University employees laid off by 5/31/2002

31 positions eliminated, 28 effective end of June

Despite complaints

The work force at the University of Idaho continues to shrink. In addition to the 130 employees who are retiring, 35 employees have been laid off.

Three of those positions are faculty: Anthropology, April Gilchrist; Physics, Dennis Tribble; and Business, John Triebel. The three positions were characterized as unclassified staff. 18 were non-

They may need help disengaging their career and life skills in order to be competitive in the job market.

Tribble, an associate professor of physics, said, "It was important that the department have the resources for this, even though it was a small amount."

"We were not able to offer a position to the student," Tribble said.

As for the laid-off employees, Tribble said, "We are going to try to find jobs for them, but the job market is tough for a "skill" he said.

Interviewing techniques may also be different from when they last applied for a job, "If people aren't prepared for a job, they may not be able to put their best foot forward," Tribble said.

There are many empty seats at the Garden Lounge this summer. The Garden’s managers have been cut in half.

Local businesses, summer students, residents feel the lag when UI students leave town for the summer.

Insiders only

T he University of Idaho is moving to an expanded wireless services system. Wireless products and services Information Technology Services are part of an effort to move UI beyond the repul-

"Our goal is to eventually become a bigger computing campus, which will reduce the demand for computer labs and other student-to-student in-person computer contacts."

Rao Bhatia, director of ITS, said in a press release.

"It will be able to support educational and research projects that were not possible in the past."

Hughett says wireless is economically better.

"The university will save money in refitting existing space in hard-to-reach areas, and the network will be well-matched to collaborative learning," Hughett said.

"For instance, students in a mathematics class will be able to form small online groups and work on presentations or projects for an audi-

Eminem's fans offer impressive Web sites

By Steve GUTMANN

via Associated Press

Eminem.com offers a single download site for the latest albums, videos, and more. The site, which was started by Eminem's manager, provides fans with a place to buy the latest albums and videos. Fans can also download Eminem's songs, including some of his old favorites. The site is easy to navigate, and fans can browse the latest albums and videos. The site also offers a variety of additional features, such as news, tour dates, and more. Fans can sign up for a newsletter to receive the latest updates and news about Eminem. The site is designed to be user-friendly, and it offers a variety of tools to make it easy for fans to find the information they need. Overall, Eminem.com is a great resource for fans who want to stay up-to-date on the latest news and releases from Eminem.
Evidence shows Chandra Levy was murdered, authorities say

WASHINGTON (AP) - Chandra Levy's death was a homicide Tuesday, but the city's medical examiner said there was not enough evidence on her skeletal remains to determine how she died.

A 24-year-old former federal intern was murdered, but authorities specifically ruled the case as a homicide, according to Dr. Carol J. Township, Washington's chief medical examiner.

Police expected to finish by Thursday their search at the town house where Levy's body was found on May 13. Officers found at the scene will be in the FBI prime list for further testing and detectives met Tuesday to plan their next step.

"We know this is going to be a long case," Township said. "We guarantee you that." Washington Metropolitan Police Chief Paul L. Ramsey said, bringing at question about whether his department should have handled the disappearance differently.

"We're going to be here until we're not going to stop, whether it's a day from now or 10 years from now, it doesn't matter to us."

The official homicide ruling came just hours before Levy's parents held a memorial service for their daughter. They announced the death during a news conference at their home, in Southeast.

"We're in shock," said her father, Frank Levy. "We're in shock."

"It's not real," said her mother, Gail.

"It's not real," she said.
