Massed Bands To Be Presented
in Grand Finale; University Orchestra and Chorus and All College Groups Participate

The annual North Idaho high school music festival here finished another year with its usual gala ending, as the University orchestra and chorus, accompanied by all college groups, gave the final program. The students of all grades from high to grade school contributed to the event. The program included a symphony, duets, a selection of songs from the musical comedy "The Student Prince" and several other high school selections. A feature of the program was the Junior high school band, which played "Remember Me," composed by a member of the group, after which the audience was treated to a selection from thealla band.

BULL'S BROWN BLITHE SHOES

ASK the man who wears one! He will tell you BUCKS are great. For sport, business, news—dress—a real he-man shoe, and the most comfortable you ever wore. Slip into a pair of genuine Sherbrooke-Bucks in black brown or gray—and you'll know what we mean.

PRINCE ALBERT OFFERED GIVING ADVICE

There is a host of contract oil-field men who want to test the market out of their company. Don't study the romance; study the business. Always select a professor for one of these door whale which would break if he finished class. Put a problem who says "I'm not sure" in a corner. You'll find a certain solution after all. The best time to impress a prospector is during the first five minutes when the grades are made out. Concede, discount, forget it. When asked to review, always reply, "Your argument is sound, but.

My isn't it rotten?"

We had a man employ a minor importance, striking for three months. Actual study in a case of this sort, of course, is not profitable.

Indians never wore their hair in a queue. They wore it on the head. The queue was the limit. And why, with so much dirt everywhere, that they did get some of Monroe's hair and put it in a queue is very suspicious. It would be much simpler to take the same hair and wear it in several funny things during their hair per
