The invasion of Spain by the Catholic forces of Fascist Italy is sure- ly the most surprising event of the year. The Fascist military victory of the last few years has been unaccounted for. Under the leadership of Mussolini, the Fascists have been able to achieve a significant degree of success.

The Spanish government has declared war against the Fascists, and their forces have been actively engaged with the Fascist army. The Fascists have been able to take advantage of the political situation in Spain, and have been able to achieve a significant degree of success.

Muscings of the Elder

After that crack on the Armagh street, about "Escudero ashing in Troy," I feel some ideas of what you are trying to get at.

You say you don't mind a man with a fan, go over service account, even he will have to bear the results.

"Now, haven't a few," said the elder.

"Any more, a few," added the fan.

"I'll take from you, Janitor.

"The children's name?" "Fascist Rose" fame or the case of the kid "Willie T." of London's, is the latest sensation, to the same. The fan is a sensation, to the same.

Don't forget the dramatic on the next page, today from 4 to 6 o'clock. All regular students and students in the university are urged to come.

Professor Elmer Beth Reports Location of Last Year's Graduates

Every 100 graduates in journalism at the University of Idaho have

no trouble in finding work, according to the

Professor Elmer Beth, associate

of the University of Idaho, who said that

he has found a job for every one of the

students who have graduated in the

past three years. Beth has been

an associate professor of journalism for

the past three years and during that

time he has had the opportunity to

see the graduates and where they

are going.

Beth's report is based on the

fact that every graduate has been

able to find work within six months

after graduating. This is due to the

fact that the University of Idaho has

a very strong journalism department

and the graduates are well prepared

for the field.

While Beth was unable to give the

exact number of graduates who have

found work, he did say that the

figure is very high.

Beth's report is a welcome addition to the

field of journalism and it is hoped that

it will encourage more students to

study journalism at the University of

Idaho.

Practice Dancing Held On Tuesdays

A practice dancing hour is being held at Ridgeland hall from 8 to 9 p.m. every Thursday. The purpose of the hour is to aid those who are lacking dancing lessons and wish to practice. Some have danced over a year, others a couple of weeks, and yet others have never danced at all. It is believed that this dance hour will prove of service to those who wish to improve their dancing. It is especially helpful to those who are attending the University and are unable to get a partner in the social activities of Alpha Omicron Pi or any other private sorority. All are invited.
