PLANS MADE FOR SUMMER COURSES

NOTABLE LECTURERS AND EDUCATIONISTS WILL ATTEND SUMMER SCHOOL

The summer school of the University of Idaho will open July 15th, the faculty having been recently announced. All courses required by law for graduation or for entrance to professional schools will be given. Courses will be given in normal chemistry, industrial chemistry, plant pathology, human biology, education, training, religion, social science, and other subjects.

All classes will be held five times a week and will be attended by a typical university student. Each course will give a half hour credit toward graduation, making it possible for a student to make two credits during the summer school. It is also expected that several students will graduate in June of this year and that the summer school will give them a complete course.

For the coming summer school, the University of Idaho has invited the following lecturers, who will be available for the summer:

- Dr. Charles H. S. Dam, Secretary of the University of California
- Dr. Charles M. Sargent, Secretary of the University of Washington
- Dr. Charles E. Goode, Secretary of the University of Oregon
- Dr. Charles H. B. Merriam, Secretary of the University of Wyoming

The summer school will be held at the University of Idaho, and it will be open to all students who wish to attend. The registration fee for the summer school is $10 per semester hour.

HIGH SCHOOL TEAMS READY FOR TOURNAMENT

(Continued from page one)

We will all go to 100 per cent CHAMPIONSHIP

If we win at the game on Friday, we will go down in history as the team that played to the bitter end.

HOW DO THEY GET THAT WAY?

ASK the man with the big income his "secret of success," and you will generally find that he is making a fortune with some secret of his own. "Be sure you have a good time, then go sherd." "If anything is in your way, go over it." "Learn something about everything and every- thing about something." "Total!" Anybody could give you as good advice. It simply means that success is not a problem of discovering some obscure short cut. The path is plain enough, but only alertness, energy and self-discipline will push you along it.

This all helps a special force for you because what you do at college will influence what you do after. If you start right, the chances are you will finish right.

You can begin now to earn your place in the high school. Each honest day's work in laboratory and lecture hall will bring you nearer. It will help you to master the fundamentals of your profession — and later on you may handle problems more easily and make decisions more quickly and surely. And that is why you are here, to learn.

You can now begin to make your place in the high school. Each honest day's work in laboratory and lecture hall will bring you nearer. ONE DAY

Well, I'm just a little tired and with a reply that you had been dead打了 death in your eyes, and I can see that you knew, but you didn't say anything. I know that I had come on a road, but I didn't want to ask. I think it was the only way to do. But if you had asked me, I'd have been there.

And so she went on, and I listened, and cried a little, too. And then I said, "Oh, I'm so sorry. I wish I had known."

But she just took my hand and smiled, and said, "It's all right. I'm sure you didn't mean it."

And I said, "But I did mean it. I really meant it."

And she said, "I know. I understand."

And I just sat there, feeling so sad, and so alone, and so helpless.

But then she said, "But you're not alone, you know. I'm here, and I understand."

And I just looked at her, and cried some more, and said, "Thank you. Thank you very much."

And she just held me, and whispered, "It's all right. Everything will be okay."

And I just held her, and wept, and wept, and wept. And then I said, "I'm so sorry. I'm so sorry."

And she said, "It's all right. I forgive you."

And I said, "I forgive you, too."

And we just held each other, and cried, and cried, and cried.

And then she said, "We'll get through it. We'll get through it together."

And I said, "I'll do my best."

And we just held each other, and cried, and cried, and cried. And then she said, "We'll get through it. We'll get through it together."

And I said, "I'll do my best."

And we just held each other, and cried, and cried, and cried.

And then she said, "We'll get through it. We'll get through it together."

And I said, "I'll do my best."

And we just held each other, and cried, and cried, and cried.
Preliminary for ORU-WASH. Border Contest slated; offer dead free

The preliminary trial for the first Wash.-ORU intramural contest was held March 15. Any undergraduate is eligible to participate in the contest.

The contestants may spend fifteen minutes in preparing a diagram and fifteen minutes in delivering their argument. The winner of the preliminary contest will be chosen by the judges. The final argu- ment time in May to represent the University of Idaho at the Wash.-ORU preliminary trial. There is a price of $2 offered to the winner who shall appear in the very best oral speech.

Maldy Brodersen was Maclay's repre- sentative last year and won the meet.
