FASSETT TALKS ON "SUCCESS"

PULLMAN NINE COMES FRIDAY FOR FIRST GAME OF SEASON

SCOTTISH IMPERIAL'S NEW CHAMPIONSHIP

DETROIT, Mich. (AP) — The University of Michigan, which has had a tough season so far, is looking to turn things around this weekend. The team is currently in the midst of a four-game losing streak, but they are hoping to find their rhythm against a struggling Ohio State squad. With the season on the line, Michigan is determined to regroup and bounce back with a victory on Saturday.

If you have questions you want answered, it's not unusual to feel frustrated. The important thing is to remember that you won't overcome obstacles or turn your day around if you're always looking at negative aspects of yourself. The best way to combat this feeling is to focus on your strengths and make a conscious effort to keep things in perspective.
**Banking**

**Why Go to "Idaho"**

The choice of a university or college to be attended should be based upon certain essential requirements: 1st, a high purpose and broad field of work; 2nd, a competent faculty; 3rd, a sufficient equipment; 4th, a student body of high ideals.

The University of Idaho fully satisfies these requirements.

1. **Purpose and Field**
   - The purpose is to serve the people of Idaho in developing and training students in advancing the entire State educational system of which it is a part, in assisting toward the solution of economic and social problems; in preparing expert knowledge in Agriculture, Engineering, Forestry, Mining, Home Economics, Law, Social Science, and other fields.
   - It is designed to offer opportunities for students to remain in Idaho after graduation and to serve students in residence but also to all who desire it throughout the State.

2. **Facial Location**
   - The faculty is made up of eighty-three teachers of thorough training and efficient attainment by personal study and experience. They are deeply interested in the progress of such and such problems. They believe in the advancement of mankind and of civilization, and they give their efforts to the development. In addition there are fifteen working in the agricultural extension division and fifteen agricultural county agents.

3. **Equipment**
   - The equipment is ample. It has a library of over 10,000 volumes, excellent laboratories for the various sciences and the social sciences, and well equipped laboratories for the natural and applied sciences, and for the technologies.

4. **Students**
   - The students numbered one thousand and nine in the school year of 1916-1917 and were enrolled with as high or higher a percentage of Idahoans than many of them earned their own way. Its alumni now occupy high positions and will be the future leaders of Idaho state industrial, commercial, professional, and in the building and maintenance of homes.

The six colleges and the central agricultural experiment station are inspected by the United States Department of Agriculture. These are located at Moscow and an agricultural extension office is held in Boise, and the agricultural experiment stations are held in the University of Idaho. For information apply to the University of Idaho, Moscow, Idaho.
Society Gossip

Mrs. Eldridge Edmonds

The upper classes of Delta Gamma were guests in a generously

spaced living room and breakfast room at the home of Mrs. J. L. Eldridge.

Friday afternoon, the guests were formally entertained by hostesses, Mrs. C. M. Brown and Mrs. C. C. Brown. Mrs. Eldridge Edmonds.

Harold Starkweather

Two marriages of interest to serious students occurred last week.

The first was that of Percy McKim, age 21, to Miss Rose Roberts. The second was that of Vesta Connerally, age 21, to Frank Martin, age 22. Miss Martin is a well-known member of the Kappa Gamma house, and is a member of Baja Sigma. He has taken a leave of absence in the Fall, after graduation from the university.

Bertha Peyer, Harville Beaul, Paul Snyder and Mary Freeworth, attended a luncheon given by Alpha Kappa Sigma at Palmerton Saturday.

The President of Chi Delta Phi entertained the guests of the chapter Friday evening at an optical party. A dinner reception was given, after which the festivities were served.

Miss Gladstone and late daughter, Louise of Lapwai spent the week-end with Chi Delta Phi. Miss Gladstone announced the initiation of Edith Anderson, Lillian Hill and Wm. Martin.

Alba Kuyper Mclnroy announced the planting of Frank and William's Sigma Chi house. It is located at 936 S. Highland. (J. C. Hughes of California, Wash. had been a member.)

Mr. and Mrs. W. B. Miller and new son, William A. Miller of Alpha Kappa Sigma Sunday afternoon.

Miss Belle Willis went to Spokane last week and heard the Boston Opera Company.

Word From Inspector

L. W. Frey, Inspector will be in Pullman as the Fire Department, will be in Moscow in the near future to inspect the new building of the Washington State College. Mr. Frey is the head of the State Board of Education, and is a leader in the fire service of the state.

Forest Service

A Trip to the White Mountains

With the coming of the final spring exercises, the Forest Service engineers have engaged in practical field work and are making trips to the White Mountains to get the topography that the summer's work will be upon. It has been said that the additional advantage is that the topography is much easier in the White Mountain range than it has ever been before.

The Forest Service engineers are carrying out the same kind of field work as in previous years. The engineers have been using the finest instruments for the best results. A trip to the White Mountains, which is being conducted in the evening, will be the last of the work for the season.

The topography is of great importance to the Forest Service engineers and the Forest Service will be on the lookout for the best results. A trip to the White Mountains, which is being conducted in the evening, will be the last of the work for the season.

The next step, now under all phases of the work, is to decide on the formation of an International Long-life. She filled her argument with the point that the time would be ripe for the formation of such a league, and that it must be established by the coming winter, when all nations will be keenly interested in the question of peace.

The President Hoskins of the Washington State College, who is the leading representative of the nation for the purpose of the formation of the league, was present at the meeting and gave a very able address on the subject. He spoke of the importance of the International Long-life to the future of the world, and said that it must be established without delay. The President Hoskins was followed by a writer who has been associated with the Washington State College, who gave a very able address on the subject. He spoke of the importance of the International Long-life to the future of the world, and said that it must be established without delay.

The following letter written to a member of the Party, was recently received from age. Talbot Jennings, ca. 35, new in active service, in France:

Over here, real-life is almost a holy-day—a sort of Feast of All Saints, when we all sit down and think of those who have gone before us. The service of the day is the remembrance of the dead. It is a little while.

While the stately chateau has a long time ago, at least, it seems to us a long time ago, there have been called our passage over "very sunny" fields. We are reminded, however, that those who prepare the splendid scene of our future, are not the only ones we get to die and help. I'm not like getting the dead.

We're kept on the jump. I have a lot to keep up with. I have to write a few lines and perhaps read a few things, by snail mail, to the present, a copy of "David Copperfield," a mystery novel, a few "Fools" and a novel called "The Virgin Brides." It's all going to be a real reading, even the advertising.

Where are the possibilities? The possibilities are leaving everything forever, even, the things that happen up, and significant a year ago have grown thin and faded. The big thing is to pretend the game, day by day, over it, on any one or another.

With best wishes for you,

Very sincerely,

Talbot L. Jennings
