With 106 points to 24, Idaho dedicated the new athletic field to a new era of sports in the University, when she walked away with all that pleased her to take from the University of Montana, October 16, last week. The boys from Pullman which did not have a look in for a first quarter and were seven points behind, Lockhart was the star of the meet carrying off 20 points for his team, while Phillip was second with 15 points.

Despite the fact that the races were run on a track which was newly opened and above, one Idaho record was run by Morrison who ran the 100 yard dash in 10.8, and Lockhart lowered the Idaho record in the 220 yard hurdles from 23.5 to 21.5. Buck Phillips came within 1-5 of an inch of the Guse Larson's record in the high jump that stood at 49 feet 11 inches.

Buck broke the record in the hammer throw, 139 feet. In the 880 and 440 dashes the winner was in beautiful racers. He is strong and holds up in fine condition. Massey, though a freshman with very little experience took second in both of these events and was not denied the winner. At the rate he is going, he ought easily to lower the northwestern record before he leaves college. Louis was the man, however, who would have taken the 440 had he been in condition. He failed to make the 220 and the world of sports. There is but little doubt that he is the best quarter man that Montana has, and if "Buck" succeeds in getting him in running condition by the first conference meet, which will be with Washington State next Friday, he ought not only to take the quarter, but should be one of the fastest men on the relay team. His lack of condition yesterday was due primarily to the fact that he was up late the night before.

The meet Saturday showed that Idaho will be weak in the pole vault and will probably jump, but in all other parts of a meet "Hoboks" team is exceptionally strong, and if one can at least at the present relative results of the W. 8. C. M. and Montana meet, Idaho will stand a good chance to win from the farmers this Saturday, which will be the first time in several years.

In the mile race Deflesvin has had a fine year. The present record is that it is not far enough. He never was known to finish having used all his strength. The man who has the record is that he has no sprint in the finish and when he has been beaten it is generally he is out of the race. He needs a man like Bonner to draw him out. Gerloch, in was expected, slugged up fine in the mile race. He was not crowded and it was therefore not necessary that he slow down. Very fast time.

Morrison was a whirlwind in the sprints and can be depended upon as a going winner in any of the conference meets.

Boys' meet is falling in the 220 hurdles and second place for him in the letter in the Montana meet, but he did not capture sufficient points in the next meet.

The events 3a won were: 880-yard run, Dingle, Mason; Joes, Jones (31), time 2:02-5: 880-yard dash, Morrison, Lockhart, J. Brown (31), time 10.8 seconds flat; pole vault, Cunningham and Precourt tied for first with Scott second, height 10 feet 6 in., 120-yard hurdles, Lockhart, Ross, time 16-26; shot put, Phillips, Craighead, Grangier, distance 49 feet; mile run, Gerloch, Dewing, Bonner, time 4:50-1; broad jump, Lewis, Morrison, Over- sley, distance 21 feet 10 inches; discuss, Phillips, Grangier, Lomanski, distance 110 feet, 440-yard dash, Morrison, J. Brown (31), Calapush, time 22-2-5: 440-yard dash, Dingle, McNary, distance 60; high jump, Scott, first, Lockhart and Cunningham tied for second, height 5 feet 4 inches; 220-yard hurdles, Lockhart, J. Brown (31), W. Brown (31), time 25-6-5: two-mile run, Dallen, Olan- der (M), distance 2 miles 33 seconds; hammer throw, Phillips, Craighead (M), and Lomanski, distance 133 feet 7 inches. The relay was forfeited by Montana.

The TOURNAMENT

Soloan and David Win the Doubles for the Varsity—Scores Indicate Fast Playing.

The triangular tennis meet between teams representing the University of Idaho and the Universities of Lewiston and Lewiston high school held last week at the courts of the Lewiston High School with the championship going to Boise of the Lewiston and high school team, while David and Soloan of the university took the doubles.

The Nettles reached the finals by defeating Don David of Moscow, 9-7, 6-3, and Donald Bartlett of the high school 6-2, 6-2. Beach reached the finals by defeating Soloan of Moscow, 6-2, 6-4, and Henny of the high school 6-1, 6-1. In the singles championship Beach defeated Wright by a score of 3-6, 6-2.

David and Soloan defeated Beach and Besch, 6-3, 6-4, and Wright and Myerfield, 4-2, 6-3, 6-2, thus taking the doubles championship.

The clubmen during the play was well packed with tennis enthusiasts who enjoyed the first play shown in a long period of time, which was the result of a good weather conditions being ideal. Meet Hicks and McGowan acted as umpires.

The order of the weather was fair enough to make not the least in the Washburn high school 6-1, 6-1. In the singles championship Beach defeated Wright by a score of 3-6, 6-2.

INTERSCHOLASTIC
MEET THIS WEEK

MANY HIGH SCHOOLS TO PARTICI-
PATE IN BIG MEET TO BE HELD
HERE THURS. AND FRI.

Boise Team Much Weakened, May Fail
To Win the Cup—See Pete a
Strong Contender for Prize.

With over 70 high school athletes
entered from the different schools of
Idaho and Washington, to compete in
the annual interscholastic track meet
which will be held here under the aus-
pices of the university Thursday and
Friday, the outlook for those in charge
of the meet, to make it the best that
has ever been held here is especially
bright. Most of the entries have been
received and plans have been consid-
ered for the entertainment of the ath-
letes while they are here.

The Boise high school, which has
had a walk away in the last two meets
here, will not be so strong this year,
even to the loss of Carter, Gehrke,
Nurse and Cunningham, their strong
point winners, who were graduated last
spring. Consequently the meet will be
much more interesting and it is ex-
pected that the honors of winning the
meet will go to one of the northern
Idaho towns. The entries that have
been received up to date are as fol-
lows: Boise—Houston, Svatoff,
Thompson, Pyper, Nygott, Davis,
Duff, and Manzan; Coeur d'Alene—Graff,
Robson, Normoye, O'Leary,
Mathews, Daniels, Graveille,
McKechnie, and Cleland; Geneseo—
Beresford, Firlay, Springer, Wardrobe,
Napier, Haymond, McNeil, Fistem,
and Meyer; Grangeville—Long, Leonard,
and Hill; Lewiston—Boesel, Stover,
McClellan, Fred Nave, Floyd Nave,
Kerns, and Emerson; Rathdrum—Bach,
Minkel, House; and Mulledy; Nez-
perce—Robinson, Syron, Jones,
Stevens, and Harbke; Bonners
Ferry—O'Callaghan, Johnston,
Bangs, and Campbell; Hialeah—Levy, N.
Isenberg, and Betty; Johnson—
Thompson, Rubie, and Soderoff;
Moscow—Aspryn, Childers, Woods,
Wright, Sutton, White, Fone, Pearson,
and Baker.

THE UNIVERSITY ARGONAUT.

Published Every Week by the Associated Students of the University of Idaho.

Vol. 24, No. 51.

THE VISITORS.

There will be many strangers in the town of Moscow this week, and unless you are one of the many men here to see the university for the first time. They represent high schools throughout the state and are from every corner. Several of the faculty members were out in the streets of Moscow to greet these visitors as they were leaving for next year and they should all be happy to feel at home while they are here.

The athletic coaches from all over the northwest are going throughout the state trying to induce these men to go elsewhere to college. It is obvious then that we must show the boys a good time. This does not mean that they are to be seen during the picture shows and the dances. It means that all the men about the campus must put themselves out to make these fellows around the university and show to them the advantages Idaho has in store for them if they decide to come here for their college work.

Let's be sociable. It will pay well in the long run.

A PRACTICAL SUGGESTION.

One of the most feasible plans for increasing the popularity and influence of the university throughout the state is that of fostering a university community of Idaho club in every city, town, village and even hamlet throughout the state and varied benefits. If every university member were a part of such an organization have been admirably performed by the club in Boise, which, during the seven or eight years of its life, has been a model of distinguished services the values of which it would be hard to overestimate. The club is composed of all those persons living in Boise who at some time attended the University of Idaho, or who have been members of any of the community from the day it was founded, and it is the policy of the club to extend its influence to all those who have been in touch with the university and to maintain a high standard of personal morality.

Correspondence with its officers would bring forth many valuable suggestions for the benefit of those who may be induced to originate similar clubs in their home towns. The Boise club has made a name for itself and good will among the present, former, and prospective students, to induce high school and private arid public schools to register at the university and to disseminate them from leaving the state and taking part in higher learning; to introduce to the

THE UNIVERSITY ARGONAUT

Men whose enjoyment of the faculty facility may from time to time come there in order of profession or private capacity, to provide opportunities for such members of the faculty as may care to do so by opportunities for attending or attending the university community; and, in short, to do anything and everything that will induce them to return to the university better known and better liked by those who have attended.

That SL days. is all that can be said of this body's existence, but its efforts are unfruitful and its influence unimpressive. This is a comprehensive thought that has been prominent in all our university and would probably accomplish this end.

Asphalt courts do not require constant attention, but we have in mind the asphalt courts of California. We should probably develop no McLaughlin courts there, but asphalt courts would be greatly increased.

PROFESSOR STORER-A PLUS PERSONALITY.

In looking at the recent production of "The Mikado," the great success that it was, Professor Storer has added another illustrious achievement to his already impressive list of notable deeds. Since his advent at the university he has infused new life into the department of music. At the time he came vocal music was in a moribund state. By his dynamic energy he has developed latent talent and discovered unusual ability, until he is able at this time to produce what is acknowledged to be the most elaborate and difficult musical work ever seen at the university stage.

Professor Storer has had able assistance and the enthusiastic co-operation of students and faculty, but it is to him alone that we may attribute the credit. During the weeks preceding the April date on which the opera will be recorded, the students were so impressed by the effort the composer, the music and the composer's ability that they desired the thanks of every loyal student at the University.

A GOOD NAME.

Now that we have used the new athletic field and found it good, why not think about giving it a good name. The course of a very few years, when the present college generation shall have left the campus, such things as the new athletic field and "the new stadium" will mean nothing. Then we don't want our place to be boggy on the other side of the hospital. We are going to name this place for the university. We are going to name the field and the course" of preparation for such a production. Its success is a tribute to his ability. He deserves the thanks of every loyal student at the University.

IMPROVE THE TENNIS COURTS.

Tennis has come into its own at Idaho. That is evidenced by the conducted appearance in recent congresses at any afternoon hour on bright days, where tennis has been the sport of the hour. The number of games and the number of the participants is increasing. The enthusiasm of these games has heightened the enthusiasm for the game, and the interest of the players in the game, and the presence of the spectators in the game. The game has become so popular that it is difficult to arrange a match at any time in the year.

But there is a fly in the ointment. The god of the weather seems to be doing his best to dampen the ardor of the enthusiasts. Showers at intervals of three or four days, although not a blessing to the famous Pueblo farmer, are a curse to the tennis player, since they render the courts unfit for use about half the time. Asphalt courts defy the weather. Two minutes of sunshine after a shower is sufficient to dry the court surface, and the courts are ready for service. In view of the investment in the courts, and in the streets, ball, and other paraphernalia, and of the cost of upkeep of the dirt courts, does it not appear that economy dictates that a place of this nature be bought for the purchase of the present investment and replacement of the dirt courts with asphalt courts?

THE UNIVERSITY ARGONAUT.

Men whose enjoyment of the faculty facility may find time to come there in order of profession or private capacity, to provide opportunities for such members of the faculty as may care to do so, to attend with their influence in a more intelligent use of the passage of university bills, to further the cause of the university and the state legislative bodies to maintain a university scholarship; and, in short, to do anything and everything that will induce them to return to the university better known and better liked by those who have attended.
After the supper the guests and members of the debate council announced the annual choral and forensic contest of the chapter. Due to the large membership of the chapter, Dean Ayres, national president, was able to select a number of participants for this performance. Dean Ayres, as usual, was in fine form and a number of good old songs that he has had printed for just such occasions. Mr. Lehman kindly consented to accompany the singers on the piano and the evening ended by the party joining hands to sing "Auld Lang Syne." Dean Ayres is doing more and more than perhaps any other man in Idaho to create a fraternal spirit among the men of the school and it is not too much to say that he is the consummate master of the art of sociability. The fraternities, in any group creates is the most wholesome thing that the social life at the University of Idaho has experienced in many years.

The first speaker of the evening was the dean himself. He spoke of the element of interest in the realm of argumentation. And with his own words so beautifully illustrated what he thought that his hearing could not choose but believe him. The power of conviction always goes with the man who believes in what he says; and surely no one believes more of what he tells than does Dean Ayres. Not only was what he said right but he was always in, the very embodiment of wit and good humor.

Mr. Robinson was the next speaker. He told a few funny stories to explain his position in the university as respects debate, and then gave some very sane and appropriate remarks and suggestions about reading in the field of argumentation. He added that to keep in touch with the times.

Rolfe Crater, whose name furnished the material for numerous puns and witticisms, was the next speaker. Most of his time he devoted to the telling of a series of anecdotes and only occasionally throw out a hint as to the value of forensic training received in college.

In an extemporaneous talk Mr. Lehman substituted for Prof. Wilson, who could not present account of his own society. He gave us all a full of the sparkling vivacity that always characterizes what he has to say. He added a related conversation he heard with a prominent citizen who blamed the university of the fact that there was no more work done to educate men and girls and yet failed to teach them to talk in public. J. M. Pond briefly reviewed the present system of debating in the whole country and made a plea for greater usefulness.

President Brannon was the last speaker on the regular program. He told of his own experience in the field of forensics and gave his ideas about the way in which he considered debate should be carried on. One of the points of his able talk was that he believed that in the last analysis the result rested with the man and not with the coach. Proper coaching is a thing that the president does not approve of either in athletics or in any of the functions of the general student life.

Prof. Hulme spoke extemporaneously for a few minutes. He related some very interesting facts about the history of debating at Idaho since he has been connected with it. He spoke of the future of the university as he would like to see it. Especially he pointed out the necessity of a good dormitory for the men of the school. In rough outline he explained what new forms and system of management of the new establishment will be built on it and by whom.

After the singing of Auld Lang Syne the party broke. Those present were: Dean Ayres, Prexy Brannon, Prof. Robinson, Mr. Lehman, Mr. Hulme, Rolfe Crater, G. T. Warren, Arthur J. Lyons, C. F. Johnson, Oliver Niblett, Melva Joos, Frank Dawson, Floyd Bowers and J. M. Pond.
DRAMATIC CLASS
PRESIDENTS COMEDY

UNIVERSITY STUDENTS WILL BE SEEN IN FINE PLAY FRIDAY NIGHT.

"The Private Secretary" to be Staged
Rehearsals Been in Progress For Weeks.

Amateur actors of the University of Idaho will again be heard this week in the 'variety auditorium is a splendid three act comedy. The class in reading and interpretation under Miss French will present "The Private Secretary," by Charles Hawtry.

This is one of the best comedies of modern times. It was originally produced at the Theatre Royal in Cambridge, England in November, 1883. It was afterwards performed at Prince's Theatre in London the following year. Since then it has been presented many times in this country, both by professionals and amateurs.

For wholesome, light comedy of the better class "The Private Secretary" cannot be equalled on the stage today. From the opening till the last scene there is action and ludicrous situations. The characters are distinct and individual. The ludicrous predicaments in which these English folk find themselves keep the audience in an upper.

Mr. Stephen Hogan takes the part of the gruff, short-spoken, eccentric Cattermole; Mr. Carl Mucklin is the dashing Harry Marsland, and Mr. Charles Crump, the versatile Douglas. Miss Gertrude Denecke, in the role of the landlady, Mrs. Stead, is a star. The part of Gibson, the tailor who wants to soar on the upper crust of society and astonish the world, is all taken by Mr. Harry Elmoose. Mr. Willard McDowell is Mr. Marsland, and the parts of Marsland's daughter and her friend are taken by Miss Lillian Carithers and Miss Bertha Olsen. Miss Margarette Linn is the spiritualistic Miss Ashford.

The role of Rev. Bolt, Spalding, whose complications are the source of all the difficulties, is carried by Mr. Arthur Lyon. The cast are working very hard at rehearsals to make the play a success. The very fact that Miss French is directing and enacting this comedy, and that she is her pupils who will appear, assures an artistic, finished production by a thoroughly drilled cast. An enjoyable and profitable evening is promised. Between acts President Brannon will award the medals to the interscholastic athletes who will be guests at the play.

The proceeds from the play will be used to help defray the expenses of the interscholastic track meet here the last of this week. A large attendance is anticipated. Seats may be reserved at the Owl Drug Store.

SODA THAT SATISFIES

"Drink to me only with thine eyes, And I will pledge with mine." Such draughts may quench a poet's thirst, I'1l choose this Soda fine.

Soda should be pleasant to the taste — it should also satisfy thirst. The soda at our fountain combines all of the good elements possible. The soda is right, the syrups are right, the ice cream is simply supplied, and the service is ideal. Tastes differ, but no matter what drinks may be served here, it is sure to be the best of its kind. To fully appreciate the blessing of thirst — try one of our delicious Ice Cream Sodas.

Be sure to get your share of the good things at our fountain.

WHITMAN TEAM TAKES TWO

TWO GAMES GIVEN TO MISSIONARIES—IDaho PITCHERS GET CONTROL IN SECOND GAME.

Dennis Good Works on the Mound But Errors Prove Costly—Whitman Has Fast Team.

With 13 scores, 13 hits and 10 errors checked up to date in the first game with Whitman was headed to the Missionaries by the Idaho tossers. The game got started in the ninth but in and poor condition. The Whitman Slabs had no trouble in connecting up with the ball, and a number of errors on the part of the Idaho players sent the opposing mothers sailing around the bases. In the second game, with three men on, and nobody down, Mitchell was relieved by Kinnaas, who held the third out until two more men were sent home. It seemed to be an off day for Idaho, and as is all baseball games, when a team gets started to hitting and going, and to making errors, there is never any stopping until the game is thrown away.

The lineup of the first game was as follows:

<table>

Madge Gregory, Marjor Leigh and Norma Merley returned from Pullman Saturday in time for the track meet.

Mrs. Carl Loux, best known as Nina Yeston of Pullman, has left the university and joined her husband in Canada.

Miss Jessie M. Hoover went to Rector Friday after enrolling in the home in Vancouver, B. C., where he is employed in the En- press Manufacturing company.

J. D. Davis has been chosen superintendent of the junior high schools and the university graduates teaching there have been reelected for next year.

The students of the planter department under direction of Mrs. M. H. Neff, gave a successful recital.

FACULTY FEASTS

Law Students

DEANS OF UNIVERSITY AND LAW SCHOOL GIVE BANQUET TO LAWYERS.

Moscow Attorneys-at-Law Address Students on Important Subjects.

The banquet given to the law students and the deans and the faculty of the university by the law faculty in honor of Judge Davis, was a lively affair. The guests assembled at the hotel lobby at seven-thirty. Jokes and stories were not lacking. Dean Ayres, the toast master of the evening, was charming with wit. His thrusts were not only numerous and provoked much merriment. He first called President Brannon to toast "Alma Mater." The president’s ready bonner and wit were delightful. President Brannon spoke of the Alma Mater. He spoke of the training and high ideals; but he stated that the higher usefulness of a university was to add something that will make the world better, nobler and brighter.

Dean McCutcheon related the story of the founding and early struggles of the law school. He spoke of the high aim the agents set which and have ever since maintained.

Attorney Lee of Moscow entertained the company with his characteristic story and the high regard of the bar for the present law school and its bright future.

Mr. Morgan explained the attitude of the bar toward the law school, its members, and the opinion of the lawyers of Idaho.

"The future progress of the laws of our state will depend on the training of the men we send to our legislature. The lawyers become the leaders of every community and to them will be left the policy and law-making of our state. Thus," said Mr. Morgan, "it is vital to train our law students well and without any nonsense.

Many others responded to toasts. The speakers were all emphatic in their praise of the encouragement of the law school.

When the speeches were concluded, the party arose, joined hands and repeated the festal board and sang "Auld Lang Syne." The occasion will be a memorable one for those present.

Those present besides the regular law faculty and students were, President Brannon, Judge McEvers, Attorneys Moore, Morgan and Lee; Professors Arlic, Patterson and Lehman and Drs. Biddle, Ithil, and Shattuck.

For membership, to invite the underclassmen to greater efforts and accomplishments in scholarly work and college activities.

Carey’s Music House
STUDENT ASSEMBLY HELD WEDNESDAY

JUDGE NICTCHES, PRINCIPAL, SPEAKER—PRESIDENT MAKES INTERESTING

Much Interest Shown in Coming Intercollegiate—Coach Edmundson Talks.

The regular monthly meeting of the Associated Students of the University was held during the regular assembly hour, Wednesday morning. The
trend of the session was short, consisting of the passage of the amendment making new provisions for enrollment fees and the reading of the minutes of the previous meeting by the secretary, Miss Kline. President Brannon called upon Judge McCutchon, Presi-
dent Brannon, Coach Edmundson and Graduate Manager of the year, who made brief talks.

Judge O. E. McCutchon, law of Idaho Falls, presented to the year by doing a
few of the law school seniors, addressed the students, whose hearty applause indicated their pleasure at hearing someone who has devoted himself to the law. The session of the school of law, Judge Edmundson, gave the
mental interests binding together the
interests of the state.

He spoke in glowing terms of the
very fine production, The Mikado, be-
ing staged by the music department. He stated that the presentation of this opera was an incident to the progress of a growing university.

President Brannon, whose ability as a witty and forceful speaker is already popular with the students, was then called upon. On behalf of the university he expressed the pleasure everyone felt on having an opportunity to again greet, Judge McCutchon. President Brannon expressed the deli-
ht that the university students gathered to discuss the undergraduate problems as they do in such student assemblies. He pled the cooperation of the faculty, and asked that students feel free in coming to him for consultation.

Coach Edmundson spoke upon the
annual intercollegiate meet to be held May 7, 8, 9. He asked for the students' money for the entertainment and cooperation for he believed that this opportunity of bringing the high school athletes of the state here once a year was the best
possible advertisement for the univer-
sity. He said that at the first com-
mitee felt it was going far enough to bring 16 teams, but President Weber had also asked to send teams. The added expense, however, was that every student get behind the meet and go.

The coach outlined the track situation, and spoke in optimistic way about the meet. Coach Edmundson has taken the place of Prof. Stewart as chairman of the intercollegiate committee. Graduate Manager Gus Larson, who has been on the committee since the establishment of the meet in 1916, felt that there should be at least two paid admissions to the meet. As an instance, for selling tickets he announced that prizes of five, three and two dollars would be awarded the students selling the most tickets.

Following a suggestion of President Brannon, a committee was appointed to investigate the unpleasantries arising from the close proximity of the new athletic field and the bascule plant. The committee consists of Trustees Casey, E. H. Humphries, and Clarence Farre.

YANIGANS” PLAY PICKED NINE

SECOND TEAM LED BY JOHNSTON PLAYS GOOD CLASS OF BALL AND WINS EASILY.

Getz and Fry Keep His Well-Kept Team Together—Kongo Pitchers Good Ball for Pickle Team.

Last Friday the “Yanigans” team, headed by “Baby” Johanson, administered a severe defeat to a picked team composed of players from the Moscow town team and four college
the Yankians played a good game
in the field and closed the ball hard when men were on bases. They also
scored heavily on errors by the picked team. The Yankians pitchers, Getz
and Fry, kept the hits well scattered and with the exceptions of the
fifth inning, when Fry was touched for two hits and an equal number of runs, the Yankians were invincible.

Kipp, Hiltine and Wilson led the
throwing for the day, Kipp being
three strikes and Hiltine and Wilson two each. Keane for the picked team pitched consistent ball, allowing only
nine hits but he had miserable support at times. Only six hits were
suffered from the Yanigans, two being off Getz, in four innings and four off Fry during the remainder of the game.

To the small crowd of fans who wit-
tested the game the most encour-
ing feature was Getz’s approach as he has to date. His failure to gain control so far this season has been a serious handicap to the varsity team. In the game Friday he looked good the whole time. He did not
walk or hit a man and had plenty of
