SECOND TEAM VICTORIOUS

Scrub Eleven Defeats Wallace Athletic Club

New Style Football Against Heavy Team and Old Time Tactics—Score, 5 to 0.

Saturday afternoon the University second team met the Wallace Athletic Club at Wallace and defeated its heavy opponents by a score of 5 to 0. Although outweighed 15 pounds to the man, and playing on a wet, slippery field, the light second team completely out-played and out-numbered the Wallace eleven. The Univer by exceptionally showed up in the use of the forward pass and trick plays, which seldom failed, while Wallace resorted to the old time football. No scoring was done in the first half and it ended with the ball in the middle of the field.

Early in the second half Idaho scored on a forward pass. Devolignes made the pass to Curtis which was fumbled. Perkins grabbed the ball and carried it over. This score was disputed by the head lineman for Wallace who was under the impression that the end must catch the forward pass hence a penalty. After some wrangling—referee Jack Simpson held the score valid. Devolignes failed to kick goal. The game ended with the ball in Wallace's territory.

Jewell at center for Wallace played a great game breaking then line and destroying plays before they were started. He was the strongest player for Wallace. He has announced his intention of entering the University next fall. His will be a strong addition to our next year's football team.

TEAM LEAVES FOR THE COAST

In Good Condition For The Game With Washington

Washington Eleven is Heavy and Plays Up-to-date Tactics—Expect Hard Contest

The football team will leave for Seattle over the Northern Pacific at 12:05 today to play the annual game with the University of Washington on Thanksgiving day. Despite the fact that when Washington plays Idaho in Seattle she invariably finds herself dressed with horse-shoes, the Idaho team are confident of breaking the "hoodoo" and winning on the former's ground.

Idaho will be in the pink of condition. Sela is the only man who is not without bruises, and he will be in first class condition by the time the game comes off. The team has been working hard since the Whitman game and Middleton has developed some new plays from the "spotted formation" which he expects will bring victory to Idaho. The last practice will be held this morning after which the team will go directly to the train.

Coach Middleton is very optimistic over the chances for victory. He has set the Washington game as the all important contest of the season and has gradually worked his team up to its present efficiency, and declares that the team which goes against Seattle will represent our fullest strength. Middleton says that Washington plays more up-to-date football than any team Idaho has met this season and that Idaho will have a harder fight next Thursday than she did with either W. S. C. or Whitman.

Washington has a heavy team and will outweigh Idaho thirteen pounds, to the man. The line is composed of veterans and her backfield is fast. The Washburnians had a bruising contest with W. S. C. last week while Idaho has had ample time to recuperate since the Whitman game. Washington has the advantage of weight and should the field be wet will undoubtedly win. They also will have a large delegation of partisan rooters to cheer them to victory.

Idaho expects to win by playing faster, header football. Idaho's defense has not been battered down this season and she expects to keep Washington from nearing her goal by her ability to solve and stop all styles of attack. A number of rooters will accompany the team.

Idaho Union

A greatly sized crowd of enthusiastic members of the Idaho Union waded through mud and water to the gymnasium Saturday and presented an interesting program. The session opened with a placing solo by Miss Anna Kiefer. Then followed a debate on the question, "Resolved, That Japanese laborers should be excluded from the United States." T. E. Smith and Willard K. Gein were in favor of keeping all the little yellow men out of this country, but Harry Duss and Ray Peebler were still more determined that, if necessary, we ought to move the sunny isles over here on the coast some place. The three girl judges were struck with the feasibility of this last idea and brought in an unanimous decision for the negative. The con- cluding number was a reading from James Whitcomb Riley by Hazel Morrow which was done effectively.

Three Seniors Who Will Play Their Last Game For Idaho Next Thursday

KEYES—Fullback

MINERS ORGANIZE

A new club, the Associated Miners of the University of Idaho, was organized and took into existence Thursday afternoon at one o'clock. This organization will consist of junior and senior miners as active members, of freshmen and sophomores as associate members, and of alumni and faculty members. The object of this association will be "to give the members a better chance to work and kindred subjects, and to develop a community of interest in the work of the mining department." The activities of the new organization will be accomplished by periodical meetings of the members for discussion, especially of practical subjects, and for social intercourse. None of the members will be constitution, and by-laws the following officers were elected for the ensuing year:

President - Robert E. Hunter. 1906, vice-president, Walker Young, 1908; secretary, treasurer, F. R. Smith, 1909; correspondent, Car Colvin, 1909.

WANTON COPY

Announcement was made in last week's issue of the prize offered for short stories for the holiday number of the Argonaut, that any student was eligible to enter. This competition, however, was not the most important of the season. The members of the Argonaut must depend for its success not so much on the regular staff as on students who are not connected with the paper. Idaho students are so absorbed in the classes, work, or athletics and other forms of amusement that they are unwilling to devote a little time to the carrying on of the paper. An ideal editor should be in the hands of the editor within a week or ten days at the latest.

Any effort to publish a creditable literary issue of the Argonaut must depend for its success not so much on the regular staff as on students who are not connected with the paper. Idaho students are so absorbed in the classes, work, or athletics and other forms of amusement that they are unwilling to devote a little time to the carrying on of the paper. An ideal editor should be in the hands of the editor within a week or ten days at the latest.

THE WHITMAN COLLEGE FOOTBALL TEAM

The Whitman College football team, which finished last year in the conference, is expected to improve this year. They will face tough opponents, but with the right attitude and teamwork, they can achieve success.

BURSAR HOLDS FUNDS

President McLean and the university association are seeking to inaugurate a new method of disbursing the funds raised for the A. S. U. C. of the $3 registration fee required of all students. Under their plan the money is to be in the hands of the Bursar Jenkins who will pay it out on requisitions made by the executive committee of the associated students, and approved by a representative of the faculty. The former method has been that provided for in the A. S. U. C. constitution, under which the funds are held by the treasurer elected by the students, and paid out by him upon requisitions from the executive committee. Under this plan the treasurer of the A. S. U. C. is required to furnish a $200 bond when he assumes the duties of his office. The present treasurer, F. D. Lukin, '08, has procured the bond in accordance with the constitution, but finds himself with no money entrusted to his care, unless the policy of the faculty is modified or is entirely changed. If the Bursar continues to hold the fund, treasurer Lukin's only duties will be those of bookkeeper to the associated students.

The reason for the change, as given by President McLean, is that inasmuch as the money in the A. S. U. C. treasury is there by virtue of a requirement of the regents, the university authorities have the right and ought to keep a closer watch than heretofore on the management of the finances. No action has been taken on the matter by the executive committee. Some of the members of the committee have stated that they dislike the new policy, and that some of them recognize the justice of the assertion that the faculty has the right to watch more closely the disposition of the A. S. U. C. funds, but, as one member of the committee stated last week, this right could be fully secured by the simple act of appointing a faculty member to audit all bills presented to the treasurer for payment. They consider that the appointment of such an officer is not only an official and the requirement that his approval should be necessary to make any requisitions on the treasury would settle the problem without resort to any further steps.

PREP TRYOUT

The preparatory department held a tryout Saturday afternoon for the purpose of selecting a team to meet the Lewiston State Normal School sometime in January. Olsey Hall, Chester Mindon, Rowle Holman, J. D. Davis, and B. Davis tried out for places. The condition discussed was the same as the one to be debated with Pullman next month: "Resolved that the senate adopt the closure rule." The result of the debate will be a significant one in determining the future of the debate team.

THE FIRST NATIONAL BANK OF MOSCOW

Established 1883

The oldest and largest bank in Latah County. Every accommodation extended consistent with conservative banking.

CRYSTAL THEATRE

The Society of American Women in London has offered two scholarships in English Universities to American Women. The holders of these honors will be appointed under the auspices of the General Federation of Women's Clubs. One of them is worth £150 and lasts for two years. The successful candidate may study in the University of Oxford, Cambridge or London. Candidates from the District of Columbia are given preference in obtaining this. The other scholarship, which is good for three years, is also worth £150.

Any student who has completed her sophomore year in a recognized college is eligible. The committee of selection for the General Federation of Women's clubs determines the University where the scholarship shall be held.

The examinations will be those given in January, 1908, by the Rhodes scholarship trust in Latin, Greek and Mathematics. The purpose of these examinations is qualifying, the element of competition being barred. From those who qualify, the above named committee will select the successful candidates.

Classical Club

The regular fortnightly meeting of the Classical Club was held in Morrill Hall Wednesday night. The program consisted of papers on Roman Architecure by Frank P. Stewart and Daily E. Mason. Mr. Stewart treated the characteristic styles of Roman public buildings and Miss Mason the plans of dwelling houses. A general discussion followed. Dr. Axtell and Mr. Sage, the prime movers in the work of the society, have both spent considerable time in Rome and are able to give many interesting facts about remains of classical Rome.
