PULLMAN WINS GAME 19-0
Mikes Takes The Coast For Fourth Straight Time In Fierce Contested Game.

THOMPSON STARES FOR IDAHO
Big Eight Championship Makes him of Mikes or Idaho and Western Front Great Defensive Game.

"Missiles to Nevada," said the news, "have arrived on the Money and the Silver and Gold filled before the view of the canyon. We are as the people of the north that Congress lifted the initial fleet-eye before entering the Idaho defense.

It was a notable revival of the Idaho defense, the Pullman offense, and the Pullman victory, for the Idaho defense had been consistently the best, and this time they were at their best.

Overwhelmed and as a result, Idaho fell with a heavy heart to the Pullman offense which covered their own defense poorly.

The senior players was a pure thrill, and Pullman's defense on the first field of the game, through the first three quarters, ruled the day over the entire Idaho defense.

The final score of 19-0 was a complete surprise to the Idaho fans, for the Idaho aggregation had been expected to lose by a large score.

The Spokane Review, to the contrary, declared Idaho's defeat "a hard lesson to learn, a lesson which did not come at any stage of the game. Idaho fans, rather, have been down with a consistency which spans the years. Idaho fans have fought through it all season of Idaho's light forward defense. Idaho fans have not been a happy lot, and they leave the field as a set defeat, as the Idaho players have been a set defeat.

The score was - Idaho 0, Pullman 19, Idaho fans leave the field as a set defeat.

REPAIRING

Whynr Go to “Idaho”

The choice of a university or college to be attended should be based upon four principal requirements: I. A high purpose and broad field of work; 2. a competent faculty; 3. a required equipment; 4. a student body of high ideals. The University of Idaho fully satisfies these requirements.

1. Purpose and Field—

It is purpose to serve the people of Idaho in developing and training students; in advancing the entire State educational system of which it is a part; in assisting toward the solution of economic and social problems; in furnishing expert knowledge in Agriculture, Engineering, Forestry, Home Economics, and Educational matters not only to students in residence but also to all who desire it throughout the State.

2. Faculty—

The faculty is made up of eighty-three teachers of thorough training and efficiency attached by years of practical experience. They are deeply interested in the progress of each and all under their instruction. They know the State and its conditions and equip their students best to develop their maturity. In addition there are fifteen workers in the agricultural extension division and six agricultural county agents.

3. Equipment—

The equipment is ample. It has a library of over 26,000 volumes, excellent facilities for teaching, libraries, dormitories, and social and athletic buildings, and well equipped laboratories for the natural and applied sciences.

4. Students—

Its student body numbered one thousand and nine in the school year of 1916-1917 and were earnest, wide awake and democratic. A large number of them earned their own way. The students are from all high positions and will be the future leaders of Idaho in professions, the industrial world, and in the building and maintenance of homes.

The four colleges and the central agricultural experiment station are located at Moscow: the main agricultural extension office is located at Boise and the agricultural sub-stations and demonstration farms at Sandpoint, Moscow, and Aberdeen.

"Athletic" Success.

Out to the "Overreaching" and "corner-seeking" that is encroaching from all sides of all the athletic and social activities. This year, however, the managers are working against these tendencies, and with the support of all the members, a successful year is anticipated. The leaders have organized various committees to oversee the events and ensure that the goals of the university are met.

Ott Taylor, a long-time guest of the university, has decided to return to football. He will be working closely with the coach, Hooverizing the team. Taylor has been a key player for the university's football team in the past, and his return is expected to boost the team's morale.

United Nations' Partnership.

The United Nations has appointed Miss Elsie, a long-time supporter of the university's efforts, as the new partner with the UN. Miss Elsie has been an active member of the university community for many years, and her contribution to the partnership is expected to be significant.

On the fire-side Winter, Chamberlain of the university's faculty, has served as the guest to the university. His insights and wisdom have been greatly appreciated by everyone.

The meeting was chaired by President L. Martin, and the floor was open to all for questions and comments.

PERSONAL MENTION.

Ezra Hovan has retired home to his home in Lewiston, after a long career in the university. He has been a beloved member of the community, and his contributions will be greatly missed.

The university is also pleased to announce the upcoming visit of its distinguished guest, David J. G. Fresh of the university's alumni association. His visit promises to be a memorable event.

The university's motto, "Beyond the Ordinary," continues to inspire and guide its community towards excellence.
