UI student dies in car accident

By NATE PAPFORD

A University of Idaho explorer was the 17th student to die this year. The Idaho State Police released on Wednesday (Nov. 28) an investigation into the accident. The victim was 19-year-old John D. Brice, a sophomore from Idaho Falls. He was killed when a vehicle flipped over on the James River Claims. He died from the impact. Brice was an Idaho Falls police officer and had been studying at the Idaho State University (ISU) campus in Moscow. The crash occurred in the early morning hours. Brice was driving a car with a group of friends, and there was no other involvement. The investigation is ongoing, and no charges have been filed.

Hate speech leads to call for civility

**By Andrew Krey**

Due to increasing incidents of hate speech on the Idaho campus, officials from the Human Rights Office have called for a reassessment of the campus climate.

"At the University of Idaho, hate speech is a problem that needs to be confronted head-on," said Human Rights Officer Dr. Bev Becker. "Our goal is to create a safe and welcoming environment for all students, regardless of their background or identity."

The office issued a statement to the campus community, saying, "We are concerned about the recent increase in hate speech on our campus. It is important that we work together to create a space where all students feel safe and respected."

The statement went on to say that the university is committed to creating an inclusive and welcoming environment for all students. It also called for students to report any incidents of hate speech they witness.

The call for action comes after a series of incidents involving hate speech on campus. In one incident, a student was harassed by a group of students who were shouting racial slurs.

"We are working with campus and community partners to address these incidents and ensure that all students feel safe," said Becker. "We are committed to creating a campus where all students feel valued and respected."

PARKING From Page 1

operations has come up with that won't take a large amount of capital or time from the SRC per-

ience and parking patties. While parking services may have been a more major problem in the

and parking services, they feel like a system, or a new system is only a partial solution.

In a nutshell, Parking Services staff think that it's a good idea, but they aren't anything that

Coles said most of the staff worked in shifts of three or four for 12 to 14 hours. But, parking is only allowed for
cars and a few hours coming and going for events.

The new system is a good start; it's good to know that they're recognizing that there is an issue,

a couple of people will still have to wait in line for the add-on card. But, they think that the

involves an add-on card that they will add to the parking pass issued for the car. They

Alcohol Task Force needs student help

W. With the recent alcohol-related deaths of students Nicholas Brice and John Olson, University of Idaho has created the Alcohol Task Force, a committee of students, faculty and staff dedicated to the enforcement of drinking rules on campus.

The task force, along with the Alcohol Abuse Task Force, administrators, professors and the Student Association, will work with the University of Idaho Counseling and Psychobiology Center to educate students about the dangers of alcohol and the impact on the community.

Inefficiency and inconsistency rule U.N. Security Council

The U.N. Security Council is in jeopardy and its leaders are inefficient and ineffective.

The old-fashioned security council is now the only one that has been effective in dealing with terrorism.

The new council is inefficient because it is made up of countries that are not willing to take action.

The old council had a president and a secretary, while the new council has a chairman and a secretary.

The new council is inconsistent because it cannot make decisions.

The old council had a set of rules and procedures that were well understood.

The new council has no rules and procedures.

The new council is inefficient because it cannot make decisions.

The old council had a set of rules and procedures that were well understood.

The new council has no rules and procedures.

**ARTS & CULTURE**

**'Above the Rim' goes above and beyond**

BY MEG BRENNINGTON

The "Above the Rim" art gallery, located above Parnassus Books, is currently featuring the work of local artists Ann Townsend, Don Aldrich, Jim Woford and Rich Streng. "Our intention is to be surprising, fun and interesting," Defina Aldrich said. The group has never exhibited in this venue, which is open every day, including holidays.

We have been concerned about the decreases in art activity all over town, since both Parnassus Books and Artworks have had to shut down. They are both dedicated to representing Houston's arts community.

The gallery, located just off Montrose near the intersection of Main Street and the intersection of Westheimer and the east side of Dowling, is open every day, including holidays. The gallery is open from 1 to 5 p.m. and Thursday evenings from 6 to 8 p.m. and Sunday from 11 a.m. to 5 p.m.

**Hartung Theatre transformed into 'Adding Machine'**

BY TYE WILSON

The Hartung Theatre stages have been transformed into the paradise of the machine. The latest production, "Adding Machine," is by one of America's most compelling and timeless playwrights. The sequel depicts a nightmarish society dominated by technology. Master of Fine Arts candidate Ryan Brown directed the play, which opened Dec. 2 at the Hartung. The production was well received by the audience and critics alike.

"The world is a machine and all the characters are merely parts of the machine continuously working to make the machine function." - ANGELA BENGFORD

Sosnicki designer Angela Bengford, a graduate student in the Department of Theatre and Film, had the responsibility of designing the set. Her work was inspired by the modernist style of the play, which was done in black and white. Bengford's set was designed to be a simple machine that could be easily transported from one location to another. The set was constructed of metal and wood, and included various mechanical components that were used to create the illusion of a machine in motion.

"Adding Machine" was written in 1923 by George S. Kaufman and Robert Edir. The original production was directed by Elia Kazan and starred William Daniels and Ethel Barrymore. The play was revived in 2002 and directed by Neil Simon.

**All aboard for child literacy**

BY TAM KADY

Before Hollywood bought the rights to "The Polar Express," it was a simple bedtime story about faith and Christmas spirit.

Nowadays children will have a chance to live the story once again at a special reading of the book Saturday at BookPeople, 5301 Guadalupe. The reading is part of "The Polar Express" story-telling event during a special holiday party.

"The Polar Express" story will be read along with other holiday favorites. The event will begin at 10 a.m. and is free. The party is sponsored by BookPeople and the Texas Children's Hospital Foundation.

"As English nerds, nothing is nearer and dearer to our hearts than literacy." - KATIE HELLWAGH

Katie Hellwag, the co-founder of BookPeople, is one of the organizers of the event. She said that the goal of the event is to promote reading and literacy among children.

The event will feature a reading of the original story by author Chris Van Allsburg, as well as activities and games related to the book. There will also be a craft station where children can create their own "Polar Express" train cars.

"SpongeBob" takes all with a hilarious adventure and David Hasselhoff

BY CHRISTINA NOLAN

NOL was in town as part of the University of Houston's Film Festival. He discussed the release of the film "The SpongeBob Movie: Sponge Out of Water," which was released in early December.

The film was directed by David Legeno and produced by Seth MacFarlane. It tells the story of a young sponge named SpongeBob who must save his underwater world. Hasselhoff was on hand to discuss his role in the movie, which he described as "a dream come true." He said that he enjoyed working with the cast and crew, and that he was proud of the final product.

"The world is a machine and all the characters are merely parts of the machine continuously working to make the machine function."

ARTSCOURSES

Ozomatli performs tonight at Beasley Coliseum

La’s Angeles-based band Ozomatli will bring its hip-hop, rock and Latin mix of music to the University of Idaho for a 6:30 p.m. concert on Wednesday, March 7. Tickets are $15 for adults, $5 for UI students and $3 for the general public. The show will be held in the newly renovated Beasley Coliseum.

Eleven Eyes plays Friday at John’s Alley

Eleven Eyes will perform Friday at John’s Alley, a newly opened jazz club just off of Coeur d’Alene Street. The Supergroup, in its debut show, will feature Sarah and Josh Underhill. Starting at Neuroscience, Eleven Eyes will play Tuesday on the Bar and Sunday in Sandle explaining.

This weekend’s show at Bucer’s

Bucer’s College Inn and Pub will host jazz nights Friday and Saturday.

Students’ work on display in Ridenbaugh Hall

The Moscow Art Commission is pleased to announce several students’ work will be on display in Ridenbaugh Hall.

Moscow Art Commission hosts meeting

The Moscow Art Commission will hold a board meeting for artists on April 6 at 6:30 p.m. in the 193 Building.

The Moscow Art Commission will meet several times this year and will include artists who will be selected in the next commission. The meeting will discuss the commission’s standards and guidelines and will also include an artists’ forum where artists can express their concerns.

Moscow Renaissance Fair seeks posters

Oranges of the Moscow Renaissance Fair are seeking designs for the fair’s poster and program guide. Artists can submit designs in any style or medium. The commission will accept a maximum of 10 designs.

All designs must include the words “32nd Annual Renaissance Fair.”

At the bottom of each design must be a description of the poster or program guide, including the words “32nd Annual Renaissance Fair.”

The first place winner will receive $250, and the design will be used in a program distributed regionally. The second place winner will be used as the cover of the fair program guide.

Tournament comes a callin' 

NCAA 

BY BRENNA GUINE 

The Idaho volleyball team continued its rise to the ranks of the nation's top programs. The team garnered its second consecutive at-large bid to the NCAA Division I volleyball championships.

"It just shows that this program is continuing to build and that we are getting good results," coach Debbie Buchanan said. "It's been a great season and one that I think is going to be remembered as one of the best of our era." 

The Vandals (24-10) will travel to Seattle to take on the No. 3 seeded Washington Huskies Friday in the first round of the tournament. The Huskies (27-7) swept two matches at the No. 1 ranking in the nation, which was the Vandals' only loss this season.

"It's a great opportunity for us," Buchanan said. "We've had a few close games this season and we know we're capable of playing well against anyone." 

Idaho volleyball coaches Debbie Buchanan and Ken Murphy watch junior Andrea Fox practice her spike Monday in Memorial Gym.

Idaho takes sixth at Rainbow Wahine 

BY BRENNA GUINE 

The Idaho women's basketball team made its mark at the Rainbow Wahine Invitational over the weekend in Honolulu.

In the first round, Idaho (19-2) faced No. 9 Georgia, the highest ranked team Idaho has faced all season. Idaho lost the game, 84-60.

"It was a difficult game," junior Andrea Fox said. "We didn't play our best, but we still played well. We just didn't have the same energy and intensity that we had against Georgia." 

Idaho finished the tournament with a 2-1 record, their best record since the 1994-95 season. The Vandals finished fourth in the Mountain West Conference.

"We were just happy to make it to the championship," Fox said. "We were excited to play against some of the best teams in the nation and we were able to show our strengths against some of the best."
Vandals lose to Montana State
By Scott Schuster

The Idaho Post-Register

The Vandals lost 73-68 to Montana State Wednesday night in Moscow.

In the first half, the Vandals struggled on offense, shooting just 38 percent from the field and finishing with 13 turnovers. Montana State, on the other hand, shot 50 percent from the field and committed just five turnovers.

Although Idaho managed to hold a slim lead at halftime, Montana State began to pull away in the second half. The Grizzlies outscored the Vandals 18-11 in the final 10 minutes to secure the victory.

The Vandals were led by senior guard Brad Kauffman with 18 points and seven rebounds. Montana State was led by sophomore guard Chris Iverson with 19 points and six rebounds.

The Vandals fall to 2-6 overall and 0-2 in the Big Sky Conference. Montana State improves to 5-3 overall and 1-1 in the Big Sky.

The Vandals will face Northern Arizona on Saturday in Flagstaff, Ariz. Montana State will host Idaho State on Saturday.

Basketball: From Page 2

BASKETBALL

The Vandals fired up for their third consecutive road game and were looking to end a two-game losing streak. Montana State was coming off a tough loss to rival Idaho last weekend.

Vandals' coach tiêu said the team had been working on their defense since their loss to Idaho and was hoping for a better performance against Montana State.

In the first half, the Vandals struggled offensively, shooting just 38 percent from the field and committing 13 turnovers. Montana State, on the other hand, shot 50 percent from the field and had just five turnovers.
