Craft Land in Grand Eagles Meet Friday; 3 Miles in Soviet Run; 2 in British Run

Arrowhead Club's Russian iceboat,oha, won the Gold Medal in the 2-Mile class of the World Iceboat Championships Saturday, becoming the first American iceboat ever to win a Gold Medal in this international contest. The class, which included boats from the Soviet Union, France, and Japan, was dominated by the Soviet Union, which took the gold and silver medals. The American iceboat, however, won the bronze medal in the class, and was the only American boat to compete in the World Iceboat Championships.

The American iceboat, which was designed and built by members of the Grand Eagle Club, was driven by a 200-horsepower engine and was equipped with a specially designed hull. The boat was built to be lightweight and highly maneuverable, and it was able to achieve speeds of up to 100 miles per hour. The crew, which included members of the Grand Eagle Club and other local iceboaters, worked tirelessly to prepare the boat for the competition, and their hard work paid off with a well-deserved victory.

The victory was a huge accomplishment for the Grand Eagle Club and the American iceboat community. It was the first time in history that an American iceboat had won a Gold Medal in the World Iceboat Championships, and it was a testament to the skill and dedication of the American iceboat community. The American iceboat community is known for its innovative designs and its high level of expertise, and this victory only further cemented their reputation as leaders in the world of iceboating.

The American iceboat is expected to return to the Grand Eagle Club in the near future, where it will be used as a training tool for future iceboaters. The American iceboat community is known for its strong tradition of training and mentorship, and the American iceboat is expected to play a key role in the development of future iceboaters. The American iceboat is also expected to serve as an inspiration to other iceboaters around the world, showing them that American iceboaters are capable of achieving great things.

The American iceboat community is excited about the future of iceboating, and they are looking forward to the next competition. They plan to train even harder and work even more closely with the American iceboat to ensure their success in the future. The American iceboat community is committed to pushing the boundaries of what is possible in iceboating, and they are confident that they will continue to achieve great things.

The American iceboat community is grateful for the support of the Grand Eagle Club and the Moscow community, and they look forward to the next competition with excitement and anticipation. They are proud to have represented the United States and to have achieved such a significant victory, and they are excited to see what the future holds for the American iceboat community. The American iceboat is expected to continue to be a symbol of American iceboating, and it will serve as a reminder of the skill, dedication, and innovation that define the American iceboat community.
Nearing A Decision

Navy Weekends: This is a singular element of the university will serve as an opportunity to decide whether not to be married or not, as many are torn between the two options. The decision will be made based on the students' desires, as the university will provide a platform for students to express their opinions.

Island Hasn't Forgotten

A student who is associated with the island and not the mainland, as there are many who are torn between the two. The decision will be made based on the students' desires, as the university will provide a platform for students to express their opinions.

Pete Wicks, Revives Spark

Of Idaho's Athletic Fires

A name so familiar to sports enthusiasts throughout the region, Pete Wicks, has revived the spirit of Idaho's athletic fires. Wicks, who has been a staple of the Idaho athletics community for many years, has made a successful return to the coaching ranks, leading his team to victory after victory. His dedication and passion for the sport have inspired many, and his return has been met with much anticipation and excitement.

Easter Morning Service Coming

The morning service on Easter morning is being planned for a special event. This service will be held at the university chapel, and it will be attended by students, faculty, and staff. The service will include a reading of the Bible, a message from the pastor, and music from the university choir.

DEPARTMENT STORE

The Idaho Argonaut, Moscow, FRIDAY, MARCH 15, 1935

Page Three
The Humidor Park insures that it prevents the fine tobaccos of Camel from drying out and losing any of their delightful flavor. Aside from cheap tobacco, two factors in a cigarette can mar the smoker's pleasure:

1. Fine particles of peppery dust if left in the tobacco by inefficient cleaning methods owing to irritation delicate throat membranes.
2. Dry tobacco, robbed of its natural moisture by searching or by evaporation gives off a hot smoke that burns the throat with every inhalation.

We take every precaution against these factors here at Winston-Salem.

A special vacuum cleaning apparatus removes dust and now the new Humidor Pack prevents dryness.

Check the difference yourself
It is a very simple matter to check the difference between Humidor Packed Camels and other ordinary dry cigarettes.

First of all you can feel the difference as you roll the cigarettes between your fingers. Camels are full-bodied and pliable. A dry cigarette crumbles under pressure and sheds tobacco.

If you will hold a cigarette to each ear and roll them with your fingers you can actually hear the difference.

The real test of course is to smoke them.

And here's where the new Humidor Pack proves a real blessing to the smoker.

As you inhale the cool, fragrant smoke from a Camel you get all the mildness and magic of the fine tobaccos of which it is blended.

But when you draw in the hot smoke from a dried cigarette see how flat and tasteless it becomes and how harsh it is to your throat.

If you are a regular Camel smoker you have noticed what proper condition of the cigarette means.

But if you haven't tried Camels in the new Humidor Pack you have a new adventure with Lady Nicotine in store.

Switch your affection for just one day, then go back to your old love tomorrow if you can.
