BASKETBALL TEAM RETURNS FROM TRIP

IDAHO WINS FROM O. A. C. IN FAST GAME

Season Comes With W. S. C. Game on Wednesday

The Idaho basketball team returned from its long trip Sunday, after having played five games, four of which were lost to the non-team opponents and one was taken from O. A. C. which is one of the strongest teams in the conference. The game with Washington was taken by the Whitman team in an easy score. The one with Oregon was hard and rough, that team being the roughest team that the Idaho location has had to play. O. A. C. game was taken by the Idaho team by a score of 20 to 12, and Whitman team by 99 to 52. The last two were played on that floor, the last of the two however, was a tie at the close of the regular time. The last two games of playoff, the Whitman team succeeded in chalkling up eight points to Idaho's two, giving them the game by a score of 28 to 20. The team returned well worn out and did not expect to turn up before the game with Pullman, so that they were in poor condition for those games, while the other team was in the best of condition.

Idaho stifled off the last two basketball games with the season to her right, others the farmers across the line in the two hard-fought games on Tuesday and Wednesday evening of this week. Despite the fact that Idaho had just returned from a hard trip and most of the players were in no condition for the two games during the week, O. A. C. has one of the two fastest teams in the conference. Idaho put up a hard fight in the games, and the combined efforts of the team and the sprints of the clock on long goals was all that saved her from 17 points down behind the score at the close of the game. The score at the close of the first half was 13 to 12, with the farmers leading. By the close of the game they were six points to the good, the score closing at 29 to 23.

For Idaho Keene was the star of the game. He dropped in three field goals and played the floor all Northwest style. Gray showed his usual class, featuring the game as usual by converting seven out of eight free throws into won points. During the game the innumerable fact that the season and the visiting scorelock on loud long goals was all that saved her from 17 points down behind the score at the close of the game. The score at the close of the first half was 13 to 12, with the farmers leading. By the close of the game they were six points to the good, the score closing at 29 to 23.

Philip Weatherford has met thousands of students and understands them thoroughly. He is perhaps the best man in the Y. M. C. A. could secure to address the men on great moral and religious subjects. As an educator he is organiser of the Southern Summer Schools for Christian workers, dean of the Student Secretaries' Training School and corresponding secretary of the United States Bureau of Education, having been appointed to the latter position by Mr. P. P. Claxton, commissioner of education.

Dr. Weatherford will speak to meet in the Auditorium, March 8, 10, and 11 at 4:45. This is one of the great events of the academic year. All men are urged to keep these three evenings clear from other engagements.

PROPOSED AMENDMENT TO THE A. A. U. CONSTITUTION

An act to add Subsection 5 to Section 1 of Article II of the By-Laws of the Constitution of the A. A. U. I. providing for the awarding of "T.V." to successful athletes in cross country races.

Article 2, Section 1, Subsection 1, 2, 3, 4, 5. To any member of the association who shall have won first place in any dual intercollegiate cross country race, second place in any triangular intercollegiate cross-country race, or child place in any four-man cross-country race.

President Brannon and his daugh-

ters were dinner guests of Delta Gam-

ma last week.

DUAL-DEBATES NEXT FRIDAY

IDAHO MEETS GONZAGA UNIVERSITY NEXT FRIDAY IN DUAL DEBATES

Gonzaga With Splendid Record Anticipates Two Victories

The dual debate between Gonzaga and the University of Idaho will take place on Friday night of March 10th. Our affirmative team will meet Gonzaga's negative team here in Moscow, at Verity Auditorium. This will be the second university forensic contest to take place in Moscow this year. It is also the last opportunity in which the students and townspeople will have, this year, to witness such a contest in Moscow because all subsequent debates in which the U. of I. is to be a contestant will take place elsewhere.

In view of the fact that this is the last debate to be held here, and the fact that it promises to be an extremely interesting contest, a large support from both the student body and the town will be expected.

In this debate just mentioned, with a deadly clash, and a desperate struggle for victory will be the result. The proposition is questionable. The affirmative side figures on winning. Gonzaga is much encouraged over her notable victories, which were the outcome, so we are told, of some of the best fought battles on the intercollegiate forensic platform that the Northwest has witnessed for some time. Gonzaga is therefore looking forward not only to a Pacific North- west championship but, as some one has stated to a Pacific Coast championship. The turn of events as we did last year, you would seem to justify the statement.

But Idaho, also, has ambitions along the same line. Victory (the affirmative) will be her side will mean a well earned victory, and the outcome of a well fought battle.

If we keep these things in mind surely we will not come out to wel-

come the idol of our neighbor university and to support our own team in such disgracefully small numbers as we did last year, on the same occasion. It is time to let people know that we are building up a new Idaho spirit.

The only students who should not come be those who come after the Auditorium is already fall to the overwhelming, barring course of those who are actually on their death-bed. Dr. Beckman, Charles Owens, and Ben Wm. Becker will represent Idaho in the debate here in Moscow, and will speak in the above named order. Beckman having in addition to his fifteen-minute main speech, a sum-

mary of five minutes.

On the same night Idaho's negative team made up of Bertrow Digs, J. J. Priest, and Melvin Ison, will de-

bate Gonzaga's affirmative team in Spokane.

In both of the debates the speeches will be fifteen minutes. The affirmative in each case being allowed a summary of five minutes.

BY SYMPHONY

To live the life of a work, clean of body and mind, without drugs, stimulants or euphoriocasts, to know there is no sin but ignorance, and go my best to remove that ignorance by listening to the wise and instructing the ignorance; to love my brother whom I have seen and believe in him as the best evidence of God, who is unseen.

To ask nothing for myself that all cannot have on the same fair and equal term; to be guided by conscience, and try each day to improve by con-

science; to use what I earn as wisely as I can, and not fear the money; to value friends as this world offers; to try to be a friend I would have, yet serve truth and righteousness before friends; to live above envy, hate and fear, and try in no way to conquer evil except by good; to pray by way and deeds; freedom and expres-

sing can make me happy or unhappy, but myself, and so live cheerfully and bravely in the truth, when night comes rest in faith of another to-

morrow.—L. M. Powers.
LARGE ATTENDANCE AT MILITARY BALL

FULLMAN VISITORS SHARE EVENING AT ANNUAL MILITARY BALL

Decorations Tastefully Planned—Evening Thoroughly Enjoyed

There is a certain air about the Military Ball which no other dance of the year can lay claim to. The severe uniforms give it a picturesque glamour of romance, contrasted with the soft, colored evening gowns of the girls and the profuse red, white, and blue bunting. They make a delightful setting for a dance and everyone with an artistic sense enjoys it except the Freshman. If he has the courage to come at all, he perspires wildly under a uniform that doesn’t fit. Tumblers with his funeral white gloves, wondering how much propriety will allow him to remove them, and salts thru half of his dances. But he is only a Freshman, with But’s Manual still heavy upon him and he adds to the general pleasure of the military none the less because he is gauche.

Friday night the Military Ball was a triumph success. Loads of evergreen transformed the awkward angles of the Gym into fresh, star-swellling nooks, and a grand deal of Fourth of July bunting made a low, dimly-lighted ceiling in place of the enormous Gym. top with its ugly apparatus. Somebody with an ingenious mind has hit upon the idea of having the orchestra play on the balcony, where it can not be seen but fallen over in the process of the dance. I think that the University as a whole might do well to lend a silvery-louring cup to this ingenious somebody for solving the orchestra difficulty. Friday night the lively strains floated down from the area of bunting and were thereby received.

The grand march was led off by Mr. T. J. D., and some might have been very military and imposing, but the large number of couples made it difficult to execute, and it soon turned into a good old two-step. Almost a third of the crowd was composed of Fullman and townpeople, who seemed to enjoy themselves quite as much as our own C. of I. people. Marie Donald and Stella Stanhope served punch and waters from a bowser of evergreen and, as usual, were kept busy most of the time between dances.

The patrons and patronesses were:

Mr. and Mrs. C. H. Shattuck, Mr. and Mrs. D. L. Livingston, Mr. and Mrs. Wm. Lee. Lient, and Mrs. F. J. Astermann, Miss French, Miss Stephens,

Mrs. Silverson, and Dr. Brannon.

LUNCHEON

May be had at the University Cafeteria in Ridenbaugh Hall.

GAMMA PHI BETA ENTERTAINS Distinguished Guest

Mr. Silverson of St. Paul, Minn., who is national visiting delegate of Gamma Phi Beta, has recently been in Moscow paying her biennial visit to the chapter. Having so many chapters to visit, she only allotted three days to each one, and her stay at the University seemed very short. Several attractive little parties had been planned for her but were cancelled on account of her work with the chapter which took up the greater part of her time. Thursday and Friday were given over to business conferences with Gamma Phi Beta, Pan-Hellenic, Dr. Brannon and Miss French.

Friday night Mrs. Silverson acted as patroness at the Military Ball. Saturday at one o’clock a luncheon was given for her at the home of Gamma Phi Beta. The table was decorated in yellow rule, yellow candles both large and small lighted the table. The centerpiece was of yellow chrysanthemums in a large brass Jordanic.

The place cards were simple white ones with little yellow and white flags of Idaho in the corners.

The guests were Mr. Silverson, and Mrs. Lewis, Mrs. Traftt, Mrs. Little, our patroness, Mrs. Husband, Dr. French, Dr. Brannon, Eleanor Brannon, Lydia Brannon, and Marie Bonnain.

At four o’clock in the afternoon Mrs. Silverson talked to a Pan-Hellenic meeting composed of representatives from all three sororities. She gave many valuable suggestions from the National Pan-Hellenic council which will have a lasting impression on every girl at the meeting. Ten and waters were served by the Gamma Phi Beta.

Mrs. Silverson left Sunday morning for a visit to Lamba chapter in Seattle. Each and every girl looked to see her leave and each one felt stronger and better for having met her.

NOTICE

The University of Idaho will meet the Gonzaga University next Friday evening in a dual-debate. The debate at Moscow will be held in the Auditorium.

Y. W. C. A. NOTES

The meeting of the Y. W. C. A. on Wednesday was very interesting. A vocal solo by Miss Williams, and a reading by Miss French were the main features of the program. Miss French captivated the girls by her splendid interpretation of “The Source” by Van Dyke.

We call your attention once more to the fact that the cabinets of the organizations in the northwestern part of the state will meet in Moscow the 12th, 13th, and 14th of March. Arrangements are being made for entertaining the delegates.

Mrs. Arnold presented a beautiful rocking chair to the rest room. As it is in mission style it corresponds with the rest of the furniture in the room. The girls take this means of extending their thanks to Mrs. Arnold.

DO YOU KNOW

UNIVERSITY CAFETERIA

Some time ago a call was launched for the cafeteria at the university. This was the result of the necessity, on the part of so many, of having to go down town for even a small portion of the outside of Main for their lunches. It was very generally conceded that this place was well, patronized and often served as a result of the great interest manifested in such an enterprise. This has been the case as the student has been encouraged to take charge.

During the wear and tear of the cafeteria was not, we are told by the student who has been sent home by the parent, that it was the result of the necessity, on the part of so many, of having to go down town for even a small fraction of the students to be found in their own. The student was very generally conceded that this place was well, patronized and often served as a result of the great interest manifested in such an enterprise. This has been the case as the student has been encouraged to take charge.

During the wear and tear of the cafeteria was not, we are told by the student who has been sent home by the parent, that it was the result of the necessity, on the part of so many, of having to go down town for even a small fraction of the students to be found in their own. The student was very generally conceded that this place was well, patronized and often served as a result of the great interest manifested in such an enterprise. This has been the case as the student has been encouraged to take charge.

The legislature is asked to give $16,500 for the next biennial or $75,000 for the year, which, on the basis of an enrollment of 600 students means that it is passing the state of Idaho a total over $139 per student. This amount would be increased to $50,000 if 100 summer school students were eliminated but even then the latter figure is the least to be found in any state university.

We sincerely hope in the future that the legislature be better informed and that the slashing of University appropriations to the extent of $25,000 is at least due to something more substantial than sheer imagination.

GOVANILA DEBATE

Once more the students of the University will have the opportunity of manifesting their interest in forensic work and of supporting those who defend the laurels of Idaho on the continent. The men who have been working for many weeks expecting to win the two debates scheduled with Gonzaga University deserve our loyal support. You may think it is rather "tiresome" to be listening to a debate for over an hour. If so, why? We all agree that a little mental effort is required to follow an argument intelligently. But much less work is required on the part of the student than on the part of those who have labored so strenuously to make the arguments, as it were, inexpressible.

You may go to basketball games and criticize team work, passing. You may be justified at times in making such criticisms. We shall do our duty at this time. But we want you to come to the debate and try to find any real team work, or lack of it. A real debate is scheduled to take place on Friday evening at 4 o'clock in the Auditorium. Last year when the Gonzaga men came here there was only a more hopeful debate. This year the students should make a desperate effort to be there and show the visitors that we heartily appreciate forensics as well as athletics and that we are right back of this kind of work at our University. Make that your "date" for next Friday evening.

WATKINS MEDAL CONTEST

The Debate Council has recently decided to conduct some time in April the Annual Watkins' Oratorical Contest. The winner of this contest is awarded a gold medal. Those who expect to enter the contest should work at once. Watch for full particulars in the next issue. In the meantime, however, don't waste any time.

Found

A little note was recently found in the contribution box addressed to the editor with particular reference to a "squib" which appeared in the last issue of the Argonaut. It was in the form of a suggestion or criticism questioning the advisability of permitting such "squibs" to be published in the college paper. The note was signed "Interesting Reader" and we have written the fact that he was as the "squibs" was very small so we are sure he had read the entire paper before he found it. As the suggestion offered is perfectly fair we failed to get the full significance of it. We therefore advise and encourage those offering friendly criticisms to keep their names so that we may have a conference and thus lend our united efforts in making our paper what a college paper should by all means be—a representative paper. We invite you to take enough interest to offer some suggestions.

"INTERESTING READER."

Where Quality Counts
ROLES & UNQUEST. • Prop.
much fun and pleasure thrown in as possible. It is the spirit of the
field to get an education without paying the
price for it in the future. But the
fact remains, that college education
has ceased to be a discipline which
makes for health, robust, sturdy
young men. And is more the fault
of the age than it is of the college.
No college can hope to attract a large
student body by making discipline
and sacrifice the watchwords of its policy.
The very fact, that most of our Luth-
erian colleges have not yielded to the
Time-Spirit, and do not have the en-
dowments necessary to compete with
wealthy institutions in providing lux-
uries for the student, has reacted
against our church in two ways; It
has made it impossible to equip
colleges with the necessary buildings,
apparatus, and teaching force; and it
has encouraged many of our brighter
and most ambitious young men to seek
an education elsewhere. Only the
compensation is that it left us as an earnest
serious student body which knows
what it goes to college for.
In noting what educators have to say about present-day tendencies, we
have long reached the conviction that
about half the young men who go
college are not really educated. They
are not educated because they wanted
to get away from the hussies and luxuries, and sust his
discipline. Education means vastly more
than a Pullman car-exursion thru a
college curriculum. It means moral
soundness—intellectual, moral, spiritual. It
means a thirst for knowledge and an
intelligent appreciation of the best
uses. A young man without a serious
purpose in life, without an ideal that is
worth striving for, is not a fit sub-
ject for college and its waste of
resources upon him! There is a crying need for
a college that has the courage to
create an atmosphere in which only serious young
men will feel at home.—The Lutheran.

A pianist Locating in Boise Praises Teachers at Home

The music circles of Boise have re-
ceived an acquisition in the person of
Milia P. Hostetter of Lincoln, Nebr.,
who arrived Sunday to make her home in
the city.

Milia Hostetter is well known in the
northern part of the state, through her
er work in the University of Idaho, where she
held the chair of professor of piano,
forte and theory of music for
four years.

Last year Milia Hostetter was given
a year's leave of absence to spend
abroad in taking special work.
The breaking out of the European war
sent her to the city and opened a studio and
becoming specially fond of the state, she
was glad to act upon their suggestion.

Milia Hostetter is a graduate of the
Boston Conservatory of Music
and took post graduate work in
1916. \n
Speaking of her deferred European
trip Milia Hostetter said, "American
students go to Europe usually for the
privilege which that feel abroad gives
them, and not because they cannot
find fully as good teachers in this
country, but I am glad to say that the
real worth of the excellent teachers
America is now being recognized

and a Europen trip is not considered
necessary to a good musical education.
Mr. Klahr is considered as good as
the majority of teachers of Europe.

The Campus Day.

Each of the regular four-year classes shall be allowed to enter a team, the membership of which shall be selected from the regular roll, of the class, and the respective classes as shown by the records in the office of the dean of the University Faculty.

A new feature this year shall be made by the respective classes in each manner as classes shall deem proper.

The evening's program shall be divided into two separate contests: song contest, and a contest that shall consist of songs and dramatic productions or both.

The song contest shall consist of two songs by each class, the words of which must be original and relate to some incident connected with the class. Each class must be represented by at least 50 per cent of its members.

Three judges shall be appointed by the President of the University to judge the Sing Contest. Three judges shall then deliberate upon the rendition of the songs, with special reference to interpretative power and character.

Their decision shall be announced simultaneously with the decision of the judges in the other contest herein.

The song contest shall be held in the auditorium of the University. The order of presentation on the stage of the auditorium shall be: Freshman, Sophomore, Juniors, and Seniors.

Each class shall be permitted to select as its coach anyone it may desire. Provided, That no class shall be permitted to name as its coach anyone officially connected with any department of the University in which instructions are given in Dramatics or Music.

The winners of the Stunt Pest Contest shall be determined by three judges who shall be chosen as following: First, the President of the University at least three days prior to said contest. From the names so chosen, the said President shall select three to act as judges. Provided, That the President shall be permitted to select any or all such names so presented and to select in the place thereof such other persons as he deems necessary, and Provided, Further, that should one or more classes fail to submit names to the President, the said President shall on his own initiative name the judges. Any one over twenty-one years of age, and not a student in the University of Idaho, or not at the time acting as coach of any one of the competing classes, shall be eligible to act as judge.

The name of the winning class of the Stunt Pest Contest shall be engraved upon a trophy cup to be purchased by the A. R. U. I. and placed on permanent display in the literary room of the University. Each class shall bear the expenses of its own performance. Provided, That the general expenses of the presentation of the contest shall be borne in equal shares by the classes participating.

John N. Evers, Chairman A. R. U. I. Committee.

RASKE BALL

To select the star of the Idaho team from scores in, as everyone realizes, comparatively difficult thing to do. In the first place, some players had greater chances than have others. The center who has been playing safety throughout the season has played good and, we are safe in saying, excellent ball, but we realize that he has had very little chance if any to work near the road so we can not conclude that he made to make good if he has a large number of field goals to his credit.

Likewise, the guards who played in the opponent's goal have not the chance, nor should we expect that he make as large a number of goals as the guard that plays the floor or that is at liberty to play more in the territory of his own team's backcourt.

Then, too, in making a study of the comparative scores, made in a season, we do not overlook the fact that some men have played in more games than have some of the other men on the team.

We are not compiling scores in order to determine just which one of the above played the best ball this season, because we do not believe that scores are always an indication of a man's value to a team so far as work and filling his place in the machine are concerned. Nor do we claim that the score is not sometimes an index as to the player's value to the team.

The season has closed and we are proud of the work our representatives have done for us. They have played a clean game and have won the victories and taken the honors in a sport that is man-like manner. This is a very commendable feature of inter-collegiate athletics.

POULTRY

Eggs made by Idaho are 136.

Poult made at home Idaho are 138.

Gray made 25 field baskets, 12 finals, and made 181 out of 127 free throws.

Kenne made 17 field goals and was fouled 34 times.

Jardine made 24 field goals and was fouled 16 times.

There men played practically all the time.

Kenne played less than half of the games and made 7 field goals and 10 fouls.

Hale played about half of the games and made 6 goals and was fouled 10 times.

Martinson playing center and safety record was fouled 22 times.

Lommunson played only a few games and was fouled 2 times.

Stillinger played only a little while in one game, missed one free throw.

STUDENT JUDGING CONTEST SCHEDULED FOR MARCH 2

The time is near at hand which marks the anniversary of the first Student Judging Contest held in the University. Last year the Agricultural College took a day off and students competed for honors in judging live stock, grain, and butter. This was the first affair of its kind here. It was a big success in every respect and this year's event promises to be even better. The contest is supervised by and given under the auspices of the Agric.

ual Club, which is therefore in charge of the event on March 2, a big day.

Miss Marie Bonham, a student here last year, was down for a few days from her home in Kellogg to visit her cousin, Miss Ola Bonham. While here she attended the Military Ball. She was a guest at the Gamma Phi Beta house.

The assembly Wednesday was given over to the students. The time was taken up with a discussion of the adoption of an amendment to the constitution providing for an annual Stunt and Song Contest to be held between the classes. Also an amendment was read providing for the giving of "10" to cross-country men.

The Misses Cox, Dewey, McIlveen, Richardson, Burns, Ditsonwore, Zamford, Johnson, Lobben, Carithers, Wiley, Kittenbach, and Bratt, and Messrs. Rice, Calquhoun, Bloom, Williams, Purdy, Decker, Adams, Rapp, Donald Samms, Gregory, Edmondson, Martin, and E. Knoddon attended the Kappa Sigma Formal last Saturday evening, February 20, at Pullman.

Saturday Gamma Phi Betas entertained at luncheon in honor of Mrs. Billerson. The table was prettily decorated and a delicious lunch was served by the Misses Atkins, Johnson, Mollen, and Mc Nab. The guests were: President Brannon and his two daughters, Mrs. Henderson, Mrs. Lewis, Mrs. Little, Miss French, Mrs. Truitt, and Mrs. Silverson.

Dr. Shattuck returned Saturday from south Idaho where he has been lecturing with the movable schools on the subject of beautifying the home and the city by the use of trees. He visited Preston, Paris, Blackfoot, Arco, and Aberdeen, and found that the people at all these places were greatly interested in the lectures, and anxious to gain all the information they could.

A number of University people attended the Kappa Sigma Formal at Pullman last Saturday night, having a thoroughly enjoyable time. Those present were: Misses Burns, Bert, Carithers, Dewey, Ditsonwore, Kittenbach, Johnson, McCros, Richardson, Spauldizing, Wiley, and Zinmow, and Messrs. Adams, Burns, Bloom, Calquhoun, Docktor, Donald, Gregory, Knoddon, Martin, McIlveen, Rice, Silverson, St. John, Summ, and Williams.

**UNIVERSITY AND THE**

The women of Leland Stanford University will hold field meet

The women of Leland University have established a precedent in co-educational institutions in organizing for the purposes of playing baseball and for racing and rowing. There will be a general women's field meet held sometime in the spring. Much enthusiasm and interest is being taken in the University in regard to those sports and keen competition is expected.

**Forensic Fraternity Installed in the Colorado Agricultural College**

A chapter of the forensic debating fraternity is being installed in the Colorado Agricultural College.

The membership in the fraternity is limited to students, who have made first or second place in an intercollegiate debate or extramural contest. There are several degrees conferred on the men who make the fraternity: the highest being on men who have been on three winning debating teams. Their emblem is a key in which are set various jewels denoting their degrees.

**Kansas State Agricultural College**

Advice from the headquarters of the National Board for Promotion of Rifle Practice in Washington, D. C., to the Kansas A. C., to the effect that they had defeated the University of Idaho in the first intercollegiate shooting contest by a score of 889 to 726.

**University of Oregon**

The Weatherford Y. M. C. A. meetings will be held March 19, 20, and 21. Fifty-one men representing every fraternity and organization of the college have pledged their support to make the meetings a success. Dr. Weatherford is a member of the International Committee of the Y. M. C. A. and spends most of his time speaking to colleges men upon their moral, religious and social needs.

Coach Haymarg declares that the track prospects of 1915 are brighter than ever. He has forty men already at work and he says that he expects to win another Northwest championship.

**Oregon Agricultural College**

According to the O. A. C. program, Coach E. E. Stewart has arranged a grand football schedule for next fall. The Oregon Aggies will probably journey to East Lansing, Michigan, where they will meet the Michigan Agricultural College team. The University of Southern California will be taken on in San Francisco about Thanksgiving. They will also play Syracuse University in Portland. Besides these larger colleges they will play Whitman, Idaho, W. S. C. and the U. of O. After this schedule has been carried out, we should be able to draw a fair comparison of Eastern and Western football players.

**University of Washington**

Dr. Frederick E. Bolton, head of the department of education, declares that the system of entrance examinations is entirely out of date. He says that it makes high school students crammers and matriculation at the university a burden. He favors and believes that some kind of a psychological test, as advocated by some, to test the qualifications of students entering for the first time would be an excellent substitute. The real value of such a test would lie in the fact that it would place the student in the line of work for which he is best suited, instead of allowing him to stumble along in any department when he does not know himself just what he wants.

**California**

"People should learn that knowledge is not education," is the first belief of W. A. Merril, professor of Latin in the University. This is shown by the story now being told to prove his theory.

A citizen of Idaho recently had published a list of twenty-five questions relating to public affairs in the United States and it may have caused many to confess that they could not answer most of them. Professor Merrill was among those who was unable to answer most of the twenty-five but he is not ashamed of his ignorance.

Instead he proposes five additional questions which he claims are of equal value among which are: "How much does President Wilson weigh?" "Who lives at No. 11 St. James Street, Boston?" and "Who is the mayor of Tempe, Arizona?"

Then he asks this question: "When will people learn that knowledge is not education, and that culture does not consist in retaining scraps of knowledge such as learning the English kings and their relation to their predecessor?"

**NOTICE**

The University of Idaho will meet the Gonzaga University next Friday evening in a dual-debate. The debates at Moscow will be held in the Auditorium.

**DELIGHTS ON THE MILITARY BELL**

"It was a splendid success." "The music was of the best." "I was well pleased with the result." "The best of spirits were in manifestation." "They all seemed to enjoy the occasion very much." "LUNCHEON" May be had at the University Cafeteria in Hidenbaugh Hall.
