The Senior Gets a Job

Spring vacation is in anyone's will tell you, the ideal time to get a job. Seniors, especially, appreciate the need to stay active during summer, and many find opportunities to earn some extra money to pay for college, at a job, etc. This is the period when the idea of foregoing spring break to pursue employment becomes more attractive. Many seniors view this as a way to explore their career options and gain valuable experience. However, as May approaches, the question of where to go next semester becomes more pressing. Ultimately, the decision to attend a university or to pursue full-time employment is a personal one, and seniors should carefully consider their goals and priorities before making a choice. In the end, the right choice is the one that aligns with their values and future aspirations.

**“So YOU THINK you can out-catch the old vet (father) rather than I can, eh?”**

It was Coach Frank Twoppl speaking—addressing his
to"mary" Yancy, head coach of the Washington State varsity nine and
"the blue-bird lassie" of the northern division coaches.

"Thank you, sir," retorted the Oregon immortal.

Result of the verbal melee was a wager—not big, but just a memo-

rary. When the season comes in to its perfection about mid June the
season opener, "Penna" and "Buck" will each stake up to the old
spinner and take it at the hereafter. It's a safe bet that one or
two of the coaches will go in on the wagers.

Both of the veterans will have own private painters (October Buck
is the title which will greet the painter for Twoppl's mighty Arizona
hurler. In 1930 he injured his arm several years ago. "Buck", meanwhile, is
nothing in his spare time at Pullman coaching his pitcher to the
apple the way he did in those days.
