THREE PLANS OFFERED TO FOSTER ATHLETICS

To The Argonaut:
We wish to inform that Dr. Baron is still maintaining and expanding his theory of popularizing athletics in Idaho. Just as firmly as we do not find the treatment of athletics at the university of any value to the students, we do not find any value in Dr. Baron's plans for the university. If, and, provided the said doctor was not so foolish as to think he could make a decent business out of it, he could have something to live on besides verbal persuasion. And yet, as he seems to be doing both at the same time, then it would appear that he is not lying.

With this in view, three test cases have been submitted to the benefit of athletics. The first of these test cases consists of a large number of small boys and girls who are playing games in the yard. The second test case consists of a large number of small boys and girls who are playing games in the street. The third test case consists of a large number of small boys and girls who are playing games in the playground.

We believe that this method of training athletes is a very good one and that it will be of great benefit to the students of the university. We also believe that it will be of great benefit to the students of the university.

And the best of it, Rice Krispies are ideal when you're hungry late at night. So easy to digest they encourage restful sleep.

How much better than heavy, hot foods.

Any restaurant has Rice Krispies. Made by Kellogg in Battle Creek.

* The most popular cereal served in the dormitories of American colleges. And only Kellogg's makes Rice Krispies at the source—The Kellogg Company. Battle Creek, Michigan.

SOMETHING FOR PIPE SMOKERS TO THINK ABOUT!

About 1864, farmers began to grow White Burley Tobacco. A few casks were taken to the St. Louis Fair in 1867 and sold for $5 a pound.

White Burley Tobacco is used to make Granger. It is the best pipe tobacco that grows.

You will notice the difference as soon as you light your pipe of Granger. It burns slower, smokes cooler and never gums a pipe.

Chesterfields are milder

Chesterfields Taste Better

As smokers became more experienced, they demanded milder cigarettes. Chesterfield filters were mild - they are just as much a feature of their tobacco.

The tobacco is mild to begin with, patient aging and curing make them milder still. And Chesterfields contain just the right amount of Turkish—not too much—carefully blended and cross-blended with ripe, sweet Domestic tobaccos.

Chesterfields are milder. They taste better. That's why "They Satisfy."

No raw tobaccos in Luckies
—that’s why they’re so mild

We buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette.

The fact is, we never overlooked the truth that “Nature in the Raw is seldom Mild”—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—“It’s toasted.”

That’s why folks in every city, town and hamlet say that Luckies are such mild cigarettes.
