Y.W. C. A. CONFERENCE WAS HELD AT IDAHO

50 Delegates Come Unexpectedly on Local Organization

Many Strong Leaders Are Present and Discuss Association Problems

One of the greatest treats the students and friends of the University of Idaho have had for some time was the unexpected Young Women's Christian Association conference held here on October 16, 17 and 18. The conference was to be held at Pullman, Wash., two weeks earlier but it was swamped by the weather. The idea of the success of the meeting was due to the participation of all the local organizations and the leaders who had already reached there and made the meeting a success. The conference involved the entire state and the leaders who had already reached there. The presidium met in a short closing prayer service before they departed to return with the messages of the conference to their various organizations.

Student Assembly

On Saturday afternoon a number of young politicians met at McLean Hall and proceeded to organize a permanent society to be known as the Idaho University Republican Club. The organization of this club was considered an excellent addition to the school and it was expected to continue to grow and flourish. The new club was to be called the "Youth's" and it was expected to attract a large number of students.

Republican Action

On Sunday afternoon a number of young politicians met at McLean Hall and proceeded to organize a permanent society to be known as the Idaho University Republican Club. The organization of this club was considered an excellent addition to the school and it was expected to continue to grow and flourish. The new club was to be called the "Youth's" and it was expected to attract a large number of students.

Debate Council Decides Definitely to Take on No New Debate Relations

At last, after considerable investigation, the Debate Council decided last week to enter the debate scene as it is. This year will contain the same number of debates as last year to that Idaho will meet only W. S. C., Oregon and Washington. The council decided that if Montana was met this fall it would mean too much work upon the debate coach. To contest Montana and W. S. C. almost at the same time would cause the working off of two different questions and the coaching of 12 men. This would mean that another team would receive all required attention. For these reasons it was advised not to debate the University of Montana and the secretary was instructed to telegraph this decision to Missoula.

BREMERTON TEAM SATURDAY

Navy Men to Figure in Northwest Championship-Varsity Team Working Hard

When the Marine team met the Brementon Navy Yard play here Saturday the game will be much more than a match. The Brementon team are after the Championship of the Northwest as they took part in the management when asked for a practice game.

Their team is composed of fine grown men, men who see great purposes and have given three hours leave from duty each day in order that they may practice, and they have been practicing for two months under the coaching of an old Annapolis man.

The Idaho team is rapidly getting into shape and have commenced to trick the trick plays and formations that gave the team such notoriety last season.

After the game here Saturday the Marine Team will play W. S. C. Team on the following Friday. In the mean time the team will stay in Moscow and practice daily in the old ball park.

The privileges of the Gym have been extended to the Idaho team.

This game comes only once before the opening of the season from the Navy. This is the last chance Idaho supporters will have to see the local team in action and before it is in the midst of one of the fullest and most difficult schedules in its history. This season is unique in that it is the first under the new conference rules. All ringer and football specials are barred so that we shall be able to see an exhibition of clean sport. There is not an institution in the big six that is not protected by one or more of these regulations. New men must be used consequently demands must be made upon the coaches.

So far in the history of Idaho we have had the great support of all students for the most loyal support. Come to the game Saturday and you will come to your team and will undoubtedly be a factor in the coming election in Idaho.

Officers were chosen as follows: President, R. E. Jones, secretary, Paul Shriver, treasurer, Ira Tweedy.

Dr. Little was unable to meet his classes the first of the week.

ORGANIZATIONS

Last year there were at least six de
departments and clubs which existed as
formed and upon which some of the
women of the class relied for social
activities. This year there are at least
of these organizations.

According to the president of the
organization, the officers of the club
were not able to meet last week due to
time conflicts. However, some plans for
next week have been made. The club
planned to have a banquet on April 15
and a picnic on April 29. They also plan
to hold a dance on May 10.

Valley as hard as he formerly quoted for the "Vanity," W. S. C. Proposes Countv "Vanitv Meet.

Track Manager Ginzer has received a proposition from Manager Walker of W. S. C. for a County Meet to take place about the last of the month. Walker suggests that Whitman, Idaho, W. S. C., S. A. C. and the Spokane Y. M. C. A. enter teams and that the event he made an annual affair. Such a meet has never been held in the Northwest but owing to the interest being shown in the local cross country club, Manager Ginzer says that he favors the proposition if satisfactory arrangements can be made.

Do you know the man who never changes his mind? That man is a deer.  

We want your business in Tailoring, Schwartz.

Free Lecture

Emzet Usterman, Socialist candidate for governor of Idaho, is a German who has traveled extensively. He is present at the University and the holder of several degrees. His reputation as a scholar and a scientist is international. He has translated the second volume of Marx's Capital from German to English and is now engaged in translating the third volume. Orpheum Theatre Wed., Oct. 21, 7:30 p.m. Students especially invited.

A Note on the "Three Musketeers"

On Saturday afternoon the Beta Sigma sewing club met at home to its friends among the college girls and town women and on Saturday night to the faculty and their wives. The charming sewing room was darkened and shaded lights threw a soft glow over the attractively gowned girls. Hot grape juice, cake and mints, which carried out the colorful sorting, were served buffet in the dining room after which the guests were shown over the house. Mrs. Hildreth, Mrs. Halma, and Miss Haines, honorary members of the society, Mrs. Miracle, the matron, and Mrs Burton French received with the upper classes.

Miss Besse Perkins '12 left Oct. 12 for Lewiston to spend several days at her home and to attend the fair.

Miss French was confined to her room Sunday, but was able to get up again the following morning.

Miss Edie Canov '12 has been spending a few days at her home in Lewiston.

Mr. Hitt, on his return from the fair at Lewiston, made a short visit to his daughter, at the Dormitory.

Agricultural Club Meeting

Last Friday evening the Agricultural Club was addressed by Mr. Maeda '11 on ancient Japanese Agriculture. The speaker described in a very interesting manner the rice and tea industries in Japan after he told of the Japanese school system. This is the first of a series of talks on agricultural conditions in Foreign Countries, the next being a lecture on Italian Agriculture by Dr. Gage, November 7th.

Prep Literary Society

The Preparatory students met last Saturday night and organized a Literary Society. This is the first organization of this kind ever formed by the Preparatory Department alone, but as there is much debate material among the secondary students a successful beginning is predicted.

Officers as follows: President, B. E. Davis; Vice-president, Chester Min-

The University of Washington is to be congratulated on making the Wave a daily college journal. If all issues of the year are as good as the first one the action is certainly guaranteed. The paper is made up well, is good sized, new, and contains fine, printed editions of the energetic editorial chief.

One of the latest organizations at the University of California is a new swimming club. Swims will be held weekly at Sunny Cove, Alameda.

In the West is vigor and life and growth. The University of Oregon, as a western institution, is just entering upon the era of its greatest development. This semester begins with 450 students already on the rolls, a substantial gain over the enrollment of last year.—Editorial Oregon Weekly.

Sororities at California are to alternate, giving an Open House to all women in the university once a month. The Open Houses are informal and held at three of the sorority houses on the third Tuesday of each month.

Syracuse is building the largest gym in the world at a cost of $500,000. Washburn has recently completed a splendidly equipped two-story gymnasium with a 60-foot tower.

Mrs. Frederick Billings has recently sent $1000 to Dean Hendrick of Whitman for the founding of a chair in Biblical Literature. This is the second donation she has given the institution, the first being in connection with the construction of the men's dormitory which bears the name of Billings Hall.

Smoking of tobacco is less prevalent at the University of Washington than at any institution of the size in the United States. Such, at least, is the opinion of agents for fraternity jewelry who recently have been visiting the campus.

"A remarkably small per cent. of the men at this university seem to smoke," said one of these traveling salesmen who is familiar with conditions at most American universities.

"I carry a full line of pipes and I sell almost none at the University of Washington. In fact, I hardly take the trouble to show them to the fraternity men here, there is so little demand for them."

One of the recent addresses given before the students of Whitman College was on "Table Manners" by the wife of the president.

Five debates will be held at the University of Colorado this year, and $50.00 will be distributed among the participants. The contests will be between the different classes and departments.

At the University of Nebraska a fine of three dollars is imposed upon all upperclassmen who fail to register by Wednesday evening of registration week.

Holman Still Alive.

All reports as to the announcement of Guy Holman in the Philippines was dispelled Saturday when a letter was received at the office from the '07-08 Argonaut editor to the effect that he was still alive. Mr. Holman after securing a successful civil service examination last spring received an appointment to the Philippine service. He left on graduation and has, since July 15, been teaching at Cagayan Nueva, Isabella Province. He writes in addition to looking after the ordinary intellectual welfare of his 23 students that he spends two hours per day putting them through a rigorous system of military drill—showing that after all our plan of military instruction at the U. can be utilized in actual life.

Mr. Holman will be remembered as one of Idaho's greatest debaters. Last spring, he led the team against the University of Washington to a unanimous victory in a memorable contest. During his four years at the Varsity he was never on a losing team. Besides being a talker, Holman was editor of the "08 Gem of the Mountains and during his senior year piloted the Argonaut through the shoals.

Our Goal

is to include every College man and woman in the University in our list of customers, because we know the many good points of the lines we carry, that are adapted to their needs.
