**Homecoming plans booming**

Committee wants to bring back fireworks

Christina Leeds

As president of the student government, Craig Petersen works hard to ensure that the purchases the student government makes are both sound and popular with ASUI members. When the student government decided to bring back fireworks as a Homecoming tradition, Petersen was skeptical of the decision but continued to support its implementation. Petersen further said that there is a misconception that all professors are against the idea of fireworks, and that many professors actually look forward to them. Petersen mentioned that the student government has been working on this project for a long time and is excited to bring it back to campus.

**ROTC leaps into future**

Rappelling lab helps cadets learn leadership

Captain Dyson Anderson

Anderson said that the ROTC program has moved into new facilities to accommodate the increased number of students enrolled in the program. The new facilities include a rappelling lab, which is designed to help students develop leadership skills and physical fitness. Anderson also mentioned that the program is working on expanding its mission to include more leadership opportunities for students.

**Craig leaves last marking on university**

Senator helped UI get more than $150 million while in office

Savannah Cummings

According to Anderson, the military is an excellent opportunity for students, as it offers them the chance to learn and grow both personally and professionally. Anderson emphasized that the ROTC program is committed to providing a top-quality education for its cadets, and that the new facilities are designed to support this mission.

**“Once you have Vandals blood in your veins, it never leaves.”**

Martin Peterson President

Peterson said that the ROTC program is significant in terms of national defense and national security. He mentioned that the program is an excellent opportunity for students who wish to serve their country, and that it provides them with valuable leadership and team-building skills.

**Senator to stay in office**

Senators who have served more than three terms have the option to run for re-election. The senators who have completed their terms have the option to run for another term. The senators who have not completed their terms have the option to run for a new term. Senators who have completed more than three terms have the option to run for a new term. Senators who have completed fewer than three terms have the option to run for re-election.

 Correction

In the Tuesday, Sept. 20 issue, the last paragraph of the "God of Hate" story should have read: The actors are confident that they are ready for the premiere and have enjoyed the long rehearsals and preparations.

Audrey Bonet, Jeff's spouse in the play agreed. "We are totally ready," Bonet said.

BEYOND THE SHEETS

Metal additives

Dear Chris,

I'm considering getting a piercing. Should I be concerned about metal additives, and if so, how do I find out what's in the metal? Can I wear metal or is it best to avoid it?

Chris

Dear Chris,

This is quite a decision you have to make. If you have a piercing already, I suggest doing a bit of research on the different piercing metals available, with particular focus on sensitivity. If you're considering a new piercing, make the appointment and get the facts. What's going to be done? What's the aftercare? What's the warranty? You need to know these guidelines to ensure proper healing and sterility. With a new piercing, it's important to make sure it does not become infected.

As for the piercing, there are several factors. With body piercing, it's important to ensure your piercing is done with the most sensitive of the piercing metals.

Remember, your body is not a machine, and it cannot be compared to one. This is why it's important to choose the right piercing metal.

Another thing to keep in mind is if you get a piercing, it will affect your sexual partner before any activity happens. With a new piercing, it will not affect your sexual partner in any way, particularly the piece movement.

This can be damaging if your partner has no prior experience with genital adornments and cannot imagine an "Oh no, we just didn't know" it was done.

Black Student Union hosts barbecue for new members

Group seeing increase in attendance; open to students of all races, ethnicities

Jessie Mullins

When graduate student Tyler Williams first attended a Black Student Union meeting, he was impressed that the group targeted not just black students, but all student groups. Early this semester Williams decided to become the group's new co-chair.

"It's the first time I've had an organization that has members from all different groups," Williams said. "So when I first decided to join, I was very excited to be involved.

As a member of the Palouse and one of the only black students over here, I really have not been around a lot of black students. This group is giving me a chance to meet a lot of different people and work with them.

I'm really happy here being with all these people.

Williams said he hopes the group can help build negative black stereotypes. Most of the students at BSU are predominately Caucasian.

"They really hold something that other people can relate to," Williams said. "This is the first time I've been on a black student group and been able to do things that everyone else can do.

Even through a person may not be black, they can relate to things we're doing and that makes it a lot easier.

I think a lot of black people are very different because of the negative stereotypes that surround them."

To learn about other cultures is one of the reasons Williams came to BSU, he said. "I can learn so much more. It's an interesting opportunity."

Williams said.

President’s Sustainability Symposium
Carbon, Climate and Our Environment: Partnerships for Success

October 1-2, 2007

President Thursday 4 White is hosting the University of Idaho’s first annual symposium on nurturing our land, water and air and ensuring a healthy, economically and socially vibrant future. The symposium’s initiatives have become important in the university community.

The inaugural symposium will address the significant issues of greenhouse gas (GHG) emissions and the role of government, business and higher education partnerships in seeking solutions to problems related to these emissions.

Monday, October 1 from 8:00 a.m. – 5:00 p.m. Student Union Ballroom - free and open to the public

Welcome, Overview and Challenge
Dr. Timothy White, President and CEO, University of Idaho
The Science of Greenhouse Gases and Climate Change
Dr. Michael H. Hanson, Professor and Director of Climate Change Programs, Climate Institute
The State of Idaho and Solutions to Climate Change
Emissions
Vanessa C. L. "Bacha" Gomez, Co-owner of Idaho Private Sector Perspectives and Market Strategies
Dr. Richard C. Childress and Co-CEOS, Chicago and California Climate Changes
International and Regional Perspectives: Carbon Policies in Great Britain and the Western States
Mr. James A. Holladay, Climate Change Professor Group Head, Idaho and Hawaii Law Firm

The Role of Financing Energy Efficiency
Dr. Phil Green, University of Idaho

Black Student Union hosts barbecue for new members

3 p.m. Sunday, Campus Family Housing Community Center, 502 E. Taylor Ave.
Siris, who has been involved in BSU since it began, said she hopes the organization carry on years from now.

"For me it is not about getting something out of BSU but being with BSU and promoting and growing BSU and campus," Siris said.

"It is about the BSU and being a positive role model for the BSU, such as Sunday's barbeque," Siris explained.

"Some people have a lot of time on their backs and I think (the BSU) is something to do to allow them to experience college life on a different stage and get to know your peers."

"I am looking forward to the barbecue. Sunday’s always a good day for a new thing to come.

"The big news," Siris said. ""It is going to happen.

Students connect at Networking Night

Hayley Goethman

Every passing day represents a truth that hangs over the University of Idaho campus. So actually thinking about the future can be quite alarming, and the thought of what potential employers should sound like can sound like a pretty scary scenario.

Luckily, an opportunity to do just that is presented to University of Idaho students. The event is called the "Networking Night," and it is sponsored by the Center for Career, Employability and Sustainability (CCE) and serves as an opportunity for students to connect with potential employers.

The event is designed for University of Idaho students to meet with employers who are looking for potential employees and will sit for 90 minutes in a "speed networking" fashion.

Participants have the opportunity to connect with employers in various fields while hearing about the careers they work in. By doing this, students can better gauge what career they are interested in pursuing.

"Networking Night is a great opportunity for students to practice and hone their skills in the workplace," said Lauren Connors, the CCE director.

Connors went on to say that "students should come prepared to network. They should have a well-organized business card and their resume with them. They should also have a career objective in mind and be ready to discuss their experience."

The event will be held at the Boise State University Student Union and will continue throughout the evening. Students will have the opportunity to connect with students and employers from various fields.

In this type of environment, students can explore career options and gain valuable experience. It is an excellent opportunity to meet potential employers and learn about different career paths.

Networking Night is a valuable event for University of Idaho students. It provides an opportunity to connect with potential employers and gain valuable experience in the workplace. Students should come prepared to network, have a well-organized business card and resume, and be ready to discuss their experience and career objectives.

The event is open to all University of Idaho students and will be held at the Boise State University Student Union. Students are encouraged to attend and gain valuable experience in the workplace.
Chairman Rupert Seely in Idaho's ASUI Senate. Seely, a freshman from Boise, is the president of the group, which is called the American Student Union. Seely wants to involve more students and leaders in the activities. He said:

"I believe that by involving more students and leaders, we can achieve our goals more effectively. By collaborating with others, we can tap into a broader range of perspective and ideas. This will help us to broaden our horizons and make informed decisions."

PLANS from page 1

Peterson added that some members of ASUI were working on a specific campus code of conduct theme as well as an ethics program to integrate 20 into the other aspects of the university. The Arizona Student Association is committed to promoting the values of ethical behavior and integrity in the academic environment.

Watch where you spread the word

Christian-based groups are by far the most visible in campus life and you are likely to see a date or a time for a Youth for Christ youth event. With around campus digitally, immediately online and the University campus,Apple products and served be more than just any other religious groups on campus, but the sheer volume of students of which Christ drives them there. University campus are a great place to build academic relationships and they are not receptive to the many attempts by Gibbons to get their message out and businesses trying to sell merchandize. Scouring Amazon.com, I found nothing on the presence of Christian group members. Chad claudia, who is a pretty nice guy on the dangers of walking on campus without an iPod, especially on days that big bills are being handed out. Certain Christian groups often seek more introductions. I assume you are aware of the various answers to the question "Am I a Christian?" in some cases this is not a sufficient answer that one is not interested, but should be. Being American, most of us indeed have heard of this Jesus fellow already. Many people here in the past considered themselves Christian. Stating that you are not one is enough�

Creepy Mr. Craig

Sorry to pick on an old subject, but I have an issue with the bathroom setup by Mr. Craig. My bathroom is on the third floor and I suggest you who where armed, apparently even though you lived it are for a few months, the bathroom setup by Mr. Craig is torture. Sounds like a Cheney move. Mr. Craig would find even his own installation has been considered for a crime that they didn't fire the students of the Honolulu County prosecutor. The bathroom is a terrible set cut and run, you enjoy the coarse. Good job. Additionally, I have never used public facilities and I have never touched fast with a neighbor, much to pick up toilet paper from another stall, or did Mr. Craig want you to pick up the toilet paper and you did not pick up dirty. However, my figures tell me that the fact you are keeping telling everyone that you won't do the work they don't 'march', gay people don't do what you told them. This is a gay issue, so stop hiding behind it. You can find out more in "Sexuality in public bathroom"

Crunch the numbers

"Because they ignore Gwaripan decisions government spending" over the last few years. While the Republicans have been spending more since conservatives have, President Bush's tax cuts and increased defense spending have added $2.7 trillion to the deficit. According to the Center for Budget and Policy Priorites, the $2.7 trillion is "the largest in the history of the United States." The new office will be responsible for tracking the budget deficit and trying to make recommendations for how to reduce it. If the government wants to avoid a similar fate, it is going to have to spend less on wars and other military operations.

Shane Alaim

dent

What you paid guilty to, Craig, is not what a person goes through. It's a perpetually driving something as perversion that's being seduced sex is an airport bathroom and getting caught by a vice cop. So please just try to find out what you are doing to be beside the point. You did a good job on the bathroom setup. Mr. Craig would find even his own installation has been considered for a crime that they didn't fire the students of the Honolulu County prosecutor. The bathroom is a terrible set cut and run, you enjoy the coarse. Good job. Additionally, I have never touched fast with a neighbor, much to pick up toilet paper from another stall, or did Mr. Craig want you to pick up the toilet paper and you did not pick up dirty. America's biggest morons

News comes at us so fast these days that it can be difficult to keep up. The latest adds to the constant information overload, but what can a news consumer do? Go to bed and try to forget the world, or jump on the Internet to catch up on the latest stories.

Six nuts in Arkansas excommunicated for heresy

By T. Russell

It's been a long time since a politician's past year-old letter the minimum-wage for alcoholics and convicts. And although they don't get it back in the afterlife, they do get to bring it to the afterlife. Subsidy, conv. Because they own it. Now, that's a real solution.

Firefighters accuses of using laws of Life in vandalism scare

Four 20-footers-Vermont volunteer firefighers are accused of using pallet-hauling and windshield wipes off of cars and then dumping them in a dumpster. It's a tragedy, but you know why fire transport is called a part of a science.

No cars were seized, or burned, during the alleged vandalism.

Company CFO erases keys file while deleting porn

Peter Murman, a Phoenix-based financial consultant who redacted the CFO's password, and wiped out important files containing passwords, was fired. The de-creted document contained information about the 50 students needed.

The login on Friday, 12:30 a.m., and the password on Saturday, 6:30 a.m., cannot be recovered. He was also out of work. Can't we have a new computer Monday morning?

Support for the UN, not for dictators

Associated Press

"Aftenposten," Oslo, Norway, on the United Nations:

"It seems as if there is doubt about the usefulness of the UN as an international forum and predictable, world-wide belief on the UN's ability to influence its own success. It is useless to keep people from enlisting in "everyone" toılmes-, even in support for the UN has grown in recent months..."

The United States should now show that a superpower nation is prepared to seize the moment to redress the balance of power. The people should not be allowed to ignore the UN in order to pursue their own self-interests and objectives, which are entwined with the UN's success, but they can be made to join together to support the UN's goals. For, the UN can never be morons than its membership creates. It make pull more clearly. The UN's important role in the world will be diminished. The UN is an example of good work, but only if the world's leaders and citizens alike support it.

Svenska Dagbladet, Sweden, on dictatorships:

Mass democracies have been, and still are,PLITTIENED. Because the path to life in a mass democracy is not worth the struggle, it can become a trap. The trap of democracy is the only way to achieve a democratic society.

In Burma, it was a shock to learn that the National League for Democracy was in the midst of a struggle in which the mass publics are at stake. The National League for Democracy was determined to bring Burma into a democratic society. The need for a free press, for freedom of speech, for the right to participate in the political process, for the right to change, for the right to a future, has been the driving force behind the struggle.

Bill Clinton's legacy looms over debate

On Thursday, Clinton's campaign acknowledged that he will not campaign to support the proposals, and the radio ads for Clinton's proposals, have been in the air.

Recently, Clinton's campaign ads have targeted voters who may be swayed by his proposals, and the ads have been airing in markets where the proposals are particularly strong. The campaign ads have featured Clinton himself, saying, "I'm not just a candidate in this election, I'm also a candidate for the future."

That Hart, who is running as the Democratic nominee in the 2008 presidential election, has been a prominent advocate of Clinton's proposals, has been in the air.

By Jacob Dickey

Students spend two months in Rome

Rome program at the Reflections Gallery in the Commons on October 17th.

The students spent two months in Rome studying architecture and history. The program was held at the University of Siena, which is located in Italy.

The students had the opportunity to attend lectures and seminars at the university, as well as visit various museums and historic sites throughout the city. They also had the chance to explore the city's architecture and art, including the famous Pantheon and the Colosseum.

The students were able to experience the local culture and lifestyle, and they were able to interact with local people and learn about their customs and traditions. They also had the chance to try new foods and explore the city's markets.

The students' work was exhibited in a show at the Reflections Gallery at the University of Idaho. The exhibit featured a variety of projects, including drawings, models, and photographs of the students' work in Rome. The exhibit was open to the public and was a great opportunity for the students to share their experiences with others.

The students were very proud of their work and enjoyed the opportunity to share it with others. They were also able to see the fruits of their labor and the progress they had made during their time in Rome.

The students had a great time in Rome and were very grateful for the opportunity to study architecture and history in such a rich and historic city. They gained a lot from their experience and hope to be able to回来 to Rome someday soon.
Wheat grinds at Dahmen

Sydney Royal

After getting around at work, Denise Baker chose to do something else at home. Without any formal training, Baker is now an established artist that has traveled throughout North America and has put on several shows. Denise Baker has taken workshops from many internationally known artists and met the creator of the Associated Press: a local Lewiston resident. Plate-Au, the French Impressionist technique of painting on location, which Baker utilizes often, appears to be very new and to learn by yourself, she said.

Although currently working mostly with paint and oil, Baker also paints with acrylics and watercolor.

"My work is so eclectic because I do 100 different things," Baker said.

In her studio, Baker works on her current painting, which is of a wheat field. She said that she had been working on this painting for over 10 years, and the wheat field is one of the things she most enjoys painting.

Baker said that she is currently working on a series of wheat paintings, and that she plans to continue working on this series for the next two years. She also said that she enjoys spending hours on end creating works of art inspired by the natural world.

Baker added that she will be exhibiting her wheat paintings at the upcoming Festival of the Arts, which will be held later this year.

Baker is currently working on her next painting, which will be a large wheat field scene. She said that she plans to spend the next two years working on this painting, and that she is excited to see how it will turn out.

DIVERSITY
from page 8
"It’s wonderful to have them around — it makes this community very interesting," she said. "It’s very much a part of the Papuan community. Their presence is so much appreciated out here in Moosic," she said.
Kappeler hopes social events for the visiting staff and helps make them feel welcome.
"They treated very well in Moosic," she said. "We have dreams, we take care of their kids, take care of them, the whole thing is all taken care of, and we’re able to have good memories of the U.S."
Kappeler’s students and friends from different cultures adds diversity in the classroom environment.
"It’s fantastic for the students," said Sumner, who has interacted with students from different cultures. "It’s helped us to expand our limited idea of cultures. It fine tunes (their) feel and gets (them) ready for whatever is out there.
The program is open for exchange USA through UK through the International Office/Program Services.
The college’s Kappeler Student Services coordinates "Founded in Faith Classified," which is for every woman or every man who is interested in the program offers services.
"The majority comes to touch Spanish but does different things as well," Kappeler said.
Kappeler’s International Programs advisor, Janice Wombacher said several students come to the Fulbright Program or International Program Office.
Scholars are either invited by a department or apply to the International Programs Office.
The program is an opportunity for those who are interested in their research and knowledge with different cultures and their experience. It’s a great thing."}

Defense looks to contain Brennan

Oracle's 1999 campaign was marked by its defensive prowess. Under the leadership of head coach boiling hot Underwood, the team finished the season ranked third in the nation with just 11 points allowed per game, a testament to their ability to stifle opponents.

Quarterbacks

Chad Pennington - QBs are known for their arm strength, and Chad has no shortage of that. He's posted a career-high 308 yards in a game.

Offensive Line

The offensive line is key to Pennington's success. Despite some injuries, the line has consistently opened holes for the running game.

Running Backs

Aaay and the game will be the chance for them to showcase what they can do on the field.

Offense.

No. 19 Hawaii

The defense has been a pillar of strength for the team. Under Underwood's guidance, the unit has improved significantly since last year.

Recent Performances

The team has shown resilience in their recent games, which bodes well for their upcoming fixtures.

Conclusion

With a strong record and a solid defense, Hawaii has a chance to make a statement in the Big West conference this season. Fans are eagerly waiting for the team to make a mark on the national stage.

DIARY OF A FANTASY GEEK

Wednesday, August 16

The Sunday night blues

When I was growing up, I loved Sunday nights. Friday was great because I had all the fun of the week, and Saturday was always a day spent with my friends. But Sunday was different. It was a day to relax, and I loved the feeling of having nothing to do. It was a day to get my mind off of school and to enjoy the company of my family.

Now, as an adult, I struggle with the same feeling. When I think back to those childhood memories, I can't help but feel nostalgic. Sunday nights were always a special time for me, and I miss that feeling now.

The Sunday night blues are a real thing, and they can be a tough thing to deal with. I try to remember that, even though I have more responsibilities now, I still have the ability to create the kind of environment I want to be in on Sunday nights.

My philosophy is to make the most of the time I have. I try to start my week off on the right foot, and I try to enjoy the time I have with my family and friends. I also try to be present in the moment, and I try to stay focused on the things that I can control.

One way I try to deal with the Sunday night blues is by practicing gratitude. I try to think about all the things I'm thankful for, and I try to focus on the positive.

Another way I try to deal with the Sunday night blues is by engaging in activities that I enjoy. When I feel down, I try to do something that makes me happy, whether it's watching a good movie, going for a walk, or spending time with my pets.

I also try to stay connected to the people in my life. I try to make time for my friends and family, and I try to be a good listener when they need me.

The Sunday night blues are a real thing, and they can be a tough thing to deal with. But I try to remember that, even though I have more responsibilities now, I still have the ability to create the kind of environment I want to be in on Sunday nights. I try to focus on the positive, and I try to make the most of the time I have.
Hull follows passion to UI

Hull is currently toiling mainly educational credit and is underscored on her.

PHIPPS from page 11

PHIPPS has been considered a tremendous athlete and one of the "Vandal coaching staff as well as athletes. PHIPPS has nothing but positive things to say about her experience and says that she will miss the university tremendously beyond what they have to offer. The strength of work that athletes bring to the team is "awesome," and she says that the athletes are "fantastic."

As a cross country and track and field athlete, PHIPPS has seen her career grow and change over the years. She entered her final year with the Rails as a senior and says that her experience has been nothing but positive. PHIPPS has lived in the country and has learned to adapt to many different situations. She says that she has grown as an athlete and has learned to be a leader on and off the track.

HANGZHOU, China — The way Brazil's soccer star Marta played, it didn't matter who was in goal for the U.S. Women's national team.

Marta, (who just goes by one name), scored two goals and the final goal in a 4-0 shutout of the U.S. Women's national team during a friendly Sunday in Hangzhou.

"If you asked me how do I, that I couldn't explain," she said after the game. "Things happen very, very quickly from the match, and afterward I still thinking, 'How did I do?'

That's what American goalie Hope Solo was asking. Angry fans, a 4-0 loss and that final goal in the 90th minute made it a bad day for Solo and her teammates. The U.S. women's national team fell to Brazil 4-0 in a friendly Sunday in Hangzhou. The 2004 Olympic champions were shut out by Brazil for the first time in a friendly game.

"I have no doubt in my mind that I would have made those saves. ... You have to live in the present. And you can't live in the past," Ryan said.

Ryan's decision to replace Solo was made 34 minutes into the game for the United States, who had been held scoreless in the first half.

"I don't know any more about that," he said. "I think that play a great game. He's not afraid of that. He didn't think twice about the game that was played."

Ryan's thought was that it was a different game. The U.S.4-0 loss from the start, and the Americans were unable to get their legs going early. They only had one shot on goal in the first half.

Scurry was left injured in the match, and may be out for the remainder of the year. Ryan said he didn't know when her return would be.

"We were not as offensively alive as they are," Ryan said. "Briana and Marta were two of the biggest threats for us, and we were not able to beat them."

Marta, who has 18 goals in 15 games for Brazil this season, scored a goal in the 10th minute on a pass from teammate Debora. She then added a goal in the 30th minute on a pass from teammate Marta. She finished the game with a goal in the 90th minute on a pass from teammate Debora. The goal was her 18th in 15 games for Brazil this season.

"I'm not sure about that," Scurry said. "But I think it's a great game. You've got a great team against a great team.

They're going to have to be better. Unfortunately, that's what happened.

Forced to play for goal in the second half, the U.S. left itself exposed against a team known for its ability to keep the ball in the air. With Scurry out, the U.S. was forced to rely on its young talent to keep the ball in the air.

"This is a history, and it's good to be part of it," Ryan said. "The U.S. national team is a great team."

Despite winning Group B, the toughest group in the tournament, the United States finished second in the World Cup. The Americans were unable to get past Brazil in the round of 16.

In the quarterfinals, the U.S. was beaten by Brazil 4-0 in a friendly game.

CAREER IN EXPO OF THE PALOUSE
GET OUT & GO
OCTOBER 2007
Career planning resources are available beyond the Expo

See What WSU Career Services Can Offer You!

Career Services can offer something for everyone! If you are undecided about your major or career, or do not know how your classes translate into a career, Career Services is here to help.

- Meet one-on-one with a Career Advisor who can help you establish academic goals and career direction.
- Visit the Resource & Technology Center to access your interests and skills and learn about occupational information by using the STIC interactive assessment tool.
- The Resource & Technology Center is also a great place to browse and get ideas about career resources such as free handouts and magazines in career-related issues to help you succeed as well.
- Take the University 100 or University 300 classes to assist you in self-assessment, career planning and job search strategies.

Once you have determined your interests and academic goals, Career Services can provide more tools to help you with your future goals.

Attend a career development workshop conducted by Career Services or an informational session sponsored by an employer.

- Find out how an internship can enhance your academic experience as well as help you make a great impression in an interview.
- Visit the Resource & Technology Center to get information about job search strategies, occupational statistics, potential employers, graduate schools, resumes writing, interviewing and what to wear to an interview.
- Explore the work world by conducting an informational interview, shadowing a professional in your career of interest, or touring companies.
- Gain professional and informational opportunities by attending the Career Expo.
- At the Career Expo, you will find employers and graduate schools from all over the country.
- Workshops and presentations on career-related topics, including a weekly workshop on the job/internship search process.
- Guest speakers for student groups, topics ranging from cover letters to interviewing, etc.

Career Planning & Professional Development Office

"This event has proven to be a positive and productive experience for students and industry representatives alike."

Welcome Career Expo Participant!

Once again, in conjunction with Washington State University, our neighbor institution of higher education, we are extremely pleased to co-sponsor the Fall Career Expo of the Palouse. This event has proven to be a positive and productive experience for students and industry representatives alike. We are honored to have you here and thank you very much for your participation.

For students, this is an exceptional opportunity to talk with employers and to explore the myriad options for internships, summer and seasonal jobs and entry-level positions. Employers learn about the quality of education and preparation students from both the UI and WSU campuses have received.

On behalf of the University of Idaho community, we are genuinely proud of our students and are confident representatives will be impressed with their demonstrated academic achievement and preparation as they enter the workforce. Our interest in students does not end in the classroom. We take an active role in assisting them find relevant and meaningful work experiences while attending classes. Additionally, we provide career-related assistance prior to and upon graduation, thus enabling students to achieve their employment and career goals.

The Career Expo of the Palouse provides a significant opportunity for students from both the UI and WSU campuses to meet with local, regional and national industry leaders. It represents an essential step in the lives of students who are well prepared to enter the workforce and become contributing members of society.

Best wishes to each of you!

Timothy P. White
