UI researcher works to make biodiesel more efficient, cheaper

By LEIF THOMPSON

The University of Idaho has received funding toward a program to produce biodiesel, an environmentally friendly and renewable fuel source, since 1997.

"Biodiesel has not made it into the mainstream market, largely because of the fuel cost and regulations," said Dr. Nick Leachman, professor of psychology and director of the University of Idaho Aggies Center for Environmental Stewardship. "It's important to find ways to make the process of biodiesel production more cost-effective and efficient, which is the goal of this project."

Leachman said that the project is focused on developing "novel types of crops, plants and bacteria" that can be converted into biodiesel.

"Our goal is to find new ways to produce biodiesel that are more efficient and cheaper," he said. "This could potentially open up new markets for the use of biodiesel as a transportation fuel."
BIODESOL

From Page 1

The fuel was made when chicken manure was mixed with cow manure and processed in a manner similar to biodiesel. The mixture was then heated to 110 degrees Celsius and a catalyst was added, which caused the oil to become liquid and flow. The resulting fuel was then stored in barrels for use.

The students who conducted the experiment were working with a local dairy farm to develop a sustainable method of producing biodiesel. They hoped to eventually distribute the fuel to local businesses and homes.

Students are working with the dairy farm to further develop the process and make it more efficient. They believe that this could be a viable alternative to traditional diesel fuel.

CHANCE

From Page 1

The students said that they were excited to be part of this project and believed that it could have a positive impact on the environment. They also expressed interest in continuing their work in this area in the future.

The students are looking forward to expanding their research and collaborating with other scientists to further advance the field of biodiesel production.

Gay fraternity gains colony status at Syracuse

BY JEN STEVENS

SYRACUSE, N.Y. (U-WIRE) — With hair still damp and several navigation signs still undecided, the founding members of Pride Syracuse and Syracuse University’s first gay sorority, Lambda Lambda Lambda, convened one last time Wednesday morning to rehearse their upcoming ceremony to found the colony.

They trickled in, six at a time, as they do each morning to the Center for Engagement on the Syracuse campus. A patch of fresh green grass in the foreground, a circle of white columns in the background, and a line of tall flagpoles.

It was a typical Thursday, a day of completeness.

"Our members are really proud to be a part of the Lambda Lambda Lambda colony," said a smiling Patrick Scharf, president of the organization, as he prepared to sign the ceremonial charter.

"Our members are really proud to be a part of the Lambda Lambda Lambda colony," said a smiling Patrick Scharf, president of the organization, as he prepared to sign the ceremonial charter.

California's immigrant driver's license bill may get a new life

By John Gellhorn

And Peter Larson

SANTA ANA, Calif. — At a small, crowded immigrant advocacy meeting in a Santa Ana office building last month, people were focused on the immigration debate in Sacramento — and the drive to get a driver's license bill passed.

But now, with the bill so close to passing, the issue is whether they've been legally or not. Period.

But another immigration advocate, Joe Hughes, of Irvine, said illegal immigrants should be allowed to drive. Many of them are employed and take their cars to work.

"We need to be legalized," he said. "We need to be allowed to drive."
Bush does something right in Iraq

Lately, I admit, my stance on American administration has been one that ’I haven’t hesitated—about the majority of Bush’s policies, domestically and internationally. I have no reservations about width, length, or depth in my criticism of the Bush regime. I have not and I do not think I will in the future.

But I am not proud to admit when someone—someone who I have always considered to be a friend—sends the same message that I have been sending, day in, day out. Bush did just that.

Unfortunately, I am not completely surprised. In the media, Bush’s actions towards Iraq have been apocryphal expressions of Bush’s true intentions. Bush appeared to have been duped by Rumsfeld. Without hundreds of无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点，无法判断的油墨斑点。
FFX-2 is a sequel to the award-winning Final Fantasy X. The second installment of the popular series continues to build on the success of its predecessor, offering players a new adventure in the world of Spira. As you explore the game, you'll encounter all the key elements that made the original so special, including turn-based battles, characters development, and engaging storylines. Discover new locations, battle against powerful enemies, and embark on a quest to save the world.

In this review, I will delve into the design, gameplay, and features that make Final Fantasy X-2 a must-play for any fan of the series. Whether you're a veteran or a newcomer to Final Fantasy, this sequel offers something for everyone.

FFX-2 is dynamic, fast-paced, and packed with action. The combat system is improved and streamlined, providing a more satisfying experience for both casual and experienced players. The story unfolds through a series of engaging missions that keep you invested from beginning to end.

One of the standout features of FFX-2 is the introduction of the time水晶 (Crest of Time) system. This mechanic allows you to revisit past events and make different choices, influencing the outcomes of the storyline. The game's world is vast and filled with secrets and hidden areas, encouraging you to explore every corner.

The graphics and sound design are top-notch, delivering a visually stunning and immersive experience. The voice acting and music are also exceptional, with many returning characters from the original Final Fantasy X.

Overall, Final Fantasy X-2 is a fantastic follow-up to one of the most beloved games in the series. It's a testament to the enduring appeal of the Final Fantasy franchise, and it's a must-play for any fan of the genre. Whether you're a long-time supporter or a newcomer to the series, FFX-2 offers an unforgettable adventure that you won't want to miss.

UI cuts Cable after fourth losing season

by Mark Williams

At the University of Idaho, past and present have recently collided. In this case, the collision was an unplanned one. The Idaho Vandal basketball program has faced a difficult season, and in the wake of its struggles, a historic decision has been made to fire assistant coach Tim Cable.

Cable, who has been with the program for four years, has been a constant during times of prosperity and struggle. His departure leaves a void that will be difficult to fill, not only in terms of coaching but also in terms of leadership.

The decision to cut Cable came after a season that saw the Vandal basketball team struggle to find consistency. Despite some promising moments, the team ultimately fell short of expectations, leading to a disappointing finish.

Cable's departure is a difficult one, as he has been a beloved figure among fans and players alike. His presence on the sidelines has been a source of inspiration and motivation for many, and his absence will be felt both on and off the court.

The University of Idaho basketball program is now in the process of finding a replacement for Cable. This is an opportunity for the program to take a fresh approach and potentially bring in new ideas and energy.

For Cable, the decision to cut him marks the end of a chapter in his coaching career. He will undoubtedly be looking back on his time at Idaho with fond memories and a sense of pride in the contributions he made.

UI's move to cut Cable is a reminder of the challenges coaches face in today's college sports landscape. The pressure to win and the constant evaluation of performance can sometimes lead to difficult decisions for university administrators.

As the program moves forward, it will be interesting to see how it evolves under new leadership. The challenge will be to maintain the same level of support and dedication from fans and players while striving for success on the court.

Volleyball goes dancing

Vandals make first trip to NCAA tournament since 1995

by Bruce Gavett

As a result of a historic decision, the University of Idaho volleyball program is preparing for its first trip to the NCAA volleyball tournament since 1995. This is a significant accomplishment for the Vandals, who have worked hard to improve their performance in recent years.

The Vandals have been on a roll recently, winning nine of their last 10 matches and solidifying their place in the conference standings. This success has translated into a strong seed for the NCAA tournament, where they will be playing against the University of Hawaii.

The match against Hawaii will be a tough one, as the Vandals have yet to face such a high level of competition. However, they are determined to make the most of this opportunity and make Idaho volleyball proud.

For coach Joe Myers, this is a dream come true. He has been working hard to build a successful program and has finally reaped the rewards of his efforts. The NCAA tournament is a fitting end to a season of hard work and dedication.

The Vandals will need to be at their best to compete against Hawaii, but they are confident in their ability to rise to the occasion. The team is excited and ready to bring their best to the court, knowing that every point counts.

This is a momentous occasion for the Vandals and the University of Idaho community. It is a testament to the hard work and perseverance of the players, coaches, and staff.

As the Vandals prepare for the NCAA tournament, they are looking forward to making Idaho proud and bringing home a victory for all Idaho fans.
Women's basketball picks up steam

By JACE ROBBLE

With three games scoring 15 points or more, the Vandals' basketball team has started the season with two thrilling wins over the Americans and the Wildcats. It's all been downhill for the past eight years.

The season opens this weekend with a bang. The team started its full break with a commanding win over Portland State University on Nov. 15 at Memorial Gym. The site dominated the entire game and was convincingly 76-50.

The Vandals' No. 1 recruit, Katrina Mitchell, did not disappoint in her first regular-season game. She started the game slow but by halftime had been able to generate six points, four rebounds and four assists. She scored two free throws to bring the team's performance to its final height, bringing the game with 13 points, seven rebounds and 12 assists.

The win was average for second highest all-time for a single game in the US record books. It was really only the beginning. What's next is the team's performance in its first, brutal game, which the Vandals won with 13 points, seven rebounds and 12 assists.

The victory was scored 25 points and helped out with three boards and six assists. The Vandals had a low-performance game and ended up 5-6. The last five points in each half win 78-64.

Mitchell gained 20 points and helped out with three boards and six assists. The Vandals had a low-performance game and ended up 5-6. The last five points in each half win 78-64.
