MEMOR
MINERS RECEIVE RESCUE INSTRUCTION

Class of Two Hundred Fifteen Attends Course in Mine Rescue

By C. W. VOGT

The Bureau of Mines on Saturday number was the successful week in Harvey for the purpose of giving the School of Mines students a course in mine rescue work, which is required by the curriculum of the Mining School. A class of two hundred completed the course Friday.

Broadening Experience Explained.

One of the main purposes of the latter apparatus was explained in advance of the course, as they were designed to provide the men with a thorough knowledge of the apparatus so that when they reach the mines they will be able to operate the equipment in case of emergency.

Robert Klum was the instructor in the classroom work.

The Bureau of Mines was represented by John O. Wright, the mining engineer in charge of the mining school, and by W. C. K. Cole, mining engineer of the school.

The course was divided into two parts: the first day was devoted to instruction in the classroom, while the second day was spent in the field, where the men were taught to operate the rescue apparatus in practice.

The course was conducted by the Bureau of Mines and was attended by the students of the mining school.

POST-ROSTER FOR YEARBOOKS

The year was much a quandary. It had been scheduled with W. O. F. Fresh, North Central High, Lewis and Clark High, and U. O. F. Fresh as the competing teams. Saturday, the Big was the day set for this battle and the Pullman train was the place, way where California was the ablest of big boys of women's basketball.

A few days of the year, "confessors" have been working and working hard but what could even a general do without expert? Idaho was the best represented in this quandary meet. This was your fault, you'll cry and every one of you is fully, visibly, and collectively to listen for this fact which brings Idaho the "honn-hon'ed" from the other schools which were represented.

"Chair's up for the great diggers ranks."

Let's beat W. O. C.

BRELL ON YOUR EASTERNER

The records made in the meet at the BSR in the Coast Conferences are the best made by any college conference in the United States in the past several years.

A new Yale record was a big sensation and an extra clean wonder, in a new 4:1.6 hitches record of Stanford was hardly matched.

We don't see the publicity but we've got the game. How do the dates of the 1930's and 1931's days mean as for money's worth that the "honest" folks hold their shares of the game.

Let's white-wash the Pacifiers.

FALAL W. O. C. GAMES

The Idaho W. O. C. basketball games this week in to be played and won by the Idaho folks. Let's make it a clean sweep and give the season a nice finish. In here.

LOOK'ER OVER

Our crummy football season has been working every night for a couple of weeks under Coach Kaylor. The novelty field is the place and then a little lift up the trims the back of the new pay to in action.

Cars set and show that you are interested in the new "will" (the stuff that's a kick) and set out to be the hand-tied methods of Idaho's Volatile men.

Hang the Washington wagon up to dust.

The mark of the state inseparable boys, "Shook and Record."

Such -- Isn't that guy Iowa's biggest sky-watcher?

Pardon -- Isn't that a sweater big boy -- practical for the Olympics he won't fill himself falling on it. His hands on the platform and they let him down easy.

THINK ABOUT THIS

Get out the door sheet in two Sunday papers and compare the results of the "Picks" meet with those of the Northwest Conference.

BIG ATTENDANCE COMMENCEMENT WEEK

After marks in the Idaho, women's basketball every time a new star shone up in the box, the Idaho "Fat-lad" Brown playing part, or the winner proved too submarine and persistent for the Sigma Yur side, in a game of the three-ring valiant ladies field.

With two ball games and much positive going on at the same time it is so wonderful that the gods could find other thing to do besides make errors. The result was a game of "ladies" basketball.
