THE FOOT BALL PROSPECTS GOOD

Conference Rules Do Not Injure University—Much Material Old and New—Promise of Fine Trips.

The prospects for a successful season, in this year's Football, has never been brighter, at the University of Idaho than at this, the beginning of the season. Financially the season should be successful, and as far as the Championship of the Northwest is concerned, the University is in line for the first time in the history of the conference has the promising outlook that the University of Idaho.

The Conference is trying seriously cripplingly. W. S. C., costing them one of the most perfect back fields ever seen in the Northwest.

Whitman college loses her captain early in the first quarter of the season. Football is no good man by graduation and the Conference rules. Whitman is struggling with almost a new squad. All of these Universities have new coaches for whom much is claimed, but who are handicapped with new material.

Idaho has eight old team men back, the coach, whose name is the key to the West, and a determination this will hold the Championship. The old team that reported for practice a week before college opened, were: Stickenhour, Paul, Thornton, Savidge, and Mel Straus. The coach is trying for center, the place left vacant by Betel's graduation.

Of the new men there is an endless number. George Armstrong brother of last year's captain, is in college trying for an end. Montgomery is set for a half. Barrett is trying for a half at fullback, Savidge, the center, and Betel for center, Appelman for an end.

The only man on the squad who has no college experience is Rodney Small, last year's All Northwest quarter who won his place by his heady use of the forward pass and his ability as a field general. He will undoubtedly play his old position.

For center, Jewel and Cook will furnish material to fill Smith's shoes, for hand and tackle college is full. Paul, Stickenhour, Hayes, Tolman, and a number of new men who are putting up good work at their time positions.

For ends there is Savidge, last year's All Northwest end and this year's captain, Thornton who is in the line, Appelman who was sub last year and George Armstrong who achieved fame on the 1906 team, Stein of Boise High School fame, Garrett of Minnesota, and numerous others.

In the back field there is Montgomery, Chic Johnson, who will be back within a few days, Tolman who has the promise, and some very promising backs to fill the goalsposts on the kick off, and other men whose names are not at this time familiar to the public. The inside out goalpost game takes place with the Univ. of Oregon, in Moscow. Last year Oregon had line and goalpost off by 80 yards altitude and 6 inches of sweat.

This year on our own field things will be different.

Then comes Whitman on the 7th of November. We must repeat the dose administered last year.

The most important game of all, the "W. S. C," game comes on the following Saturday Nov. 14th. We must have that game.

Sporran "Boosters" are trying to make a large buck on this game. Sporran for the 21st of Nov., with its prospects of being successful, is to be the last game of the season.

For the thanksgiving game Idaho has departed from her customary stamping grounds and will play the Univ. of Utah in Salt Lake. Utah promises to treat the team royally giving a big dance and reception after the game. Also automobile and trolley rides all over the city and to the surrounding towns are promised.

This game will complete the schedule of a season that gives every promise of being the most successful ever seen in the Northwest, but to make it so, every student in the "U" must boost for the game. Get out and watch them practice. Come to the preliminary games and play the Univ. of Utah in Salt Lake, and try to tell them, and then yell them—not once in a while but all the time.

Young Alexander will reside for the present at the home of Dr. and Mrs. Mac Lean on Elm St. In the future we predict that he will claim the entire campus for a habitat.

To say that President and Mrs. Mac Lean are proud of the new is an understatement. Mrs. Mac Lean stoutly maintains that it is the best looking baby ever while the President, is more reticent and that the boy reminds him of Andrew Carnegie.

The opening days of the University of Idaho portend a most favorable year for the work. The faculty has been greatly increased in both numbers and quality. President MacLean is gradually surrounding himself with the support of teachers some of whom have a national reputation in educational work. The course of study is also being broadened, four new departments are being added this year.

The department of Health is an entirely new institution in the University of Idaho and is taking over the work in the West. In this line, Dr. Eber D. Kanaga, has been secured for the head of this department with the title of Associate Professor of Physical Education.

Dr. Kanaga is a graduate of the Power Gymnastic of Boston and last year of the Medical Department of the University of Michigan. He has had several years of actual experience in gymnastics work and athletic clubs. His work will consist of lectures, gymnastic exercises including Anthropology and corrective exercises.

The department of Modern Languages has been divided into the departments of German and Romance Languages. Dean Riddle will have charge of the former, Dr. Shanks of the latter, as Associate Professor of Romance Languages. Dr. Shanks is a Cornellian, receiving a Ph. B. in 1899, and a Ph. D. in 1908. Before those three degrees he took an A. M. in Columbia and graduate work in both Columbia and Columbia. During the summers of 1902 and 1908 Dr. Shanks studied in Paris. He has several years of experience in teaching both in secondary and college work, coming to Idaho from the position of Instructor in Romance Languages at the University of Wisconsin.

In the department of Mining a similar division has been made. Prof. Terrill comes as Professor of Metallurgy and for Mining Engineering, as Associate Professor of Mining Engineering.

Prof. Terrill is a graduate of the Colorado School of Mines in 1905. For two years after graduation he was employed as Director of Engineer of a large mining company in Cripple Creek and learned how to tell them, and then yell them—not once in a while but all the time.

Mr. Sage during the summer received the degree of Doctor of Philosophy (summa cum laude) from the University of Chicago. His Thesis was entitled "the distribution of manganese in the Auyamba River." His work was approved with the recommendation that Dr. Sage should receive the title "summa cum laude." The next to his name is the name of his work.

THE UNIVERSITY OPENS favorsably

Twelve New Faculty Members—New Recitation Rooms—Aggies Register Heavily.

The University is particularly fortunate in securing Miss Perriel French as Dean of Women. Miss French has had several years experience in the public school of Idaho, was twice a student at the University and was upon invitation. The ladies of Ridersburg Hall will find her peculiarly fitted for her position on the staff.

The College of Agriculture is likewise increasing and improving its courses. Dr. W. H. Flitten, has for the last ten years been teaching at Washington State College, comes to the University as Dean of the College of Agriculture and Professor of Agricultural Education. Prof. Elliot is a graduate of Mission College, Ill., from which school he received the degree of Master of Arts in 1885. He has been a Master of Science degree from the Michigan Agricultural College. Between the degrees he was engaged in practical farming in Ohio, where he was also prominent in the Augustana Colleges. Prof. Elliot is thoroughly acquainted with western agricultural problems and we predict large success for that department under his head.

As Assistant in Civil Engineering, Mr. D. R. Sims, a graduate of the University of Michigan, Department of Civil Engineering in 1903, has been secured. Mr. Sims has had much practical work having with the United States River and Harbor Commission, the General Northern Illinois Central, Chicago and Western railroads. Last year he was an engineer in N. S. Hill, the leading consulting engineer of Hydraulic and mechanical engineers. His work has been in charge of surveys, and sewer systems for many cities in northern states. He has been engaged in the work on the water supply of Brooklyn—a proposition costing three millions of dollars. From this list of experience it will readily be seen that Mr. Sims is prominently fitted for the practical work in his department.
ANNOUNCEMENTS

The Associated Students' constitution provides for eleven members on the board and ten from the student body and one faculty member. The Editor and associate editor, business manager, and the three editors of the college, the college newspaper, have been established for the filling of these places. Anyone desiring to be an associate editor of the newspaper, or any student interested in making the college newspaper a better one, is eligible and it is hoped that there may be a large number who are interested in taking this place.

The Business Manager announces that for the first two issues the Argonaut will be sent to all subscribers. After that it will be discontinued unless the subscriptions are renewed.

The Associated Students of the University of Washington, is pleased to announce that the Argonaut, their student newspaper, will be sent to Idaho free of charge, and that all students of the University are invited to participate in its publication. The board believes it is a privilege to have the association of students in the publication of the Argonaut.

THE PACIFIC WAVE, or rather Dean Priest of the University of Washington, is pleased to announce that the Triangular Debate League has been established. The debate will be held at the University, and the members of the Triangular League teams will be reduced from three to two, and now that our Student Body Association is going to have a larger annual allowance for the support of debate it is not likely that such a request will be made. The only thing that could get the Argonaut to rise to the statement is that the debate was made a statement that the Triangular League debates are expensive for us and that most students believe it to be advisable to debate with Utah instead. But that is very far from being an official utterance.

Again, we welcome the students bold and new to a year of earnest study, May it prove pleasant and profitable to all.

PROP. MEETING

Last Friday the Propositional Students held their first meeting of the year. Such was the confusion attendant on the other that Argonaut reporters scurried to the scene of action confident of columns of exciting news, only to meet with blank pads. But still it was worth the trouble for it couldn't help but make one believe that the students in attendance believed it to be advisable to debate with Utah instead. But that is very far from being an official utterance.

CHILDER'S BROS.

500 students share at Hagge's.

Miss Ellis Hayley after an absence of one year will complete her course with the '10 class.

Visit Hagge's barber shop near the Crystal Theatre.

Miss Caldwell of the University music department has charge of the music in the Moscow Public schools.

Sid Tully, who has registered at Stanford for the coming college year, expects to return and graduate with the class of '10.

Messrs. Fantler and Chan. Ebelinger both members of the '07 class, have been employed as teachers in the Moscow High school.

The best shave in town, at Hagge's, opposite the Boston.

Mr. Clyde Chaffins ex '09 has returned to college and will graduate from the Mining Engineering Department with the class of 1910.

Miss Ott '10 has been elected teacher of Domestic Science in the Moscow schools. She will do this in addition to her regular college work.

Bruce D. Mudgett '08 goes to Columbia University, New York City, to take a graduate course leading towards a Ph. D. in Economics.

C. O. Tremblay, who has been at the University of Michigan in the Physics Department, will register for some subjects next semester.

Graham's hair cuts are always the latest, try one.

George Armstrong has returned to school after one year's work. George played end on the University, foot-ball team of 1906 and will make some one hustle for the position again.

Chas. E. Watts, instructor of last year's Preparatory Graduating class, will remain out of college a year to strengthen his financial foundation. He will return to graduate with the 1910 class if he is hoped.

Get wise and shave at Graham's barber shop.

T. E. Smith, ex '09, was recently severely hurt in Alberta, Canada. He had a run-away with a team hitched to a diet-harrow by which both his legs were badly cut. He probably will not be able to walk for some time.

The Starvation club, a student boarding club run on the co-operative plan, has again opened at the same place. All students wishing board should see Manager Shokibeczy as soon as possible as he can accommodate only a limited number.

Get your hair cut at the H. S. barber shop. W. J. Graham, Prop.

Fred E. Lukens, '08, who successfully passed a civil service examination last winter, received notice of an appointment as teacher in the Grammar school in the Philippine Islands during the summer. Mr. Lukens declined the offer and accepted the principalship of the Granville high school for the winter.

George H. Curtis, the last Rhodes scholar to have been in Boise for five years, will leave to join his family in Sel Lake and Denver, where he serves as an attorney in the firm of Mudgett & Mudgett. Mr. Mudgett made the cross continent trip together. They expect to return to their home in New York City with the Rhodes Scholar Party on Sept. 26.

Hegge, Hegge, Hegge, Hegge.

At the Dormitory.

Though lists are not yet made out, the girls at the Dormitory seem to be composed chiefly of Freshmen and Preparatory students. Sophomores beware of the seventeenth of March.

Miss Hilt, a graduate of the Lewiston State Normal and who has been teaching in Boise, is one of the new Dormitory girls. She enters the University as a special since she expects to remain but one year.

Miss Cargan, who has been away for a year attending High school, has again secured a room at the Dormitory and entered the University as a freshman.

Miss Stevenson's ankle which she sprained on the stone steps of the Agricultural Building is slowly improving.

Miss Ellis Woods '11 has been confined to her room with a severe cold.

Miss Martha Hamen, a sister of Bina Hansen, who was well known to us last year, has become a roomer at the Dormitory and enters the University as a special.

Laura Williamson '09, who has moved with her parents to Santa Rosa, Calif., will complete her college course at the University of California.

The Stage Social

Last Friday night occurred the annual stage social given by the Y. M. C. A. Preparations were far from elaborate but over a hundred boys came together at the Gymnasium and the new students were made to feel that they are really an important part of the University.

A few "nunts" were entered into with much spirit, the principle ones being the pillow fight and the potato race. Despite the fact that there were no potatoes this last event was very exciting. Clyde Heard, for the juniors, won first place while Fleeber, for the seniors, came in second. Heard will no doubt enter for track work next spring.

After the "nunt" speeches were made by Dr. Little, Mr. Vaughan, Frank Hagen, Arthur Thomas and Robert Jones. All emphasized the different departments which they represented and if any of the new students do not have a thorough understanding of what the University represents they were probably absent from the stage social.

Next Friday evening there will be given a joint social at the Gymnasium under the management of the Y. W. and Y. M. C. A. All students are expected to be there.

Y. M. C. A. Meeting

Last Sunday afternoon Kleiney Miller of Spokane addressed the men of the University on "Some Reasons for Bible Study." There was a large number out to hear him and almost all signed up for one of the Associate course.

A four years course is maintained, designed to meet the needs of college men. Anyone interested in the work should report to the Bible Study Committee for assignment to a class and course.

Students

The Men's Brotherhood invites you to the Services of the Presbyterian Church.

Sundays 11 a.m. 7:30 p.m.

Bible School 10 a.m.

Christian Endeavor 6:30 p.m.

The Pastor is a young man. Male choir. Splendid organ and organist.

A special series of short Sunday sermons begins next Sunday. The subject is "A man who could use his hands and feel better than his head."

...OPEN DOOR...
Benefits of College Education.

Continued from page 1.

...young couple are at home in Bulle, Ida, where Mrs. Murphy has a position in a mine.

As a further result of under class success, Mr. Nicholas C. Sheridan and Miss Ada, C. Adams were married early in the summer.

Mr. Sheridan was a member of the 1905 championship football team which won all games in college. Mrs. Sheridan graduated with the degree Bachelor of Arts and was prominent in the college social life. Their future home is in Nelson County, where Mr. Sheridan is superintendent of the Snow River mine.

University Opens Favorably.

...Continued from page 1.

In the department of Music, Miss Sadie Stockton, in assistant in place, Miss Stockton graduated from Idaho last year and was immediately appointed as an instructor by her Alma Mater.

Prof. Vaughan, who has been specializing in Economics during the summer at the University of Wisconsin, offers a course in Sociology. While this is not an entirely new department, still it is a new course in the department of Political Science. This may be combined with Political Science, Philosophy or History for either a Major or Minor Effect.

In the preparatory department improvements and additions have been made:

Mr. L. V. Beaulieu of Iowa City, Iowa, has been elected as instructor of Mathematics, Mr. Beaulieu is a University of Iowa man having taken the degree of B. A. M. A. and L. L. B. He has had six years experience in teaching in secondary schools.

For instructor in German, Miss Nellie A. Regan has been secured. Miss Regan is a graduate of Iowa College and has had several years experience in teaching. She has all of the Preparatory German and the second year college class of two sections.

As a result of the increase in faculty members new rooms had to be fitted up. Changes have been made one of the lower gym rooms in the gymnasium. Dr. Shank's holds recitations in the old gym, reading room, and Prof. Elliott has an office at the head of the landing on the first floor.

The registration, while not standing or large, promises a good increase over last year. "Unfortunately," in Agriculture there is a marked decrease. One item of interest is that students have come from at least seventeen of the thirty-two states represented counties in the state last year.

Freshmen Elect Officers.

Last Friday afternoon the Freshman class met and elected the following officers for the first semester. President, George Armstrong, Vice Pres., James Thompson; Sec., Kate Sinclair; Treas., Linda Rae; Sergeant at Arms, Olmans; Member of Athletic Board, Frank Cooper; Committee on colors, caps, etc., were appointed before adjournment.

Admissions Exam Changes Time.

Notice was given out last summer by the trustees of the will of the late Cecil Rhoades that the next qualifying examination for scholars in this country will be held in Oct. of 1909, and elected scholars will take up residence at Oxford in Oct. of 1910.

Candidates will note the change from January to October of these examinations.

Student Slay.

The first-student rally was held last Wednesday at the regular assembly hour. President Magie called the meeting to order and after a talk on college spirit opened nominations for the position of yell leader, Mr. Thomas '08 was unanimously elected, being the sole nominee. Speeches were then made by Captain Savage, Manager Savage, and other football men, the gist of which was "boost for the team." After a few yells the meeting adjourned.

The two local societies are both pleasantly located in private houses for the coming year. This is the first attempt the girls have made at house managing but they will not doubt be very successful. The Beta Sigma, the older of the two, is standing at 510 S. W. with Mrs. Miracle, a sister of Miss Regan, as matron. Mrs. Manseap will chaperone the Alpha Delta Epsilon girls at 807 Ash St.
