DAD'S WEEKEND
CALENDAR OF EVENTS

Fathers of Vandal alumni and students will be holding the "Vandal style" Flag as part of the Alumni at the Windjammer at the Argonaut Tiki Bar on Saturday, Oct. 15.

Webwork Today and tomorrow, the Argonaut Tiki Bar will host the "Webwork Weekend," featuring the Windjammer Tiki Bar. Anatomy and Physiology Club will hold their "Webwork" party at 8 p.m. tonight.

Registration Fair will be held in the Verney Commons.

FALL CAMPUS EVENTS

8 a.m. Transportation department and Communications will host the "2001 Winter Transportation Fair," in the Verney Commons.

3 p.m. Dedication of the Agricultural Biological Laboratory, Terriech Center. The dedication of the new Agricultural Biological Laboratory at the University of Idaho will begin at 3 p.m. in the Terriech Center.

3:30 p.m. Fall aerogrounds, Fabio Commons

6 p.m. Vandal Sand Volleyball will play against Utah State in Fabio Commons.

8 p.m. "Americana" will perform in the Sandbar, Fabio Commons.

10 p.m. "Americana" will perform in the Sandbar, Fabio Commons.

5-6 p.m. "Americana" will perform in the Sandbar, Fabio Commons.

7:30 p.m. "Americana" will perform in the Sandbar, Fabio Commons.

CAREER FAIR

Name of employer, a phone number and an e-mail address for the employer will be posted in the Argonaut Tiki Bar tonight.

Climbing walls come of age, meld into pop culture

BY WEST BUCHANAN

When Tony Ribeiro and Mel Leshy got tired of their jobs — here as a deep truck driver, wife as a real estate client — they decided to do something new. Since 1975, they've been running a climbing wall business. When they first opened, there were two walls, both in a three-hour radius. What those two climbed upon was a passion that, during the first 20 years, brought them 28 foot walls, 200-foot walls, and eventually to the roof of the. And now they're in business with an indoor wall at the University of Idaho.

"I wondered what I would try," the 75-year-old Leshy said. "When I first got the wall, I had to learn." With no climbing experience, they invested $420,000 in their first wall, which opened in 1977. They've since expanded to five walls, and now living in Lewiston, the couple's business is profitable and they get to live in a three-hour radius.

Climbing walls have come of age. No longer exclusive to extreme sports, they are poised to join the ranks of popular fitness trends. From the roof of mountain climbing to the wall of the gym, climbers are discovering new ways to challenge themselves.

"The Internet gives people a chance to reach out and meet others like themselves," Leshy says. "They have a common interest that they can share with others." The University of Idaho, along with many other schools across the country, offers climbing as a physical education class.

The Every Friday, put in a trainer in the recreation center. Throughout the week, the climbing wall will be one of the biggest projects that the Idaho Flyers worked on. As they press the buttons, the climbers are challenged to climb to the top of the wall. The climbers can use their feet, arms, and heads to reach the top of the wall. The climbers can use their feet, arms, and heads to reach the top of the wall. The climbers can use their feet, arms, and heads to reach the top of the wall.

"I'm looking forward to trying the new wall," said Tammy Martin, a student at the University of Idaho. "I've been climbing for years, and I'm excited to see what kind of challenges I can face on this new wall." Martin says that she has been climbing for years, and she enjoys the physical challenge that comes with climbing.

The new wall at the University of Idaho is the latest in a series of climbing wall installations across the country. As climbing becomes more popular, more schools are adding climbing walls to their campuses. The University of Idaho is one of the many schools that has installed climbing walls, and they are excited to offer this new opportunity to their students.

"We're thrilled to have this new wall," said Mike Beiser, director of the Idaho Flyers. "It's a great way to bring together students who are interested in climbing. And it's a great way for us to promote this healthy activity on campus."
Students beat average in CAMP

By Anne Colson

In its third year on the University of Idaho campus, the CAMP Program, or CAMP, has a new location and 30 new students. CAMP, which had to move from the Commons to its expanded location in the SUB, is a program designed to provide students with the skills in computer and information technologies that will make them more employable. The program is coordinated by Daniel Cameron.

The program defines a migrant worker as a person whose primary employment is in agriculture and who has no permanent residence or educational base other than a migrant work camp.

The CAMP students are all migrant workers or workers who have a close relationship with a migrant worker. The group also prides itself on providing a family atmosphere. Members honor birthdays monthly, and Johnson said that he even helped a couple of the students get married.

The UI CAMP Program now enrolls 60 to 100 students each semester, with courses offered in electrical engineering, computer science, management science, and other areas. Students who are further along in their studies can still enroll in the program.

UI "most wired" public school in West

By Zelia Graham

Once again, the University of Idaho has placed among the nation's most technologically advanced public schools in the annual "Wiredness Across America" report.

UI ranked (13th) on the list published by Wired Internet Life magazine in October. The magazine polled high schools like Corning Memorial University, The University of the District of Columbia, and the Massachusetts Institute of Technology.

The magazine published a chart of the top 100 schools in the origin.

UI ranked first among public schools in the west. "We are pleased to see that UI is one of the company of extraordinary schools," said UI President Bob Hopkins.

The university scored 95.01 of a possible 100 points. Students in the survey were asked if they had always had the computer access at UI very useful.

"We are more reflecting the Campus Planning Committee's awareness of computer and Internet resources," Hopkins said.

For more information, Call 885-6121 or visit our website at www.ui.ac.edu/careerservices.

Maryland tornado hefts further pain on mournful campus

WASHINGTON — Koreans Prong worked in the university's desk to the student union building with this dire flaw of someone who has experienced tragedy. But it wasn't one tragedy she had lived through since the fall semester began at the University of Maryland, it was that.

The latest hit her hardest: a freak tornado that ripped through the campus on Saturday afternoon, killing two students and injuring three. A tornado warning had been extended, and hundreds of students were warned Wednesday.

She might have been easier to deal with the worst storms of its kind here in 25 years. Prong and most of the university's 34,000 students were not already aware of the glowing they've been doing of late.

Five students who began what was to be a three-year year at the university northeast of Washington are dead. The body of Alexandria Kitchens, a 19-year-old sophomore, was discovered on the front porch of her house on Saturday night.

Two additional students who were in the dormitory when forecasters marked them believed dead. And the tornado took Colleen Martin, a 20-year-old environmental policy senator, and her sister Erin, a 20-year-old senior philosophy student, who were found dead together.

At the University of Maryland, there are several more deaths. Like much of the nation, it is emotionally stricken to the limit, laboring under the weight of unthinkable sadness.

As the team of campus counselors are working full-time. Learning has been taken off the campus and suicide prevention counseling is being offered.

Four students were found dead in their dorm rooms. On Saturday, an estimated 10,000 flowers were placed on the ground in the middle of the campus.

And Prong, when she lived in four minutes, said, "I'm very proud of your students. They are doing everything they can at this time."

As a new week begins Monday, it appears the majority of the college might finally be taking shape. The skies have cleared about 5 p.m., and, because of recent storms, the students expected the worst.

"I think I was going to die," the 23-year-old Prong said. "I saw a campus shuttle bus when the driver got out, announced a tornado was coming and threw himself into a ditch. He ran to a nearby school, screaming and crying. Windows exploded from core and buildings all around. The meadow is off a church, and the roof of a house was blown away from the store's 30-mile path."

A 20-year-old senior, was in his room when his rare power lines were downed, and he and his family were sleeping in the attic. Another student, 21, and her boyfriend, Michael Schonberger, 20, were in another part of the building when they detected swelling and students outside struggling to open the doors.

The students of a group of residents said, "It's been a group of students."

Her parents drove down in the morning to bring her home and contact police and make sure she was OK.

All of them come from the students in magnitude to what happened Sept. 11, with the exception: The disaster is nearer. September is supposed to be a time of fresh start.

The university has gained increasing international attention in recent years. Poor students have been known to seek out people who can be in the same situation, and they are not.

Students walk around waiting for someone to tell them how to feel. Her dead killer in the attic.

Chances that continued the Lien in these storms and hailstorms were said to be far more common among anyone you need to count.

Vandal Taxi back on the street

BY LEAH ANDREWS

It has been a bumpy road, but the Vandal Taxi is up and running for the first time during the fall term. The taxi, which started running on Tuesday, October 15, is available from 10 a.m. to 2:30 a.m. on weekdays and from 2:30 a.m. to 4 a.m. on the weekends. In an increase in the cost of operating the taxi and a limited budget left from last fiscal year, the taxi will now run Tuesday through Friday 10 a.m. to 2:30 a.m. instead of 10 a.m. to 4 a.m.

"We are trying to be efficient and not spend too much money," said Anderson. "The taxi will still be available for students who need a ride.

The cost of operating the taxi has increased, and the budget for the taxi has decreased. Even though the taxi has been running for a short time, it has already been profitable. Students have been using the taxi more frequently than expected. The taxi has also been well-received by the students.

The taxi is a great service for students who need a ride, and it is a good way to reduce expenses. We are happy to have the taxi running again, and we hope it will continue to be a useful service for students."

SUB garden scratched out by new Theta sorority

The new house for the Kappa Alpha Theta sorority may be the nicest on campus, but it's doing a disservice to the student body, as well as to the university.

The Theta house is located on the northeast side of campus, near the physics building. The new house is designed in the Greek Revival style and features classical columns and pediments. It is one of the most architecturally significant buildings on campus.

The Theta house is also home to the Theta literary magazine, which publishes fiction, poetry, and non-fiction works by students and faculty. The magazine has a long tradition of excellence, and is widely respected by the university community.

The Theta house is situated on the corner of the university campus, and is visible from the student union and the science building. It is a focal point of the campus, and is often used as a meeting place for Theta members and their guests.

The Theta house is open to the public, and is a popular destination for students and visitors alike. Visitors are welcome to tour the house, and to meet with members of the Theta chapter.

The Theta house is an important part of the university community, and is cherished by its members and supporters.

If you have any questions or concerns about the Theta house, please feel free to contact the Theta chapter or the university administration.

Thank you for your understanding.

Quarterback John Welsh looks ahead after injury. Page 2

BSU/UI previews, Pages 4-5.
John Welsh: a scholar in shoulder pads

by Nathan Jerke
3000 Magazine

The college football player is too often seen only as a public image. University of Idaho quarterback John Welsh is one player whose off-field accomplishments have mirrored his prowess on the gridiron. He's already collected his bachelor's degree, is working on his master's, and has become one of UI's greatest players in the process.

The senior season is emotional for any athlete. It forecasts the end of an era, a division between how things were done and how they will continue. "Everything is all about us, the seniors. Coach wanting us to leave here with a ring," Welsh said.

That's probably the most important thing that he stresses, because he left here when he was a senior. He's one of the most important things. You'd be nothing better than to leave here with your senior year with a ring," Welsh said.

Welsh joined the Vandals after a successful stint at Moffitt Academy of Texas. Welsh was a state champion quarterback in 1999. He began his freshman year when, after three spring quarterbacks were injured, Welsh led the Vandals to a decisive victory over North Texas and secured his own starting role.

Welsh quickly grew to fit the role. He has made custom meals for two games after he replaced Robertson. Welsh led the charge to a thrilling overtime victory over Boise State. This win secured UI's first conference title since the team joined the WAC.

The freshman then took the Vandals to their first Humanitarian Bowl, defeating favored Southern Mississippi. Welsh received MVP honors for that effort.

"The win meant was one of the most memorable nights of my football life," Welsh said. He has yet since been able to lead his team back to championship status. Boise State has bunned Welsh and the Vandals since the 1999 victory, winning both games the following year. They're out in our confusion. They're not the last game of this year like they use to be. But it's Boise State and it's a big rivalry and it always is going to be," Welsh said.

Welsh, however, will not be able to play against Arizona in the annual match-up for the In-state rivals title on Saturday. Welsh is working on completing his degree in business administration.

The Vandals were in the Vandals law in the Washington Huskies. Welsh was forced out of the game in the first quarter with a separated right shoulder. This injury disabled his throwing arm.

"Welsh doesn't expect to be out long. He says his arm feels better everyday. But he isn't sure when he will be able to play. And he is concerned that Boise will be able to take advantage of his absence.

"Missing any game your senior year is huge month, but Boise State is a huge game for us. Especially those guys coming into our house this year," said Brindamour.

Welsh is ready to take this one over. Welsh is the difference. Welsh has been an executive presence. Revenge was in the mind of the injured quarterback. He knows the Vandals need this win; it is going to be a win if Boise State loses.

"We've just got to make more points that we have been the last single of weeks, that's the bottom line, we're not going to be able to carry the same," Welsh said.

Being ranked in the top 10 quarterbacks in the nation last year may have been the. "This year, we're coming up against a conference crew. Welsh has tremendously numbers including 3,111 yards passing with 17 touchdowns and 14 interceptions. His ability have not been limited to the playing field. He graduated last spring with a bachelor's degree in public communication and is now working on his master's in sport recreation management. He hopes to work on a sports management program.

"Whatever happens with football will be a bonus. I guess, it's always been a goal of mine to go play at the next level, wherever it is. I know it's a little strange. I'm a guy who's graduating. I'm not sure why I graduated and am working on my degree. Hopefully I can get a good job. It's just an extra privilege to work on my master's and being able to concentrate on my major sans of football."

It's likely that Welsh's work on this particular season will make his concentration difficult. Welsh set a new pattern in order to simplify his life.

"I try to have the same routine always. Whatever we eat, even if it's an away game, we eat at the same time. We leave at the same time. It's always been the same thing, it's a little while, since the last game I always went to the Boise State. I've been hitting with him the last three or four years.

"Having for the "real world" can be hard on those who have built bonds and friendships through battles of spirit and competition with fellow players.

"If by my memories, first of all is absolutely the guy I've been close and go my five years here, the relationships with everybody. The athleticism and the community... Football comes in. Welsh said. But his approach to the game is different as well.

"I'm not sure we weren't winning. It was just great to have those players always wear football. Nobody like going to school, but no one just like having a team. The team has been fun. Has been fun too--just having a good time."

Brad Rice: all-around team player

New linebacker is mastering yet another position

BY JANE ALLEN

Brad Rice, it is a new season and a new position. Again. He changed positions from quarterback to safety as a freshman. This year as a senior he has moved again, from safety to linebacker.

While many people would be annoyed with having to make such a huge adjustment as a senior, Rice has taken it in stride.

"It's gone really well I think," Rice said. "I think I've learned it fairly quickly. Obviously I'm not great at everything, just because I haven't done it for very long. But it's coming quick. I'm starting to get the feel of it."

Rice grew up in a sports family. Both of his parents were officially gifted, and so was his brother, he said. His parents were eager to get him involved in sports, and Rice was up for it.

But his uncle, Mike Rice, played a big part in getting young Brad into the football.

"I got a chance to see him at TV, so right from a young age I was always filled up," Rice said.

Rice enjoyed a stellar football career at Leilgwe High School. He had 59 tackles as a senior, and was a part of the team that won the state championship.

During his time at Leilgwe, Rice was a key player in the team's success. He was known for his speed, his ability to make tackles, and his leadership on the field.

But Rice's love for football didn't stop there. He continued to play in college, and soon became a standout linebacker for the team.

"It's been a lot of fun, it's different than playing definitive back. The closer you get to the line of scrimmage, the less running you have to do, and the more you just have to react," Rice said. "It's a different kind of football, but I think it's a lot of fun."

Rice has been named the Most Valuable Player in the Palouse for his performance this season. He has been a key player in the team's success, and his efforts have not gone unnoticed.

"I'm proud of myself," Rice said.

"It's a lot of fun, it's different than playing defensive back. The closer you get to the line of scrimmage, the less running you have to do, and the more you just have to react," Rice said. "It's a different kind of football, but I think it's a lot of fun."

Rice is looking forward to the future. He plans to continue his football career, and hopes to play at the next level.

"I'm trying to improve," Rice said.

Boise State looks to get Vandals under its hooves for third straight game.

BY NATE JENSEN

Boise State has owned the Vandals the last two years, defeating UI by a combined 335-58 in those games. Last year the Broncos beat the Vandals 61-24 positioning Boise "Stout East." But the Broncos are looking to break the Broncos in Martin Stadium.

"Boise State is coming off their first win of the year against Utah State last week. The Broncos have been stronger this year since they have improved from last season's first conference championships. This year the Broncos have been consistent and talented this season," said Boise State executive assistant coach Dan Howell.

Along with a new quarterback comes a new coaching staff with a new system for the team to learn. When miracle worker Kayte Burgher suddenly jumped ship to take the head coaching position, Boise State found itself with a clean slate of players.

Boise State is still a very solid and experienced team. Boise State and David Mikhail, last year's top quarterback, are both back this year. Burgher, however, has already racked up 258 yards in two touchdowns.

If Faneys cannot fill the shoes of the backfield workhorse Mikhail, Faneys has to step up on the ground and one out from the air. He's already piled up 578 all-purpose yards so far this year.

The Vandals have won more games overall in matchups against state rival Boise State. The following is a record of total scores since 1971:

<table>

"Boise State is still a very solid and experienced team. Boise State and David Mikhail, last year's top quarterback, are both back this year. Burgher, however, has already racked up 258 yards in two touchdowns."

In summary, the Boise State Broncos are still the team to beat this year.

"They're still the team to beat this year. They've got a lot of young talent and they're always looking to improve. They're going to be a tough team to beat," said Idaho's head coach.

The Arizona State University's quarterback, Jay Pellerin, has already thrown for 214 yards and 16 receptions so far this year. His passing ability, along with his running ability, make him a very dangerous quarterback.

"Boise State has a strong defense, but we're confident we can handle them," said Pellerin. "We've been playing well this year and we're looking to continue our success against Boise State."

The game is set to kick off at 2:30 PM at Martin Stadium in Boise, Idaho.
Cable: ‘I believe in them’

Vandals look to end Broncos’ winning streak

BY JAY BIEGEL PULLMAN PRESS

The University of Idaho football team’s annual game against state rival, Boise State, could not come at a better time, UI head coach Tom Cable said Tuesday.

“I think the Boise State game comes for us at the best time, the way things have been for us thus far in the season,” Cable said. “It’s an exciting game. It’s one that everybody looks to. It means a lot to the state, communities, everything.”

The Vandals (0-3) head into Saturday’s contest at WSU’s Martin Stadium looking for their first win of the season. Idaho’s latest defeat came at the hands of the University of Washington, as the Huskies took advantage of three special teams’ touchdowns in their 53-3 victory.

“You can’t put yourself in a hole like we did… and expect to get out,” Cable said. “We’ve got to coach better and play better. We look forward to that challenge.”

Cable pointed to the special teams’ holes as an area that hurt them in the game. “We got two kickoff returns on us, and that hasn’t happened to us. It’s a matter of discipline on those kicks,” Cable said. Cable also saw some practices in last week’s loss as a turning point. “That’s the week we had had the highest amount of injuries. It was a really good week, probably the best game last week,” Cable said.

Cable also concluded that both Boise Howl and Boise State have been at a high level against UI. Howard, a sophomore tackle, recorded the Vandals’ only sack in the first half of the game. Howard and专辑 other Idaho defenders have been playing well as of late, Cable said.

“The offensive line has been able to block pretty good defensively for us the last couple of weeks,” Cable said. “The special teams have been pretty good as well.”

UI junior tailback Bilal Lee ran for 104 yards against the Huskies’ defense in efforts. Two 60-yard runs from Lee on 110 yard rushing total for the Vandals.

“I really think we’re starting to get better, our line blocking better, running the ball better,” Cable said.

Cable also saw more practices in last week’s loss as a turning point. “That’s the week we had had the highest amount of injuries. It was a really good week, probably the best game last week,” Cable said.

At a press conference Tuesday, Cable said Saturday’s game will be the last chance for Idaho players to play in front of a hometown crowd this season. The Vandals have been tumor and losing seasons so far this year.

“Our issue right now is staying together. We still have an opportunity to go 6-3. We still have an opportunity to win a championship. It’s a bowl game and a championship. We’re going to play our best, win and see what happens.”

“I think it’s a great opportunity, a great challenge, and it’s one that we’re excited about,” Cable said.

“I think we’re going to play our best, put our best effort into it and try to play our best. I think we’re going to have a great week of preparation and we’re going to do our best to win that game.”

Cable also had UI’s first interception of the year against the Boise State players. Idaho’s defense limited Boise State to 137 rushing yards.

“This week we need to make sure we get the ball out on our own end of the field,” Cable said.

Cable continued to see improvement in UI’s secondary as well.

“We made some plays last week,” Cable said.

Junior strong safety Jordan Krammer made the team with 24 tackles, while senior linebacker Gay, and junior for Idaho both recorded at least 20 tackles last Saturday.

“I think that all three of those guys are going to be keys to us,” Cable said.

“I think that all three of those guys are going to be keys to us,” Cable said.

“I think we’re going to have a great week of preparation and we’re going to do our best to win that game.”

“Our issue right now is staying together. We still have an opportunity to go 6-3. We still have an opportunity to win a championship. It’s a bowl game and a championship. We’re going to play our best, win and see what happens.”

“We’ve got to get the ball out on our own end of the field,” Cable said.

“ar are going to be keys to us,” Cable said.

“I think we’ve got a great week of preparation and we’re going do our best to win that game.”
