Attention.

Dean Eddidge and little sister, Annie, of Idaho's student body in its recent position, have announced that the latter is the holder of the world's record for having sold to the extent of $1,000 worth of stamps. The record was announced by the dean, who stated that the record had been broken by his little sister, who had sold a value of $1,000 worth of stamps.

The news of the record was received with great excitement, and the dean stated that he would be happy to see the record broken by his little sister. He stated that he would be willing to assist in any way possible to help her achieve the record.

The dean also stated that he had been very impressed by the selling ability of his little sister, and that he was confident that she would be able to break the record. He stated that he would be happy to come to the school to help her in any way possible.

The dean also stated that he was confident that his little sister would be able to break the record in a short time. He stated that he had been very impressed by the selling ability of his little sister, and that he was confident that she would be able to break the record. He stated that he would be happy to come to the school to help her in any way possible.

for the present year. Chief Justice, W. W. Hunsicker, announces justice, Judge
Crescenzo, clerk of the court.

DEAN RETURNS FROM FRESCO

Visits President and American Lake
Where Idaho Boys Are Located.

Dean Elrod returns from a trip to the V. M.
Conference at Fresno, California. The conference was attended by
many of the big figures in national colleges, and the dean
noticed that it was interestingly with.

L. W. Land, President of Portland, was
distinguished, and some of the major
speakers were Marshall Harmonstein
and Major General Murray, U. S. A.
intendent of the Western Division,
numerous officers of national membership.
While at the conference, Dean Elrod visited the President,
where several Idaho boys are located, and also made a brief visit to Ameri
Lake, where many others are enrolled.
Dean Elrod states that the equipment of the campus is as
most beyond comprehension.

The choice of university or college to attend should be
based upon a number of essential requirements: 1st, a purposeful and broad field of
work; 2nd, a competent faculty; 3rd, a sufficient equipment of buildings; 4th, a suffi
cient faculty; and 5th, a high ideal of student life. The University of Idaho fully satisfies these
requirements.
1. Purpose and Field

It is our purpose to serve the people of Idaho by developing and training
students. In advancing the entire state educational system of which it is a
part, we are assisting in the solution of the social, economic and natural
problems of Idaho. We are preparing students for work in the fields of
agriculture, engineering, forestry, home economics, and educational
sciences. In addition, these are fifteen workers in the agri
culture extension division and its agricultural county agents.

2. Faculty

The faculty is made up of eight-three teachers of thorough
training and efficiency attained by years of study and experience. They are
neither more nor less interested in the progress of each and every one of them,
be they teachers or administrative officials. They know the State and its conditions and
give their best efforts toward its development. In addition there are fifteen workers in the
agriculture extension division and its agricultural county agents.

3. Equipment

The university is equipped with over 30,000 volumes, excel
sclent facilities for teaching literature, philosophy, and the social
sciences; and will provide laboratories for the natural and applied
sciences.

4. Students

The student body numbered one thousand and ninet
in the school year of 1916-1917 and were sixteen, wide-awake, and democratic. A large number
of them earned their own way and were members of the normal student body. They will be the future leaders of Idaho in professions, the industrial voca
tions and in the building and maintenance of Idaho.

The four colleges and the central agricultural experiment stations are
located at Moscow, The agricultural education, extension and welfare office is located at
Boise, and the agricultural education, extension and welfare office is located at
