The university's board of trustees, meeting in special session on March 3, 2004, approved a budget that raises tuition and fees for the 2004-2005 academic year.

The board, which includes members from all 50 states, approved a 4.5% increase in tuition and a 6% increase in fees for undergraduate students. The increase will bring the tuition rate for in-state students to $9,915 and the fee rate to $6,250, according to the university's Web site.

The increase is the first in three years, according to the university Web site.

The increase was approved despite a recommendation from the university's finance committee, which had expressed concerns about the university's financial condition and the potential impact of the increase on student access to higher education.

The university's financial situation has improved in recent years, according to the university's financial statements.

The university's financial statements show a $1 million surplus for the fiscal year ended June 30, 2003, compared to a $6 million deficit in the previous year.

The university's board of trustees has also approved a new academic plan that will reduce the number of required courses for students in certain majors.

The new plan, which will be implemented in the fall of 2004, will allow students to choose from a wider range of courses in their majors.

The university's board of trustees has also approved a new budget that includes $10 million for capital projects and $5 million for academic programs.

Cost of textbooks spawns alternatives

University of Idaho students might find themselves in college stores or online bookstores to search for textbooks for their classes. They have more options this year thanks to a new program called Textbook Buyback. The program aims to help students save money on their textbooks by buying them back at the end of the semester. Below is a list of alternative options for students to consider when looking for textbooks:

1. **Rent Your Textbooks**: Many online platforms allow students to rent textbooks instead of buying them. This can save money, especially for textbooks that are used for only one semester.

2. **Used Textbooks**: Checking out used textbooks can be a great way to save money. Many students find that used textbooks are in good condition and can be a fraction of the cost of new ones.

3. **Web-based Textbooks**: Some courses offer web-based textbooks that are accessible online. This can be a cheaper and more environmentally friendly option.

4. **Open Educational Resources (OER)**: OER are freely available, openly licensed materials that can be used for teaching, learning, and research. OER can be a great alternative to traditional textbooks, especially for introductory courses.

5. **Digital Copies**: Some books are available in digital formats, which can be a more convenient and cost-effective option for students.

Despite the convenience and potential cost savings, some students and faculty members are concerned about the quality and accessibility of these alternatives. The university is working with bookstores and other organizations to ensure that students have access to the textbooks they need, while also exploring ways to reduce costs.

**Tensions are rising between Christians, gays**

By Clay Allred

**MOON**

Christianity and gays in America are struggling to coexist as two sides of society and nationally.

Two VU student groups have clashed over a possible resolution to the blackface controversy. One group supports the blackface resolution, while the other opposes it. The conflict between the groups has led to a rift within the student body.

**Sanchez proposed a new resolution that would ban the wearing of blackface.**

However, the other group, the Students Against Racial Injustice, opposes the resolution and feels it is a form of censorship.

**The resolution was defeated by a vote of 18 to 12.**

**The Bloodlier the Better**

Dear Editor,

Thank you, thank you, thank you! I just finished reading page 6 of *The Argonaut* and feel moved to share another set of similar sentiments with you.

This week’s cover story, “Laddering out on the Hill,” is an excellent example of what makes *The Argonaut* a great newspaper. It’s a page that could make headlines for any university student. The article’s research and writing are first-rate, and the photography is stunning. The layout is engaging, and the overall design is impressive.

But the best part of the story is the message. It’s a powerful reminder of the values that define our university community: integrity, courage, and dedication. I’m proud to be a member of this community, and I’m proud to have *The Argonaut* as its voice.

Sincerely,

**Students Rise Above Admission Woes**

**Editorial**

Even though theApplication Brochure for the fall of 2004 is now available, many of us are still struggling to get into the university of our choice. The pressure to get into a good college is overwhelming and can be very stressful. The admissions process is a long and difficult one, but we must remember that it is not the end of the world if we are not accepted into our first choice.

The University of Idaho offers many programs and degrees, so it is important to explore all options before making a final decision. It is also important to keep in mind that there are many other opportunities for education beyond the traditional four-year college. options such as community colleges, vocational schools, and online programs are also available.

In conclusion, the admissions process can be stressful, but it is important to remember that it is not the end of the world if we are not accepted into our first choice. There are many other opportunities for education, and it is important to explore all options before making a final decision.

Sincerely,

OURL VIEW'S ALTERNATE ART

by Bobcaygon

Snow can be beautiful but problematic

The snowfall that blanketed the area recently has brought

both beauty and challenges. The white blanket of snow

created a picturesque landscape, with trees and fields

transformed into a winter wonderland. However, the snow

also led to slippery roads and difficulties for drivers,

resulting in traffic delays and accidents. The accumulation

of snow on power lines caused power outages in some

areas, leaving homes and businesses without electricity.

Despite the challenges, the snow provided an opportunity

for outdoor activities such as skiing, snowboarding,

and sledding. The winter scenes captured in photographs

and paintings were truly remarkable.

Many death penalty supporters lack cause

They deserve to die, don't they? These monsters who

killed innocent people deserve to die, don't they? It's only

right, isn't it? It's only fair...

No, it isn't.

And this isn't even the problem. The problem with the death penalty is that it is a

senseless, cruel, and ineffective form of punishment. It does not deter crime, it does

not rehabilitate offenders, and it is applied unevenly based on factors such as race,

class, and socioeconomic status.

The death penalty is a product of fear and anger, a response to the atrocities committed

by individuals who have committed heinous acts. However, this response is not

productive. It does not provide justice for the victims, it does not provide closure for

their families, and it does not bring back those who have been taken from us.

Instead of focusing on the death penalty, we should be focusing on prevention and

rehabilitation. We should be working to create a society where people are treated

equally, where they have access to education and healthcare, and where they have

opportunities to lead productive lives.

The death penalty has no place in our justice system. It is a relic of the past, a symbol

of our society's fear and lack of understanding. We must move forward and create a

society where justice is served, where lives are valued, and where every person is

treated with dignity and respect.
**Holiday Concert lets school choirs shine**

Don Hoyt, a journalism major, has been singing in a school choir for the past three years and remembers singing with the Arts Commission Choral Branch. The first choir Hoyt ever sang with was the "Most McGee and the Little Mermaids," which he describes as a group of about 20 people who have grown through the years.

Bukvich said the idea for the choirs came about when students who would like to be in the choirs joined different choirs to the Arts Commission Choral Branch. Bukvich said the idea was to give the choirs more exposure and opportunities to perform.

Bukvich said the choirs have a variety of students and faculty from the Aspen High School of Music, and the Aspen Cardinal community bell choir will also perform.

"It's fun to see the kids who want to come singing," said Spencer Martin, assistant professor of music education. "The choirs provide a really enjoyable night that serves as a chance for everyone to come together.

Bukvich agreed, saying it's nice to have children dress on campus as Choir night.

**Getting fresh: Mexican eatery expands dining area**

By **CHRISSA WATERS**

Sebel has recently become a popular place to eat in this college town. The restaurant offers a variety of dishes, from tacos to enchiladas, and it has recently expanded its dining area.

Bees and bees, they just go together. Alvarez said, "I want to have bee and flower specials — a bucket of beer and a bucket of flowers. But I'm not sure how many people are going to want them." Alvarez said. The audience was pleased with the expanded dining area, with a total of 500 people expected to attend the concert.

The only song on the program that could safely be sung by many people in the Elks' theme is "Preparations for the concert began Thursday night in the upper level of Carillon." Alvarez said. The rehearsal was designed to ensure that everyone gets their food and drinks before going to the concert, and it is the last night of a two-day rehearsal for the concert.

"We are more than happy to provide the concert for free," Alvarez said.

Alvarez concluded, "I hope you all enjoy the concert and our next piece at the Festival."
"Samurai" emerges victorious despite obvious imitation

TAG-TAINTERS
By JASON REED and JACOB DUNBAR

The Last Samurai is the story of a United States cavalryman, Colonel Nathan Algren, who is pressed into service against the Japanese army of the last shogun, the so-called "sacred emperor" of Japan. But when he learns the truth, he becomes a samurai himself.

Review

The Last Samurai (CM+ + of 5) 0100

Walter B. is the story of a United States cavalryman, Colonel Nathan Algren, who is pressed into service against the Japanese army of the last shogun, the so-called "sacred emperor" of Japan. But when he learns the truth, he becomes a samurai himself.

The Good

CM, one cannot help but admire what Mr. Zwick and his screenwriters have done with narrative. They have managed to capture the spirit of a country that has survived for centuries, the samurai. The story is greatly enhanced with wonderful performances by many talented actors. The emotions of the samurai are genuinely felt, and the relationship between Ken Watanabe and his student Jasper (played by Ken Watanabe), the leader of a group of young samurai, is powerfully depicted.

The Bad

CM, as much as I wanted to like "The Last Samurai," I did get a lot, there are not too many dramatic passages in the film. The narrative is divided into two parts: Algren's attempt to become a samurai and his eventual meeting with the samurai's leader, Watanabe. The latter part of the film is more interesting.

J.D. "The Last Samurai" can't be explained more easily than this: it is very well done, but not the best picture of the year. Those who have seen the original film will find this much better than the previous one. The film is a great example of cinema's power to create new worlds.

While there may be some merit in this criticism, we can't ignore the film's powerful epic adventure. First, an epic needs appealing heroes; the Japanese and their culture are fascinating. The film's visual effects are stunning, and the music is captivating. The storyline of self-sacrifice, loyalty, and the quest for peace is gripping. The film's pacing is well done, and the action scenes are well executed.

The Most

CM, (and I'm not sure if I'm writing this as a review or a personal statement) the film's best part, the relationship between Algren and the samurai, is a moving one. It's a love story, a tale of love and sacrifice, a tale of the samurai's dedication to the emperor. It's a story of friendship, of the bond between a human and his animal. It's a story of survival, of the samurai's struggle against the Japanese army.

The Least

CM, (and I'm not sure if I'm writing this as a review or a personal statement) the film's worst part, the relationship between Algren and the samurai, is a moving one. It's a love story, a tale of love and sacrifice, a tale of the samurai's dedication to the emperor. It's a story of friendship, of the bond between a human and his animal. It's a story of survival, of the samurai's struggle against the Japanese army.

The film is a masterpiece, a story of courage, of sacrifice, of the samurai's dedication to the emperor, of the bond between a human and his animal. It's a story of survival, of the samurai's struggle against the Japanese army.

The Overall

CM, (and I'm not sure if I'm writing this as a review or a personal statement) the film's worst part, the relationship between Algren and the samurai, is a moving one. It's a love story, a tale of love and sacrifice, a tale of the samurai's dedication to the emperor. It's a story of friendship, of the bond between a human and his animal. It's a story of survival, of the samurai's struggle against the Japanese army.

The film is a masterpiece, a story of courage, of sacrifice, of the samurai's dedication to the emperor, of the bond between a human and his animal. It's a story of survival, of the samurai's struggle against the Japanese army.
Rise of the machine

Faurholt's scoring prowess leads 5-0 women's basketball squad

BY JAKE ROUSSEL
ASSISTANT SPORTS EDITOR

On Sunday the Boise State women's basketball squad put the rest of the Big Sky Conference on notice as they blanked Vandals Emily Faurholt, the Vandals' top scorer, 20 to 19. Performance-wise there have been a few more than the usual number of questions asked about the game, so the Vandals came out with a strong effort and a win, but the key was a 48 to 43 victory in their own game.

Raiders' head coach fast to find out what they're doing in basketball. He doesn't have much time to prepare for next season should they be able to do what he expects. After formally being introduced Monday as the replacement for Rick Byars, Holt announced that he intends to take his team to the NCAA tournament and have them grow and improve as a unit.

They've been described as having a high-quality, winning mentality; that's his plan. Holt is an experienced coach known for pushing his team to the limit. He's helped the Vandals reach the NCAA tournament and has won over 50 games in his first 10 seasons.

Holt, who spent the past two seasons as an assistant coach at Idaho State, said Tuesday he's excited about the opportunity to lead the Vandals.

"I'm very excited to be here and I'm looking forward to getting started," Holt said. "We have a great group of players and I'm confident we can accomplish a lot this season."
Northern West on: A holiday game at Moscow takes the place of basketball. The 5-0 Idaho Vandals (10-7) will travel to Moscow, Idaho, to play the Idaho State Bengals (7-7) on Dec. 17. The game will be on the air in Moscow on 1240 AM.

Women’s basketball moves to Cowan
Saturday’s women’s basketball game vs. Idaho State will be a change of venue. The game, which was originally scheduled to take place in Moscow, Idaho, has been moved to Cowan Gym, home of the Cowan Cowgirls. The Cowgirls have a home game time of 7 p.m. PST and will stream live.

The 6-1 Cowgirls are 2-1 in conference play and have won four in a row. They are currently No. 10 in the Associated Press Poll and 9-4 in the AP women’s basketball poll.

Fullerton’s Brown goes on 3-point buzzer
Fullerton’s Bobbi Brown was named the Big West Player of the Week after his sharp-shooting helped Cal State Fullerton to a 79-73 victory. The 6-0, 175-pound senior guard scored a career-high 28 points, scored seven 3-pointers, and hit 10-of-13 from the floor and 7-of-7 from the line. He was named Big West Player of the Week.

Women’s basketball vs. Idaho State, Saturday, 8 p.m.

Basketball squads prepare for busy winter break game schedule

For those sports enthusiasts who are picking up Moscow throughout the winter break, the men’s and women’s basketball teams will be playing a few more games.

The women’s team will change Idaho State University at 7 p.m. Sunday at the Cowan Spectrum in the Kibbie Dome and will end their week by hosting Washington State University at 7 p.m. Thursday. The men’s team will play UC Santa Barbara at 8 p.m. Thursday and will wrap up the non-conference season for the women, who are undefeated with a 7-0 record.

 idiot State will be a really tough game for us,” coach Calhoun said. “We have yet to really focus on it as well as the WBI games. Dickinson said the team is using this time to get some practice in, which has been tough over the holidays.

“We have been playing some tough teams over the past three weeks,” he said. “We will use this time to improve and get better at certain things.”

The women will have five days off to spend time with family and to recover from the back-to-back non-conference games before playing the WBI.

Both teams will have some new faces this year as the team is returning one of its top scorers from last season, 200 points.

The Vandals will open the tournament against the University of Washington at 7 p.m. on Friday. The game will be at the Cowan Spectrum in the Kibbie Dome.

The Vandals have won the past three meetings against Idaho State. The last two games were played during the regular season.

The game will be played in Idaho State’s home arena, the Cowan Spectrum, at 7 p.m. on Friday.

The Vandals also will play UC Santa Barbara at home on Jan. 10.

Both games are at 7 p.m. in Cowan Spectrum.

The men’s team (3-4) is going to be at home from December and January. The team will have a couple of Breaks during finals week against Idaho State University and the New Mexico State University. They will travel to New Mexico State University in the New Mexico State University in the Cowan Spectrum.

The team will have a two-week break before beginning a three-game conference road trip, starting at Utah State, home of the Cowgirls. The trip will end at Utah State University on Jan. 28.

The Vandals will return to Moscow on Jan. 30 to take on Cal State Northridge for its first conference home game.

Pound the pavement with an employment service

BY MICHAEL KIRKHAM
Managing Editor/News Services

At this time last year, 380 Michigan Engineering seniors had 397 jobs listed on campus by the Michigan Engineering Career Center. By last Friday, 341 seniors had filled 449 jobs by Monday. "That's pretty good," said Career Service Manager Margaret A. Gatelli. "It's better than last year, and we're only halfway through the semester." She attributes the high employment rates to increased networking opportunities, established employer relations, and a focus on internships and co-op programs.

"There are more job opportunities for theEngineering students," she said.

"The job market is improving in the computer, communications, and manufacturing industries, and we're seeing more companies offering internships and co-op programs." She also noted that the demand for engineers is increasing in the fields of biotechnology, environmental engineering, and renewable energy. "These are growing industries that offer a lot of opportunities for young engineers," she said.

Gatelli also emphasized the importance of networking and building relationships with companies. "It's not just about the job listings, it's also about building relationships that can lead to future opportunities," she said.

"We encourage our students to attend career fairs, network with alumni, and reach out to companies they are interested in working for. The more relationships they build, the better their chances of finding a job," she said.

"We also encourage them to take advantage of our career services, including resume building, interview preparation, and job search strategies," she said.

Gatelli concluded, "As long as the economy continues to improve, and companies continue to seek qualified engineers, we are confident that our students will continue to find opportunities in their chosen fields."
UNM students struggle to pay back loans

By Kari Fernandez

University of New Mexico students are struggling to pay back their loans, according to a report by the National Center for Education Statistics. The report found that the average student loan debt for graduates in 2018 was $31,000, with the highest debt levels among students who graduated with bachelor's degrees.

The report also found that the percentage of students defaulting on their loans has increased over the past few years. In 2012, 9.6% of borrowers defaulted on their loans, compared to 11.8% in 2018.

Students are also facing challenges in finding jobs that can support their student loan payments. According to the report, the unemployment rate for recent graduates was 5.8% in 2018, compared to 4.1% for the overall population.

The report recommends that policymakers consider policies to help students manage their debt, such as increasing the availability of loan forgiveness programs and providing more resources for financial counseling and planning.

Turn a holiday job into a full-time career

Wright Hughes Newsletters

(11/12) — If you're out of work, you may be able to bring in some cash by landing a temporary job. And if you work for just right, you may be able to turn that temporary job into a full-time position.

One piece of advice: Look for work during the holidays. According to recent studies, the job openings in your area are not as well-known as you might think, so job seekers should be on the lookout for opportunities.

The holiday season is a great time to try out a new career or to explore new positions. Many companies are looking to fill seasonal positions, so there are plenty of opportunities for those who are willing to work hard and make an impression.

The key is to be proactive and to let your network know that you are available. With the right态度, you can turn a holiday job into a full-time career.
The School of Journalism and Mass Media proudly presents our fall 2003 graduates!

Congratulations!

Argonaut Graduates:

- Nathan Jerke
- Joy Barbor
- Emet Ward
- Joslyn Seyfried
- Matt McCoy

The Psychology Department

Congratulations Graduates!

The Department of Biological and Agricultural Engineering would like to congratulate the following graduates:

Nicholas Frei

The Department of Plant, Soil & Entomological Sciences congratulates the following graduates:

Department of Plant, Soil & Entomological Sciences congratulates the following graduates:

UI Class of 2003
Vince Moore & Ben Wilson
You're still hanging together after all these years. We're so proud of both of you!

Love, from both Your Families.

UI Class of 2003
Crystal Reed
Congratulations on all your "super" successes. You have opened yet another door to your exciting future.

Love you, Mom

UI Class of 2003
Brad Poe
Early years listening to "Bob Curtis, the Voice of the Vandals". You're a true Vandal!

Congratulations, Mom and Pops

UI Class of 2003
Angie Fisch
How the years fly by. We are so proud of you!

Love you, Mom & Dad

UI Class of 2003
Brian Auer
You have accomplished so much, your family wishes you the best in the future.

Love, Mom & Dad

UI Class of 2003
Timothy James Hagen
As you slide down the banister of life, may the splinters never point the wrong way.

Congratulations!

Idaho Commons & Student Union
Congratulations our Graduating Seniors

Alex Sprague (SPL)
Subit Chandran (SIB Building Services)
Nathan Jerke (Argonaut)
Joy Barbour (Argonaut)
Emet Ward (Argonaut)
Christina Brink (Commons and Info Desk)
Chris Gandolfo (Commons and Info Desk)
Joe Kimble (Outdoor Programs)
Nomusa Ndebele (ASU)
Annette Henke (Commons and Info Desk)

Congratulations!

Lionel Hampton School of Music
Fall 2003 Graduates

Holly Akersten
Annie Chalmers
Heidi Cook
Josh Forke
Joyce Rudeen
Sarah Windisch
Taryn Winogardner

The Department of Electrical and Computer Engineering wants to congratulate the Fall 2003 graduates:

B.S. Electrical Eng.
Joy R. Abo
Joel A. Alberts
Brian W. Augdahl
Richard C. Bearg
Casey T. Eitel
Ken C. Krisher
Mark P. Pigram
B.S. Computer Eng.
Scott M. Couch
Kristopher M. Gellings
M.S. Computer Eng.
Aghogho Ekpo

M.S. Electrical Eng.
Mangapathirao Rao V. Mynam
Satish Somnani
Amit D. Somani
Jonathan C. Stiff
Fadi R. Nessir Zghoul

M.E. Electrical Eng.
James P. Diller
Michael E. Roukte
P.H.D. Electrical Eng.
Scott F. Smith

The Department of Fish and Wildlife Resources Proudly Announces Fall 2003 Graduates

Bachelor of Science
Fishery Resources
Christopher Couladin
Craig Holmberg
Nathan Jones
Master of Science
Fishery Resources
Wade Cavender
Graueebo Boyle
Jeffrey Stephenas
Doctor of Philosophy
Natural Resources
Lance Clarke
Kathleen McGrath
Craig Miller

Bachelor of Science
Wildlife Resources
Brandon Miller
Christina Guste
Ned Hall
Craig Holmberg
Marcus Hammond
Seth Harz

Master of Science
Wildlife Resources
Michelle Kissling
Sadey Vasterling

Doctor of Philosophy
Forestry, Wildlife & Range Sciences
Jeffrey Beck
UI Class of 2003

Nathaniel Allan Jerke
Who would have guessed a "Bad Toad" could have made it so far. Congratulations!
Lots of Love, Your Family

UI Class of 2003

Jacob Benjamin Corder
May you sense God’s will as you seek His guidance for your future. We’re blessed!
Love you.
Mom & Dad

UI Class of 2003

Joseph Wayne Petrie
All Forward. Congrats on a job well done!

Love, Dad, Mom, J&R, B&L and Teej

UI Class of 2003

Wesley Carl Romberg
We are all so proud of you and your accomplishments! Now your life begins!
We love you, Mom, Dad and Grant

UI Class of 2003

Robyn Parsons-Paffendorf
Congratulations mom on all your accomplishments!

Love, Mom, Dad, John, Annie & Tini

UI Class of 2003

Joy Barbour
Congratulations for always standing up for what you believe, and for brightening UI’s campus.

Love, Jake and your Family

The Department of Biological Sciences
wishes the following graduating seniors the best of luck!

Teresa K. Akin
Loren Anthony Ballanti
Stanley Brian Caudle
Lisa M. Eberhard
Christina L. Grigg
Andrew Tyson Haworth
Dane A Kaster
Anisa Kobe
Kelsey Jae Nunez
Todd Pankratz
Christine Elizabeth Robertson

UI Athletics Recognizes Their Fall 2003 Graduates

Football
Jason Cobb
