KNEPPER SPEAKS ON BIBLE STUDY

At Second General Assembly Miss Florence Knepper, popularly known among the students as "Lips," delivered a stirring address on "Love in Its Various Aspects" Wednesday morning on the necessity of a study of the Bible, especially in the present state of affairs, as a course in bible study, which may be outlined in a general manner, but is bound and helmed in the institution's interests.

In opening his talk, Mr. Knepper set forth the obvious fact that the various types of unitarian students he has met in conversation after graduation, great though their profundities of knowledge at theological training may be, have lost sight of the main object of the institution, that is, the making of a scholar and Christian, and have been wound up in the study of the Bible and scripture as an afterthought.

In conclusion he reminded the students of the need of a study of the great truths of the Bible, that the Bible is a book of love. It is the Bible that has the Bible in it, as it has been written by the Bible, and that the Bible is not a book of love, but of the Bible.
