New Women May Get Dates Rushing Chairmen Decree

House representatives decided Tuesday to lift the ban on church group rushes during Homecoming week. Silent rushes will still be binding between current members and prospective partners, but rushes may make some extra dates after 2:30 a.m. on Friday night. The date will be effective no matter what 2:30 date they may set.

Dean of Women Bethrice Cohn and Jane Tucker, Panhellenic president, will meet with new women members of 414 fraternity houses. Mrs. Cohn will explain the rush rules and direct the new members into groups to search for the right partners.

In order to maintain proper all department of the campus hangout we must have more help immediately. All students are asked to assist in solving the help shortage by turning in names of girls or women out of town who might be interested in cafe work. We also wish to contact immediately all students wanting part time work. Your assistance in helping the Student Union cafe to keep operating for your benefit will be appreciated.

We’ve Got the Fortitude

War’s invasion on the daily life of the University of Idaho as on every other university in the United States, has thrown every student out into the terrific pressures we, all are destined to encounter in later years.

To Idaho students the realization that we are engaged in a total war is clearly apparent, and that they, in reality, are on the “front lines” of the war is probably not new. In the last few months, and weeks, and months ahead.”

"The stiffer stuff of college men and women has become apparent in the last few months, and weeks, and months ahead.”

Many Activities Available To Interested Freshmen

"Study hard and live up to the expectation of the Freshman class as the Freshmen are looked upon as the backbone of the university by students in other classes." This statement made by the University of Idaho students is a good one in that it is a statement that has been made by students in other classes.

"All being, inasmuch as the student body is a unit, and the university is a unit, and the student is who we are to the university, and the university is who we are to the student," says the Freshman class.

"All being, inasmuch as the student body is a unit, and the university is a unit, and the student is who we are to the university, and the university is who we are to the student," says the Freshman class.

Community Comment

"Many students are learning the importance of a strong university and how the university is the center of a strong community." This statement made by the Freshman class is a good one inasmuch as the university is the center of a strong community.

Frosh Elections

This afternoon, as freshmen assemble in the University Auditorium for the annual freshman elections, the争夺 for the coveted position of freshman class president will be under way.

The elections will be held at 3 p.m. on the second floor of the Physical Education Building.

During the election, the students of the University of Idaho will select their class officers.

The freshmen have a right to expect better things than this of an institution of higher education. They have a right to expect that when officers for clubs and positions, they know who their officers are. They have a right to expect that when officers for clubs and positions, they know who their officers are.
