FRESHMEN DECLARE WAR ON BAD ENGLISH

We, the Freshmen of this campus do hereby renounce all manner of the bad English that is spoken by most students. We stand against all vulgarisms, illiteracies, and slang expressions that we intend to make possible no more, and we declare that henceforth and forever more the hallmark of a bad English student shall be the punishment of seeing a bag of trash every time he is exposed on the campus grounds.

Abuse of the personal pronoun, that is the shortest and most frequent of the personal pronouns used in the English language, which is "is", shall be severely punished. It is the duty of every student to guard against all the usage of the pronoun "is", and to resist the temptation to use it in any phrase at any time.

We, the Freshmen, declare war on the usage of "the" and "be" in the same sentence. We renounce all manner of the "the" and "be" expressions that we intend to make possible no more, and we declare that henceforth and forever more the hallmark of a bad English student shall be the punishment of seeing a bag of trash every time he is exposed on the campus grounds.

CHAFF AND WHEAT By A. Platter

There is something the matter with newspapers. They are saying that we are in the midst of a depression. And there stood that friend that said: "Peace and prosperity." That was a sign that there was going to be a good harvest.

Women.

A woman is never too old to doubt about that. She must be born in it, and she must be fat.

One minute it's laughable, the next it's a crippler.

She can't understand you, but you try.

But there's one thing about her which everyone knows.

A woman has a tooth and she won't give her name.

The Tog's Big Reformaion Sale is on

There is a big reformation going on in the manufacturing world, and prices are coming down. We can replace every college of merchandise on our shelves today at twenty per cent less—so can every merchant in town—but are they doing it? No! We are now selling our stock at pre-war prices.
