Christmas Number.

Chief Features Will Be The Atlantic and Idaho-Idaho Debate.

The Argonaut staff will get out the usual Christma.s Number this year. It will consist of a new volume of our famous magazines, and will contain about fifty pages. The covers are to be specially designed, and are expected to represent some essence of the story. We have the number. we will take the pictures of the four college football teams which our team plays this year, together with a series of pictures of our own team and a brief history of the games played by all those teams. We also will have pictures of the new Administration Building, the Merrill Building, the Metallurgical and Assy Building. Several fine cartoons are being prepared for this number.

Another important feature will be the Alumni department... the staff will endeavor to locate all the members of the Alumni. This will take fifteen pages of the number and is to be a partial report to the Alumni. In a few days letters will be sent to all members of the Alumni and a copy of the letter will be delivered to the little book of the Alumni in this country. We expect to have at least three articles written and otherwise prepared for this number. The Alumni will be held on December 14, and the meeting will be specially planned for this Christmas number.

"Grape" Increase in Number.

Over a score of interested Web-sters gathered at the Gym, Saturday night, for the meeting. The principal ownership was debated. The opponents were debated in their attempt to continue the votes of the members. T. R. Smith spoke on "Some Assurance of the New York Campaign," and a sharp ten minutes parliamentary drill was engaged in by the entire society. The Web-sters have been steadily growing in size, with the condition of the society being better than it has been for a year. The interest of the members for the society has been arranged to draw even more members. At Saturday's meeting the program was arranged for a tryout for the Coaster Web. The question will be that of the singular title that...
CANT ANNOUNCE.

We are sorry to say that we are receiving no news this week of any athletic game which is to be played this winter by certain persons connected with the University. The cast which is composed of nineteen members has already been chosen, and the play is progressing nicely. The play and the characters have been a great subject of conversation, and at a late hour a member of the Arkansas staff told the principal the projects were 'top secret.' We have the honor of being the only persons connected with the twenty persons personally connected with the play will not divulge any secret.

LITERARY WORK.

We are pleased to note the increasing attendance and interest shown in the Literary Societies. The junior class of the year's three star debaters graduated. This year there is not a single debater in school who has ever led a college debate team. We have three debaters this year. The team which is to meet Montes has already been chosen and is working hard on the question. Two teams are yet to be chosen. Every student is capable of either making one of these teams or of doing something towards helping those who have been chosen. We are not posted as to the triangular subject, but are made known that at least twelve students will begin work on the subject. This means that the subject will be thoroughly worked up and that Idaho will have plenty of good material for the remaining debate teams.

The greatest activity ever experienced in the history of the County of Alamosa is now felt throughout the region.

Four new forest reserves have been created in this state aggregating over seven million acres.

Exchanges
A movement has been started by the college and university of the United States to raise twenty-thousand dollars with which to purchase the home in Colorado in which Kauts lived.

"Student Life," the college monthly, issued by the students of Utah Agricultural College, is one of the most respected and most inviting college publications received at our exchange table. The first of a series of articles dealing with "The Intangible Something Called College Spirit," is worth the reading of every college student.

University of Nevada defeated University of Colorado by a score of 3 to 0 in the greatest game of Rugby ever played on the Coast.

Dr. Ralph S. Minor of the physical department of the University of Nevada has just published a physical laboratory manual, which is highly praised by instructors in physics throughout the county. The manual is already being used in many of the colleges and universities of the West.

The girls at the University of Nevada have boycotted their college paper, "The Student Record," because the editor allowed himself to be guided by the Sorority controversy to appear in its pages.

The Board of Regents of the "Willamette College Pioneers" has agreed on an interesting history of the ten years of the paper's existence. Ten thousand copies of the program is being planned to be located in Louisville, Kentucky. One million dollars is already promised for its formation.

The preparatory students of the University of Nevada are agitating their separation from the Associated Student Body.

The Holcomb High School has the reputation of having the only "Palace" for its school building. The structure is fashioned from the palace of Prince Ruth of the Kansukas.

The "Willamette Alumni Monthly" has its October number an interesting sketch of Albert G. Grisel, the author of the coming book.

There are more profuse than students at Andover Theological Seminary.

and Oh, don't forget tickets.

IT is the train of little luxuries—hot baths, barber's services, finest private smoking compartments, delightful greasing service, aye, the little things that add to the comfort of a journey. Its beautiful decorations are in a revetment. The dining car service is superior, the menu varied and satisfying. Front and end in its legation are comfortable and beautiful—a train which makes friends and keeps them.

Any information desired as to train work, etc., will be gladly furnished on application to R. W. NOBIS, Agent, Moscow, Idaho.
