FBI interviews Moscow residents as part of national investigation

**Faculty: Trust deficit is an issue**

By Lisa Warren

The Argonaut welcomes freshmen to the University of Idaho. Freshmen orientation information begins on page A2.

**Attorney general files $18 million claim against UI Foundation**

By Abe Stachow

In a civil lawsuit against UI Foundation, Attorney General Bob Ferguson seeks $18 million in damages related to the sale of Endowment funds to benefit scholarships and academic programs. The lawsuit alleges that the university's policies and procedures for managing the foundation's assets were deficient, resulting in a loss to the state.

UI Foundation, which manages the university's endowment, received $18 million from the sale of assets. However, the lawsuit claims that the university failed to properly account for the funds, resulting in a loss to the state.

The lawsuit seeks to recover the lost funds and to prevent similar practices from occurring in the future. The university has not yet responded to the lawsuit.

**Al-Hussayen remains in jail**

By Abe Stachow

A.S. Al-Hussayen, a Saudi national, remains in jail as his case moves forward. Al-Hussayen is accused of conspiring to support the Islamic State of Iraq and the Levant (ISIL). He is also accused of providing material support to ISIL members.

Al-Hussayen's case is being handled by the U.S. Attorney's Office in Idaho. The office is responsible for investigating and prosecuting cases involving national security and terrorism.

NEWSBRIEFS
White sends message

Journey to Idaho Falls, White is
looking forward to his first stop.
Move: Regent Forest is near
I-15 in Idaho Falls. White and his
crew will be in the area for the next
days. He said in a news release
Thursday, July 21, that he is
looking forward to his first stop in
Idaho and that he is excited to
meet Idaho residents.

White, a Republican, is running
for a seat in the U.S. House of
Representatives in Idaho’s 2nd
District. He is facing a
democratic opponent in the
primary election on Tuesday, Aug.
2. The winner of the primary will
face a republican opponent in the
general election in November.

Journey to Idaho Falls is part of
White’s national tour, which
includes stops in other states.
White said he is excited to
meet Idaho residents and to
hear their concerns.

White also announced that he
will be holding a town hall meeting
in Idaho Falls on Tuesday, Aug.
2. At the town hall meeting,
White will be available to
meet with residents and hear
their concerns.

White is running against
democratic incumbent
Rep. Chaka Fattah in the
primary election. Fattah is
running for re-election in the
general election.

Fattah has represented
the 2nd District since 2011.

White said he is confident
that he will be able to
represent Idaho in Congress.

White also announced that he
will be holding a town hall meeting
in Idaho Falls on Tuesday, Aug.
2. At the town hall meeting,
White will be available to
meet with residents and hear
their concerns.

New spam filter will revamp VandamMail

BY NATE KOSE
SENIOR EDITOR

The University of Idaho Information Technology Services will unveil a new spam filter for VandamMail that will replace the current spam filter. The new system will improve overall system efficiency.

"It's really a night and day difference," said Anthony Robinson, Information Technology Development and Network Systems. "The system we had was a very basic anti-spam system that was basically set and left alone. Now we have something that is constantly monitored by someone who is knowledgeable about how we made the decision of whether it was spam or not.

The current system examines up to 10 to 15 percent of the messages. Anti-spam protection is currently undaunted under the current system, Robinson said. "The system that we have now for anti-virus is also basic. We only evaluate a few files. The technical term is called streamlining, or merging the content, but really just look at the circumstances and numbers for file names that are known and is either deleted or passed along."

While mainly effective, the current system does not compare to more popular anti-virus software available on the market.

The new system will be operational with other network systems. "This system uses a very complex engine that sits and monitors everything all the time," he said. "It continually scans the entire file database, intelligently, but it's clearly designed to do so."

This anti-spam system will continue to evolve and improve. "It will be a big learning curve for all of us the first two weeks before the messages are deleted to free up folder space. This option is similar to the inboxes used by Hotmail and Yahoo Mail."

If a filter option, available from the ITS support page and system management section, is to be used, it is a special "spammer" folder on the central mail server, which will send a message to the recipient every day, detailing what spam messages have been trapped by the system.

"This will ensure the user doesn't have to hunt for viruses and that the viruses will be deleted without question."

The new system also brings with it new capabilities, transcending into more things that might possibly go wrong. "Storing all of the systems will have to be increased, no doubt, as well as the system for tracking of the messages in the spam folder may be upgraded as well."

The messages will be actioned in real time to the user, meaning people will be being notified directly or by email of their status.

For more information, go to http://support.uidaho.edu.

Life on Wheels

BY ANTHONY ROBINSON
SENIOR EDITOR

Hundred of recreational vehicles and their owners responded to the University of Idaho last week for the annual "Life on Wheels" conference. The conference began a decade ago as a gathering of RV owners and RV enthusiasts to discuss antagonizing topics, advice, and support to one another.

"We hope that the conference continues to grow, and we hope that the spammers within the RV community reach out to those who need information," said Dick Robinson, Dick Robinson, who helped participate in the confereince four years ago, "I'll be looking to fill my trial and error," said Robinson, Dick Robinson.

The Robinsons reside in Washington, where they both work in the dental industry. They plan to retire and live in the mountains, as they travel with their RV through the police, enjoying the choices and options that come along with traveling. "It's a little overwhelming to think about all the things that happen on the road," said Robin.

Dick Robinson's fourth year attending the Life on Wheels conference at UI.

Greeks System

Freshmen joining in a fraternity or sorority usually can begin the weeks before school starts.

Women who want to join a sorority will check in at Thompson Tower. The women will then go to the Tower to register. The registration will begin on Aug. 18.

Men who want to join a fraternity will check in Aug. 18 at NE patio outside the Student Union Building. The men will then go to the Tower to register. The registration will end Aug. 21.

Men and women can sign up for recruitment interviews online at http://www.webs.uidaho.edu/ greeklife. Every campus fraternity should expect "to meet a lot of people, to have a lot of fun and to make a big decision," Greek adviser Mary Harms said. She said the best way to prepare for college is to find an open mind and a willingness to give the chances.

The women will participate in events at each of UI's sororities. The second day of the week-long recruitment period will be called chapter pride day, during which freshmen are shown what their chosen sorority is all about. On the third day, philanthropy day, highlights each sorority's philanthropy and gives freshmen chances to find out about what participating in philanthropic projects is like. The fourth night of recruitment will be the night on which freshmen get a room in the residence halls. The fifth and sixth days will be termed "erudition days.

Even if a student chooses to keep participation to the Greek community, our University of Idaho and we will not ask for the student to start off on the right foot," Harms said. "We are here to make sure everyone is taken care of."

Check in for freshmen who have decided to live in the residence halls begins Aug. 18.

Students who have completed their Housing and Food Services payment and paid their fees in advance can check in at the beginning of which they will be living. Students who have not completed their process can check in at the first floor lounge of the wing in which their hall is located.

Freshmen will be in the same floor of the residence halls.

All freshmen will join the Greek system.

Associated Students University of Idaho
you student government

with a wide range of issues facing students, the ASUI government needs the help of concerned and dedicated students in order to promote student rights and support student life.

Involvement opportunities (beyond elected):
- ASUI boards (Academics, Activities, Athletics, Civic Engagement, Facilities & Operations, Productions)
- 8 Director Positions
- 150+ Student Clubs

Positions currently available:
- Senator - Elections Coordinator
- Director Positions - Board Membership
- Standing Committee Membership

ASUI involvement is more than a way to make a difference on the UI campus. It is also a place to improve your leadership skills, make life-long friends and gain an unique experience that will benefit you for the rest of your life.

For more information, please visit us at the ASUI office located on the third floor of the Idaho Commons, room 302, or call 208-885-6331. You can also visit www.asui.uidaho.edu

Campus legacy remains in building names

BY ERLE BOSLIDEN
FROM THE ARCHIVE

Buildings on the University of Idaho campus are not only known for their depart- ments they house, but for the people who have shaped the university in some way. Whether it’s a former president, friend of the university, or someone who made a significant donation, these buildings are named after them. The following buildings have been named after individuals who have contributed to the university in some way.

The Kibbie Dome, Idaho Hall and Marilyn Hall named after...”

- **Brick Hall** was constructed in 1938 as a women’s residence hall. It originally housed the College of Home Economics, and as such, was known as the Home Economics Building. In the 1950s, the building was renamed the Kibbie Dome in honor of the Kibbie sisters, who were instrumental in the founding of the University of Idaho. The sisters were well-known for their generosity and support of the university, and their names continue to be associated with the building.

- **Riode Hall** was built in 1938 and named after the first president of the university, John D. Riode. The building was originally used as a residence hall for women, and later served as a home for the College of Business and Economics. It is now used as a student center.

- **Marilyn Hall** was named after a former student of the university, who donated a significant amount of money to the school. The building was originally used as a residence hall for women, but later served as a home for the College of Arts and Sciences.

- **Brick Hall** was named after the Kibbie sisters, who were instrumental in the founding of the university. The sisters were well-known for their generosity and support of the university, and their names continue to be associated with the building.

The University of Idaho campus is rich in history and tradition, and these buildings are just a few examples of the many that have been named after significant individuals. The university is committed to honoring the contributions of these individuals through the naming of these buildings.

**Zumé Bakery and Café**

Zumé Bakery and Café is located on the campus of the University of Idaho, offering a variety of fresh, flavorful treats to students and faculty. The café is known for its delicious pastries, sandwiches, and soups, as well as its friendly service and comfortable atmosphere. 

**U.I. Parents...**

Call to order a Zumé gift card and give your student the gift of fine European desserts and pastries and delicious, hearty meals, prepared from scratch, the way you would if you were cooking for them. We serve breakfast and brunch six days a week, and dinner on Friday and Saturday nights. Call us to order birthday cakes and for all your catering needs!

**Student Accounts/Cashiers & UI Vandal Card Office**

Avoid the lines and get your Vandal Card early!! Open from 8:00-4:00 daily 2nd Floor of Wallace Complex or at the Information Desk in the SUB.

REMEMBER - Return your Billing Statements!!
The Golden Rule: Do unto others as you would have them do unto you

As a young man, I was confronted by a situation that is surprisingly common. It took place several years ago in a college physics lab. I was working on an experiment involving the measurement of the speed of light. During the experiment, I accidentally dropped a delicate piece of equipment, causing it to break. The professor in charge of the lab was not pleased. She accused me of carelessness and ordered me to replace the broken equipment at my own expense. I was shocked and surprised by her reaction. It seemed to me that she was treating me unfairly, and I felt that I had done nothing to warrant such a harsh penalty.

I approached the situation with the Golden Rule in mind, considering how I would want to be treated in similar circumstances. I decided to take a different approach. Instead of reacting defensively or becoming angry, I approached the professor with a spirit of compassion and understanding. I explained to her that I had made a mistake and that I was willing to do whatever was necessary to correct the situation. I also offered to help her in any way I could to prevent future incidents of this nature.

To my surprise, the professor was impressed by my willingness to take responsibility and to work towards a solution. She allowed me to replace the equipment at no cost and even offered to help me with future experiments. This experience taught me the importance of the Golden Rule and how it can be used to resolve conflicts and improve relationships.

The Golden Rule is a timeless maxim that emphasizes the importance of treating others as you would want to be treated. It is a reminder that we should always consider the feelings and needs of others, and that our actions should be guided by a desire to do what is right and just. By practicing the Golden Rule, we can create a more harmonious and equitable society in which everyone is valued and respected.
Point: Minimum wage hurts business more than it helps workers

given that argument and those numbers, I thought that helping women with the minimum wage was a good idea. Responders for raising the minimum wage often cite the following: a minimum wage of $15.13 an hour is well above the current "living wage," which is an hourly wage that an individual can live on in order to provide adequate support for a single person. A widely cited (albeit not corroborated) statistic is that the average American worker makes $37,000 a year, which would amount to about $15.13 an hour. However, studies have shown that the minimum wage is not a living wage for many workers. In fact, a minimum wage of $15.13 an hour is still below the poverty line for a single person.

The article uses the example of a family of four in the state of New York to illustrate the point. The family consists of two parents, one of whom earns minimum wage, and two children. The family's income would increase, but their living expenses would also increase. This would result in a decrease in disposable income, negatively affecting their overall well-being.

The article also points out that minimum wage workers are often part-time or seasonal workers, and raising the minimum wage would not significantly affect their income. The article cites a study by the Economic Policy Institute that shows that raising the minimum wage would benefit mostly low-wage workers, but they would still live in poverty.

In conclusion, raising the minimum wage is not an effective solution to the problem of low wages. The benefits would be limited, and the negative effects would outweigh the benefits. It is essential to address the root causes of low wages and provide a comprehensive solution to the problem.
CHECK OUT THE BEST COMBO FRIDGE/FREEZER/MICROWAVE IN THE WORLD

MicroFridge® - with fingerprint-free genuine stainless steel exterior, a REAL freezer (you won't find that in any cube fridge) and a 600 watt microwave, it gives you all the comforts of home and enough style to make up for that used futon.

Or choose our traditional black 2-door 3-in-1 appliance, used by millions of college students since 1987 and SAVE $25 when you order by September 1st!

Plus Enter to Win a New Years Trip To Paris For You And A Friend

Rendezvous crowd loves Greene

by John Ross

It's not often that the Theatre's 184-year-old auditorium is filled to the point of being double- and triple-booked with performances, but that's exactly what happened last Saturday night when the Wharton Center presented the first performance of the College of Music's annual Chamber Music Festival.

The program, which included works by Beethoven, Mozart, Schumann, and Brahms, was performed by a variety of student and faculty ensembles, including the Michigan Symphony Orchestra, the University of Michigan Chamber Players, and the Ann Arbor Symphony Orchestra. The audience was captivated by the diversity and quality of the music, and the performance was met with enthusiastic applause.

After the concert, many attendees stayed to socialize and discuss the music, creating a lively and engaging atmosphere. The event was a testament to the rich musical tradition at the University of Michigan and the dedication of its faculty and students to the art of music.
Anchorman” a good, but not great, movie

Will Ferrell’s latest endeavor is a good effort, but it could have been better.

The content comic rims supplied by Ferrell mixed with the deadpan delivery of Fred Willard and a few jokes by the supporting cast make the film funny, but not great.

“Anchorman,” a movie about simple journalism, seems to have been written primarily for the cast. The humor is based on the tired idea of a “blue-collar,” “blue state” campaign in the 1980s, with a primary focus on the election and the newscaster group. The movie also includes many political jokes, some of which are effective, but most of which are not.

Overall, the movie is well-crafted, with a good script and good performances. The humor is occasionally silly, but it is still effective. The movie is worth watching for the cast and the humor, but it is not a great film.

Legend” reissue may be too much of a good thing

It seems as though some of these songs cannot be a good thing.

The original “Legend” reissue, comprising two discs and a DVD of home movies and concert footage, is a welcome surprise for any Marley fan. I don’t know if it had left out the original “Legend,” while the most popular songs from Marley’s music. The fact is that the original reissue includes the songs that were originally released on the album “Legend.” This album is released in 1980 and it includes the songs that were included on the original “Legend” album. The songs are still enjoyable, but I would like to see more Marley songs included in the reissue.

The package does offer more for the band, and the inclusion of a second CD is a welcome surprise. The package is also a welcome surprise for fans of Marley and his music.

The release of the DVD that includes footage from the concert shows is a welcome surprise. The footage includes the band playing live and it is a welcome surprise for fans of Marley and his music.

Overall, the reissue of “Legend” is a welcome surprise for Marley fans. The songs are still enjoyable, but I would like to see more Marley songs included in the reissue. The Fat Tones, with drummer Michael Hoye, performed July 16 at Renegade in the Park.

The Fat Tones emphasize vocal power

by Jim Koste

The blues bands who make up The Fat Tones have been making music for quite a while. "Collectively, we have over 100 years of playing together," bass player Bob Ehrgott said. The band is only a few months old, but they have all played all over the place — including Montana's Renegade in the Park on July 16. Currently, each member is in a never band in addition to The Fat Tones.

"This is a treat to play," Ehrgott said. The Ukulele trio opened for Jaykae Greene at the East City Park show, part of the Haupmann summer festival, where they met other bands when they enjoyed a regular gig at Dugout's Tavern in Spokane. The original configuration included Doug Johnson on the ukulele. When the first drummer left, Ehrgott asked. Tones joined. They played at Renegade. When Patterson asked to join, Ehrgott asked. Becoming an Olympian:

Whyte takes UI connection to the world's biggest event

BY KATYAN JUREK

In part of the dream that every child has as they watch the Olympics on television, there is a yearning to someday be a part of it. The Alaska native, and Vandals Kibbie Whyte, hit that dream mark this past Tuesday at the Olympic trials in Eugene, Ore.

It's reality for only a few lucky and talented athletes from around the globe, but for one University of Idaho track and field woman, the street has a chance of coming true.

Whyte—one of UofU's most decorated athletes of the past decade, found her place in the history books in Alaska, Grande, for no small accident. She has earned her place among the best athletes in the sport and has paid with the greatest of benefits, but sometimes the reality doesn't seem to be that way.

"It started to hit me one day because people were starting to come up to me and say, 'Oh, you could make it. I think you might have a greater opportunity for a full ride,'" Whyte said. "At the same time, I'm just convinced with the entire type and just like it. For me, it's been six years."

Whyte earned her place on the world stages by joining the Canadian National Track and Field team this spring. She has been placed in the Olympics, and World Championships, and has been a vocal part of the world's elite in this sport.

Qualifying was little of concern to Whyte—she already had resetted two of the top 15 times in the world this year and was all but assured a spot on her current 9th team.

"What was more important was to run out where I was as far as form and technique and what can be improved. More than anything else the way that you are, the way that you work. I was less worried about the way you were, but more worried about the way you were working." Whyte wasn't just to make sure I was on the beam, do everything that Athletics Canada wanted me to and I got that done and it was a minimal weekend."

Whyte's proficient path is more than a mere trend, it is a strong and growing path into the collegiate national, it has long been the way to be Whyte to see far in her career.

Whyte admits the last five years have been more of a struggle than anything else. A native of Edmonton, Alberta, the first year of her career was a bit of a struggle in the collegiate ranks while improving her mark on the international scene in the past five years.

"I think it's been kind of weird, like it's almost been meant to be," she said. "I think everything has sort of fallen into place and I think it's been kind of meant to be I think it's been kind of meant to be".

"I'm now to aspire for Angela has been pretty steep," said Wayne Phipps, Whyte's coach since transferring to UI.

What reasons have you had for being a part of the University of Idaho track and field? University of Idaho Olympians

BY KATYAN JUREK

With nearly every aspect of the 2004 football season currently facing the University of Idaho track and field team, the University of Idaho football team is currently looking at their success in the off-season.

The Vandals are ready for their seasons ahead in a little more than six weeks.

The Vandals are a team that have experienced. But after several disappointments, including a 4-8 record, the Vandals were looking for the stadium to bring UI back football.

The season started with hiring head coach Nick Ebel in early December. The school is working on recruiting more than 30 high school and junior college players. The season will begin on September 4 at the Blue Valley Penn State.

SPORTS

Suttner joins UI men's tennis team

Michael Suttner will join the 14 men's tennis team for the 2004 season. Suttner is a sophomore transfer who led his school to the Missouri Valley Conference title and the NCAA tournament as a freshman. He was ranked as high as No. 16 nationally last season. Suttner started playing tennis at age 12, but this will be his first season at UI. He transferred to UI this spring and will be eligible to play this season.

UI golf assistant coach

Curtis Doppa is the newest member of the UI women's tennis team. He recently accepted the assistant coach position. Doppa is a former Illinois state champion. He won the Illinois state singles championship three times, including his senior year. He also won a national doubles title as a freshman. Doppa said he looks forward to working with the team.

Vandals sign two

Coeur d'Alene golfers

Two Coeur d'Alene High golfers have signed to play for UI. Kyle Whitehead and Austin Brown were named golfers of the year by the Idaho Sports Writers Association. Both were named All-State by the Idaho Sports Writers Association. Both are seniors at Coeur d'Alene High School. Whitehead is also a basketball player.

The Vandals add four

Four new members of the 2004-05 UI women's tennis squad were announced at the Annual Tennis Banquet. They are: welding engineerpromisedwww.bookstore.uidaho.edu

Olympics From Page 84

Definitely, the Vandals are in a very serious situation that is very much at risk of losing more games than they have already this season. After their three-game winning streak, they now face a very tough task against Oregon State, who is a nemesis to the Vandals and has been this season. By losing to Oregon State, the Vandals could lose their chances of a top-two finish and even their chances of making the NCAA tournament.

The Vandals have taken the lead in the Pac-12 conference this season, but they are not safe. They need to win their remaining games and hope that other teams lose, too. The Vandals will need to play with more intensity and confidence to have a chance to win.

The Vandals have a lot of talented players, and they need to come together as a team to have a chance to win. They need to play with more heart and determination to have a chance to win.

The Vandals need to focus on their next game against Oregon State and then worry about the rest of their schedule.

University From Page 84

The University of Idaho is a public research university located in Moscow, Idaho. The university is known for its programs in agriculture, forestry, and natural resources.

The university has a strong focus on sustainability and environmental stewardship. It is also known for its programs in engineering, business, and health sciences.

The university has a student body of approximately 15,000 students, and it offers more than 100 undergraduate and graduate degree programs.

The university has a strong athletics program, including football, basketball, volleyball, and more. The university's athletic teams are known as the Vandals.

The university is also known for its beautiful campus, which is located in the heart of the Palouse region of Washington. The campus is known for its lakes, forests, and mountains.

The university is a great place to live and work, and it has a lot to offer its students and faculty. It is a great place to pursue your passion and to build a successful career.
