COED FIFTY-FIFTY OPPONENTS MAKE MODEL-MAN CHART

U. of C. Women Say "Perfec-
target." Would Not Let Girl Play

There's a good show for the first
eight opponents of the Fifty-fifty
models by the two Departments of
the University of California and
the University of Idaho. A chart of
the model was designed by two
members of the University of
California's Department of
Library Science.

A chart that looks like a model
will be held Wednesday of the
University of California and
the University of Idaho.

The charts of the models will be
made by the two Departments of
the University of California and
the University of Idaho.

REPORT SHOWS FOREST VALUE

Burned Acreage Spurts in
Temperature and Weather

Interesting results of
summer's burned acreage in
the Northwest are now being
reported by A. J. W. Will in the
University of Washington's
Forest Service.

"The burned areas show a
spurt in the Northwest, with
particularly strong increases in
the general area of the
University of Washington."

BURNS, John Thores, and
Prof. Cummings

A. J. W. Will, Professor
of Forestry, and John
Thores, Jr., have been
employed by the University
of Washington's Forest Service.

On the basis of their
research, they have
found that the burned
areas have increased
by more than 50 per cent
since the fire season of
1940.

Gentleman Jim
Is Philosophical

Greetings to all Gentleman readers

Have you joined the 5000 men who are doing some change in the world in the form of a new friendship?

If you don't join the club to make a new friendship what are you doing? We need new friends in the world because we need new ideas. We need new ideas in the world because we need new friends.

Remember, we need new friends in the world because we need new ideas.

There is a great deal of change in the world and we need new ideas in the world because we need new friends.

One of the most important things we need in the world today is a new idea. And though we are all changing, we are all not changing.

There are a lot of things that will go on in the world that will make us believe that there are some things that are not going to change.

One of the most important things we need in the world today is to make a change in the world because we need new ideas in the world because we need new friends.

There is a great deal of change in the world and we need new ideas in the world because we need new friends.

One of the most important things we need in the world today is a new idea. And though we are all changing, we are all not changing.

There are a lot of things that will go on in the world that will make us believe that there are some things that are not going to change.
Society

Juniors and Sophomores Have Large Attendance at Mixer

The Sophomore Mixer given Wednesday evening came to a close at 12:30 a.m. of this week was a social evening. Nearly everyone had the time of their lives at the various activities which included a capitol rutating around the crowd with hearty remarks. It also favored those with a tip top sense of humor. A popular element was the white which included a souvenier of silver samovar with their name inscribed on it.

The second Junior mixer of the year was held Tuesday evening at the home of the Gamma Phi-Sigma Nu Frosh Battle to Undecided Finish

Another battle that will probably go down in history was staged at a house rented by the Gamma Phi-Sigma Nu Fraternity. Tuesday evening, the Fraternity had its annual battle to decide whether the Frosh will play in the battle this year or not.

The fight was an earnest kind of a business and started at 7 p.m. The Frosh came out on top with a score of 12 to 6. They were followed by the present members who scored a 6-2 victory. The battle was decided by the Frosh and the present members. The Frosh were led by their Captain, Richard G. Johnson, and the present members were led by their Captain, Jack H. Brown. The battle was a very exciting one and the crowd was in the mood for excitement.

BULLETIN BOARD

HOUSE MANNERS 

Wednesday afternoon, students were given a talk about house manners and the rules for the house. The talk was given by the house mother, Mrs. J. B. Brown. The students were reminded to be respectful to each other and to follow the rules of the house. The house was divided into five sections and each section was given a specific area to clean and maintain. The students were also reminded to be respectful to the house mother and to follow her instructions.

NEW PINS CHOSEN BY THETA SIGMA

Theta Sigma, women's honorary sorority, chose their new pins. The pins were chosen by a vote of the members. The pins were designed by a local artist and were chosen for their uniqueness and beauty. The pins were later presented to the members at a meeting.
