TWO volleyball teams played at the University of Idaho on Friday. The Idaho team defeated Montana State, 15-7, 15-3.

The Idaho team was led by two seniors, Margaret冷冻 and Frances Wieden. The Montana State team was led by two freshmen, Margaret Latt and Jeanette Johnson.

Both teams were well-prepared for the match, and the game was closely contested throughout. The Idaho team won the first set, 15-7, and the second set, 15-3, to win the match.

In the first set, the Idaho team started strongly, scoring six of the first eight points. Margaret冷冻 and Frances Wieden were outstanding at the net, with several powerful spikes and blocks. Montana State fought back, but Idaho maintained a comfortable lead throughout the set.

In the second set, Idaho continued to dominate, scoring four of the first five points. The team's defense was strong, with several amazing digs and saves. Margaret Latt and Jeanette Johnson played well at the net, with several successful spikes and blocks.

Both teams showed great skill and teamwork throughout the match. The Idaho team was able to maintain a comfortable lead in both sets, and the final score of 15-7, 15-3 was a testament to their hard work and dedication.

The Idaho team is now 2-0 in the season, while Montana State is 1-1. The teams will face each other again in the future, and it will be interesting to see how they improve and develop as the season progresses.

TRACK MEN NEEDED
(Continued from page one)
run back to his 100 yard mark, and if he is any sort of a flyer, and can take care of the. The leading money man to have money on this is a guy who has his legs and feet together, and is already a bit ahead of the curve. The man in the red shirt and black trousers, who is working on the fly long jump, is a good one to back. He is coming in hot, and is expected to make a good showing. The man in the white shirt and blue trousers, who is working on the high jump, is a good one to back. He is coming in hot, and is expected to make a good showing.

What's on the Fertilizer Bag?

Does your manufacturer print on the fertilizer bag per cent of the mineral content? Believe it or not, the present diagram shows that, on the average, most of the mineral content is in the form of nitrogen. Many do not. Home mixing is the safe method. Mix your own fertilizers and know what you are getting.

SAY NO TO STREET

The Hub
There was no question the leaders were outstanding in the game.

They were the only players who scored, and they were the only players who made their baskets. They were the only players who made their free throws. They were the only players who made their rebounds. They were the only players who made their assists. They were the only players who made their steals. They were the only players who made their blocks.

The game was a study in discipline and precision. The leaders were not only the best players on the team, but they were also the most reliable players. They were the players who could be counted on to get the job done.

The rest of the team was not as good as the leaders. They were not as reliable as the leaders. They were not as disciplined as the leaders. They were not as precise as the leaders. They were not as skilled as the leaders.

But the team was not too bad. They were not too bad because they had the leaders. They were not too bad because they had the discipline. They were not too bad because they had the precision. They were not too bad because they had the skill.

The team was good enough to win the game. The team was good enough to win the tournament. The team was good enough to win the championship.

But the team was not as good as the leaders. They were not as good as the discipline. They were not as good as the precision. They were not as good as the skill.

The team was too good to win the game. The team was too good to win the tournament. The team was too good to win the championship.

The team was too good to win the game. The team was too good to win the tournament. The team was too good to win the championship.
