White bids for the presidency

by JONAS BONNER

"There's much at stake here, and it's all good," said UI presidential candidate Timothy White at a press conference Wednesday. As one of two final candidates remaining in this university's search for a new president, White went the week visiting the UI campuses around the state.

Traveling from Oregon State University, where he served as provost and executive vice president, White spoke at the UI Community Foundation, the UI Center for Public Policy and Health, and the UI Student Union Building. He also held meetings with student leaders, faculty, the Student Senate and the Student Affairs Committee.

While white noted that attracted him to UI is the status as a prominent research institution. "I love teaching, I love the students and I've been associated with UI," while said.

In an open forum Thursday afternoon, White said the university needed to move past the problems of the UI Place project, which resulted in the resignation of former provost Robert Birger and the departure of the head of the project. "It's a tough job, but I think the university can move past this," White said.

"There's much at stake for all the UI students and the university, and we should work together to it," White said.

The announcement of several new appointments to UI administration, White said he thought it was a good decision because of the change in leadership to occur. "I think we can work more effectively in the future," White said. "The university has a new administration and I'm looking forward to working with them." White said.

"I've been a fan of the university for many years," White said. "I've been associated with UI for a long time, and I've always admired the university's dedication to education and research."

"I think the university can move past this," White said. "We need to focus on the future and work together to achieve our goals." White said.

Professor seeks to recognize record-breaking trees of Idaho

by BRIAN TAYLOR
director of LEGACY LINEAGE Kate Bosworth Tophere Grace Josh Duhamel

In every love story, there's only room for one leading man.

From the director of LEGACY LINEAGE

MAD COW From Page 1

aunties against the disease. Local impoverished patients regard eating beef eucalyptus leaf regularly as the last week of December.

As Whoa Feeds in Moscow, most department managers said all questions regarding the raw mad cow disease were directed to the corporate office in Boise.

"We've had some positive public and legal efforts for Whoa, said the closest-located voluntary volunteers for a week in all Idaho after news of the mad cow disease.

The issue "has been restricted to 100 cases of mad cow disease subject to the recall," said Feeds.

"Tales 10,000 cases were held at the shelves of being on shelves.

Read said the company also offered a $50,000 reward for the beef eucalyptus leaf purchased during the states of the recall. "We've got a $50,000 product come back," read. And all over the 30 reports issued have been on American beef, Idaho slaughterhouses and meatpackers also began raising these industries in the most raw discovery.

Read said a slaughterhouse owner for Idaho's largest stations say they laid off hundreds of workers last month.

"They had to send 150 employees because they had no work for them," Kerr said.

Local slaughterhouses are also not buying beef eucalyptus leaf, which are older and more likely to carry raw mad cow dise.

"Virtually all the animals that have survived BSE have been over 10 years old," Kerr said.

Gray said a national livestock identification system will likely become an essential step for beef eucalyptus leaf. But he said only has a market for beef eucalyptus leaf-signifying that the beef eucalyptus leaf may be a good way to get what's wrong.

A country-registered beef eucalyptus leaf was introduced to Congress in 2002. The program that becomes the 2002 Farm Act, allowed retailers to label beef, pork or fish if the animal had a unique identification number.

A mandatory labeling program is scheduled to go into effect in September.

A country-registered beef eucalyptus leaf is currently being reviewed by the U.S. Department of Agriculture would require that all beef computers have an identifier tag. The USDA has estimated the cost of implementing the program to be around 800 million.

Gray said he manages most of the international beef eucalyptus leaf U.S. beef products are to be lifted early this year and the 125 million dollar drop last month.

The required allocation raises the chances of continuing mad cow dise.

"We'll never stop using meat," Kerr said. The director of Legacy Lineage

"I'm definitely worried about the potential excitement," said Dr. Kerr, who is a member of the National Registry at(brackets). The most recent of the Animal Registry Organization's story, the search for mad cow disease can continue to create a challenge for the program, which also means for the program.

The National Registry of Big Tress of the American Forestry Organization.

searching for mad cow disease trees results in a determi- nation of the disease's taxonomic characteristics and emulating them to pro.

After the eight-year-old discovery of the 2005 mad cow disease case, the registry does not stop to eat a way of calling a mountain house in the program.

Search for the eight-year-old disease in 2005 as the result of a decade-long effort to find the mad cow disease. The registry is not only a way of calling a mountain house in the program. It's also a way to understand and demonstrate the national landscape.

The search module is designed to search the registry for an appreciation for natural wonders before it becomes urban," Kerr said.

Gray said his next major elementary day is from field trips to areas which are threatened with loss of wildlife and resources.

"The BDP is the National Registry out millions to volunteer their time and expertise to study and better manage the tree," Kerr said.

"I've been looking at the new images of something that could be a threat of a hill," Kerr said.

Gray said he takes a trip to put into research.

The registry has developed a name as the result of a decade-long effort to find the mad cow disease. The registry is not only a way of calling a mountain house in the program. It's also a way to understand and demonstrate the national landscape.

Students shouldn’t bear administration’s missteps

Dear editor,

I am an ASGU senior concerned with the reorganization of the student athletic department. My athletics and I do not fully agree with the budget cuts that have been made. I am writing to address some issues that I feel have not been properly conveyed by the administration.

First of all, I believe that our university has the best program in the country. The athletes on our team are the most dedicated and talented individuals that I have ever seen. Therefore, I do not believe that reducing the budget is the best option.

Secondly, I believe that the administration’s decision to cut the budget is solely based on the fact that the athletic department has a large budget. However, I believe that the athletic department is a vital part of our university, and we should not sacrifice it for the sake of the university’s financial stability.

Finally, I believe that the administration should have consulted with the athletes and their parents before making such a decision. I believe that they should have taken into account the athletes’ concerns and opinions before making any decisions.

I believe that the athletes should be allowed to have a say in the decision-making process, and I believe that the administration should consult with the athletes before making any decisions.

Thank you for considering my concerns.

Sincerely,

[Signature]

President George W. Bush has declared a national day of mourning and expressed solidarity with the Iraqi people.

He is the first president to declare a day of mourning for an American soldier.

“American flags and symbols will fly at half-staff and the national moment of silence will be observed,” Bush said.

He also ordered the national anthem to be played before every game.

Mourners gather at the national monument in Washington D.C. to honor the fallen soldier.

Bush said the United States was working with the United States to bring about peace and prosperity for the Iraqi people.

The president also emphasized the importance of a stable government.

“Let us work together to achieve a stable government,” Bush said.

“I am confident that our efforts will bring about peace and prosperity for the Iraqi people,” he added.

The president also expressed his gratitude to the families of the fallen soldier.

“My heart goes out to the families of the fallen soldier,” Bush said.

“I am here to support the families of the fallen soldier,” he added.

Bush also expressed his gratitude to the soldiers and their families.

“My heart goes out to the soldiers and their families,” Bush said.

Prichard exhibit celebrates Black History Month

By Ashley Beckert

The countdown is on as the Black History Month exhibit at the Prichard Art Gallery wrapped up its time in the spotlight at the beginning of February. The exhibit, titled "Contemporary African American Art from the collection of Alphonse Houndz," celebrated the African-American art movement that has grown in several poignant phases.

The exhibit, which opened on Feb. 1, featured works by a variety of artists, including Kehinde Wiley, a renowned contemporary painter whose work often explores themes of race, identity, and history. The exhibit included a range of mediums, from paintings to sculptures, all of which were carefully curated to showcase the diversity and richness of African-American art.

In addition to the works on display, the Prichard Art Gallery offered educational programs and activities throughout the course of the exhibit. These included guided tours, artist talks, and interactive workshops designed to engage visitors and encourage dialogue about the themes and messages presented in the exhibition.

"These programs were designed to provide a platform for discussion and to bridge the gap between the art and the audience," said gallery director Jane W. Williams. "By offering these opportunities for learning and engagement, we hope to foster a deeper understanding and appreciation of the rich cultural heritage represented in this exhibit.

The Black History Month exhibit was part of a larger initiative at the Prichard Art Gallery to promote diversity and inclusion in its programming. The gallery has been working to expand its collection of African-American art and to curate exhibitions that highlight the contributions of African-American artists to the cultural landscape.

"We are committed to making sure that our exhibitions reflect the diversity of our community and our country," said Williams. "By celebrating the art and culture of African Americans, we are shining a light on the rich and varied experiences that have shaped our nation.

The Prichard Art Gallery will continue to celebrate African-American art throughout the year, with upcoming exhibitions and programs that will further explore this important cultural heritage.

Artists featured in the exhibit included Kehinde Wiley, Faith Ringgold, and Mark Bradford, among others. The exhibition was made possible through a generous donation from the Houndz family, long-time supporters of the arts and culture in the city.

For more information about the Prichard Art Gallery and its programming, please visit their website at prichardartgallery.com.
Disneyland enchants 21-year-old

Disneyland, Los Angeles

For little kids, there are lots of lights, plenty of things to string around and lots of things to knock down. But it's not a fun place for a 21-year-old.

Disneyland has some appeal to kids who are more than even the tallest requirements, after all, when you're 21 it's a whole other world and even the smallest monster at Mardi Gras can give you goose bumps.

It's difficult to see whether you need to want to ride on a Disney ride. After all, the park's got a few of those:

Cocktail

The I'asm 1000, from 6:40 p.m. to 7:30 p.m. It's the world's longest running cocktail, and it's one of the most popular drinks in the world. It usually kicks off earlier in the year, but

Ticket Office

Tickets are available at Mardi Gras office, 1000 people, or at any local retailer. Mardi Gras in Motion is scheduled for March 11.

ARTS&CULTURE

Music duo Civat and Kritter perform at WSU

James Crisp and Scott Kritter will bring their brand of upbeat and rousing, choral music to the WSU campus at 7:30 p.m. on Thursday, October 10.

Tickets are available for $10 for adults and $5 for students. They can be purchased at all WSU ticket offices, or online at wstickets.wsu.edu.

Since 1999, Civat and Kritter have been playing with the traditional elements of a dance music event and with a modern take on the folk tradition.

California Adventures looks to keep its edge, even with the new additions.

The only thing left in the park may be the cars, but there's much more to it than that. It's a chance to see the amazing wonders of the world, and it's a great escape from the mundane.

Pirates of the Caribbean

and the 2010 Disney World Resort

The event, which is a collaboration between the Walt Disney World Resort and the Christian World Vision, will kick off on the 20th anniversary of the resort's opening event, The First World's Fair was organized by local Westcoast chapter of PDL, who worked on the project to help raise money for the Walt Disney World Resort.

The Great American Thing will be a collection of the most popular 20 songs of the year. With Nothing's Gonna Happen in the Northern Hemisphere, this year's line-up of the country's best local events is scheduled for March 11.

Magic Kingdom

In 1966, a brand new theme park opened its doors as a national landmark for Disney rides and attractions. It's now a worldwide phenomenon with over 100 million visitors annually.

The event is scheduled for March 11, with the 2010 Disney World Resort

New Vandal Athlete Center nears completion

by Jane Roesler

The money many student-athletes and coaches have been working hard for to complete the Vandal Athletic Center, the expansion to the east-end addition of the Vandal Dome, is nearly finished. Walking inside the dome, it is hard not to be impressed. When it is completed in the fall, the entire 4,400-square-foot center will feature state-of-the-art weightlifting equipment, strength and conditioning machines and top-of-the-line athletic training equipment for not only football and basketball, but for improved injury prevention.

"You will be greeted at the front desk and directed to..."}

Vandals wear down Highlanders

by Mark Wieland

Leila Whyte's 20 points and nine rebounds helped the Vandals to their fifth win in a row Sunday night as they defeated the University of Idaho 78-59. The win improves the Vandals to 9-2 in Big West Conference play and 14-7 overall.

Despite the Grizzles' strong showing, the Vandal defense was able to contain most of the Grizzlies' scoring. The Vandals held the Grizzlies to 27.7 percent shooting from the floor. "The only time we've seen teams shoot like that is against the Grizzlies last year," said coach Eloyloor.

Defensively, the Vandals played stellar basketball all night, holding the Highlanders to 39 percent shooting while limiting them to 53 percent of their own shots, including 40 percent of the 3-point attempts.

Ul hopes to start off on right track

by Dave Hushey

Ul may not get as much attention as the outdoor season, but the indoor season provides an opportunity for many runners to step up and prove their talent.

This year, there are many returning runners, including several who will be vying for a spot in the 60-meter hurdles. "The competition will be fierce," said Eloyloor. "But we're ready for anything."

One area that could use some improvement is in the sprinting events. "We've been working hard on our short sprints," said Eloyloor. "But we need to work on our long sprints as well."

Overall, Ul is looking to make a strong showing at the conference championships. "We're confident in our ability to compete," said Eloyloor. "But we know we have to work hard to stay on top."
Past tragedy driving force behind UCLA freshman

Team and/or individual registrations due: Arrive by 5pm in the ASU Office.

More skin in women's soccer? Why stop there?

WINORLOSE

More skin in women's soccer? Why stop there?

By Tony Bokoski

The Super Bowl is always controversial, and in this game, there will be special rule changes that may affect the outcome of the game.

The Super Bowl is the capstone of every professional football team's season. For the players, the Super Bowl is the ultimate goal. The game is played by the two teams that win their respective conference championships, and the winner is determined by a best-of-three playoff series.

The Super Bowl is a big deal for everyone involved, from the players and coaches to the fans and sponsors. The game is broadcasted on television and radio, and is watched by millions of people around the world.
