Promote of Strong Schedule Brings Out Host of Aspirants

Strong Team is Assured—Pitchoff Staff an Uncertain Quantity

The occasional appearance of Sol and a baseball schedule has given the baseball club the shot in the arm they always have found daily, in the gym, extracting old kinks from their arms—getting it in ready for a strenuous season on the diamond.

Last season baseball was forced into the limelight and the limelight was represented by the best team she has had for several seasons past. The club managed to carry many games and the team succeeded in winning twelve. These games were with some of the most individual of which the Island Empire. The season was closed by a trip to South Idaho. The team won five games of the six game series which were played with league teams. The boys played phenomenal ball and overcame the oppositions of Weiser, Caldwell and Boise. They lost to Whitman, to Boise in a heartrend white, but the game was won as the team's picked team of the South Idaho league at Nampa. The team was the subject of favorable comment in every city visited.

Coach Middleton, has more candidates to pick from than he ever has had. The list includes eight old men and a large squad of young players from all portions of the state.

Curtis, last year's catcher, will again gain the position at the last occasion demands, although he holds the last pair of positions. Curtis improved with each game and on the trip, the play of a brilliant game. He is heading a fine whip, and is a steady hitter.

Keeler, a Calhoun's Normal team will try for first baseman. He has considerable ball in South Idaho and is regarded as a college performer. Keeler, the Pepys catcher, is a youngster who is coming to the front. His weight is in his favor and should make a good race for the position.

The pitching staff is an unknown quantity. There is the old stand by, Doigle, is not in college, and Samselle, the Butte league twirler, has left college. When the staff is to be filled by new men, Hansen is counted upon to bear the heat and after two or three holes the staff to be filled by new men. Hansen proved to be a "Wild Bill." "Havin'," pitching four games in eight innings, he gained the hearts of the crowd. If there is no such club, the Committee suggests that a meeting be called by some Democratic organization and a club organized. In either case, the Committee urges that the club encourage the participation of its constituent clubs, by sending to headquarters the name and address of its members, and that the Committee make itself favorably known and become a welcome sight in the intercollegiate organization. It imposes no dues or other obligation.

BASEBALL MEN TRAINING

THE BASKETBALL TEAM VISITS Whitman College Five

Win—First Game—'Prote' the Weston Normal With

Whitman Takes Two

On Friday night the Whitman college quintette easily wrested victory from the Idaho five—in-the-college gymnasium. The game at 8 o'clock was fast and snappy, at other times slow.

The first half ended in score of 16 to 9 in favor of the Missionaries and at the end of the second half the scoreboard showed an addition of ten points for Whitman and seven for Idaho. Final score 26-16.

The Idaho boys seemed to be stiff and sure from the Normal context and did not get into the game with their usual vim and aggressiveness.

Second Game

On Friday evening the last game of the Idaho-Whitman series was played. Since the cannibal-feeders had taken the first two games there was only a handful of roots present to witness what they expected to be a walk away. Idaho lost, but it was after giving the home team the biggest scare of the year. The game was anybody's until the final whistle was blown.

The Strings state players started the game with a rush and had six points before their opponents got up a foot and a horse-shoe goal by Bert Ackerman. In the second half all Idaho played a splendid basketball and though every man on Idaho's team played good ball Montegomery, the freshman center, deserves the laurel. He had it all his own way with Capt. Rigby and it was his last night and accuracy shooting that placed his team in the lead several times before the end.

In this half Edmundson and Stricklin did some of the best guarding that has been seen this year.

Case and Young simply had hard luck with the baskets. Time after time they got loose and propped for the basket but being unaccustomed to the hard back ground they could not get the ball in the net. It is safe to say that on the home grounds this pair of forces could have had it easy.

Wide Fieldhouse, the midguard star was the manager's choice and his excellent work alone won for Whitman its quickness, strong and aggressive shooting and it always tops on his man.

There was no unnecessary rough in either game. Referee Appetite of the Y. M. C. A. subjected the agarbage of uniforms to severe penalties, calling ten fouls on Idaho and only four on Whitman.

This trip ended the basketball season for Idaho. Although the majority of games were lost the team did good work under circumstances as they stood. The boys had to make a new team entirely and work out a new system under the guidance of a coach. This is an advantage that every team Idaho met this season had. Next year with a carefully trained squad may be depended upon to give some team a run for the championship.

Young, '08 captain, is the only man to graduate. Although he will be sorely missed his place can be filled from the reserves. Several candidates tried out for forward this year who should develop into good men by next season. This was Young's first and last year of college basketball. Although small he was fast and active and especially good on open throws. His floor work was first class.

Idaho Wins From Normal

The first game on the southern trip was won against the Eastern Oregon Normal School. The game was played last day evening, Feb. 27.

The players were easy for the collegians and the score 32-8 shows pretty clearly the playing strength of the two teams. Everybody on the U. team played good ball both the guards and Case especially showed fine form. The line up was as follows: U. Montgomery, Edmundson, Stricklin, Case, Young, and Fett. Normal. Still, Stagg, Sanford, Costello, and Storm.

Prof. and Mrs. Aldrich Enter the City

Prof. and Mrs. Aldrich entertained the members of the Biology Club at a meeting and lecture March 4 evening, February 22. Games were played during the easy part of the term and with the good condition each guest was presented with a package wrapped in patriotic paper and enclosed in a red envelope. The trading of these packages until each person got the desired prize caused a great deal of fun. But the greatest excitement occurred when the packages were opened and the winners danced their derby hats, disco necklaces, rings and long kid gloves.

Jubilee Singers

Wednesday evening the Tennessee Jubilee Singers will entertain at the Methodist Church. This company is the successor of a celebrated group. Jubilee Singers who first made public the negro music of the South, and was first on that type of musical entertainment. Two members of the club have been with it for over 35 years. Holders of season tickets are admitted free, as this is one of the course lectures. A number of good seats are expected to the Centennial, and season ticket holders. Harry L. Dus has charge of the sale of tickets to students.

An active propaganda for the Follettite as the Republican presidential candidate and the rumored organization of a democratic club proved a great amount of political unrest in the student body for the coming spring.
The Triangle League Debates, which are being approached, Washington has requested that the date be put one day back. If this change is made the debate will be held on Thursday, March 26. Dean Arthur P. Priest says that the Washington team is especially strong and that they are the best backed team Washington ever had. The leader of the negative team that is headed by the Military, Oxford, and Trinity College.

R. E. Peebler led a well attended Y. M. C. A. meeting at Memorial Hall last Sunday on the subject, "The Relation of the Y. M. C. A. to the Church." The program was held in the assembly hall of the Idaho State Normal School.
T. W. C. A.

Sunday afternoon the Young Women's Christian Association held its regular meeting at Ridgeway Hall instead of Little Hall, its regular place of meeting. Miss Ross, the state secretary, who is spending a week at the latter, spoke to the young women.

The subject of the meeting was one that is of especial interest to girls of western colleges, "Japan." Miss Ross told in a general way of the great need of workers in foreign fields as well as in home fields. She then spoke of the great work being done in Japan and dwelt particularly upon the work of Miss Fischer who is supported by the coast universities and colleges. Miss Ella Wood read an interesting letter which Miss Fischer had written to the Student Association, and Miss Howard read one from Miss MacDonald, the national secretary in Japan.

These letters brought the atmosphere of Christian progress in Japan with them and made those who were fortunate enough to hear them more than ever interested in the Japanese work.

Junior Cookery Class Dinner

Saturday evening at 6 o'clock the Junior Cookery Class gave an eight course dinner in honor of Dr. and Mrs. MacLean.

The decorations were carried out in a purple and yellow color scheme. The center piece was a large cluster of yellow daffodils on a table mirror which was surrounded by tiny electric lights, enveloped in yellow silk. A tastefully arranged chafing dish was placed on the table and the menu printed on the inside.

The guests were Mr. and Mrs. MacLean, Mr. and Mrs. Maynard, Mr. and Mrs. Little, Mr. and Mrs. Henderson, Mr. and Mrs. Jenkins, Mrs. Young and Miss Maryanne. Miss Athiee Ott, '10, had charge of the dinner. The class was assisted in serving by Georgia Davis and Jennie Horon.

Associated Miners

The members of the Associated Miners held their regular meeting in the gymnasium Thursday afternoon. A. A. Searlley, '88, read a paper on Idaho's position among the mining schools of the country and related in particular to the standing of our mining department. Mr. Searlley completed his course with that of 10 other colleges and universities and had carefully prepared tables to illustrate his talk. He also presented some study and the result of extensive personal investigation by Mr. Searlley was highly instructive. A spirited discussion led by Prof. J. E. W. was indulged in, many members taking part.

The association meeting the hour of 11:30 on Wednesday. This association fills a long want as an engineering society and hopes to enroll other engineers as well in its organization. Not only are the questions discussed but kindred sub-

jects as well.

Military Notes

The band met for the first time Friday night and was led by Vere Nezeller. About thirty cadets are registered for the band and a first class organization is ensured. Last year the contingent was weak but this year there are nine in this section.

Lieutenant Smith has devised a scheme whereby the students will decorate their classes in uniforms. Lieutenant Smith has taken charge of this matter to secure uniformity, in style. Cadets will not be required to purchase uniforms for this season but will wear khaki suits. Campaign hats will be discarded and khaki caps substituted.

The non-commissioned officers and privates are taking special drill under Lieutenant Smith in order to become more efficient before attempting to instruct the "booklets."

Captain Savidge is acting as adjutant of the battalion.

There will be formed a four-around company in the battalion this year.

Argonaut Nominations

The attention of the student body is called to the fact that the Argonaut nominations should be made at the students' assembly Wednesday. The constitution states that the elections shall be held on the third Tuesday in March. And the nominations should be made at once in order to give everyone opportunity to look over the field. At this meeting the following officers are to be nominated: Editor, associate editor, business manager, and assistant business manager.
