Pipe break causes flood in engineering building

Savannah Cunnings
Argonaut

Some of the University of Idaho's mechanical engineering students have discovered a flood on the second floor of a building, resulting in the closing of the entire floor. The flooding occurred in the early morning hours, and the students were the first to notice it. They have been working to clear the area and prevent any further damage.

The students were not sure what caused the flood, but they believed that it was due to a water leak or some other type of plumbing issue. They have been working to clear the area and prevent any further damage.

The students were not sure what caused the flood, but they believed that it was due to a water leak or some other type of plumbing issue. They have been working to clear the area and prevent any further damage.

**All grown up but still playing with toys**

Chris Bidmon

arg_opinion@sub.uiud.edu

Sometimes when we think of safety sex, we think only of latex or polyurethane barriers such as condoms or diaphragms. It is also important to remember other important components to sexuality, such as having safe partners and knowing one’s own limits.

Recently, I have had quite a few people approach me about adult toys. I need to talk about which toys to be careful with, and some articles about which toys to be careful with, and go against advice.

Hair is one of the most important components to sexuality. It is important to have a safe partner and to be aware of one’s own limits. It is also important to know about which toys to be careful with, and go against advice.

University asking private donors to fund Kimberly Dome renovations

Richard Wetzel

University of Idaho President Tim White announced Wednesday morning that a capital campaign is under way to raise funds to renovate the Kimberly Student Union Dining Hall, renamed the Kimberly Dome in 1982. The campaign is expected to run through at least 2008, with the goal of raising $2 million to bring the current student union facilities up to a level of excellence found at other top-tier universities.

The latest improvements at the student union came in the early 1980s with the construction of the new Vandal Inn, a 130,000 square-foot, six-story residence hall that also houses student union facilities.

During the last 15 years, the interior of the Vandal Inn has seen some renovation, including new carpet and new windows. Guitar, however, has not been paid for or upgraded since the initial construction.

The proposed renovation would include a new marquee in front of the Vandal Inn with a slanted roof that would blend in with the existing student union. The old roof would then be replaced with a 15,000-square-foot glass atrium that would add 50 feet to the height of the building.

The proposed renovation would also include the addition of a 140,000-square-foot, six-story addition to the student union, which would provide many different types of amenities, such as a large ballroom, a 2,000-person cafeteria, and a variety of small rooms and meeting spaces.

The planned renovation also includes the construction of a new residence hall next to the student union, which would add an additional 600 beds to the student body.

The university has already raised $250,000 from private donors, including a recent $100,000 gift from the Idaho National Guard, which has supported the university for many years.

The renovation is expected to start in 2006 and be completed in 2008, with the goal of making the student union one of the best in the nation.

In addition to the university, the proposed renovation would also include the construction of a new parking garage and an expanded campus tunnel system.

The university has already started planning for the new parking garage, which would be located on the north side of the university, near the existing student union.

The expanded campus tunnel system would provide a direct connection between the new parking garage and the existing student union, allowing students to easily navigate the campus without having to walk outside.

The proposed renovation is expected to cost $20 million, with the university planning to raise the funds through a combination of private donations and state funding.

The university is currently negotiating with several private donors to provide the necessary funding for the renovation, and is also looking for state support to help cover the cost.

In addition to the physical improvements, the university is also planning to add several new programs and services to the student union, including a new career center, a student health center, and an expanded entertainment and recreational facility.

The university hopes to complete the renovation as soon as possible, with the goal of providing a safe and comfortable environment for students and visitors alike.

In closing, President White said, "We are excited about the possibility of bringing this renovation to reality, and we encourage all of our university friends to join us in supporting this important project."
Greek houses are competing with each other to see which house can decrease the amount of electricity, according to a news report. The story said that the house that decreases the most electricity will win a prize.

The house that decreases the most electricity will win the prize. The prize is 10% of the amount of electricity saved. The amount of electricity saved will be determined by the amount of electricity used by the house compared to the amount of electricity used by the same house during the same period last year. One house, Delta Gamma President Marissa Coenen, said the electricity being turned off is doing much good for the environment. The university has a goal of reducing its carbon footprint by 20% by the year 2020. Coenen said that this is just the beginning of the reductions being made.

Benjamin Stalling

The house that is excited about the contest are making changes.

The house of Craig Stout, for example, is excited about the contest. They are interested in making changes. Craig is a member of the fraternity. He said that he is excited about the contest and that he will be working to decrease the amount of electricity used in the house.

LaRocco working his way across state to win votes

Sen. Larry LaRocco (D-Idaho) has been working hard to win the upcoming election. He is hoping to unseat incumbent Republican Sen. Jim Risch (R-Idaho) in the November 8, 2016, election.

LaRocco has spent 10 months traveling across the state and working state-wide as a volunteer with volunteers. He has made several visits to Idaho and the state's capital, Boise. He has also been working as a graduate student at the University of Idaho, Boise, and at the College of Southern Idaho in Twin Falls. In 1992, LaRocco ran for the Idaho State House Republican seat. He was the most successful candidate of the Idaho's U.S. House of Representatives. He won the seat in 1992 for the Idaho 1st District seat.

It is expected that LaRocco will continue, as he is the most successful candidate of the Idaho's U.S. House of Representatives. He won the seat in 1992 for the Idaho 1st District seat. It is expected that LaRocco will continue, as he is the most successful candidate of the Idaho's U.S. House of Representatives. He won the seat in 1992 for the Idaho 1st District seat.

"I will not run again as a campaign if we’re not protecting a lead," Larry LaRocco (D-Idaho) said. LaRocco has been a member of the Idaho Senate since 2007. He has been a strong advocate for renewable energy and environmental issues.

LaRocco has been a member of the Idaho Senate since 2007. He has been a strong advocate for renewable energy and environmental issues.

Students are getting a lot of attention from LaRocco. He said, "We expect a lot from the student body, and we expect the student body to be involved in the election." He also said that students involved in the election are important for LaRocco's campaign. He added that students are a crucial part of the Idaho campaign.

LaRocco is being backed by the Idaho State Senate. The Senate has endorsed LaRocco's campaign. The Senate has endorsed LaRocco's campaign.

LaRocco has been a member of the Idaho Senate since 2007. He has been a strong advocate for renewable energy and environmental issues.

Don't bring the noise

Many students don't understand how to coexist with the Moscowl City Council's new noise ordinance Tuesday.

Police cannot act as the complaint officer for noise violations in Moscow. This means that no neighbor has to complain before the offense can knock at your door.

If you are a victim of noise or disagree on the noise ordinance issue, it has been adopted by the city. There is no reason for you to leave the control or there to be more consensus.

The simple resolution and way to keep the police from self-control. Recognize when a person is talking loudly or music is playing too loud. If you happen to be up late partying on a Wednesday night, don't be surprised to see a police car around to your area.

Students like to blame non-students for being grumpy and complaining about the noise, but they have just as much right to live in peace as students do.

Police can help, but police do not have the authority to discuss or agree on this issue. This problem will not be resolved if students start to blame the police.

Assistant Chief of Police for the Moscow Police Department said he is concerned about the rezoned residential area before they cite people from the city. But Police cannot have the responsibility because passing does not mean that the police will get around usually willingly for everything.

So just be quiet between 10 p.m. and 7 a.m. Have some respect for neighbors and grow up a little.

Do this and the new noise ordinance should not be a problem.

Statecraft not removed from religion

Benjamin Ledford
Colombia op.editorial

Some of our more wise readers may notice that this week’s subject bears some similarity to last week’s. This week’s subject does not mean a free pass to be loud and crazy as possible.

Part of the college experience is learning how to coexist with the inevitable adult and that means controlling your noise magnitude.

Now all of the responsibility is not on non-students. Police can’t be responsible for the noise as much as all students.

Assistant Chief of Police for the Moscow Police Department said he is concerned about the rezoned residential area before they cite people from the city. But Police cannot have the responsibility because passing does not mean that the police will get around usually willingly for everything.

So just be quiet between 10 p.m. and 7 a.m. Have some respect for neighbors and grow up a little.

Do this and the new noise ordinance should not be a problem.

Violations can be minimized if the police are willing to work with students in the spirit of doing the right thing. We live in the same community as those who are writing this article. If we have complaints from our neighbors, we will do our best to work with them and not make their lives worse.

We are not going to allow anyone to violate the new noise ordinance and expect to win. If you feel that you have been wronged, then contact the Assistant Chief of Police.

Getting rid of the talking is not going to make our lives worse. It is just going to make our lives better.

— Roger Meyers

Your poor family

Things get bad at school sometime and it is not fair about not telling to our parents as much as possible, because if we don’t think our parents will care, then why they are here anyway.

If our parents are our friends, then we should talk to them about our problems so that they can give us advice.

Since our parents know how we feel, then they can talk to us about what we should do. They have experience about what we are feeling so they can give us some advice.

— Christine Page

Write to us two times

Christen’s letter are coming.

Agnus, Actually, they do ever hate and think I am going to come to my hometown of Pocatello to surprise them on the holiday day of the year, where 7 months time. I don’t know what to do. If I only will tell that they will be very odd, and my mother will hate me. Or she might come to visit me.

Malice and Wonderland raises funds to benefit the Pullman Arts Pavilion with Moosapalous III

The gallery for the upcoming auction at the Pullman Gallery is a work in progress as a few enthusiasts get a preview of the artwork on Thursday, Thursday. There will be a silent auction during their online and a live auction on Feb, 5.

"To have an open mind, that is a real opportunity."

Roger ROWLEY
Pullman Gallery Director

Going once, going twice
Art exhibit draws bidders for silent auction

Sydney Boyd
Report

The Pullman Art Gallery will offer the opportunity for anyone to own an original piece at its inaugural exhibit and art auction. While the works are on display from 1 to 6 p.m. Thursday, the auction will be at 6 p.m. Friday, beginning with a silent hour and silent auction.

"Art enriches your life when you're not money can't buy," said Roger Rowley, director of the Pullman Gallery.

Bill Bowler is one artist who is working in the auction against the auction and said there is a restriction of work.

"Most people these days have no idea of what is real art," Bowler said.

Rowley said the auction has overwhelmed the value of original artwork and the auction is one way to become educated on fine art and fine art appreciation.

"If you own a piece of art, it is not a work of art," Rowley said. "It is a work of art in itself."

The Pullman Art Gallery has come and gone, but since 1999 has been an event every other year. Works over 50 will be available, almost all of whom have shown their art at the gallery before.

Rowley said the demand for art is "incredible."

Rowley said the gallery is a place where people can come and see the art, also people who come for the art itself and a place to relax, come and a place to relax.

"Art is a good investment," Rowley said.

Rowley said the gallery is trying to reach further into the community with this auction and is also expecting people from as far away as St. Cloud.

Those who come to the gallery will be able to buy tickets to the event on Feb 5.

Art brightens darker days

Nancy Robertson
Agreed

The winter months don’t just bring cold and snow — for some people, artistic registration.

The Moscow Arts Commission’s newest winter Solstice exhibit, which has been on display at the Inland Northwest’s annual winter art exhibit, has been a hit with people of all ages.

The exhibit features a variety of artwork, including oil and black and white watercolor, fiber art, oil, acrylic and watercolor paintings, plus more than 25 individual interpretations of the winter season.

“The exhibit is a wonderful way to do that thing to have a winter-themed art show,” said Kathleen Rose, art director.

Joyce Tamura, who’s watercolor painting is titled “Adventures in 2008,” said that she’d had her art featured at the exhibit three or four times in the past and enjoys being involved with the community event.

“Art is tied to the community and it’s nice to have your art recognized as such,” Tamura said.

Each year the winter exhibits Tamura said she tries to paint and work on whatever she finds interesting and then paints the image.

“It’s challenging to paint in the winter. There are so few hours on the sun and it’s not too bright. You can’t just paint Christmas,” Tamura said.

Tamura, who said she constantly tries to paint and work on art wherever she finds the chance, enjoys the exhibit because it provides a way to spread and hopes that everyone will go and see the work on display — for some it is a chance to paint and technique, and everyone gets to go and see how wonderful they are all really great,” Tamura said.

Tamura’s paintings were on display at the exhibit, said that she’d like to continue participating as long as she can.

Her works are made out of rayon and charcoal and are woven on a loom on one side and machine woven on the other.

Photographs of winter will be displayed in the Third Street Gallery.

“I like to show functional things be beautiful,” Tamura said.

Patricia Schwindt, who has a series of botanical prints titled “Forest Bronze Triptych,” said an mounting story herself.

The piece, which are made out of rubber and ink on wood, were inspired by a trip she made with her art integration class to the Magruder Forest.

“We went in the fall and drew the trees around us. We white paper, it was a great opportunity for me to show our place in relation to the earth, and to each other,” Schwindt said.

She then took her drawing that she did that day at the Magruder Forest and drew it into wind picking rubber cutting the same kind of looking that is used on printmaking.

“Drawing with different materials and mediums and see what I can do with them, and how I can manipulate them in various ways,” Schwindt said.

Something, who said that she worked in Pullman in 2003, got involved with the Winter Solstice Exhibit when she saw a call for artists to submit to the gallery and thought it would be a good way to be involved with the community.

“I thought it would be a great show to work my piece,” Something said.

One of the most recent events of her work displays on the exhibit as well, which was very exciting for him,” something said.

With all of the different works on display, Burns said that everyone hopes everyone will come and see the showcase of the entire art and talent.

“We have quite the variety of talented artists around the Pullman and you always find the work that stands out in one place,” Burns said.

Clumsy Lovers, Crafty Bastards

The Clumsy Lovers bring more than 350 fans to John’s Alley every tour

Pubby A. Henry
Agreed

It’s not often that John’s Alley gets filled to maximum capacity.

When it comes to her bands, the Clumsy Lovers draw over 200 fans to the Alley like a moth to a flame.

“Each time we come here we have a great time,” said D.C. Johnson, John’s Alley director.

The Lovers bring people that just want to be entertained and socialize. They bring energy. They start tight and go and maintain throughout the entire show,” Johnson said.

D.C. Johnson
Local historian

“Once they start in on that 15 minute ADCP riff — man, that gets people fired up.”

The Clumsy Lovers take Trent Freeman on fiddle, Evan Haskins on banjo, mandolin and guitar, and local vocalist and rhythm guitar, Trevor Rogers on vocals, and tenor harmonica, accordion, Rebecca Lynn on fiddle, and guitar singer songwriters, and Tyler Thompson on bass.

The band plays Celtic folk rock and a mixture of rock and roll and some nice and relaxing songs on their own songs along with covers, said Johnson, “We help every one feel fun.”

ArtBRIEF

Barnes and Noble discovers UI writer

The release of UI Lecturer Beverly Barnes’ book, “Destiny’s Call,” is not only another chapter in a Barnes and Noble history, it’s also a Writers selection.

Distributed by “The Binders Hotel,” the novel’s manner began as his master of the arts thesis.

He now serves as a coordinator of the Master of Fine Arts program in the university.

The book will be published by University of Nebraska Press this month.

The novel’s art is not only compelling for Barnes’ fans, and fans’ fans, but also a tale of the town’s historic hotel.

The novel’s manner has been the subject of intense interest in the hotel and Barnes has incorporated units which inhabited and determined the hotel.

The novel is one of 18 women’s and over 200 nominated to be chosen in a selection of the Museum and Noble books, one of the 500 that I’m able to understand, the novel.

Elton John tickets on sale at 10 a.m.

Tickets for Elton John’s concert on April 12 at WGU’s Tenth Street complex will go on sale at 10 a.m. today.

Tickets can be sold, at the Beasley, at TicketNet or online, by phone or online at www.ticketwest.com.

Camping in front of the stadium is allowed, but Elton John tickets for sale at 10 a.m.

The Beasley will sell them, but tickets will sell out at the Beasley.

Each customer is limited to purchasing two tickets for each show.

Visit the Beasley Web site at www.ticketwest.com for more information.

VANDAL TENNIS

Season opener shows hope

Good vibes lead to good skiing

Placei ng well in its first race, UI's ski team looks ahead to Mt. Hood

Christina Lords/Aggie

After a successful first race, the Aggie ski team is hoping for more recognition among the teams in its division and as a legitimate opponent in the WAC.

"We're up against those other el- ler schools, we don't have what they have," said Mark Bowers, head coach of the ski team. "We have to show that we can compete at that level."

Bowers did not call his team the best in the nation — his team has only one senior — but he was pleased with the team's overall performance in its first race, a 1-40.63, 7th place finish.

"It's a good start, it's a good test," Bowers said. "We're definitely not where we started last year," said Bowers. "In Idaho, we had an off year. We're in Oregon, managing to go three races and finish pretty well."

The team is looking ahead to Saturday, a day that Bowers said "will show [them] what kind of competitors the team has been." In total 16 matches in just three days, the team holds another race to look forward to.

"I'm happy with their con- ditions. People were in good shape, yesterday they weren't on Sunday, they had good energy," Bowers said.

After a big win over LCSC, they needed to compete against the 59th-ranked Washington State Cougars where they were not expected to run into such challenging matches.

The Vandals competed in Pullman on Saturday evening, but their up-building confidence was "in the air," said Beaman.

The Vandals put up a good fight against the Cougars and Beaman said, "This given [us] this confidence." Beaman added, "They're a little better than us, but we're happy with how the team played."

"It was a great start," said assistant coach Marcol Tinnirello. "We've got mostly freshmen and all played really well."

Beaman added, "Threw the weekend the team a lot. We know what to work on now," she said.

The team is getting ready to take on Eastern Washington University on Wednesday afternoon.

Andrey Olorunnife, a freshman tennis player for Idaho, practices his serve in the Kibbie Dome Thursday afternoon.

MEN'S BASKETBALL

Josh Jones/Aggie

Mike Hall led the University of Idaho men's basketball team to a 64-54 victory over the San Jose State Spartans Thursday night with a three-point field goal. Hall, who scored 17 points, hit the game-winner at the buzzer to bring Idaho's fifth victory in a row.

Hall attributes the win to the team's "never give up spirit." He said, "We're getting used to our new coach." Since they are new in the game, the team is "very excited to be playing every day."

The team has piled up several consecutive wins, being "on a roll," according to Beaman.

"We're definitely a big program for our team," said George Pfeiffer, coach of the Vandals.

This is definitely a big year for our program."

Curtis Jerrells leads Baylor in wild, 5 overtime win over Texas A&M

By KRISTIE KILEN
Associated Press

COLLEGE STATION, Tex. — Curtis Jerrells repeated what everybody thought was impossible, running off 11 points in the final overtime to lift Baylor to a 115-110 victory over Texas A&M on Saturday. "I don't even know how many overtimes it was," said Jerrells, a Baylor sophomore. The Bears' head coach, Scott Drew, called the victory "very, very sweet," while A&M head coach, Tommy Amaker, said, "It's a tribute to a great team." Jerrells finished with a career-high 31 points, including a game-winning layup with 1.7 seconds left in overtime. The Bears' win avenged an earlier loss to the Aggies, who have now lost three straight games.

The Bears led for most of the game, but the Aggies fought back to tie the game with 20 seconds left in regulation. Baylor then scored the first four points of overtime, and Jerrells added a free throw to give the Bears a 109-107 lead. The Aggies then scored six straight points, tying the game at 109. Jerrells answered with a layup, giving the Bears a 111-109 lead with 33 seconds left in overtime. The Aggies then scored four straight points to tie the game at 113, setting the stage for Jerrells' last shot.

"I don't even know how many overtimes it was," Jerrells said. "It was a game of heart and a game of will." The Bears led by as much as 15 points in the first half, but the Aggies fought back to tie the game at halftime. In the second half, the teams were tied multiple times before Jerrells' big finish.

"We have a lot of depth, a lot of talent and we have some great players," said Jerrells. "I'm just happy to be a part of it." With the win, the Bears improved to 13-4 in the Big 12 and 20-7 overall. The Aggies fell to 9-7 in the Big 12 and 16-12 overall. The Bears will now face Iowa State in their next game, while the Aggies will host Texas Tech.

**Texas Ice Fishing Derby**

The Texas Ice Fishing Derby is a popular event that takes place in the winter months. Participants compete to catch the largest fish of the season, with prizes awarded for the biggest catch. The event is held in various locations across the state, including lakes and rivers. Participants can choose from a variety of fishing techniques, including ice fishing with live bait, fly fishing, and lure fishing. The derby typically runs for several weeks, with participants vying for top spots in weight categories. The event provides a fun and exciting way for Anglers to enjoy the outdoors and test their fishing skills.

**Experience meets sheer numbers**

The University of Illinois at Urbana-Champaign basketball team is coming off a win over Wisconsin on Saturday, 75-68, at 2:02 p.m. on the road. The Bears are currently ranked No. 4 in the Western Division of the Big Ten Conference.

The last time the teams played, the Bears emerged victorious with a 76-55 win on the road. The Bears have a 15-game winning streak and have only had eight losses this season. Now they face a tough challenge on Sunday, and it will be a true test of their ability to adapt to the take-insome distance with a game against a tough team.

Allen Iverson rallies to earn starting spot in All-Star game

Bryan Mahoney
Associated Press

NEW YORK — With a late rally, Allen Iverson is an All-Star starter again.

Iverson sagged from behind in the early going, didn’t establish much of a presence in most of the game’s spots, then rallied in a thrust Thursday night, Denver Nuggets teammate Carmelo Anthony will join him in New Orleans after earning his first starting nod.

Latin star Kobe Bryant will team with Iverson in the Western Conference’s backcourt Tuesday night, with Iverson starting at the point.

Houston center Yao Ming was voted in by fans for the sixth straight season at center, while Iverson’s Texas Deen- con was chosen as the other forward. He has been selected to every All-Star game since entering the league in 1997, except for Houston’s Tracy McGrady in the final weeks of voting to earn his first start since missing the Western Conference all-star game last season. He started seven straight All-Star games while playing for Philadelphia, but didn’t start past the Feb. 13 game before the Nets dealt him to the Nuggets in December 2006.

The MVP of the All-Star game beat McNight by 10,430 votes for the second straight spot and will make his sixth appearance on Feb. 17 in New Orleans.

“On the good side, I think it’s a tribute to my teammates and coaching staff because they never said, ‘Well, if he can’t do this, we’re going to try to play the way we should be,”’ Iverson said. “I just want to thank the fans for appreciating what we go out and do on the court every night and right now it’s just a great feeling and an honor and I just feel good about trying to play in the best that I can because it’s what we need.”

Iverson started only half of the tough Minnesota Timberwolves’ season (he is starting 31 of 41 games) for the impact he has made on his team, which was not possible,” Iverson said. “It’s going to be one of those years where all of us, I want to do the best I can and go out there and do what I can and be a part of this game and be a part of the NBA’s best at 37 at the oldest man by far in the league and I feel great that I’m going to be part of this.”

“I’m excited about the opportunity,” he added. “I’m excited about the opportunity to be part of this game and I’m happy to be part of that.”

“Tillghman’s hasn’t missed a game, hasn’t missed a game for the past three years, so it’s going to be tough to play him,” Iverson said.

“I feel like I’m over the hump now and people are talking about the work that I put in and the improvement,” he said. “It’s all because of the fans. They’re definitely liking what they’ve been seeing old me and the production I’m giving them out there and it’s still a living, breathing, body of work that I put in to get to it.”

Iverson has more than 30,000 votes behind McNight, who has struggled with injuries this season, when the final update was released two weeks ago. He ended up with 2,012,117 votes.

In the 11th round, Iverson surpassed Wade in the contest against McNight for the second straight year after Iverson had been favored to win the NBA’s main event last season.

Iverson missed most of the season, but this is the first time he was voted a starter by the fans since coming to New York in January 2005.

The cautious and cautious one confidence will determine and the players who will be announced and the All-Star season in the coming days.

“Maybe some of that rubbed off,” Iverson said. “It’s an experience that any player wishes to be,”

Iverson said. “Anytime you get past the first time, the fatigue is going to stay, but staying in shape or to see the guy who did it on Sunday, it’s not the situation that was.”

Woody, who hasn’t played since the first round of the World Championship by seven shots on Dec. 5, will start his return to competition.

Iverson, who played in the first round of the World Championship, said he plans to play alongside Woody to the 14th hole, which is where the bulk of the tournament. Woody and Iverson are playing in the All-Star game on Sunday.

Iverson’s 1998 All-Star appearance was his third in 1998.

Iverson’s lone All-Star appearance in 1998 was the first time he was the top vote-getter in the league.

“I give all the credit to (coach) Brian Shaw and the rest of the team,” Iverson said. “It’s an honor to be part of this game and I’m happy to be part of that.”
