Kenton leaves for Oregon

Finance VP leaves after less than a year

By Mark Peppers

The University of Idaho's College of Education and Human Development has announced the resignation of the vice president for student affairs. Kenton K. Hansen, who has served in the position since July 2001, is to leave the University at the end of the fall semester.

"Kenton came to UI in May 2004 and was named vice president for student affairs the following month," Assistant Chancellor Greg Fiscus said in a press release.

The search for Hansen's replacement began in February and will continue during the summer, Fiscus said. The next vice president will be announced by the end of the fall semester.

"We are grateful for Kenton's years of service, both on the faculty and in student affairs, and wish him well in his future endeavors," Fiscus said.

Budget cuts take their toll

Departments, colleges likely to lose personnel

By Pat Potter

March 11 will be a stressful day for the University of Idaho, as the final two weeks from the special interim session of UI's board of trustees will begin. The board will meet in session on March 11 and adjourn at 5 p.m. to review personnel cuts made by the university administration.

"This is the day when the dust will finally settle," said UI President Tim rtnan. "I hope that we will have a better idea of how these cuts will affect the university and its students.

"I am confident that we will be able to make some cuts in order to keep the university running smoothly," rtonan said. "But we cannot make any drastic cuts, and we need to be careful in order to avoid cutting too much.

"I am also confident that we will be able to make some personnel cuts in order to keep the university running smoothly," rtonan said.

"I am confident that we will be able to make some cuts in order to keep the university running smoothly," rtonan said. "But we cannot make any drastic cuts, and we need to be careful in order to avoid cutting too much.

"I am also confident that we will be able to make some personnel cuts in order to keep the university running smoothly," rtonan said.
CONFERENCE
From Page 1
"We're very excited about the people we have coming to this conference," Barnes said. "The caliber of the people that we're bringing into the conference — in terms of a programming entity of the university — would take us a full year or at least get us halfway of half a year." Barnes said the conference will feature some of the most respected names in the field of criminology.

Another prominent speaker is Department of Police, Criminal Justice and Social Work Professor Charles Johnson, who has been a key figure in the field with cross-cultural growth issues, as well as within organizations.

Along with the various speakers, participants will attend two workshops concentrating on different aspects of building a tolerant community.

A government and community leader in place is also an option participant who will have all the workshops, lectures, and social events that are available. The workshops will be held in various locations around the conference campus, as well as in the community. The workshops will be led by experts in the field and will be open to the public.

The administrators of the conference will be in charge of all the arrangements, including the workshops, and will be available to answer any questions or concerns that participants may have.

"I am proud of the senator, I am proud of the executive staff. Never have I had the opportunity to work with such a diverse group of students," the senator said.

HANSEN
From Page 1
In support of these things," Hansen said and AASU will continue to do this with the support of the budget, and she is confident the review of the senator will result in a "fully tuned budget for the FY 02." The review is already under way.

In addition, the president of the AASU faculty board has prepared a comprehensive report to the senate, which will be presented at the first meeting of the year. The report will include a comprehensive review of the faculty board's work on a budget line item.

In another effort to accomplish further transparency, Hansen said she and her colleagues are working closely with the president and the faculty board to ensure that the budget is as transparent as possible.

Hansen and the AASU faculty board are working closely with the president to make sure that the budget is as transparent as possible.

"And we are getting nearer and nearer to having a good administration, that is very good," Hansen said. "I hope our administrative and political lines will come along for this race," the senator said.

Hansen said one program supporting this initiative is Visual Arts, and said they have received requests from a race committee to support the arts.

Other ways Hansen plans on further supporting students needs is to create a network of student groups that are interested in the arts and culture of the college.

"BUDGET
From Page 1
I believe we will do some rate cuts for the March deadline," the senator said, "but we will keep the same rate cuts we made for the March 11 deadline.

The graduate school is not one of the natural right academic colleges, so the present is not asking to follow the same template that the other colleges may be following.

After the March 11 plans, they will be given to the president Dan Walls by March 12. Walls will begin announcing final decisions by March 11.

Call toll-free, please. Some restrictions may apply. For more information, visit delta.com.
Asui; newest senator. Travis Shofner says he took the job for the students, and he hopes to make a real difference. "That's why I'm running," he says. "I want to be heard by the administration and the students."

Shofner was sworn in to the ASUI Senate Feb. 19. He replaced former ASUI Sen. Julia Bernard, who was appointed to serve as a senator and a bail president.

"I'm very excited," Shofner said. "I feel good about winning the election because I think the students appreciate the issues that affect them."

Shofner brings a unique perspective to the ASUI seat. He has a degree in political science from the University of Washington, and is currently working in university politics as a job.

"I think it's important to have a background in public policy," he says. "I want to use my background to make sure the Senate reflects the diversity of the campus."
CAMPUSTALK

This is no time for United States to go slow in combating dangerous air pollution.

By assertThat, the Kyoto Protocol, the international global-warming treaty that went into effect last year, is a first major step toward curtailing the world's most important greenhouse gas, carbon dioxide. "But it's a start," said the editor. "We must not be complacent, and we must continue to push for more action."

The protocol binds the United States to cut average emissions of carbon dioxide by 7 percent by 2008-2012. And while the treaty is popular in many countries, it has faced intense criticism in the United States. The Bush administration, for example, has proposed a resolution to withdraw the country from the treaty within the next few years.

But the editor argued that the treaty is essential for the future of the planet. "We cannot afford to ignore the threat of climate change any longer," she said. "We must work together to reduce our carbon emissions."

She also pointed out that the Kyoto Protocol is just one part of the solution to climate change. "We must also focus on developing new technologies and renewable energy sources," she said. "But the Kyoto Protocol is a crucial first step."

The editor's comments were met with mixed reactions from the students. Some agreed with her, while others argued that the treaty is too complex and that it will not have a significant impact on climate change.

But the editor was firm in her position. "We cannot afford to be complacent," she said. "We must continue to push for action and to work together to solve this global problem."

DANUAN

"In a word, wonderful. The variety was exciting, and the music was amazing. I really enjoyed the performance." 

-- Stephanie, a music student at the university

COHEN

"It was a lot of fun, and I learned a lot. I'm definitely going to go back next year." 

-- Sarah, a biology major at the university

ALEXANDER

"I was impressed with the way the students were able to connect the music to the words in a way that was meaningful. It was a really good performance." 

-- John, a history professor at the university

OPINION

Kenton's abandonment painful

The University of Idaho is deposed to an annual event known as "Gannongs." It is a tradition that honors a member of the faculty for their outstanding contributions to the university and the surrounding community. This year, the honor was given to Kenton, who has been a faculty member for over 20 years.

But the event was marred by controversy. Kenton had been a controversial figure on campus, and some students and faculty members were not pleased with his selection.

"I was disappointed," said a student. "I don't think Kenton is the right choice for this honor." 

But the editor of the Argonaut argued that Kenton is a fitting recipient. "Kenton is a respected member of the faculty," she said. "He has made significant contributions to the university and the community, and he deserves this honor." 

The event ended with a 200-foot balloon release, symbolizing the end of an era. "This will be a bittersweet moment for many," said the editor. "But we are looking forward to the future of the university and the community."
Student sculptors share with campus

BY CHRISTA NAVARO

L ike so many of the city's residents, Christine Potts and Michael Sykes are regulars on the University of Idaho campus. They're not students, though. They're artists in residence.

Potts, a sculptor from New York City, and Sykes, who runs the sculpture department at the University of South Carolina, are resident artists at the University of Idaho through the Idaho Arts Commission's "Artists in Residence" program.

"This is being provided by an outside group," said Sykes, "so we're just being hired to do the work, but the university has given us the opportunity to have the work be here for the whole time we're here." The two artists will be at the campus for the entire year, and they're working on a number of public art projects.

While Potts and Sykes are relatively new to the area, they are not strangers to the region. Both have exhibited their work in Moscow and are familiar with the culture and community.

"We're really excited to be here," Potts said. "We're looking forward to working with the community and sharing our work with the students and the public."
‘Control Room’ provocative look at controversial media outlet

BY TYLEE WILSON

The documentary genre has seen a huge surge in popularity in recent years thanks in no small part to the popularity of Bravo and Morgan Spurlock. Directorial debuts and screenwriting debuts are often found in tandem, but “Control Room” is an exception to the formula. M. Night Shyamalan graduated from Columbia University’s College of General Studies, and his first screenplay揉入了对新闻媒体和政治的批评。

On screen, Shyamalan’s film is described as “a documentary about the American media’s role in the Iraq war.” The film explores the role of news organizations and their influence on public opinion and policy decisions related to the war in Iraq. It features interviews with journalists, policymakers, and activists who provide insights into the media’s role in shaping public opinion.

Shyamalan’s “Control Room” is an example of how a filmmaker can use the documentary genre to explore complex issues and challenge conventional narratives. The film offers a critical perspective on the media’s role in shaping public opinion and policy decisions regarding the Iraq war.

NEW DVDS THIS WEEK

“Haret Hudeika” (Olaya)

Hudeika, Osama bin Laden, and al Qaeda’s ties to Saudi Arabia are also discussed. The film examines the relationship between these groups and the Saudi government, as well as the impact of the 9/11 attacks on the Middle East and global politics.

“Get Shorty: Special Edition”

Paul Thomas Anderson’s crime comedy, “Get Shorty,” about a Las Vegas gambler, is a critical and commercial success. The film follows a former football player turned private investigator who helps a struggling writer in his search for inspiration.

“The Big Lebowski: Complete Four-Disc Edition”

The Coen brothers’ film, “The Big Lebowski,” about a middle-aged man who becomes involved in a kidnapping plot, is a cult classic. The film is a satirical examination of the American Dream and the nature of masculinity. It features a cast of eccentric characters and a narrative that is both dark and comic.

For more information on “Battle of the Bands” contest be sure to pop by the Student Union at 555-5000.

Singer/songwriter plays house

Audi Boren, a guitarist/vocalist from Boise, Idaho, is a rising star in the alternative rock scene. He will be performing at the Student Union Ballroom on Saturday night.

Musicians needed today for April’s Battle of the Bands at WSU

The Student Government Board at WSU is recruiting musicians for its Battle of the Bands competition. Musicians are needed to perform at the event, which will be held at the Student Union Ballroom on April 14.

“Control Room” is a film that forces us to confront the role of the media in shaping our understanding of the world around us. It is a film that challenges us to think critically about the news we consume and the impact it has on our lives. The film is a powerful reminder of the importance of a free and independent press in a democratic society.
Getting hot with the SI Swimsuit edition

Quick question: What beans up your water in the Bahamas?

If you answered A or B, put down your book; you’re spending way too much time in the sun and not enough time in the studio. By the way, I believe that you’re all beautiful—every single one of you.

Moving inside, we see the photo spread that page 17 with a wonderful picture. Water rolling in the water in the Bahamas perfectly captures the setting. The studio is really your home away from home, where you can come in, sit down and relax.

I don’t know about you, but I’ve gotten a lot of mail in the last couple of weeks, so let’s skim ahead to browse a few pages, where you can check out the rest of the models.

Sara, Miami, Vietnam, Argentina, Manitoba. Check out some of the best models and find out what they’re up to.

I hope you enjoy this edition. I am sure you do, and so do we.

Vandals lose in overtime thriller

BY JASON LEAVAN

Despite Theresa Shephard’s two late three-pointers, the Vandals could not find a way to beat UC Irvine, suffering a 73-76 overtime loss Wednesday night at Mardi Gras.

In the final game of the season, Idaho’s seniors found themselves in a close game that turned into a thriller.

The Vandals led by as many as 13 points and were up by five in the second half, but UC Irvine rallied late to tie the game. In overtime, Idaho led by as many as five, but UC Irvine’s Eara Young fouled out of the game with 1:01 left and the Vandals were unable to hold off the Anteaters.

Despite the loss, the Vandals finished the season on a high note with a win over the Anteaters and a trip to the WNIT.

The Vandals are now 13-18 overall and 6-11 in the Big Sky Conference.

Idaho

Championship Roundup

Track and Field: Lang and Kurtz take golds in multiple events to lead the Vandals to their first NCAA Championship.

Idaho multi-event athlete Ryan Lang won an 1,000-point to lead the Vandals to their first NCAA Championship. In the 1,500-meter run, he posted a personal best mark of 3:28.20 to win the event and a 1,000-point lead. Lang also won the 5,000-meter run with a time of 13:32.62.

Women’s swimming

The first day of the NCAA Championships was filled with season-ending moments for the Vandals’ women’s swim team, which is fifth after two days of competition.

The Vandals scored 88.82 points on Friday and are 13 points behind the sixth-place team.

“We’re sitting right where we want to be,” Idaho coach Randy Lager said. “We’re looking to finish ahead of Cal State Northridge. It was a great first day for us.”
Stadium negatives could hurt positives in New York City's bid for 2012 Olympics

BY PETER PHILIPPI

Anchor Sportswriter

(323) - At several points on Tuesday's tour of proposed venues for the 2012 Summer Games, the path of the International Olympic Committee members and the reporters who were following their itinerary intersected. When that happened, the 10 men and women on the IOC考察团 exchanged and a brief conversation. Sometimes, they would politely partake just the amended portion of a 5:05 p.m. press conference. On those occasions, questions and answers of their impressions were of interest.

The IOC members were told to fly to a complex with a stadium and exhibition center. They disembarked, glanced around and asked questions about the size of the city, the finances of the project and the plan for the Olympic Games. I, as a chief with the official media body, was told that the IOC members wanted to ask questions about the city's plans for the 2012 Olympic Games, but that I was not part of the city's Olympic delegation.

The IOC was engaged in a brief sort of an interview with some of the delegates.

The IOC also stayed at the哲学家 and visited some of the facilities. They were told that the Olympic Village had been built to accommodate 10,000 athletes and 5,000 volunteers.

The IOC was also told that the Olympic Village had been built to accommodate 10,000 athletes and 5,000 volunteers.

The IOC was engaged in a brief sort of an interview with some of the delegates.

The IOC also stayed at the philosophy and visited some of the facilities. They were told that the Olympic Village had been built to accommodate 10,000 athletes and 5,000 volunteers.

76ers acquire Webber from Kings in trade

After a 12th NBA season, Webber, who played for two seasons at Michigan before playing for the Kings in 2005, was traded by the team that he then traded his rights to Golden 16.2.0

SACRAMENTO Kings Chris Webber, who played a lot of time with the Kings for the 2004-05 season, has been traded to the Philadelphia 76ers in a deal that the Kings announced Friday, June 28. Webber, who was traded to the Kings last season, was averaging 13.3 points and 4.6 rebounds in 47 games, with seven double-doubles. He started the season slowly, and went through a five-game stretch in November when he was out of the starting lineup. Webber came back strong and found a groove shortly after returning to the starting lineup.

Webber was one of the 76ers' most important players off the bench. He averaged 11.3 points and 3.9 rebounds in 47 games, with seven double-doubles. He started the season slowly, and went through a five-game stretch in November when he was out of the starting lineup. Webber came back strong and found a groove shortly after returning to the starting lineup.

Messages to the public from the Presidents

Timothy White, for UI

The University of Idaho is delighted to, once again, join with Washington State University in co-sponsoring the Career Expo, the largest career fair in the Pacific Northwest. Again this year, it allows every indication of being another "record breaking" fair, both in terms of industry representatives and student participation. Many individuals on both campuses are to be commended for their efforts to ensure the Expo's success.

Historically, the Career Expo has been a wonderful opportunity for industry and student interaction. This event provides an occasion for students and employers to explore opportunities for internships, summer, and entry-level positions. The University of Idaho is extremely proud of our students and is confident that industry representatives will be impressed with their education and preparation as they enter the workforce.

Our interest in student education does not end in the classroom. We take an active role in assisting students in finding relevant work experiences during their time at the University of Idaho, as well as helping them achieve their employment/career goals once they have graduated. The Career Expo is a tremendous opportunity for students from both campuses to meet with local, regional, and national industry leaders. Our best wishes to you all.

Timothy F. White
President
University of Idaho

V. Lane Rawlins, for WSU

Washington State University joins the University of Idaho to welcome employers from across the country to the 2005 Spring Career Expo of the Palouse. We are confident that you will find excellent students to fill your career opportunities, summer jobs, internships and graduate programs.

In an effort to make Expo events as inclusive as possible, Spring Expo continues to be sponsored by WSU Career Services and UI Career Services. Students from every discipline are encouraged to take advantage of the diverse opportunities offered by national corporations and local organizations alike.

We continue to see challenges in the country's economic climate. I urge students to take advantage of internship opportunities, utilize resources in Career Services as well as their respective departments, and begin networking with employers at the Career Expo early in their academic careers.

In addition, we welcome and encourage the continued partnership between our respective educational institutions and the private sector to produce several associated activities that include Mock Interviews, WSU Career Services Open House, and the "Be a Star!" Etiquette Dinner. Employers will surely benefit from the newly acquired skills of participating students.

We wish everyone well at Spring Expo in the pursuit of matching the needs of participating employers and graduate programs with the goals of students seeking their next challenge.

V. Lane Rawlins
President
Washington State University

Vandals: Ride the shuttle to the Expo for free!

UI students who wish to attend the Spring Expo on the campus of Washington State University can ride to the event for free and avoid parking hassles. A free shuttle service will run from the north side of the Idaho Commons to Beasley Coliseum in Pullman. The first van will leave the UI campus at 8:30 a.m. and will run continuously during Expo hours. The last van will leave Beasley at 3:30 p.m.

The Wheatland Express bus service will also transport students from Moscow to the street directly in front of Beasley Coliseum. "Show your ID and ride for free."

Avoid parking hassles, conserve energy and concentrate on making a good impression on employers. Leave your car at home!

Student specialists helped create this Expo!

Career Development Specialists are undergraduate students who are trained at the Career Services Office.

CDS students work as paraprofessionals in the areas of career planning and assessment, relating education to career opportunities, job search skills and employer relations.

They participate in direct service to students, outreach presentations and workshops, program development, marketing, public relations, and special events.

In preparation for the Career Expo of the Palouse, CDS students assisted extensively with marketing activities by promoting the event at student outreach and by distributing various promotional materials. They also created and publicized Career Week, a week of informative workshops, mock interviews and Career Services Open House to prepare students to get the most out of the Expo.

Thank you, CDS students!
Career Fair

Career fairs for all seasons, students

Classes have just recently begun and a whole year looms ahead, but it's not too early to think about summer internships or after-graduation jobs.

Through the statewide Washington State University system, a variety of career fairs and events will be occurring throughout the academic year in different locations.

For example, the Partnership in Employment Career Fair 2005 will be held in Spokane in February. These events provide special opportunities for students to meet with employers and make those all-important connections, which lead to jobs and training placements.

In today's competitive environment, the savvy student can greatly boost career options by preparing for and attending one or more career fairs. It's important to remember that most firms and government offices attending career fairs are recruiting for a wide variety of majors. For example, last year the Department of State was recruiting for more than 36 majors!

Some of these majors included Accounting, Architecture, Business, Engineering, Geography, Journalism, Humanities, and Political Science. When attending, be sure to check out all opportunities. There's no fee for attending.

Calendar dates, locations, and additional information for these events are available online at www.careers.wsu.edu. Click on Career Fairs & Events. Don't miss out! Find your future at WSU's next career fair.

From WSU Career Services

Calendar of Events

WSU Career Services Open House
Feb. 26, 2005; 10 a.m. – 4 p.m.; Lighty 180
Visit WSU Career Services to participate in resume critiques, gain access to Career Services resources, and receive great tips on interviewing and answers to any questions you may have. To avoid the rush, attend Drop-In Hours, Monday through Friday, from 2 to 4 p.m.

WSU Mock Interviews
Feb. 26, 2005; 9 a.m. – 4 p.m.; Lighty 180
For students who have signed up, recruiters will conduct 30-minute interviews and provide feedback. If you want to see if there are still spaces available, check online at www.careers.wsu.edu. Please check back daily in case of cancellations.

UI Mock Interviews
Feb. 26, 2005; 8 a.m. – 4 p.m.
Practice interviews with Expo Employers, develop skills and gain important feedback. Students can sign up online through MonsterTRAK to participate in the half-hour practice interviews with Career Expo employers. For more information, visit the UI Career and Professional Planning Web site at www.idaho. uco.edu/coop.

"Dine with Style" Etiquette Dinner
Feb. 28, 2005; 6 p.m. – 8 p.m.; Lighty 160
First UI sponsored event at UI Commons Cleanwater/Whitewater Room. UI alumna Debra Lyger will instruct students on professional dining etiquette. Cost is $15 per student. Advance reservations are required. Limited tickets are available.

Career Expo of the Palouse
March 1, 2005; 9 a.m. – 3 p.m.; Beasley Coliseum
Over 125 employers and graduate schools will be recruiting the best and brightest students and graduates for a variety of work and study experiences.

Student Interviews
March 2, 2005; 8 a.m. – 3 p.m.; Beasley Coliseum
Many employers will conduct interviews the day after the Expo. Invitations to interview must be secured by students at the Career Expo.

Career Expo Workshops
CUE 812, 4 to 5 p.m. Resume Writing (Sept. 8), Job Search (Sept. 14), Successful Interviewing (Sept. 21), and Making the Most of Career Expo (Sept. 23). Don't forget Drop-in Hours from 2 to 4 p.m. Monday to Friday in Lighty 180.

Transportation Brief
Van offered for travel between WSU and UI
The WSU Career Services Office will offer one van (15 seats) free of charge, traveling from WSU's Compton Union Building (CUB) to the University of Idaho Kibbie Dome every half hour, starting at 8:30 a.m. (in front of the CUB, signs will be visible) and ending at 3:30 p.m. (the last van leaving the Kibbie Dome).

NORTH THURSTON
Public Schools

Visit Us at the Palmise Career Expo!

Do you want to make a difference? North Thurston Public Schools will be attending the Pacific Career Expo on March 1, 2005. North Thurston Public Schools offers exciting opportunities, rewarding careers, competitive benefits & compensation packages. We are looking for talented individuals for both current & future opportunities.

North Thurston Public Schools is located in Lacey, Washington, just 10 miles south of Seattle, and is the largest district in the South Sound region serving nearly 13,000 students within its 74 square miles.

We encourage you to stop by and talk with us. Employment and application information is available on our website at www.norththruston.edu. Please feel free to contact us with any questions or concerns via email at Gendlund, Amy@norththruston.k12.wa.us or by calling (509) 411-4444.
Are you serious about working for a major competitor in heavy civil construction? Do you like teamwork? Do you want to build some of the most challenging projects in California? Do you want to grow with a great company? Do you like to get your hands and feet dirty?

If you answered YES to these questions we want to talk to you!

Shimmick Construction is currently recruiting for the position of Construction Engineer.

This position demands an energetic and dynamic person. It is very "hands on" as well as technically challenging. The duties involve managing the field personnel, preparing work instructions and equipment schedules, purchasing and owning company assets. Other duties include calculating, cost estimating, and project management/procurement of varying responsibility levels. Project management will include submittals, progress payment requests, management of subcontractors, and many other types of contractual documents. Engineers typically work in a support role directly for project superintendents/engineers and work closely with the crews.

Minimum Requirements: Pursuing a B.S. in Civil Engineering; Engineering Technology, or Construction Management preferably with an interest in construction

Internships are also available.

Business and Finance majors are also encouraged to submit their resumes for consideration in our Administration Division.

Please email or fax your resume to Chemene Hooker at employment@shimmick.com fax 510/293-1110

Shimmick Construction Co., Inc. is a General Engineering/Heavy Civil Contractor headquartered in Northern and Southern California. The Company performs heavy engineering projects for various government agencies in the greater Bay Area and Southern California. Shimmick Construction is an Equal Employment Opportunity Employer.

For more information about Shimmick Construction Co., Inc. visit our website at www.shimmick.com

Shimmick Construction will be on recruiting on campus on the following dates:

Tuesday, March 19
What: Career Fair
Where: Healey Performing Arts Coliseum
Time: 3:00pm - 6:00pm
Make sure you stop by the booth

Wednesday, March 2nd
What: On Campus Interviews
Where: University Center
Time: 8:00am - 4:00pm

We will be revisiting On Campus interviews. Please sign up at the Career Fair.
You may also email your resume to employment@shimmick.com or fax to 510/293-1110.

Trumpet ensemble only fills 1/4 of Dome

BY JERIE ROBE

The resounding door of artists that has become known as the Lionel Hampton Jazz Festival was opened Wednesday with the Pepsi International Jazz Concert. The night featured appearances by an ensemble of trumpeters, the Four Trumpet Saxophone Quartet and Grammy Award-winning trumpeter Rolf Front for a tribute to the late trumpeter, Terrence Blanchard. The evening included performances by guest artists sleeved together in the Kuza Dome.

The concert was considered to be a fitting start to the festival. Jazz festival organizers, in an attempt to change things up, presented the best of the evening on stage. Each performance was different, but the combination of music by the house rhythm section, Marianne Chow, Trumpet, Sandy Bodner, Robert McCauley, Terrell Bradfield and Claudia Budil, played five tunes to a crowd that was still filling into the Dome as the night moved on.

The audience's response to the four trumpet, sax and rhythm ensemble was one of excitement and joy. The audience's response was one of excitement and joy. The audience was filled with people who were there to hear the music and enjoy each other's company. The concert was a fitting end to the festival. The audience's response was one of excitement and joy.

Flu forces Rawls to miss another festival

**RUSSIAN MUSICIANS GET AN OLD-FASHIONED AMERICAN JAZZ EDUCATION**

**BY CHRISTINA HAYWARD**

Moscow resident Judy "LaMsoda" Brown, cousin of filmmaker Steven Soderbergh, recently wrote about hearing a Russian, jazz musician, playing with the Idaho Jazz Orchestra, and was struck by the number of American musicians who had been influenced by Russian jazz. The piece was published in the Moscow Times and attracted much attention.

Brown described her encounter with the Russian band as a "once-in-a-lifetime" experience. "I've never heard anything like it before," she said. "The musicians were so talented and passionate, and the sound was just incredible."

The Moscow Times article was a hit and迅速 attracted much attention, with many people expressing their interest in hearing more about Russian jazz. Brown's encounter with the Russian band was just the beginning of her journey into the world of Russian jazz, and she continues to explore and share her experiences with others.

Russian musicians are known for their unique approach to jazz, and their music has been described as "rich and colorful," "soulful and haunting," and "profound and moving." Their music has been praised for its ability to "transport" the listener and "connect with" their audience in a way that is rare in today's music world.

Russian jazz has been described as a "crazy quilt" of influences, drawing inspiration from a wide range of sources, including classical music, folk music, and even rock and roll. This approach has allowed Russian jazz to "break free" from the traditional "jazz box" and "open up" new possibilities for the genre.

Recent developments in the field of Russian jazz have been described as "exciting" and "groundbreaking," with new musicians emerging to "challenge" the established jazz world and "push" the boundaries of what is possible. Some of these musicians have been described as "innovative," "bold," and "brave," and their music has been praised for its "originality" and "freshness."

Russian jazz has also been described as "international," with musicians from around the world coming together to "collaborate" and "create" something new. This approach has allowed Russian jazz to "reach" new audiences and "open" up new possibilities for the genre.

Russian jazz is a "unique" and "powerful" form of music that has the ability to "move" people and "inspire" them to think differently about the world around them. Through their music, Russian jazz musicians have "proven" that "anything" is possible when it comes to creating music, and that "anything" can be achieved with "determination" and "passion."

**Students reflect, evaluate annual jazz offerings at UI**

**By Tycle Wilson**

February festivals, jazz taxes over at the University of Idaho. The campus population suddenly doubles, and students are stockpiling snacks and stashing their clothes in the back of their cars. While the jazz festival is a remarkable experience for the musicians, many university students have difficulty making the transition.

"It’s a small festival, and a very educational and dance major, between many students," said Michael Holmquist, a sophomore who is a member of the festival. "Growing up, I never really cared about it. At UI, I listen to it almost everywhere, mainly because of the jazz fest. But, I never thought about it," Holmquist said. "I think they should really care about the festival, and the community and the university, but be slightly more involved in the life of the main important event February." Holmquist also said that the festival is a great place for students to get a little more involved in the community and the university, but be slightly more involved in the life of the main important event February.

"I think the festival is a really great opportunity for kids to come at great performances and it is a good performance opportunity because it’s the middle of the month in the middle of the week," Denton said. As a member of the night crew, he prepares the site for the concerts. After the performance wrap up at midnight, Denton and his team work until 4 a.m. to make sure the site is ready for the next day.

"It's a rush to get things set up again, but a rush to get set up," Denton said. "It can get a little stressful. We’re giving up our time to do something." For the sacrifices, volunteers receive free tickets to concerts and specialized Crescent Dome events in Moscow.

"Benefits include getting to see a lot of good jazz," Wiberg said. "These perks are a thank-you for the more than 1,400 hours of work and all the hours working on their own. The opportunity to help make the festival with a big event." Volunteers are said to be hard working and are a great help to the people, but I don't know if it does much to contribute life, either," he said. Howard believes the festival would

**“I do get a little crazy, but for me, the music building closes. With no music classes, I have no worries about getting around.”**

**KATIE ANDERSON**

**VOLUNTEERS serve as jazz festival backbone**

If the Lionel Hampton Jazz Festival is a symphony, the volunteers are the composers. They provide the Neap, the jazz in the festival, and program directors know it from experience. Wiberg prepared to volunteer 800 volunteers for work at competition sites that see traffic from about 11,000 students. Volunteers serve as crowd controllers, members of the band, the front, and the back.

The plan director of the band, Mike Lynn is the driving force for the festival. He organizes the volunteers who want to participate. Volunteers make sure the site is ready for the next day.

Lynn also in charge of making sure the site, and judges’ work is ready for the next day. Volunteers are said to be hard working and are a great help to the people, but I don't know if it does much to contribute life, either," he said. Howard believes the festival would

Feather brings original songs to jazz festival

by hillary flowers       university staff

Billy June Lee Lorrain Feather's name reads like a Varsity letter.

Feather, the daughter of jazz critic Leonard Feather, has been a student of trumpeter Henry Mancini and trombonist Greg Lee and the songwriting team of Richard Lewis and the late John Purifoy. She has written a play about her life titled "Dancing with the Stars," which will be staged at the University of Idaho's Varsity Center. Feather will also give a songwriting workshop at 11 a.m. Saturday in the Student Union Building Ballroom. This is her second semester performance. She is also a student at the University of Idaho and has written a song for her mother, who she calls "a pretty woman." Feather has a music degree from the University of Idaho and has performed in several countries. She has written a song for the University of Idaho's Varsity Center, which was released in 1999.

"I was always very excited when good things happened to me," Feather said. "I was always encouraging me to move forward." Feather was born Sept. 22, 1960. Originally from New York City, she now lives in California, where she has spent the past ten years playing her songs. Her newest album, "Deep Within," debuts in April. Feather writes the bulk of the material in her albums and collaborates with other songwriters such as Donny and Biff Elliott.

Feather started her career as an actress and singer in New York City, but she started taking voice lessons in order to become a singer. When her singing career began to take off, she decided to make the process of writing the music. Feather said. "That's the part I really enjoy." Feather doesn't write for herself, but she has written some songs for the Princess Diana 2 "Your Coronation Song" which was sung by Julie Andrews for the Formula One Grand Prix.

Feather also wrote a song for Angie Jelinek, who has had several hit songs for soap operas, including "Days of Our Lives." Feather's writing has earned her seven Emmy nominations.

"I was always very writing to be something," Feather said. "I was at the most fun hit of all."
