GAMING MANAGER OF PENNY WANG IN DEPARTMENT OF ECONOMICS

A gaming manager at Penny Wang, a gaming company, is facing charges of fraud and embezzlement. The manager, who was one of the top executives at the company, is accused of stealing millions of dollars from the company's accounts. The manager is expected to appear in court next week for a hearing on the charges.

Bubbles

The other night while going home from the lab, I was walking through the campus when I noticed a bubble floating in the air. I decided to follow it, and soon I found myself in the middle of a large bubble. It was quite an experience, and I decided to record the story in my science journal.

UP IN DEWS

The following was handed to me by a colleague who was passing by:

"I hear that the university is planning to build a new dormitory on the south campus. This is a great idea, and I look forward to seeing it completed.

"I also heard that the library is planning to add more computers. This is a fantastic idea, and I look forward to using them.

"I hope that the university continues to invest in these improvements."

For THE MAN WHO LOVES ANIMALS

"I recently discovered a new species of animal that I had never seen before. It is a small, furry creature with a bright orange tail.

"I have named it the 'flamingo monkey' because of its vibrant coloring."

"I hope that we can work together to protect this species and prevent its extinction."
