Kosmehl Gets Top Exam Grade

Three political science majors received grades of over 90 per cent in a junior administrative exam administered by the United States civil service commission. Prof. Bredt Martin, head of the political science department, announced the grades yesterday. Three other students passed the exam with grades of over 90 per cent.

Kosmehl scored an A grade in the political intelligence division of the exam and 89.75 for the whole examination. Kosmehl's grade of 89.75 was an improvement for his previous grades of 88. He also scored a 92 in the department's second division of the exam, which was taken by both students.

Kosmehl's mark is probably the highest of any student in the United States. Professor Martin added, "Two years ago the highest grade was 86.25 per cent."
The student-faculty council, an organization
of deans, faculty members and students, met
last Tuesday. Started in 1939, the council is
still trying to determine its purpose, or organiza-
tion, and personnel. A committee was appointed
in the fall of 1940 to survey student needs, objec-
tives, purposes, and personnel of the student-
faculty council. At nearly every meeting since
the council was formed, its report to the presi-
tdent has been tabled; sometimes it was discussed
and sometimes the discussion was postponed be-
because leaders of the two rival factions within
the council were not present.

The Idaho Argonaut, FRIDAY, FEBRUARY 20, 1942

Golden Fleece By Jason...
The meetings have been characterized by the in-
trusion of "grapes" - both by students and
faculty members; often a short discussion; and
a prompt conclusion of business. By the conclu-
sion of the business, the council will normally
be forced to adjourn.

Students attending the council meetings have
been taken in a casual attitude toward the council.
In the future, the meetings will be more con-
vincing that there is probably excellent student-
faculty relations at Idaho. The more they go to
meetings the more they are convinced that the
work hod already been done already enough profit-
ably to be spent sipping coles at the 
Racket.

They’ve heard facultymen discuss student
morale; They’ve heard no conclusion, and it
seem no results!

Exact position of the student-faculty con-
sensus is still an open question. The first step in
to enforcement of its decisions is a body that is
supposed to make the suggestions to other groups
and it needs confidence and support to put forth in
a faculty relation improvement program.

Perhaps there is a place for such an orga-
nization as the student-faculty council. If the
faculty relations are supposed to be any
some achievements have been made by a
council; but Jason believes that the group
hold more prestige among students and
make more achievements if it adopt
more aggressive policy; find out what it was
done and then do
