations will be rather elaborate. It is planned to have goal posts at each end of the hall, with a possibility of the ceiling being turned into a gridiron. If arrangements can be made. Many more features will be presented by the committee composed of Louie Joseup, John Hayden and Banks Einnison.

The dance will begin sharply at eight o'clock in order to have four hours of perfectly good dancing on a superb floor.

The admission will be the usual dollar fifty. Any one desiring invitations to send to friends may secure the same by banding in the names to Louie Joseup or John Hayden.

Wilson Loux.

The standing of the star's ballot on president who is being conducted by George Donari on behalf of the democratic committee, is as follows: Wilson 130, Roosevelt 43, Taft 14.

Albert Anderson, '16, took in the Lewiston fair last week.

There was a sparse sprinkling of students on the main line of the Eggan's Hall Friday night.

Good Openings for Idaho Mining Graduates.

E. A. Bernhard, '11, E. W. Ellis, '12, Hugh Maguire, '12, graduates in mining engineering, are at the present time employed by the Anaconda Copper Co. at Anaconda, Montana.

Their work at present consists principally in the testing of different machines used in the workings of the machines they are testing and they are also expected to make themselves thoroughly familiar with the working of the machines.

The company also possesses a good technical library and the men in the testing department are expected to devote a certain amount of their time to reading in the library and to keep up to date on anything new in mining or metallurgical literature published in the technical journals.

The hours of work are not long and Saturday afternoons and Sunday are free.

There are technical graduates from other schools employed at the same work but it is pleasing to note that two of the Idaho men were recently sent for by the company, which speaks well for the opinion there must have framed of the school from the work done by Bernhard, the first Idaho man employed there in this work.

The more an no date of the large mining companies are finding it increasingly necessary, on account of greater depth and lower grades of ore, to get down to an efficiency basis and are using young technical graduates to do the testing necessary to obtain this basis. The probability is that there will be an increasing field in this line of work in the future and from this branch of work advance of the best men is certain to follow and the University of Idaho is fortunate in having obtained a number of this kind for its mining graduates.

Carl Leuz, another 1912 graduate has recently gone to Butte, B. C. to work for the Consolidated Mining & Smelting Co. of Canada, in either the sampling or supervising department. This is another instance of the advance in the mining of the graduates and improves their work in the matter of advancement.

We hope that the work done by these graduates will be such as to bring the name of the University of Idaho to the front both in Montana and British Columbia, and that in the future graduates in mining will find opportunities for advancement.

H. H. Chamberlain, '13, Law, is expected to return to school this week.

Louis G. Welden, the American literary junior, is editing the different house monthly paper.

Louise E. Baggins, 12, is secretary of the Republican county committee of Latah County.

Roy Johnson, '12, a graduate of the Idaho Law school went to Lewiston last Friday to take the State Examination before the Supreme Court of the State.

Margaret Brandt, '14, who was called home by the death of her sister, will not return to school until next semester.

F. W. Tholen, '13, registered Thursday.

The agricultural college is making preparations for a large attendance of short course students this year.

Omar Bjorklund, 'ex,'14, returned to school last week and registered with the class of '16.

Bert P. Woodridge, '14, was taken to Carlin's Hospital Wednesday with a threatened attack of typhoid fever.

Mr. and Mrs. Wiley of Spokane visited with their daughter at the Delta Gamma house last Saturday.

Carl Paulson returned from Boise yesterday where he had been aided to act as a witness in a civil suit.

The contractors estimate that the new auditorium will be ready for the seats about the middle of November.

Thos. Dryer, '14; assistant business manager of the Argonaut has resumed his school work. He has been carrying mail for the past two weeks.

Lieutenant Franklin is much pleased with the manner in which the cadets are drilling this year.

Miss Nancy Ellen Watts of Mount-ainhome arrived here last week to register in the special Home Economics course.

Waldorf Pedelstein, the Upland barber, had his valuable pedigreed dog poisoned last week. The remains were presented to the biology department in use of the advanced classes. He has been unable to find out who poisoned the dog.

**SOCIETY**

**IDAHO RUSHING SEASON OVER**

Different Greek Letter Organizations Announce Their Pledges.

The "rushing" season at Idaho is practically at an end. One new feature inaugurated this year is that no girls could be pledged until after the first Sunday after school began. The different sororities then sent written invitations for dinner on that date and the ribbons were distributed at that time.

The rule that no person could be pledged to a fraternity or sorority until he had attained sophomore standing was not carried into effect.

Following are the "finds" of the season:

- **Kappa Sigma**—Harold J. Adams, Boise; Raymond J. Safford, Moscow; George Tarbox, L. C. Beanner, Wallace; J. R. Numbers and Sherman Gregory, Boise.
- **Theta Mu Epsilon—Victor Keling;** Wm. Gowan, Galena; Gilbert McCrackin, Rockwell; Howard Holoday, Moscow.
- **Phi Delta Theta—Ray Brookhart, Frontenac;** J. J. Lockhart, South Dakota; Don David, Moscow; Carl A. Shipkey, Arthur S. Jardine, Great Falls.
- **Sigma Chi—Victor Sieber, Spokane;** James J. Keane, Genesee; Stanely T. Brown, Palouse; Thomas Hedley Danie, Coeur d’Alenes; Charles H. Owens, Boise; David A. Hayes, Lewiston; Charles M. Ankonh, Palouse; Ross B. Cartee, Boise.
- **Zeta Delta—Clarence Sylvester, George Sylvester, Roy Mitchell, Ralhdrum;** David Albert, Payette.
- **Delta Phi Beta—Constance Ayers, Globe;** Ansel Wilmot, Wallace; Ruth Molin, Spokane; Helen Pitkin, Katharine Pictain, Tonia Falls, Lorraine Bank, Spokane; Alfred Taylor, Majurio Zmboff, Moscow; Edmund Yearian, Lambi; Delta Gamma—Bridgit Bailey, Hester Pettijohn, Walla Walla; Gertrude Denecke, Boise; Muriel Leight, Spokane; Hazel Harmon, meister, Blackfoot; Anna Monica, Bailey and Henrietta Safford, Moscow.
- **Omega Phi—Alice Hettig, Emmett; Grace Holaday, Terri Keane, Moscow; Valbore Kjones, Spok-
- **Cano;** Leeota Lunken, Boise; Othel Martin, Davenport, Washington; Edna Mellion, Mary Mc-
- **Ison, Everett, Washington; Bertha Sylvester, Dorothy Wenz. Ral-

STUDENT AFFAIRS

Borah Speaks.

"Senator Borah delivered a short address to the students and faculty of the university and the gymnasium on Friday afternoon of last week. A hearty demonstration of welcome was given to the senator on his arrival, and a few selections were rendered by the college orchestra.

Everybody seemed to appreciate the fact that the senator had a difficult audience to speak to under the circumstances, and were anxious to know just what he would say. His address was very short but to the point. He spoke of the increasing popularity of the University in all parts of the state and complimented the institution on its growth. "I always feel a sharp interest in the university," said the senator, "and, therefore, make it a point to find out where ever I go just how the people look upon it, and find universally that it is increasing rapidly in popularity."

He spoke of the prevalent idea of first getting a fortune laid away and then taking up university politics. "This idea is entirely wrong," said Mr. Borah. "Education should benefit county, state and nation, rather than the business alone."

The senator further expressed the idea that we want young energetic men in politics rather than retired business men who seek merely honor and leisure, if not private interests.

Pacific Debate.

The third and perhaps the last annual debate between Idaho and the Pacific university will be held somewhere about Christmas time. The question which has been chosen for debate reads as follows: "Resolved, That Labor Unions Should be Incorporated."

A meeting of all aspirants for debate honors is being held today. The purpose of the meeting is to analyze the question and give the new debaters an outline on which to work. A try-out debate will be held in the near future for the purpose of selecting members for the two teams. The team representing the negative will go to Forest Grove while the affirmative will defend Idaho's hurds at home.

We won a unanimous decision over Pacific last year, and there is no reason why we cannot do it again. But if we are to do it, some one has got to get out and work, and if you are a debater at all consider that some one else is doing you, those who wish to know more about the subject might see Prof. Holmes, who will coach the teams as usual.

Mark Anderson, '15, is expected to return to school this week.

At Assembly.

"The address at assembly last week was given by Mr. Smock, newly re-elected for congress. The subject of Mr. Smock's address was "The Three Pa's of Education."

"Every man," said Mr. Smock, "to make a success in this life ought to have a well defined purpose, a friendly star to which he can look for guidance and energetic progress."

His discussion was filled with interesting illustrations and funny stories. Mr. Smock proved himself to be a fine story teller as well as an interesting speaker.

Requirements for the Master's Degrees.

1. Conditions of Candidacy: A graduate of one of the colleges of this university, or of another institution in which the requirements for the first degree are equivalent, may become a candidate for the corresponding master's degree by making an application on a blank form provided for the purpose. The application must be submitted for approval to the committee on graduate instruction and degrees not later than October 15th.

2. Nature and Amount of Work: The minimum requirement shall be twenty-four credits in addition to the requirements for the first degree. At least one-half to be graduate in character. Not less than twelve credits may be in the major department.

3. Residence: One year's residence work is required of every candidate who has not received a first degree at this university. Graduates of the University of Idaho may be admitted, in special cases, to spend one semester at some other approved institution.

4. Examinations: Final examinations are required upon the completion of each subject.

5. Thesis: A thesis upon some subject connected with the major study is required, unless waived by the committee, upon recommendation of the major professor. This subject must be submitted for approval to the chairman of the committee on graduate instruction and degrees before Nov. 15th. Two typewritten copies of the thesis in specified form shall be deposited in the university library.

6. Degrees: The degrees offered are—Master of Arts, M.A.; Master of Science, M.B.; Master of Science in Agriculture, M.S., Agr.), and Master of Science in the respective branches of engineering, M.B. (C.E.), etc.

7. Fees: Before receiving his degree the candidate shall pay a diploma fee of ten dollars and any unpaid laboratory fees.
In the Gymnasium.

In the cross country run held last Saturday under the direction of Physical Director Van Sec Veer, Loye Howell finished first with Homer Haggard very close second. About six men took part in the run. The course was about three and one-half miles. First prize was an Idaho bob; second prize, an Idaho button.

Miss Stephens will hold her first dancing class Saturday morning from eleven to twelve instead of from eight to nine as announced last week. The walking club will sail forth but once a month and on that day, the lesson will probably be given from eight to nine in the morning. All college men and women who do not dance are cordially invited to attend three lessons. There is absolutely no fee connected with the course.

The walking club under the tutelage of Miss Jabez Stephens, head of the Women's physical department, walked over to Geenes ridge yesterday. The club was eighteen strong. Upon their return lunch was served in Miss Stephen's room.

L. J. Thomson, the saggie who made such a wonderful record on the dynamometer two years ago, registered today in the school of practical agriculture.

The short course saggie seems to take much more interest in gymnasium work than does the ordinary college student.

Some of last year's basket ball team have begun to limber up a little in the gymnasium.

The democrats of Southwest Moscow precinct, in which the university is located, are not satisfied with having a good man at the head of their ticket, but have placed a couple of good ones way down at the bottom, nominating Harvard Query for constable and John M. Boyle for justice of the peace. Mr. Query is student in the agricultural college, residing with his mother and sisters just north of Morrill Hall. Mr. Boyle is in the second year of his law course in the university, married and living with his family at 713 S. Adams, south of the M. E. Lewis house in the southern part of town. Both are worthy of the honors proposed, and will probably be elected if the students who vote do not forget to go clear down at the bottom of the ticket. There is nothing particular about the matter, as it is understood that one man is a democrat and the other a republican. The precedent may be of considerable importance.

The Rhodes examinations began this morning under the personal supervision of Dean Kidridge. Five men are taking the examination which will last two days.
LETTER FROM FIRST RHODES SCHOLAR

Lawrence H. Gibson Now Head of Department of History in Wabash College.

Dear J. G. Eliddle, The University of Idaho, Moscow, Idaho.

Dear Professor Eliddle:

It really seems a great while since I was a student at the University. In fact, it will be in a short time ten years since the day of my graduation. When looking over the catalogue, the names of but four or five of the faculty are familiar. What a change does time make when you are at a permanent thing as a university. Within these ten years, I have had the Oxford and European experience, the years at the College of Idaho, the work at Yale, and now I am at Wabash, with plans in the process of realization for getting my doctorate at Chicago.

The past summer in Chicago was most enjoyable. We saw a good deal of Prof. Cogswell while there, for he was rooming on the same street and only a dozen streets away. Oh, I should like to have my degree from Yale, but no summer work is offered there. There is a spirit about Yale that is finer than anything that I have ever seen in any other school. She is grand, old Yale to me, and the treatment that I received from the faculty was the finest possible. Not only did the Dean of the College give me a fellowship to join with my new fellowship, but they pushed me strongly for a post at Amherst, the University of Manitoba and Wabash respectfully. Wabash was the first to make an offer of a post, so without waiting to hear from the other institutions, I wrote my acceptance.

The past year's work here was full of interest for me. Like Yale, Wabash is a man's school with a student body that numbers about three hundred and forty, and work of college grade. The college is a strenuous place and on the field our athletics are called, "the Little Giants" by the students of other institutions. It is hard for me to realize that I am now working as a full professor, side by side with some few men of national reputation, such as Kingery in Latin and Ganner in Chemistry.

Smith, head of the Department of Chemistry at Columbia, and Coolster, head of the Department of Botany at Chicago, were down away.

Sincerely yours,

LAWRENCE H. GIBSON,
607 S. Water St., Crawfordsville Ind.
September 16, 1912.

The Moscow Boy scouts will march to Pullman Friday to attend the big game.

Miss Margaret Stinle, who is teaching in this Goldsde high school spent the week-end at the Gamma Phi Beta house.

If you shave yourself it's a safe bet you don't enjoy it. Try Russell & Rowland's Barber shop for good shave.

Let us have a High Class Entertainments To Be Given in Moscow This Winter

Through the efforts of Superintendent E. W. Randall of the Moscow Public Schools, the students of the University will have an opportunity to hear some of the great musicians and speakers of the country during the winter.

Season tickets may be obtained for two dollars. To attend all of these without a season ticket will cost at least $3.50. The first entertainment comes Friday of this week which is THE BERGEN-MARKX COMPANY.

Four notable artists comprise the Bergen-Markx Company, the biggest musical attraction booked under Redpath management this year.

Alfred Hodge Berger is a native American who has had a decidedly会对的 career. He has studied with some of the greatest American vocal teachers and has also done special work in German lieder with George Henschel of London. His repertoire comprises some 150 songs and several concertos.

Mr. Markx appeared with the Theodore Thomas Orchestra for ten years. At the age of 16, he held the position of first violinist in this famous organization and later on played solo accompanied by the Thomas Orchestra. Mr. Thomas has joined in the applause for an encore for Markx solo.

While in Berlin Mr. Markx competed with forty-eight musicians for a scholarship under Dr. Jochim and won the prize. Less than a year ago Mr. Markx was appointed assistant concert master of the orchestra.

He is one of the highest positions that can come to a violinist in this country.

Hans-Brössel, the violinist-violinist-with this company, was born in London. He appeared at an early age as a pianist in both public and private recitals and later continued his studies going to Weimar, where he eventually made the violinist his principal instrument with the world renowned Gretzmacher for his master.

Making great progress, he soon went to London, and while at the Guildhall School of Music he was the first winner of the Liberton prize for the violinist.

Mr. Macfie is a native of Melbourne with this company, received his first training in the cathedral choir at St Albans, England. He studied the piano and composition under Dr. Clark's ward for some six years. He came to Winnipeg, Can., in 1905, where he taught for a number of years, continuing his studies in technique with John Sebastian Amsberger.

Better try some of that varnish sherbet for your Sunday dinner. Phone your orders to the U. of I. creamery before Saturday noon.

Don't fail to attend assembly tomorrow (Wednesday). Big rai-ry will take place.

Rex Ursus,'15, prominent var-"ity athlete will not return to school this year.

EXCHANGES

The changes which have been made in the dress of the men’s shop are a reflection of the economy as it has affected the store, the manufacturer, and the consumer. The more expensive and less common materials have been replaced by more durable and practical fabrics. The savings in cost of material, labor, and shipping have been passed on to the customer in the form of lower prices.

The University of Washington has made a significant change in the organization of its men’s shop. The store has been divided into two departments, one for suits and the other for casual clothing. This change is expected to increase customer satisfaction and provide a more specialized service.

The University of Oregon has also made changes in its men’s shop. The store has expanded its selection of sportswear and casual clothing, and has added a section for ties and accessories.

David & Ely Co.

There’s a right and a wrong way to do everything. It’s the same with doing the laundry. It is well to know how, when, and where. We sell clothes and rather believe we have the kinds adapted to the needs of the colleges. As far as we know, we are the only ones who stock a selection of shoes, hats, shirts, and jackets.

Shoes, Hats, Shirts, Gloves, Hosiery

You will find that we always have the
