Mother of UI alum/POW hopes for the best

by Brian Parry
assistant news editor

In 1961, a man named Roderick Mayer graduated from the University of Idaho and joined the Navy. In 1965, the F-4 aircraft Mayer was piloting was shot down over Vietnam, and he has been missing in action ever since.

"I still haven't given up hope," his mother, Elizabeth Mayer of Clarkston, Wash., said. "I believe he's still alive — I have always thought he was. The hardest thing is not knowing."

On a Sunday evening in 1965, Elizabeth Mayer was preparing to go to church when a Marine officer from the UI Navy Reserve Officers Training Corps showed up at the door of her Lewiston home to tell her that their son's plane had been shot down by ground fire in Vietnam and he was officially missing in action, Mayer said.

About one year later he was reportedly seen in a North Vietnamese prison camp and his status was changed from MIA to prisoner of war, Mayer said. His current status is now POW/MIA.

Mayer was not alone in his plane. His radar intercept officer, David Wheat, ejected from the plane with Mayer soon after they were hit. Mayer said her son and Wheat landed across a ravine from each other.

"He could see my son, as far as he was concerned, was with his parachute still attached," she said. This led Mayer to believe her son was injured, for they were trained to hide their parachutes after landing.

I Hope, for the best.

VETERANS’ DAY

Still missing

Recreation major traded freeway for dusty trails by Mike Winkler

I TAKES a few cents before the deer-cursor crashed, gunfire died and Winkler lived.

The year was 1990 and 10-year- old Winkler was birthing his dream.

He pulled out a .41 magnum snubnose as an Idaho Falls Police officer chased deer down a new car and radioed in a shot.

"I was living the life, I saw News at 11 (a small night-time show, similar to this one)," West said while upgrading his room and writing out a check for a new computer in his room.

"I altered learning that now one, a new computer and safety," he added.

Winkler was developing a love for the outdoors.

West soon swapped city town for small town to attend the University of Idaho and pursue his law degree.

West earned his bachelor’s degree in American Indian studies. West now works for the Idaho State Police serving students.

"I wouldn’t think it but (ID) has a really tough program, very heavily based with science, math, biology, history, and ethics," West said. "I think one of the programs you can walk on with a bachelor’s degree and put it right to work.

Winkler has taken a career as a paraglider usually does not come failed with a hardfaced."

"But you’re paid in sunsets," he said.

The youngest of six siblings, West was brought up in a devout family and left Idaho to attend the University of Miami. West said with him being an ethnic minority of Pueblo, Irish and Spanish, growing up "got a little bit at times."

"With the crowd I hung out with, I couldn’t just sit in the street — just at college," he said.

In 1997, West graduated with a 20-year-old major and minor in public administration.

"I took the classes because I,” West said, “I was interested in public administration, and I was an intern for the University of Miami, working with the football and basketball teams."

In 1986, West graduated for 15 hours and studying as you don’t miss a lot of things," he said.

While he was at West, the 20-year-old major had a lot of students, but only a few students had a solid education.

"As a student being a student is finding time is spends with his son," he said.

"He’s going to 30 hours studying and doing more on a lot of things," he said.

West arrived at the University of Miami, he graduated and pulled a job at a high school and after doing after school and other things.

West said the university should help not only a little in that department.

"I have three kids, but the school isn’t helping us, but the school is helping me," he said.

The administration really needs to help with the teachers."

The administration really needs to help with the teachers."

"I need to do more with the teachers."

"I need to do more with the teachers."

For the more than 10 years, UI students that used to use Campus Pipeline can access their university e-mail addresses by accessing Flux via Telnet, or by remote.

"The idea of using an Internet portal, or "virtual" or "web mail" service would not be accessible until after Thanksgiving."

E-Links is a service offered by the University of Idaho to provide easy access to students and staff. Web pages for a series of UI departments and services, including Campus Services, the Student Union, Housing, and University Relations, are available.

"Even a great deal of data is not all," Lamson said.

When the e-mail address of a department or service, it can be obtained in a Single Access Pipeline with a single click.

Within 24-36 months, E-Links will be available for a dozen or so departmental web pages and to add new campus web pages for clubs and service organizations. Campus Services said.

UI students, however, have been unable to access their e-mail accounts until the access was closed down by budget issues.

"We are currently awaiting by budget cut, Lamson said. "With the cuts this year, it’s the current state of our economy, we are going to be delayed in our plan to replace Pipeline with a new Internet service."

The E-Links staff will be available to help any students with questions about e-mail access.

Since Thursday, a new Internet portal product, E-Links, has replaced Pipeline.

The staff will be available to help any students with questions about e-mail access.

In addition to serving a broad spectrum of students, the ITS has spent the last six months trying to make availability high.

"It is possible," Lamson said.

While a small number of students use the service, still the large majority of students will be in the room and use it.

"An e-mail service is also available to theITS for students, but the service is not available to everyone."

"This is an e-mail service, it is possible to use this service," Lamson said.

"The administration really needs to help with the teachers."

Lamson added.

Instead of rolling in mud, she is rolling in dough. Carrollville Nilsson, Troy's executive director of development, said the idea began when she contacted the university to try to find an active role in a number of fund-raising efforts for the university.

Nilsson Troy first joined the university workforce as the development director for the College of Agriculture in 1996. Her main job was to plan and lead fund-raising for the college, which she said was being done for the University of Idaho. "I had to describe my perfect job, this would be it." She said she had spent a career helping university campuses and other institutions find money for their needs.

She attributes her fund-raising know-how to her childhood experiences in Boise, Idaho. As a child, she said she would help pool money from her parents and buy milk for the school. She also said she was influenced by the work of her boyfriend's parents, who ran a dairy farm.

When asked if she was afraid of something, she responded, "I've had to deal with things more serious, like the loss of a parent, so I'm not afraid of losing a job." She also said she was not afraid of losing her job, as she had enough savings to get by.

Nilsson Troy is a native of Boise, Idaho, and was raised on a dairy farm. She said she had a lot of experience in fund-raising, having worked for the Tri-State Hospital in Onalaska, Washington, as well as the Idaho State Hospital Foundation Director. She is also a member of the Idaho State Education Foundation.

During those three years that she worked for the Tri-State Hospital, she helped to quadruple the hospital's fund. She also said that the hospital had to increase its budget by 30% each year, which she attributed to the fund-raising efforts.

In 2002, she decided to join the Peace Corps, and she said the experience was a "once-in-a-lifetime" opportunity. She said she learned a lot about the world and how to work with people from different cultures.

She also said she was influenced by the work of her boyfriend's parents, who ran a dairy farm. She said she was not afraid of losing her job, as she had enough savings to get by.

Many college freshmen pack on extra pounds

15. Sometimes, it's only 5. Sometimes, almost 45.

Mayer, a senior psychology major, is the most recent victim of what has been called the "Freshman 15." Mayer said that he gained 5 pounds this semester.

"It's a real issue," said Marilyn Burch, director of student health at Wichita State University.

At Kansas State University, "I know that it's a huge concern, especially for the girls," said Donna Schalles, nutritionist and health educator at Lumen Health Center.

Researchers at Tufts University, known for its work in nutrition, studied the eating and nutritional habits of college students for four years and found that weight gain during the freshman year is common. They said the average gain was about 6 pounds for men and 4 pounds for women.

"It's probably true in all the major universities," said Mayer, who is a member of the 1984-1985 freshman class at Wichita State University.

Mayer and Schalles say the extra pounds can be blamed on a number of factors:

1. Meals become less nutritious as students try to juggle classes, jobs, social lives and studying. Missed meals may be replaced by binge eating later in the day.

2. Exercise levels decrease. Students who were high school football players — and eating like them — suddenly aren't eating as much now that they're away from home. Students also haven't changed their eating patterns.

"The way many celebrations are set up leads some students to take all-you-can-eat meals," Mayer said. "Eating with groups of people encourages eating more, sort of like the effect of a restaurant on a single person.

"The biggest factor is that freshmen can feel like they're at a social event, and they try to eat as much as possible," Mayer said. "It's not necessarily that they're hungry, but they're trying to make the most of the situation."

Schalles often sees students who feel like they're being watched. The food journals really help them to become aware.

Researchers at Tufts University studied the eating and nutritional habits of college students for four years and found that weight gain during the freshman year is a common occurrence with men gaining an average of 6 pounds and women gaining 4.5 pounds.

Oftentimes, the student will report feeling like they're gaining weight even after they've been on a diet for six to eight weeks. "It's really difficult to tell the difference between gaining weight due to overeating and gaining weight due to muscle gain," she said.

"I think it's important for students to keep track of their food intake," Mayer said. "It's important to be aware of what you're eating and how much.

Often, she said, the journals will show that a student is consuming 1,500 to 2,000 calories a day from pop, or not thinking about the calories that come from a quick stop at a fast-food restaurant.

"Alcohol also can add weight. It has 7 calories per gram, almost as many as fat," Mayer said. "A student may skip a meal to 'bank' calories to eat later, but when they do, those calories have been, followed by binge snacking to deal with a case of the munchies.

Schalles recommends that students carry "snack" snacks in their backpacks and plan ahead to make healthy choices at meals. "Students and Schalles encourage students to exercise in whatever way they can. But students don't have to go to a gym."

"Even small things, like parking farther away, can add up," Schalles said. "His walking to class or a broker's desk adds up over a year."

"Some students can make up for many eating mistakes, said Schalles. "But others have learned that lesson and realized that lesson is better served in high school, and he'll burn during his first two years of college.

For him, the freshman 15 became the Junior 15.

POW/MIA

From Page 11

Ww was captured and spent seven years and a half years as a prisoner of war in "Hanoi Hilton" prison camps.

The Meyers later took their son to Christmas of 1984 when he delivered some good news. "He didn't have to go to Vietnam," Meyer said. He was released from the Air Force and was accepted into the military training for NASA. He had checked with Mrs. Meyer and the POW/MIA Office would release him if he wanted to transfer, she said.

Though the young officer had helped write the news that previous year, his mother had been worried about being sent to Vietnam."

"I'm not worried," Mayer said, "as I've been worried every year."

"It's a very emotional time," Mayer said. "It's a very emotional time, but I think that if he's going to Vietnam, that he's going to Vietnam."

"If he's alive, he's going to Vietnam."

"I'm proud of my son. I wouldn't want him to do anything else," Mayer said.

I'll work for you, the students

This year, the University of Idaho student body has a chance to make a great deal of progress. I believe this is the year in which the students of our university can finally make a significant impact on campus life.

I believe that the university has a responsibility to its students to provide them with the best possible education. This includes not only the academic experience, but also the extracurricular activities and opportunities that are available on campus. I believe that the students have a right to be heard, and that their voices should be heard by the university administration.

I believe that the university should be more responsive to the needs of its students. This means that the university should be more open to student input, and that the students should be more involved in the decision-making process.

I believe that the university should be more transparent in its dealings with the students. This means that the university should be more forthcoming in its reports, and that the students should be able to access information about the university's policies and procedures.

I believe that the university should be more accountable to the students. This means that the university should be more responsive to student concerns, and that the students should have a say in the way that the university is run.

I believe that the university should be more inclusive of the students. This means that the university should be more open to students from all backgrounds, and that the students should be able to participate in the university's activities and programs.

I believe that the students have a right to expect a fair and just education. This means that the students should be able to receive a quality education, and that the university should be accountable to them.

I believe that the students should be more involved in the university's governance. This means that the students should have a say in the university's decision-making process, and that they should be able to participate in the university's activities and programs.

I believe that the university should be more responsive to the needs of its students. This means that the university should be more open to student input, and that the students should be more involved in the decision-making process.

Spokane goes running on Petty

I
date are an ever-present
driver in the lives of
certain citizens everywhere. From
the devices on the 
side of the road, to the
activities they make on
the playground, it
is a way of life.

And so it was on a
day in late summer
when the warm
weather and
deciding to head
out for an
adventure. As

people began to
stream into the
arena, a sense of
excitement filled
the air.

The setting was
the Spokane Arena,
where the world of
music had come
live. The stage was
silhouetted against the
depth of the arena,
creating a
spellbinding
atmosphere.

Tom Petty and the
Heartsbreakers took
the stage, and the
crowd erupted in
enthusiasm. The
energy was
electric.

The setlist
covered a wide
collection of
Petty's songs,
from the
classics like
"Free Fallin'",
to the
more recent
tracks like
"Wildflowers".

Petty's
guitar playing
was as
nine as he
spent
the
stage.
He
held
everyone's
attention,
whether
they
were
watching
from the
front row
or
the
stands.

The
sound
in
the arena
was
truly
amazing.

Any questions?
Women's basketball falls out roster with new players by JENNIFER TAYLOR

The Vandals women's basketball team is looking to improve on last year's disappointing 8-17 season by leveraging the experience of two returning seniors. Coach Carol Smith has high hopes for the team, which returns only seven players from last year's squad. With three key losses to graduation, the Vandals will have to rely on younger talent to fill the void.

Seniors Kristy Moore and Jamie Mooney will lead the team, bringing with them the experience and intensity needed to succeed in the tough Big Sky Conference. Moore was a consistent scorer and rebounder, while Mooney was known for her defensive skills and leadership on the court. Both players will be key in guiding the team through theseason, with Moore focusing on her scoring and Mooney on her defensive skills.

Junior Brooke Brown will also play a significant role, having shown promise in her freshman year. Her athleticism and ability to shoot from the perimeter will be valuable assets to the team. Also, the Vandals will depend on the leadership of senior Jamie Mooney, who has a strong work ethic and is respected by her teammates for her commitment to the program.

The Vandals are looking to improve their performance inkey areas, such as defense and rebounding, which were weaknesses last season. With the addition of new players and the return of seasoned veterans, the team is confident in its ability to compete at a higher level this season. The Vandals will face tough competition in the Big Sky Conference, but their focus and determination will be key in achieving success.

**Player Profiles**

**Kristy Moore**
- 5'8" guard
- Averaged 10.3 points per game last season
- Promising shooting and playmaking skills

**Jamie Mooney**
- 5'9" forward
- Averaged 6.2 points and 5.1 rebounds per game last season
- Strong defensive presence and leadership on the court

**Brooke Brown**
- 5'8" guard
- Showed potential in her freshman year
- Capable of making impacts on the court with her scoring and rebounding skills

**Upcoming Games**
- The Vandals will begin their season with a home game against the University of Idaho on November 20th. They will continue their home stand with games against Northern Colorado on November 23rd and Portland State on November 27th.

The Vandals are excited for the upcoming season and are ready to prove their worth in the Big Sky Conference. With their experienced leadership and promising talent, the team is determined to make a strong impact this year. It will be interesting to see how their season unfolds and if they can achieve their goals.
Boise State garners national ranking

By BOB DULANEY

Boise State

The Blue and Gold played host to No. 15 Oregon last Saturday in a game that had the fans of both schools cheering, as the Broncos came out on top with a 9-12 win.

With the win the Broncos moved the Oregon Ducks to one of their own medi-

The Boise State football team is currently ranked 23rd in the nation, ahead of the Oregon Ducks. The team has been successful in recent games, with a record of 10-0 for the season.

Boise State faces a tough challenge in their next game, as they travel to play the University of Illinois. The Illinois Fighting Illini are currently ranked 12th in the nation, and are a strong team with a record of 11-0 for the season.

Boise State fans are encouraged to support their team at the next game, as they look to build on their success and continue their journey towards a possible championship.
UI romps in exhibition opener

By Nathan Zeme

The Vandals men’s basketball team started it own off well enough to nail off Canada’s Simon Fraser University in Memorial Gym Monday night.

We’re happy with you, guys. I thought we played well enough to give our students a good game in the right atmosphere and we’ve got a lot of the awfully practices we’ve had in the past, there’s always something wrong.

“We came out and responded very well,” said assistant coach. “We are in the final minutes of the game to play the Vandals the final five minutes of action. PEYTON and our players finished the night with 19 points to lead all scorers. We are bringing a great effort to the game and we are very much looking to the game.

UPPER BEAVERTON.

UI lead the whole game throughout the game and had more than 24 points in the opening period. The Vandals held up a 14-31 difference in the second half of the game. SFU, which was 10-0 coming into the contest, struggled against the Vandals defense throughout the game. The Clan hit on only 10 points in the second half, but was able to overcome the Vandals defense.

Stacey Brower ended up with 11 points, but SFU had 12 in the first quarter and 10 in the second. UI is the number one team in the country.

“Franco scored 14 points for UI and added six rebounds in the first half for the Vandals,” said assistant coach. “I thought our offense dictated how well we played in the second half, and we scored early and scored good shots. We won the game when we softened up and we stopped defending.

UPPER BEAVERTON.

UI outscored SFU 64-44, including 7-2 defensive shots that must have turned the tide of the game.

“Coach Kline was really happy as well as I would have liked,” said Peyper. SFU’s Points Run led the Clan with 17 points and 17 rebounds, but on no other SFU player had a double double.

UPPER BEAVERTON.

UI got all three of its three-pointers in the second half, and had 12 in the first half.

Touring the ‘Blacks’ Experience

UI’s basketball team played a successful game against Simon Fraser University Monday night.

The game was played in Memorial Gym, home of the UI basketball team. The Vandals were led by senior guard Chris Miller, who scored 16 points and had 10 rebounds.

Miller was one of four Vandals in double figures, along with junior forward Mario West (11 points) and sophomores Kyle Allen (10 points) and Isaiah Thomas (10 points). The Vandals also had 18 assists and 11 turnovers.

Simon Fraser was led by senior guard Alex Jolly, who scored 16 points and had 10 rebounds.

The Vandals led throughout the game, outscoring Simon Fraser 52-45.

The Vandals are now 4-3 in conference play and 12-7 overall. Simon Fraser is 1-6 in conference and 11-11 overall.
