Why Go to “Idaho”
The choice of a university or college to attend should be based upon
your personal requirements: i.e., a high purpose and broad field of
study; 2nd, a competent family; 3rd, a sufficient equipoment; 4th, a stu-
dent body of high ideals. The University of Idaho fully satisfies these
requirements.

1. Purpose and Field—
It is our purpose to serve the people of Idaho in developing and training
students in advancing the entire State educational system of which it is part;
in assisting toward the solution of economic and social problems; in
furnishing expert knowledge in Agriculture, Engineering, Forestry, Mining,
Home Economics, Law, and Educational matters not only to students in
residence but also to all who desire it throughout the State.

2. Faculty—
The faculty is made up of eighty-three teachers of thorough training
and efficiency attained by years of study and experience. They are
familiar with the latest conditions and give their best efforts to
their development. In addition there are fifteen workers in the agri-
cultural extension division and 15 agricultural county agents.

3. Equipment—
Its equipment is ample. It has a library of over 40,000 volumes, ex-
cellent facilities for teaching Engineering, philosophy, and the
social sciences, and well provided laboratories for the natural and applied
sciences and for the technologies.

4. Students—
In its student body there are one thousand and nine in the school year
1915-16, with one, without discrimination. A large number of
them earned their own way, through no
university now occupies high positions and is
affiliated with several orders of Idaho in professions, the
and in the building and maintenance of homes.

BUSINESS COURSE AGAIN OFFERED

Edna Raymond Second By University In Teach Course in Business Administration

The school of Commerce and Business Administration will again present in this semester the regular business course which has been so successfully conducted in previous years.

The regular business course will be conducted during the second semester of the course, and will be available to students who have completed the first semester and wish to continue their studies in business.

The course is designed to provide a thorough grounding in the fundamentals of business administration, with particular emphasis on accounting, bookkeeping, and clerical work.

Those interested in enrolling in the course are urged to register as soon as possible, as the number of places is limited.
