Res halls strip, rub for courting

By Amber Mauze
University of Idaho Argonaut

On Tuesday night hundreds of students gathered around the residence halls, waiting for the rub-down and strip-down to begin. The SIC rub-down usually occurs on the Tuesday before the first week of classes.

A large group of women gathered around the residence halls, while a smaller group of men gathered around the residence halls. The women were wearing black pants and shirts, while the men were wearing only shorts.

The women were given a choice of two colors of paint: red or blue. The women then began to rub the paint all over their bodies, including their faces.

The men were given a choice of two colors of paint: yellow or green. The men then began to rub the paint all over their bodies, including their faces.

The paint was then washed off, and the students were left with a clean slate.

The SIC rub-down is a tradition that has been going on for many years. It is a way for students to come together and have fun.

The SIC rub-down is also a way for students to get to know each other. It is a way for students to meet new people and make friends.

The SIC rub-down is a fun event that everyone enjoys. It is a way for students to let loose and have some fun.

Senate finally finds secretary
By Laura Brandelish, University of Idaho AgriOption

Change is the buzz word for the ASUI Senate this semester. ASUI Senator Keith Hill and Ms. Brandelish have resigned, due to dire and personal circumstances. And a new secretary has taken over.

The new secretary, Justice O’Talle, fills a position that has been open and closed over last semester. She said that her goal this semester is to have student government work and to be a mentor to student senators. She said that she wants to learn her responsibilities that will include running the senate elections in November.

O’Talle stated that she wants to be accessible to the student government and to work efficiently. Recently, being in the ASUI office from 8 a.m. to 5 p.m. every day, she also has to keep minutes for weekly senate meetings each Wednesday evening at 7 p.m.

As the ASUI Secretary, O’Talle said that she will be the main contact with the senate at the UI, and that students can contact her at Senate and membership will take care of her questions.

“Through this position, I will be able to bring changes to the Senate meetings, which will be more accessible to senators,” said O’Talle. She said that it is comfortable to be in this position. O’Talle also said that she feels comfortable in the role of senators.

The newfound pariah of the American Left

George Finch

Synagnost Column

Geoff Ferguson never called it a pariah. He used to call it his "Eldership," a group of people assigned to work with him on critical issues. Ferguson always believed that the LDS Church (his call) was in the world of drama. He always dreamed of becoming a "great" leader, but never achieved it.

While I was away from Utah, I took my family to Arizona. It was a great experience for me. I learned a lot about the people there and the way they live. My wife and I went to the University of Arizona and we were impressed with the quality of education they provide.

The University of Arizona provided me with an opportunity to learn more about the American Left. I was able to see firsthand how they operate and what they believe in. I was impressed with the passion and dedication of these people. They are truly committed to their cause and will not back down in the face of opposition.

The University of Arizona is a truly remarkable institution. It has produced some of the greatest minds in the world, and is known for its commitment to academic excellence. I was honored to be there and to see firsthand the work that these people are doing.

Thank you to everyone who supported this trip and made it possible. I am grateful for your help and support. And I look forward to returning to the University of Arizona in the future.

The End.
Mac the pride of St. Louis

ST. LOUIS — The first goal of the summer has gone to the road, but St. Louis was still chilly Wednesday from Mark McGwire's record-breaking hitting streak.

McGwire slammed a fourth inning pinch-hit, two-run double Tuesday night at Busch Stadium, ending Roger Maris' 13-year reign as the single-season home run champ.

And though McGwire and his St. Louis Cardinals teammates were gone to Cinncinati for a series with the Reds, the Cardinals' record-breaking day wasn't ready to let the party end.

"If you've been around San Diego, you'd be watching the home runs," said San Diego Padres manager Kevin首届, who watched the Cardinals win.

The 44,627 fans in Busch Stadium for the 5-1 Cardinals win over the St. Louis Cardinals went wild for McGwire, who had been a part of the Cardinals' offense, to the point where fans were chanting for more.

Neville has for years been linked with the Cardinals' offense, and McGwire's presence in the lineup has helped her as well.

"I've been watching the Cardinals for a long time, and it's a good feeling to see them do well," said Neville.

However, she understands our system and has a lot of self-confidence and composure.

Vandals football looks to take next step
By Todd Mauro

Going into this season, many people expected the Vandals to make a move at division I-A football. However, the team is still in the division II-A Football Championship.

The Vandals have been looking for their first win of the season and have been able to come close to winning a few games this year. They are currently 2-6-1 on the season and are looking to break their losing streak.

The Vandals have been playing against the likes of the Idaho State University Bengals, the Idaho University Blue Devils, and the Colorado State Rams. They have been able to hang with these teams and have given them a tough time.

"It's been a tough year for us, but we're not giving up," said Coach Mike Ferreira. "We have some good players and we're looking to improve in the future."

The Vandals are looking to get into the playoffs and have a chance to compete with some of the top teams in the nation. They are currently sitting at 2-6-1 and need to win their last two games to have a chance of making the playoffs.

The Vandals will face the Sacramento State Hornets in their next game and will need to play their best to have a chance of winning.

"Sacramento State is a tough team and we know we have our work cut out for us," said Ferreira. "But we're not going to give up and we're looking to make a move in the playoffs."

The Vandals are looking to make a statement and prove that they have what it takes to compete with the best teams in the nation. They are looking to improve and make the playoffs next season.

Bandstorm the Gorge by the HORDE

By Kristi Ponezzer

University of Idaho Correspondent

The sun setting behind the Gorge amphitheater provided a picturesque backdrop for the final show of the 1998 Taste of Labor Day Weekend Festival at 7:30 p.m. on Saturday, August 29th. The sun would soon set behind the horizon and left the musicians on stage feeling chilled to the bone. The audience was a diverse group of people from all walks of life enjoying the final performance of the summer festival. The bands that made it to the Gorge were: Dave Matthews Band, Shihad, La Dispute, and of course, Black Harper.

Black Harper opened the festivities at 9:30 p.m., with songs from their debut album, Please or No. People were still being greeted by a lovely drizzle while walking through the gates and settling toward the various vendor- and entertainment-centered food stands. There was nothing with her smooth melodies, and a succinct "I see there is something eerie about her music—perhaps?"

Next came the Terrible, performing their hit single "The Hole" as hard and fast as they do. The band was off the stage only a few minutes later. A few minutes later, the final show of the day was set to begin. The crowd wanted more, but the party was just beginning.

The Red Rocker revealed its location in front of Kissing Weep, on the Moscow-Pullman Highway. The chair was built as publicity for Furniture West, and boy does it do its job. Tourists, families, and others that seek adventure frequently visit the chair, as it is one of the few picturesque takes that. It’s good to see for this attention, however. The chair is about 20 feet tall, takes no people to lift, and is more importantly, it is 3. Now with animals like this, one would think this giant rock star is the only one in its kind in the universe. That’s not true. There is one other Big Red Rocker located in another furniture store. The original chair hasn’t been moved since it was built in 1984. And it seems like the only Big Red Rockers in the whole of Idaho are in furniture stores. Even though it may sound like this chair needs to be publicly policy, it is not true. Visitors are always welcome. There is one interesting thing about the chair that most people probably don’t know about. It was to be nine inches to the chair’s site. From a giant red rock star has some trouble pulling in the crowd with its distinct advantage like that. So here are few pointers on a few moments of entertain- ment while at the Big Red Rocker. While sitting in a giant red chair, imagine yourself as someone who wants to test students. Students could do homework on the chair, read or write an article for the local news, construct another giant rock chair, or do a pacific. Or sometimes the chair allows one to nestle inside, listen to music, and hear the local wildlife. Maybe interaction would be more noticeable in other chairs and a person sitting in the chair would suddenly be filled with lyrics for the next song, i.e. when you’re ‘sitting down, in your sit- tiing room, so high above the everyday stress, The Big Red Rocker can be found on the Moscow-Pullman Highway, so sit in the chair and part like a dog, and the seat was made of logs.” Or maybe not. Some activities like, am wreathing or engaging in the back as two people, so think however for the fact that this is a pretty big chair! So outlined, one could even propose to his or her significant other on the chair. (How romantic!) No matter what you want to do on the Big Red Rocker. (Keep it legal) it’s always guaranteed to be fun. I’m like a big red niche fix of fun, just waiting for you to experience the fun (does not include seats). So read around the block then make your way to Furniture West and check out the chair.
