Preparations for Debate

State College Chooses Affirmative of Closure Question

Experienced Teams Will Meet Early Next Week Under Contract with W. S. C.

W. S. C. has chosen the affirmative of the question, "Resolved, that the United States Senate should adopt a closure rule." The debate will be held early in December at Moscow. The Pullman team was chosen last Thursday by the faculty members of Mrs. Elizabeth V. ally as leader, and Masterman Chapman and Price. This will be the first time in the history of the W. S. C. debaters of a girl leading the team. All of the W. S. C. debaters have had considerable experience in debate, and the contest in December is instead, farme to the "Regulars." The Idaho team will be selected next Saturday afternoon when Charles Morton, Charles Gough, R. C. Jones, Fred Leader, Oliver Price, Bennet Williamson, J. D. Matthews, and W. R. Deans will confer for places. The winning team will take the title of "Regulars," with the title of "Regulars" given by the second team which defeats the "Regulars." Normal in its classification, and a member of the Western Intercollegiate last spring. The list of these contests has not yet been reported.

The Idaho football team fulfilled all expectations and easily defeated the hungry Spokane Athletic Club bunch on the local field Saturday. The game was fast and with substitute plays.

Idaho made most of her gains on the better and more teamwork plays. Her formations were a puzzle to the visitors and they had difficulty in correcting the plays. For example, Armstrong was the star player and carried the ball a total of 91 yards. "Seagull" played a star role and was seconded with 54 yards. Most of his yardage was the result of three beautifully executed passes which Seagull carried the ball. Small and Thumerson also played a pretty strict of 56 yards. By the end of the game they had 80 yards in team yardage.

This is the last copy of the Argonaut that will be sent to those who have not subscribed. Be sure and send in your subscription before the next issue, to the Business Manager.

**PUBLICATION DAY**

Many students are uncertain yet as to the day on which the Argonaut should be sent. It is the fact that the Argonaut is sometimes delayed is the reason why mail is sometimes sent out on Saturday. It is the reason why a few students have not received their copies.

The old adage about the slow and the fast lines has been verified in the haste printing at Oregon Agricultural College. The press of the paper has been published harassing accounts of the incident that would have resulted in great injury to the Agricultural Club. If the press had not also provoked the untimely demonstration of haste by the student body, the results passed indicate that violent methods of taming freshmen's exuberance will not very soon be resorted to again at O. A. C.

The poor girls seem to be the most charming co-eds in the University if we are to judge by the number accompanying them on their ride to Jole last Saturday evening. Wouldn't it be well to have these girls come and have a chat with the Seniors who have already left the University? It would be a good opportunity for the students to get acquainted and to have the opportunity of meeting each other.

If the students expect the Argonaut to compensate for what other college papers have, they are mistaken. We must have a larger subscription if the plans for the magazine numbers are to be carried out during the year. Subscribe now, and pay as soon as you can.

John D. Rockefeller recently announced that he would give $600,000 to the University of Chicago Library building fund if $200,000 is raised by other sources. This will make his total gift to Chicago for the last two years $6,500,000.

Deaver University is relieved of the actual expense of football team. It is the expense of the football team against the University of Colorado recently for the first time in fifteen years. The game was a victory for Colorado by 29 to 4.

The University of Oregon will this year have an enrollment of about 400.

**Preps Organize Foot Ball Team**

The Preparatory students have met and organized a football team, containing a majority of last year's players. Garth Management has been chosen as manager and Frank Graham as captain. The first game of the season will be played next Saturday, when they will go up against the Lewiston State Normal. The appearance of the teams is well matched and a good game is expected.

Manager Management in negotiations with the high schools at Lewiston, Clarkston, Garfield and Collins. Idaho's Preps Married.

James A. McLean, president of the University of Idaho, was married to the 5th at Moscow. The name of the favorite lady was Miss Mary Robinson. Mr. McLean was one of the few brothers in college who will congregate in a body at each game and give Idaho enthusiasm by the barrel full. Here is one more excellence that has been too long absent to be very effective because there was no definite organization of any kind. Robert Claye and P. S. Sander have been chosen leaders of the clubs. These bodies of enthusiasm will meet at stated intervals and practice. They will have a prominent place at the games and will have others and everything found in an up-to-date organization.

**WHERE IS THE Leak?**

Recent information from the office of Dean Euldgne shows that the leak in the registration for the present University year several years ago passed the 400 mark. This is a very gratifying increase over the enrollment of the year 1907-1908. The percentage of increase is also greater than it has been for some years past. President Mac Leeron addressed the faculty last week and said that the percentage of increase is not nearly far enough forward. A most interesting incidental fact is that, when the office reports a registration of over 400, the last receipt for Students' Association Fee issued by the Registrar will show that ten or a dozen students have paid without paying the $2.00 fee which the Regents require of all who enter the University, and which goes to the treasury of the A. S. U. I. Last year a few students escaped the payment of the fee, but there are six in the Junior class this year.

It is probable that measures will be taken by the authorities to detect those who have not paid and to compel payment of the $2.00.

**Freshtmen Receive Challenge**

The Tuesday of this week, the president of the Freshman class reached a letter from the president of the Freshman Class of the Union, D. S. C. making a meet between the two institutions and wishing to know the attitude here concerning such a movement in the way of football. The attitude of the Freshman Class was expressed to the President and the Faculty. The latter was held in confidence in the Freshman Class and not later than Saturday. Price 5 cents per copy.

The magazine number of the Argonaut will contain cut of the University Exhibit at the Lemon Fair.

Don't Want Work

Burrus Francis Jenkins stated Satur- day that, although he possesses knowledge of numerous opportunities for students to work outside of school hours and posts bulletins announcing the opportunities, very few students apply for the positions. Mr. Jenkins took care at the beginning of the year to make arrangements for finding out as many as possible of the positions open to sell supporting students. As far as he is informed of such posi- tions he puts bulletins in the various buildings, but he has concluded, from the inefficiency of responses, that the number of poverty-striken students at Moscow is not nearly so great as he thought in the first place.

Washington Proposes "One-Year" Rule and Conference

President James A. McLean, in receipt of a letter from George Spalding, chairman of the "Tidal Wave," University of Washington athletic board, asked an opinion of the "Tidal Wave" on the adoption of an agreement between Idaho, Washington, and Oregon, eliminating freshmen from all athletic teams, and on the establishment of an annual conference between the three universities for arranging schedules for football, track, debate, etc. President McLean, when asked last Saturday to him of proposed innovations, stated that he favored a speedy conference for the adjustment of intercollegiate schedules for athletics and debate, but strongly opposed to the adoption of the "one-year" rule, debaring freshmen from participation in intercollegiate contests. The rule, he believes, is not adapted to conditions as they exist at Idaho. The primary object of it, he feels, is to prevent the entrance into college terms of any athletes of the "winger" type. Unless the athletic teams concerned in the operation of the rules are properly composed of men who receive pay for their services, directly or indirectly, or who are not available students of their respective universities, in both rules is necessary. There has been an evil in the past, coaxing of the privilege of "wingers," whose inclusion in the rosters of college teams kept them in the Freshman or first-year collegiate class, and who had lost in their attraction at terms as the Junior classmen. But, at present, and for several years past, and by no means in any form, at least, have been found from many schools, that there is a tendency to receive pay, or, for that matter, the "tide" being considered for the adoption of any rule designed to prevent money from being directed into intercollegiate athletics.

It is understood that the conference, and the adopted rule, will be put in operation next fall, making the "one-year" rule.

A communiqué from Washington has been received by the Idaho Board, and it has been ordered that the body has taken no action in the matter. The president of the Board, and the official authorities of the Board, said that they favored the plan of a conference for arrangement of schedules. Idaho, however, has been very cautious on the rule debaring freshmen from participation, but they do not feel that this feature of the plan will meet the requirements of the conference. This matter brought to the attention of President McLean is being considered very seriously by the University of Washington. The following is an extract from the "Tidal Wave".

"This plan has had the approval of many of the faculty, and at least of all the captains of the various athletic teams of the University. Besides this there has been much favorable expression in this regard from the student body. In any event, the president of the University of Oregon expressed his approval of the conference to the "Tidal Wave," was published. The letter also gave evidence of the fact that the question has been seen by the faculty and students of that University for several years. It will be noted that this step has been taken for its adoption for the reason that it was thought best to forewarn against making any action in this matter, be taken by the other Northwestern universities.

The fact that the attitude of the Wave is that of the majority of the student body and that they are desirous of bringing the three Universities into closer touch for the betterment of athletic relations and conditions, was very clearly shown by the resolutions adopted at the nominating convention of the Associated students held last Thursday night. The resolutions are as follows:

WHEREAS, There P occur or in the interest between the universities of the Northwest- both matters pertaining to the eligibility of Varsity contestants, in the arrangement of schedules, in athletics and other intercollegiate affairs, such as debate and dramatic activities, and,

WHEREAS, Matters of this kind could not be properly arranged and disposed of by the student representatives, meeting in an annual joint conference at the conclusion of the school year, therefore,

Resolved, That the Associated students of the University of Washington here assembled, do call the Board of Control of each university in the Northwest, to take steps at once to bring about such a conference, and that the University of Idaho, Oregon and Washington for the purpose of discussion and the ultimate formation of a conference, be and the same is further resolved, That we recommend to the Board of Control that such a conference, be called the first of this year, for the purpose of arranging such a conference, for the betterment of the Universities of Oregon, Idaho and Washington which is to be held late in the spring of next year.

Reservations on the Layman's Notice:

At the next annual meeting of the International Association of Teachers, which is to be held in Washington, D. C., November 18 and 19, of this year, President McLean is to give the layman's notice. One will be on the subject of "The Laws of the College Course," and the other will be a brief paper on "A Form of the Offering and the "Carnival Day." The McLean's papers gained during recent and present, building openings in Idaho and Oregon is a very good place to study the latter papers particularly valuable.
