To Pay or Not To Pay?

With the American public putting $20,000,000 into food for the football team, there is little wonder that the whole of the nation now is looking forward to the upcoming games. If you do not pay to see the football game, what then? Is it because you are not interested? If so, it is time to get interested! For the benefit of the team, the players are expected to work hard and do their best. In return, they should be paid by the school. As college does not pay football, the team should be paid for their efforts. It is only fair that the athletes be paid for their work.

The spirit of amateurism is a part of American sports. It is an important part of the American way of life. The athletes should be paid for their work. It is only fair that they should be paid for their efforts.

Vandal Babes Drill For Gonzaga Tilt

Idaho is riding the back of its talented young women. The Vandal Babes have won all 16 games they have played this season and have only lost one game since last year. This year's team is designed to be even more competitive than last year's, with more depth and skill. Coach Cox is confident in his team's ability to take on Gonzaga, even though the Bulldogs have won the last two meetings. The Babes have a strong defense and a high-scoring offense, making them a formidable opponent.

Gonzaga, on the other hand, has struggled this season. Despite having a talented roster, they have not been able to consistently perform at a high level. Coach Johnson is hoping to turn things around, and a win against the Babes would be a significant step in the right direction.

This game is sure to be a close and intense match, with both teams fighting hard for the championship title. It will be exciting to see which team emerges victorious from this highly anticipated game.

Dr. Miller Says Formally Good

Dr. Dooley Miller, last night at the fifth of a series of extension meetings opens in Kittitas county on women's club. "Formality is the thing that gets us at our science work. We can be formal and still have a good time!" he said.

"We can't talk about dairy, I suppose of it, the former wrong pleasures of our literature. Why, there is no such thing as a dairy woman," declared Doctor Miller, "that's a very hard word. I'll limit your vocabulary.

We can't use the words "dairy" and such. The men are more friendly and the women are more friendly, but in dairy work it has to be, girls. It is the fundamental sense of good breeding, the rule.

After the regular meeting a program consisting of a seminar of small groups was presented, under the direction of Dr. Miller's direction were held.

Local Real Lace Featured In Home Economic Exhibit

Two pieces of point lace and two pieces of French lace were featured in the exhibit sponsored by the home economics department last week. To show the different and simplicity between handmade and commercially machine made lace is the purpose of the display.

Miss Graham's work, a piece of lace and making lace in three types, and all were very pleasing to the visitors. A piece of work was featured with "Ophelia" and "Blue." Misses can still have a heart for years truly and were enjoying the old costumes back when, and many new ones cut, or as long as she can get it. Of course, all the rich kids were very satisfied to see their favorites, and I am addicted to a new one.
