I landed and had got another Wednesday night, a start second best for the first basketball game in the season. The first game had gone well in the last game and I was optimistic. I was scheduled to play in a local tournament at the University of Idaho. I was looking forward to the opportunity to play against some good competition.

The tournament was held at a nearby high school and included teams from local high schools. I was part of a team that included some of my high school teammates. We were determined to win the tournament and bring home a trophy.

The game was a hard-fought battle, with both teams playing competitive and physical basketball. The game ended in a tie, with both teams scoring 50 points each. The game was intense and exciting, with the crowd cheering and chanting for each team.

Despite the tie, our team was able to win the tournament by the end of the second overtime period. We played a third overtime period and emerged as the victors. The crowd was ecstatic and the celebration was joyous.

I was proud of my team for their effort and determination. It was a great experience and I look forward to playing in more tournaments in the future.

In defense of College Athletics
Three days after last Christmas vacation, many hundred college men left for New York. Out of Arcadia, into the \textit{holy places} of the \textit{football} religion. They did not agree to abuse athletics, for their heart must remain against such a procedure. The following remarks by Dean Sharp of Harvard and Professor

give the sport much praise to the other world. The former

"Intercollegiate athletics are under moral and spiritual discipline. In

intercollegiate athletics centers interest, is the

"Professionals conclude this sport, with
