**Fashion Designers Favor Gay Colors For Spring**

Color will run rampant for spring! Light, neutral shades, which are popular this fall, and bright shades are all to be seen in multicolored combinations with your spring costumes. This will be a carry-over of the fall with the light, neutral and bright shades to find their way through the towns and country roads.

**Navy is the for greatest colors:** Always on American favorites, it will lead the spring fashion parade. It will be shown in all shades, dressed up with ermine, frogs, corduroy. While red is a natural favorite, it will run rampant with bright, colorful designs for the spring season.

**Sport Clothes Win Women's Approval For Spring Wear**

Young women will be loyal to home casual sports clothes for spring. The dress will be the type of "shirred." They will want it in neutral colors, white, cream, pink, red, and blue. Women will not wear a hat with their "shirred." They will want it in neutral colors, white, cream, pink, red, and blue. They will want it in neutral colors, white, cream, pink, red, and blue. The women's prairie fabric which is in exclusive Town Advertiser, is a great favorite of women. It is made of wool, and drapes beautifully. It is suitable for spring and fall, a favorite in warm weather and in cooler weather.

**Wider Brims Find In Men's Hats**

Plaid is a great favorite in the hands of the men's milliners. The wide brim hat is a favorite among young men. The plaid hat has been very definitely found a place for spring and fall. The brim will be wide and the hat will be worn in the most conservative colors.

**Plastic Shoes To Appear In New Colors**

"Plastic" shoes, used so successfully in glamorous dinner and evening parties for town women since last summer, have been heavily advertised for winter and early spring, and the expected resort wear, in nominate destined to carry over to the coming summer. These plastic shoes provide frill combinations with all other practical fashions, as well as transparent beauty. Along with non-tanned shoes and shoes which are not shaped and healthy tanned feet can show, too, through transparent plastic, diluting the usual high-heeled satin shoes, which are of scarce use for the summer season.
