White, Kenton OK field turf replacement project

by Gambrel Gus

Kenton Dome manager Tom McGann says he always like the idea of replacing domed turf project to increase and safety weeks. The project started with a 10-year plan but six years ago, McGann said the project would cost $1.5 million. He said more money to fund the project would come from the new turf replacement fund and the Outdoor Recreation and Athletic Endowment fund. The project is expected to last three years, but that number may change depending on the I-State football team and how much money is raised for the project.

But McGann said he recently received a $500,000 amount, which was more than $1 million, and said the project goal was $500,000. Service accounts when the Kibbie Dome was built, he said. "We're not going to get any additional funding." McGann said that before the ASUI football team successfully sold tickets for the first two games of the season in 2023, the team has raised more than $500,000.

Committee seeks candidates

Prevost search narrowed down to eight candidates

by Lisa Harshman

The University of Idaho provost search committee recently narrowed down its list of aspirants to eight candidates. The committee is expected to meet with those eight candidates as early as next week. The provost position is currently held by Dr. Kenton Burnett. The provost position includes responsibilities such as overseeing the university's academic programs, budget, and financial planning. The provost role is crucial in shaping the university's direction and ensuring its long-term success.

"We would not be able to continue as high-quality applicants if we weren't able to promise it the anonymous," Dr. Kenton Burnett. Burnett said he hopes the committee will reduce the number of candidates to seven or eight for the eventual interview process, which will have public interviews and meeting.

The names of the candidates will not be released, but some candidates do not feel anonymous if they apply for the position. Burnett said, "We would not be able to continue our high-quality applicants if we weren't able to promise it the anonymous." Burnett said.

The provost position includes supervising the general direction of university's academic programs, budget, and financial planning. The provost is also responsible for overseeing the university's research and outreach efforts. The provost position is crucial in shaping the university's direction and ensuring its long-term success.

ASUI seeks candidates

Applications due Friday

by Gambrel Gus

With eight of 10 ASUI senators voting in favor and senate elections April 28, Kenton Dome has been looking forward to new senators taking office. The dome is also looking forward to new senators taking office. The dome is also looking forward to new senators taking office.

"It's important to have new people in the Senate, as well as experienced senators," said Kenton Dome manager Tom McGann. "New people can bring fresh ideas and perspectives, which can help the dome run more efficiently and effectively.

The dome is also looking forward to new senators taking office. The dome is also looking forward to new senators taking office.

Vandal Friday adventure

Argonaut news editor and younger brother experience campus together

I t was 9:30 a.m. Friday, and me and my brother, Mike, and I had already been awake for two hours. University of Idaho Provost Tim White stood in front of a group of more than 1,200 high school students and parents for the opening remarks of Vandal Friday in the Kibbie Dome. The "Vandal Advantage" Mike said about White, echoed White's explanation of why students would like the "Vandal Advantage." Mike had a call from White, saying why students would like the "Vandal Advantage." The answer to his question was eight times, by the way.

Mike is like many older young adults, occasionally controversial, and getting ready for the next step in his life. He was excited to see his new campus and new friends.

For Mike, the journey was secured when he was committed to UI to study engineering. White said he would lead him to a graduate degree in physical therapy. Mike is committed to UI, and the campus and the university's student body. Mike had been searching for a potential student and will continue to be so until university administrators finalize a permanent process.

"We would not be able to obtain high-quality applicants if we weren't able to promise it the anonymous," Dr. Kenton Burnett. Burnett said he hopes the committee will reduce the number of candidates to seven or eight for the eventual interview process, which will have public interviews and meeting.

Floristem is excited to announce the 35th annual Philosophy Conference on the campus of University of Western Ontario this June.

**Conference Theme:** "The Future of Philosophy in a Global Context"

**Dates:** June 21-23, 2023

**Location:** University of Western Ontario, London, Ontario, Canada

**Keynote Speakers:**
- Dr. Sarah K. Liao, University of California, Berkeley
- Dr. John Searle, University of California, Berkeley
- Dr. Susan Haack, University of Chicago
- Dr. Paul Thagard, University of Ottawa

**Conference Highlights:**
- In-depth discussions on the latest developments in philosophy
- Opportunities for networking with leading philosophers from around the world
- workshops and seminars for students and researchers
- Excursions to local historical and cultural sites

**Conference Registration:**
- Early Bird Registration: $200
- Regular Registration: $250
- Student Registration: $150

**Conference Venue:**
- University of Western Ontario, London, Ontario, Canada

**Accommodation:**
- On-campus accommodations available
- Off-campus accommodation packages available

**Conference Parking:**
- Free parking for all conference attendees

**Conference Details:**
- For more information, please visit: [Philosophy Conference Website]
- Contact: conference@uwo.ca
- Telephone: (519) 661-3333

**Important Date:**
- Early Bird Registration Deadline: April 30, 2023

**Conference Theme:** "The Future of Philosophy in a Global Context"

**Highlights:**
- In-depth discussions on the latest developments in philosophy
- Opportunities for networking with leading philosophers from around the world

Reverend Walker to speak at human rights conference

BRIAN RICK

The Rev. Larry Walker Jr., known for his work on human rights issues, has announced that he will deliver a keynote address at the University of Idaho's annual Human Rights Conference. The conference, which is sponsored by the University's Office of Multicultural Affairs, will focus on the theme of "Community Building: Addressing Inequality and Promoting Justice."

Walker, known for his advocacy on behalf of human rights issues, is scheduled to speak on "The Importance of Dialogue in Building Community." His talk will highlight the role of dialogue in creating a more equitable and just society.

The conference will take place on Thursday, March 30, from 9:00 a.m. to 4:00 p.m., at the University of Idaho's Multicultural Center. Attendees will have the opportunity to participate in workshops and panel discussions on a range of topics, including human rights, social justice, and community building.

The event is free and open to the public, and registration is required. For more information, please visit the conference website at humanrights.uidaho.edu.

Car burglaries may be on the rise on UI campus

by CYNTHIA REYNOLDS

An increase in vehicle break-ins on the University of Idaho campus has raised concern among campus security officials.

UI junior Jessica Martin said she returned from spring break to find the passenger side window of her white Honda, her stereo box and any money, and the electronics all gone.

"I thought it was pretty sad being an campus," Martin said, "I was really surprised to get broken into.

Martin's vehicle burglary is one of the first that has been reported by the UI Police Department in less than two weeks. This brings Idaho's total up to 24 since Jan. 1, and the decrease in city-wide crime is up 20. The number of burglary reports in 2013, however, is expected to be lower.

"This is an issue we're really concerned about," said UI Police Chief Maynard Johnson, "We will continue to work with the campus community to ensure everyone's safety and security.

The UI Police Department, along with the UI Security Services, are working together to address this issue. They have increased patrols in high-risk areas and are working to improve lighting and security measures across campus.

UI students can help by being vigilant and reporting any suspicious activity to the police. They should also lock their vehicles and remove any valuables, such as electronic devices.

UI Police Chief Maynard Johnson said, "UI is a safe place to work and live, but we need everyone's help to ensure our safety.

For more information, please visit the UI Police Department's website at ui.police.uidaho.edu.

"It's easy to break a window, even if you lock your car. So don't leave anything laying out in the front seat of your car."
Staring not dying with dignity

Student planner inspires self reflection

I n today's world it seems like people are constantly rushing about, always moving to get where they're going so quickly that they forget to enjoy what they're doing. The pressure to succeed often comes at the cost of personal values and relationships.

Luckily, the 2004-05 University of Idaho Student Planner is willing to help you slow down and enjoy Floating through the planner, students can find a variety of topics every Thursday. Some of the more popular sections include self-help, inspiration, and current events. The planner also includes a calendar with important dates and deadlines.

If the whole world followed me, I wouldn't have to think twice, or ever even think of a plan. I would take them straight to H.B. Do you know how cheap, how easy, how simple it would be? It didn't work, though, so I started to think about it again. What is life? What is love? What is hope? What is the meaning of life?

On this topic, I think that life is not something that can be defined easily. Life is a collection of experiences, both good and bad, that shape who we are as individuals. It is a journey that we all must undertake, and it is up to us to make the most of it.
Six-piece band with a side of activism

by John Rhode
assistant professor of history

The members of Colorado College’s newest student band, called “Robots,” want people to know that they’re not just interested in making music, but also promoting social change. The group, which will be performing tonight at John’s Alley, has not decided yet what its message will be, but band members agree that it should be something inspirational.

“I don’t see how music and activism don’t mix,” said Matt Sery, the band’s bassist.

The band’s current tour. Previous tours included guests from Denver’s Euphoria and a tour bus paid for by the Denver Post.

All concerts along the band’s tour will be paid for by the Denver Post. “We will offer the Post 10,000 KF Salvesen and with what gains. This will keep us over 27,000 pounds, not burn 13,007 pounds of coal or plumes of smoke. Regardless of the band’s status on stage, the music always comes first.

“Most musicians should feel they have to play music,” Watts said. “There’s some sort of need to do it.”

Watts said one unique aspect of the ensemble is the style. “We play rhythmic music. All music from music that is strongly rhythmic based. We’re not just any successful band in the world, but our group is probably the best, which impacts people the most.”

Because he is a drummer, Watts identifies with the intense rhythms of the band’s songs, but he also likes the way people move when they sing. “It makes your heards.”

The drummer has seen a wide variety of people attending the band’s concerts and can’t point out a specific group the band appeals to.

“It’s a broad range. It all depends where we play.”

In the past Watts has seen jazz lovers at some concerts and “hippie-folk” folks that come to see them. When the band started in 1987, the group was known as The Dave Watts Motel. This name evolved out of the punker, quintet, progression, he said. “It’s kind of a default name.”

For the first few years of the band, members did not even want to be on the stage. “We got our act together and we got the band played on stage. Usually the front of the crowd was particularly good the band played on stage.”

We’re trying to bring good vibrations to people, and to bring some therapy to the world.”

Celebrities can’t save ‘Robots’

by Tracy Morgan
assistant professor of history

I o animation can often make or break a movie’s appeal. Robert Williams was probably the biggest reason 1999’s “Wildwood” was a box office flop. The New computer- animated adventure film about robots banned from the movies, making him an unlikely hero for dreamers who want to break out into the music business. Real Wildlife has been taken over by the entertainment giant

The plot of “Robots” isn’t exactly new. The film’s attempts to be more of a clever diversion that will fit into the wider scheme of things. Real Wildlife was acquired by a new entity called Revell, a group that’s looking to “phone in” all the films that can’t afford upgraded parts. Disappointed. Real Wildlife had no choice but to agree to sign with Revell and to stand up against the big business machine.

The plot of “Robots” isn’t especially complex. But it’s quite a simple story to follow. The film itself is a one-liner, mostly due to the actions’ over-the-top performances. One can’t help but wonder if the music would have been better suited to a comedy film. A more serious musical would have been better for the audience.

See ROBOTS, Page 7

Matt Sery less than perfect

There’s a fine line between mean- ingless orches on stage and having a band that’s too driven. Matt Sery plays in all bands. But he’s not the only one.

Sery’s favorite way to keep his energy up is to drink coffee. He has a habit of drinking coffee right before a show. With only a few weeks to prepare for the show, he needs all the help he can get.

Since the “Robots” tour started, Sery has been busier than ever before. He’s been working six days a week, including evenings.

Despite his busy schedule, Sery said his energy has been taken care of by a distinctive sound, coming back between gusts. “I think I heard something,” he said. “Perhaps that’s why I’m always late.”

Sery’s listening. Issues of being said, the album is... See SERY, Page 7

Behind the curtains of DDD

This year’s Denver Drummers Drumset Performances were well-received, and many were expressed by the audience and the performers themselves.

The seniors of the group felt that they had worked hard to prepare for this event. With the energy of the last days of Spring Break to work with, the drum set and the drums provided a wonderful opportunity for the drummers to showcase their skills.

Since the last night of Spring Break this year, the drummers were working on the show. They were in sync with one another at all times, and even the solo drummer was working hard to keep up with the rest of the show.

The seniors of the group felt that they had worked hard to prepare for this event. With the energy of the last days of Spring Break to work with, the drum set and the drums provided a wonderful opportunity for the drummers to showcase their skills.

Unfortunately the 1,000 psychs can’t hold onto their jobs, nor can the 1950 resort voters vote them out of the house. The film is packed with clever and entertaining gags and enough large-scale antics such as R2-D2, R2-Servant & R2-Board Ending. The result is a film that is simply fun, especially when most of their vocals are perfectly delivered. A big fan of the film, Matt Mazar's final entry is a welcome addition to the "Dubliners" of this world. The result makes this film more enjoyable than "The Princess Bride." Golf team smashes record, takes second

FROM STAFF AND WIRE REPORTS

The young Idaho women’s golf team has a remarkable performance Sunday as it finishes second for the first time in school history.

The team finished this week’s tour in a one-stroke win over New Mexico and one stroke behind Northwestern, which won the tournament with 870, the Vandals finished one stroke ahead of No. 12 Missouri. They also beat Colorado State, Iowa State, Colorado, Nebraska, Kansas and Kansas State.

The Vandals shot 895 in the third round, the 18th hole in the 40th single-round record.

"This was the best tour we’ve ever played," said Rickel. "I look forward to watching this team continue to compete. They’re young, but they’ve already played some great matches." Their victory marked their third tournament in a row.

The team’s performance Sunday, along with their third round of 292, gave them a three-shot lead over Missouri and 11 strokes over Missouri.

The team started Sunday with a 310 and 321, and finished with a 305 and 306.

The team’s performance Sunday surprised many, including their coach. "We’ve been working hard, and it’s been paying off," said Rickel. "They’ve been putting well, and they’ve been hitting the ball well." Their performance Sunday was the team’s best of the season.

The team’s next tournament is scheduled for April 10-12, at the NCAA Regional Championship in Colorado. The team will be looking to build on their success this weekend and continue their incredible run of success.

Louisville finds the heart to run to a classic finish

By Beverly Marshall

(DES) Louisville is the home of Churchill Downs, the most famous track in the world and the site of the Kentucky Derby, the most illustrious event in the sport of thoroughbred racing. Louisville, the hometown of Kentucky Governor Steve Beshear, who was the Triple Crown in 1973, is not a horse racing haven. Shakes by an unexpected 33 lengths, although the other horses out of it, notably by an engine, and perhaps he was. When he was laid up in 1966, the entire stable was 92 years old. The average thoroughbred weight 22 pounds. The averager total was 10.9 pounds. The avenger's mighty heart could pump blood faster than the average horse, increasing its oxygen supply and saving energy.

After the going was bad, the mansion was sold to a racetrack owner in New Mexico. In October, when the horses were placed with a collective 22-pound heart to outlast Virginia, 68 to 66, in an overtime period.

Louisville was down 20 points with four men down, 61-41, in the first half. Down 13 at half. Down 12 with 18 minutes left in the second half. Down 10 with 1:15 left in the second half. Down 0 after 42 seconds. Louisville's 20-20 record remained at 42

Larry O'Brien (D) of Louisville forces a turnover by West Virginia Patrick Beilin (D) during the NCAA men's basketball Albuquerque regional final. Louisville defeated West Virginia in overtime, 89-85, at The Pit in Albuquerque, N.M., March 26.
