UI club celebrates recycling day

When it comes to recycling, "in my mind, it's a simple thing," Franklin said. Franklin said a lot of people may not know how easy recycling is and people may not even know what they can recycle. "Recycling is a lot easier than you think," Dickerson said.

An estimate of 14 percent of trash is recycled yearly on the UI campus and the Environmental Club and Sustainability Center are working on increasing the amount. More than 1.5 million tons of solid waste is thrown into landfills each year, the environmental club is working on a petition to reduce the amount by 30 percent by 2023, Franklin said.

Environmental Club members would like to increase the amount of bins throughout campus, leading students to recycle more. And to make recycling more of a priority than it is now. They are really focusing on waste reduction, Franklin said.

The Sustainability Center had a survey available on their website to see what students think about increasing student fees to provide recycling facilities around campus. It will give the center an idea of what students think about the idea.

Other events the Environmental Club organizes throughout the year, such as Earth Day, which raises awareness about environmental issues. The club also participates in on-campus events or recycling holidays, for example.
ASUI Senate seeks cap on parking fees

Senator hopes to see students get involved with proposed council; Social Senate approves parking fees and pass "off-campus ordinance"

City Council

Chang provides new noise ordinance

Language in noise ordinance will be reconsidered after Dec. 3 meeting

Will McPherson

Agenda

Changes are on the horizon for University of Idaho students who violate noise ordinances. On Tuesday, the council heard the preliminary report from the committee on noise and found that the ordinance currently in place is not effective at preventing violations.

"The changes will not only improve the quality of life on campus, but also reduce the amount of noise that comes to people living off-campus," said Gil Holbrook, associate director of University Housing. Holbrook said that the current ordinance is not effective at preventing violations due to the nature of the ordinance.

"Some of the members in the room today, I don't think that we can deal with that problem," said Brandt.

It is the committee's intention to have the ordinance rewritten to be more effective at preventing violations, according to Brandt.

"It is intended to make it more difficult for people to violate the ordinance," said Brandt.

It is the committee's intention to have the ordinance rewritten to be more effective at preventing violations, according to Brandt.

UI alumna helps expand Human Performance Lab

Brendan Mac
Agnew

After repairing the damage caused by a fire in the locker room of the Physical Education Building, the Department of Health, Physical Education, Recreation and Dance recently opened its renovated Human Performance Lab.

The fire started last January and was caused by a spark that started a fire in the women’s health center and firefighters must have used a lot of water, which results in damage to the children’s room. The states where the fire started is gone and the opposite wall will be torn down, but the room will be able to continue its usual use.

The locker room is being renovated, but access to the office area will be closed for a while. The old audio/visual room that was used to play research films, "The Cave," will be used in the area. The fire damage to the office area will be repaired. The new office area will be able to use for construction films, but Brownrow said new equipment would range from $25,000 to $30,000. If the expected lab will be dug up, the office area will be taken down, which means free for the lab area. A high-speed motion analysis platform that will use cameras to track film and movies will also be used.

Benefits from the lab consist of the cost of living — including benefits. Brownrow said the government isn’t the same for every country and Brownrow said the government pays for the medical expenses in the human resources and the classrooms.

The new plan is centered around a new plan, and students' ability to use the ability of the students' ability to use the ability to work for their money. Noble said "We should be doing things" is not the best word to describe us.

"You buy what you need and what you need." Brownrow said, "In the lab, students will be asked to hire others. You can't work on research and the lab, you don't have to.

The new plan replaces some of the old plans. "Great Odisson" is an amount of money given in each department. The university to cover it. The old plan was meditation. Premiums are the best for the lab. Brownrow said "By the way, Pirates — you are going to work on a lab, that adds a certain kind of spice."

"We can't see the figure and for some reason, to us, pirates become cool.

Boys, men, or cats?—why?

The shift out of Daylight Savings Time is expected to be noticeable in northern Idaho with our high altitude. It can be a challenge for anyone who has been in college for a while and lives in a very different place from your hometown. It can be very frustrating to not be able to see your family and friends during the time you are supposed to be away from them.

I'm sure you can relate to this feeling when you're away from home. It's a time when you're most likely to notice the difference between being at home and being away from home. You may feel like you're missing out on things that are happening at home, or you may feel like you're missing out on things that are happening at school.

The difference between being at home and being away from home can be very noticeable. Sometimes you may feel like you're missing out on things that are happening at home, or you may feel like you're missing out on things that are happening at school.

Step by step:

Thanksgiving groceries on a budget

Myszore Robertson

Agrostum

When it comes to gathering the goods for Thanksgiving dinner, it doesn’t have to break the bank. For those who are looking to save money on their holiday meal, there are a few things to keep in mind.

**Commentary**

From who has the best deals to which stores offer the most variety, there are plenty of factors to consider when shopping for Thanksgiving groceries.

**Rosauers**

Rosauers also has some great deals throughout the store, which can save you money on your holiday meal. You can find sales on popular brands like Kraft, Clorox, and Reynolds at Rosauers.

Safeway

Safeway is another great option for Thanksgiving groceries. They offer a wide variety of items, including fresh produce, meats, and dairy products, all at great prices.
The article discusses the intertextuality and cultural influences in film making, with a focus on Wes Anderson's work. It mentions how Anderson's films often draw from various sources and incorporate elements from different cultures, resulting in a unique style that is both homage and critique. The article also touches on the themes of identity, nostalgia, and cultural shift that are prevalent in Anderson's work, highlighting his ability to blend disparate elements into cohesive narratives. 

A specific case study is presented, featuring the film "The Darjeeling Limited," which explores themes of familial relationships and cultural awakening in a road trip setting. The article also notes Anderson's use of music and visual cues to enhance the film's overall aesthetic, creating a seamless tapestry of visual and auditory experiences. 

The piece concludes by reflecting on the lasting impact of Anderson's films, advocating for the continued appreciation and study of his work, which continues to influence and inspire filmmakers and audiences alike.
Rivalry weekend

Boise State, truck stops like "peas and carrots"

The University of Idaho football team played in Boise State's Rainbow Bowl on November 25, 2007, and it was the last time Idaho beat Boise State. The game was played in front of 28,812 fans at Idaho's Kibbie Dome.

The game was a defensive struggle, with both teams holding each other to single-digit scores. Idaho's defense was led by a trio of players, including Dusty Johnson, a senior safety, who recorded eight tackles, and sophomore linebacker Jacob Cardin, who had seven tackles for loss. Boise State's offense was led by senior quarterback Kellen Moore, who completed 23 of 33 passes for 263 yards and two touchdowns.

Idaho's defense was successful in holding Boise State to just 10 points in the game's first quarter. The Vandals then held the Broncos scoreless in the second half, leading to a 10-7 win. Idaho's defense allowed just 113 total yards of offense and forced two turnovers.

The Boise State Broncos are a nationally ranked football team, but Idaho’s defense was able to shut them down. Idaho’s defense was led by senior linebacker Tim Blaylock, who had 10 tackles and a forced fumble.

Lacrosse building for new season

Mark Morgan | Spokane

The 2007-08 Vandals' lacrosse team, led by head coach Mike D'Antoni, has already shown glimpses of what the program can be this year - 5-0 and second in the Big Sky.

"It's more repetitions, I'm trying to get better individually to help the team get better," D'Antoni said. "I'm not saying individual's every game was a 100 percent effort, but it was a good start for the season." D'Antoni had narrowed his lineup to just 18 players this year, so it was no surprise that many were not on it one or two years ago.

"I knew D'Antoni would teach me how to play. I knew I wouldn't survive at that level with him," Senior midfielder Alex Lamb said.

When she asked him where she needed to improve her game, "I would tell her that she needed to improve and get better," D'Antoni said. "We didn't give her a gold medal."

She said other schools also courted her, but she didn't think she needed to go elsewhere. "It was just the right decision for me at the right time," Lamb said.

D'Antoni's extra efforts and experience are paying off, and in her second game, she scored two goals and had two assists to help Idaho defeat Sacramento State.

"It's helping us," D'Antoni said. "I'm willing to put in the work here and I think you're going to get better."
Vandal football seniors Q&A

Marcis Fennell, O. L. Beach, Calif.
What has been your favorite moment of the last four years? The making every crazy shot count.
What legacy do you want to leave with your coach?

Brian Flowers, Jr., Long Beach, Calif.
What will you miss about playing for the Vandals?
Playing alongside friends and family and working with.
What was the most memorable game of your career?
I was at Pac-12 title game last year.
What legacy do you want your fans to have behind the Plexiglass?
Just for the understanding to work hard and do everything they do because it’s never before.

Stanley Franke, Jr., S. Los Angeles, Calif.
What will you miss about playing for the Vandals?
Playing alongside friends and family and working with.
What was the most memorable game of your career?
I was at Pac-12 title game last year.
What legacy do you want your fans to have behind the Plexiglass?
Just for the understanding to work hard and do everything they do because it’s never before.

Ryan Heacock, WR, Spokane, Wash.
What has been your favorite moment of the last four years?
Playing against Oregon and getting my first catch of the year.
What was the most memorable game of your career?
The NWSC was my redshirt season at Washington State University.
What are your plans after the season?
Possible use my degree to do something or teach and coach.

Jo Lewis, S. Seattle, Wash.
What has been your favorite moment of the last four years?
Playing for the Vandals.
What was the most memorable game in your career at Idaho?
Last year’s Bowl game in the Snake.
What legacy do you want to leave behind for the Vandals?
To work as hard as possible and never always remember your teammates are brothers.

Rolly Lumumba, R. Calgary, Alberta
What will you miss about playing for the Vandals?
Going to the geologic and geologic world.
What was the most memorable game in your career at Idaho?
A big win against Cal last year.
What legacy do you want to leave behind for the Vandals?
I want them to be strong.
