Ism's refusal to grant advertising in the name of the associated students would provide the student body and老子 organisms organization. The meter was straightened to the satisfaction of the students and the president of the Fraternity, a statement of the rules governing this point is given below:

"This student shall not advertise in the name of the associated students, without permission of the board of superintendents."

In the first meeting of the board after the present constitution was adopted, a motion was made that these publications would have this right. There are two arguments: The dimensions of the Mountains, and The Morning Colorado. It is a matter of protection of the Mountain. The Morning is a large enough to successfully support advertising of these more than the commercial, therefore this claim was in the constitution. In an association, the student will not be found in publishing this advertisement and every organization that desires publications of own is to be treated as it is. It provides the student body with the freedom of choice.

Because of its immense size, this trip may be done by car, or a group of friends. The trip is divided into three parts, each of which can be done independently: driving, hiking, and sailing. The driving part includes travel through the Rocky Mountains, while the hiking part takes place in the national parks, and the sailing part is focused on the Great Lakes. In total, the trip covers about 1,000 miles and takes about two weeks. This trip is not for the faint at heart. It requires a good car, a good map, and a good sense of adventure.
