More papers are being printed for the coming Saturday.

The college miss will know at a glance that the frocks we are showing were designed by someone who has a sense of line between girls with 16 and 20 years as well as with Paris Fashions.

They have all the smart little fashion touches that girls talk about between classes, all are personally selected from Americas foremost makers—and best of all—no two alike.

Come in boys, and see our new stock of caps, in the latest styles and patterns, and our new spring neckties are here, at prices which will please you and your friends. Our new stock of shirts and collars has arrived, drop in during a spare moment and see them.

The Argonaut has not done the things that it was hoped for so far, but it has been as perfect as it could have been. It has tried, however, to give the students some idea of what the university as well as editorial opinion which would call forth thought from the thinking classes.

We hope that the Argonaut will, through the coming term, be the paper which the incoming editor aspires to publish. Whatever it may have meant, we know that they will be for the best interests of a stronger and a better Idaho.
