The Call To Duty

Community of Idaho officials and student leaders have felt for some time that classroom instruction is not all there is to official work. The students, being a part of the academic community, feel that there is a duty as well as a privilege to be involved in the community activities. They have felt that the students should be encouraged to participate in the activities.

For the past two years it has been our privilege to observe and participate in these activities. One of the main objectives of the Idaho Student Service Committee is to provide a means of fulfilling this objective. A number of students have volunteered their time and effort to take part in these activities. We have felt that the students should be encouraged to participate in these activities.
